SECNAV INSTRUCTION 5200.45A CHANGE TRANSMITTAL 1

From: Secretary of the Navy

Subj: GENERAL EQUIPMENT – ACCOUNTABILITY AND MANAGEMENT

Encl: (1) Revised enclosure (2), page 4
(2) Revised enclosure (2), page 6

1. Purpose. This change transmittal is issued to align physical inventory reporting with fiscal year reporting. To accomplish this, the submission date for the General Equipment Annual Inventory Progress Report (SECNAV Form 5200/4) needs to be changed to reflect the correct date for submitting the annual report to 45 days following the end of the fourth quarter of the fiscal year.

2. Action. Remove enclosure (2), page 4 of the instruction and replace with enclosure (1) of this change transmittal. Remove enclosure (2), page 6 of the instruction and replace with enclosure (2) of this change transmittal.

ERIK K. RAVEN

DEPARTMENT OF THE NAVY
OFFICE OF THE SECRETARY
1000 NAVY PENTAGON
WASHINGTON DC 20350-1000

SECNAVINST 5200.45A
ASN (RD&A)
16 Dec 2022

SECNAV INSTRUCTION 5200.45A

From: Secretary of the Navy

Subj: GENERAL EQUIPMENT – ACCOUNTABILITY AND MANAGEMENT

Encl: (1) References
(2) Responsibilities
(3) Capitalization Thresholds
(4) Glossary and Terms
(5) List of Acronyms
(6) Records Management
(7) Forms and Reports

1. Purpose. Under the authority of references (a) and (b), this instruction:

a. Establishes the overarching Department of the Navy (DON) policy for accountability and management policy of General Equipment (GE). The list of associated references are in enclosure (1).

b. Assigns roles and responsibilities within the DON for accountability and management all DON GE (see enclosure (2)).

c. Aligns DON policies for GE with Federal regulations, Federal accounting standards, and Department of Defense (DoD) and DON policies for property accountability and management.

d. Provides a framework for financial and physical accountability and management of GE to support warfighter readiness, financial reporting, and auditability requirements.

e. Establishes standard taxonomy for GE (see enclosures (3) through (5)).

2. Cancellation. SECNAVINST 5200.45.

3. Applicability

a. This instruction applies to the Office of the Secretary of the Navy (SECNAV), the Chief of Naval Operations (CNO), the Commandant of the Marine Corps (CMC), and all United States Navy (USN) and United States Marine Corps (USMC) entities within the DON.

b. This instruction applies to all GE in the DON. Detailed definitions of GE and the reporting categories can be found in the glossary (see enclosure (4)).

c. For purposes of this instruction, software that is integrated or embedded into GE in order for it to operate is considered part of the GE into which it is integrated.

d. The physical accountability requirements of this instruction shall apply to all property under Capital Leases when such property otherwise meets the definition of GE in enclosure (4). In the event of conflicting guidance, financial reporting and accounting requirements found in references (c) and (d) shall supersede the financial reporting and accounting requirements of this instruction for Capital Leases. For purposes of this instruction the entity responsible for operating leased property shall be responsible for maintaining physical accountability records as required herein.

4. Policy. This policy governs the accountability and management of GE. It is SECNAV policy to:

a. Execute financial and physical management of GE per references (b) through (w), including the latest policies, procedures, standards and mandates established by the Federal Accounting Standards Advisory Board (FASAB), DoD, DON, Federal regulation, and the laws that pertain to GE accountability and financial requirements. Specific procedures detailing the requirements of this instruction are published in reference (u).

b. Require GE management processes and internal controls are in place, functioning, are adhered to and tested at all levels of command, including DON oversight of shared service providers.

c. Require DON personnel entrusted with the accountability of GE are properly trained regarding the proper use, care, physical protection, and financial accounting of GE and are held to the highest ethical standards per reference (i). DON personnel entrusted with the management of GE may be held financially liable in the event of loss, damage, destruction or other unplanned loss.

d. Require that Service-level policies for implementing accountability and management of GE are in place and reviewed by the Service at least every five years. Initial Service-level policies shall be in place or existing policies updated with the requirements of this instruction within 12 months following signature of this instruction.

e. Maximize GE visibility and accountability to support sustained auditability and warfighter readiness.

f. Require the use of information technology and automated information systems, i.e., barcode scanners and Item Unique Identification (IUID) where practicable. Utilize only designated automated information systems with standard, common processes for procurement and management of GE. IUID shall be used for GE visibility, management, and traceability for qualifying items per references (f), (j), (k), part 45 of reference (l), and subpart 252-211 of reference (m).

g. Require electronic transactions when transferring Government property between Government activities, to a contractor and upon return of property to DoD. Acceptable methods include utilizing the Government Furnished Property (GFP) modules within the Procurement Integrated Enterprise Environment (PIEE) (formerly the Wide Area Workflow (WAWF) eBusiness Suite) or Defense Logistics Management Standards (DLMS) compliant transactions. When electronic transactions are not available, manual methods, including fillable forms with electronic signatures may be used.

h. Require accountable records and track all Capitalized Accountable and Non-Capitalized Accountable GE in a Government approved Accountable Property System of Record (APSR).

(1) Accountable records for Capitalized Accountable GE shall include valuation at full cost, ensuring Construction in

Progress (CIP) accruals, capital improvement, and depreciation information are included as appropriate.

(2) Accountable records for Non-Capitalized Accountable GE shall include valuation at original acquisition value.

(3) Locally Accountable GE shall be tracked per local policy and guidance. Locally Accountable GE shall be managed with accountability records that may be maintained in the APSR or another suitable system.

(4) The Budget Submitting Office (BSO) that funds a procurement of GE shall be held responsible for financial reporting unless and until the property is formally transferred. Program Executive Officers (PEO) and Direct Reporting Program Managers assigned life cycle management responsibility for an item of GE, per reference (p), shall retain financial reporting responsibility for the GE, through their supporting BSO, for the duration of the time the asset is owned by the DON. In the event of jointly funded property, written agreements must be in place to clearly identify which funding entity is responsible for financial reporting.

(5) Third party property management or accountability systems, such as custodial systems or contractor property management systems shall not supersede or replace accountable property records in the Government's APSR or the accountability records maintained by the DON as required by reference (f).

i. Enforce the requirements of references (f) and (g) and subpart 252-211 of reference (m) to maintain full accountability of all Government owned GE in the hands of contractors, i.e., GFP.

j. Require 100 percent physical or by exception inventories of all GE at least every three years per reference (f) except as identified below:

(1) An inventory is required when there is a change in the custodian. In the event of multiple custodians for a single piece of GE, an inventory is required when any custodian changes.

(2) Annual inventories are required for all GE with an acquisition cost greater than $1M regardless of current net book value, and any GE with a current net book value greater than zero.

(3) Annual inventories are required for all classified and sensitive property per reference (f).

(4) Annual inventories by the borrowing activity are required for GE in on loan and shall be submitted to the loaning activity per the terms of the specific loan agreement in place.

(5) Inventory requirements established by other instructions for specific categories of GE, e.g., small arms or nuclear weapons related material, shall supersede the inventory frequency requirements of this instruction.

(6) Locally accountable GE shall be inventoried as directed by local guidance.

k. Require location audits, also known as floor-to-book inventories be completed annually. The number of location audits completed shall be equal to or greater than 25 percent of the total known population of Capitalized Accountable and Non-Capitalized Accountable GE assets.

5. Responsibilities. See enclosure (2).

6. Records Management. See enclosure (6).

7. Information Management Control. See enclosure (7).

RESPONSIBILITIES

1. Assistant Secretary of the Navy, Research, Development and Acquisition (ASN (RD&A)) shall:

a. Ensure adequate policies are in place and provide full oversight for GE accountability and management within the DON.

b. Designate a representative to coordinate with Assistant Secretary of the Navy (Financial Management and Comptroller) (ASN (FM&C)) to adjudicate any GE-specific issues unresolved at the Service-level and serve as the DON physical accountability representative on all GE related matters.

c. Designate a representative to coordinate with ASN (FM&C) to co-lead a working group comprised of GE subject matter experts to address issues, share lessons learned and best practices, and assist with developing and managing Service-level GE policies. This working group will convene as needed to address GE issues.

d. Designate a representative to coordinate with the Office of the Under Secretary of Defense (Acquisition and Sustainment) to ensure property oversight, processes, and internal controls are in place for the administrative and physical management of DON assets processed by or in the possession of shared service providers.

e. Designate a representative to develop physical accountability reporting requirements and metrics with goals that measure effective and efficient physical management of GE and collect data provided by the Services. Collect, consolidate, analyze, and provide reports and feedback to the Office of the Secretary of Defense (OSD) and Services as appropriate.

f. Designate a representative to coordinate with ASN (FM&C) to review, update, and promulgate changes to this policy no less than every five years and when changes to legislation, DoD guidance, or audit findings drive change to this policy.

2. <u>ASN (FM&C)</u> shall:

a. Provide DON policy and guidance for accounting and financial management of GE. Accounting and financial management includes, but is not limited to recording, valuing, depreciating, reporting, and disposing of GE.

b. Designate a representative to coordinate with ASN (RD&A) to adjudicate any GE-specific issues unresolved at the Service-level and serve as the DON financial representative on all GE related matters.

c. Designate a representative to develop property accountability reporting requirements and metrics with goals that measure efficient financial management of GE and collect data provided by the Services. Collect, consolidate, analyze, and forward reports and feedback to OSD and Services as appropriate.

d. Designate a representative to coordinate with the Office of the Under Secretary of Defense (Comptroller) to ensure property oversight, processes, and internal controls are in place for the administrative and financial management of DON assets processed by or in the possession of shared service providers.

e. Designate a representative to coordinate with DON BSOs and the Office of the Under Secretary of Defense (Comptroller) to develop valuation methodologies for GE.

f. Designate a representative to collect and review GE financial information for reasonableness and accuracy, and reconcile GE financial information from the APSR(s) with the general ledger account balance on a quarterly basis.

g. Designate a representative to coordinate with the CNO and the CMC to ensure and periodically test that proper internal controls for GE management required in references (n) and (o) are met.

h. Designate a representative to coordinate with ASN (RD&A) to co-lead a working group comprised of GE subject matter experts to address issues, share lessons learned and best practices, and assist with developing and managing Service-level

GE policies and strategies. This working group will convene as required to address GE issues.

i. Designate a representative to collect and review financial data submitted for financial reporting. Coordinate with the Defense Finance and Accounting Service to ensure all GE is properly reported on the DON Financial Statements as required by reference (p).

j. Designate a representative to collect and review the quarterly asset universe financial reporting, reconciliation, and monitoring submissions from each BSO.

k. Approve APSRs in coordination with the DON Office of the Chief Management Officer for use within the DON and maintain a list of approved Government APSRs per reference (a).

l. Designate a representative to coordinate with ASN (RD&A) to review, update, and promulgate changes to this policy no less than every five years and when changes to legislation, DoD guidance, or audit findings drive change to this policy.

3. CNO and CMC shall:

a. Designate a representative to coordinate with ASN (RD&A) on all Service-level GE matters.

b. Appoint in writing a Service-level Accountable Property Officer (APO) per references (b) and (f).

c. Publish Service-level policies and procedures relating to GE management and accountability and review them at least every five years. Service-level policies shall enable proper management control and safeguarding of DON's GE while balancing risk and operational readiness. Initial Service-level policies or updates to existing policies shall be in place within 12 months following signature of this instruction.

d. Develop Service-level unique reporting requirements and metrics with specific goals that measure effective and efficient management of GE.

e. Consolidate, evaluate, and forward with Flag Officer or Senior Executive endorsement, annual Inventory Progress Reports submitted by BSOs per paragraph 4f of this enclosure and revise Service-level policy as needed based on the content of the reports. A consolidated Service-level report summarizing BSO submissions shall be submitted to ASN (RD&A) and ASN (FM&C) annually, no later than 45 calendar days following end of the fourth quarter of each fiscal year.

f. Designate which approved Government APSRs are authorized for financial and physical management of GE within their respective Service.

g. Require resource sponsors to resource requirements to enable fully accountable management of GE. Resource requirements include, but are not limited to manpower, information technologies, and systems architectures that support GE management requirements.

h. Establish Service-wide standard taxonomy and business practices for procuring, managing, reutilizing, and reporting GE.

i. Develop guidelines for acquiring, recording, valuing, transferring, depreciating, and reporting donated and reclaimed GE.

j. Enforce adherence to FASAB, OSD, and DON policies and regulations with respect to procuring, managing, reutilizing, accounting, disposing and reporting GE, including but not limited to unique item traceability requirements, GE in the hands of contractors, and GE in the hands of the Operating Forces. Records and accountability for GE of any value in the custody of contractors are maintained per references (b), (c), (f), and (g).

k. Require PEOs, Program Managers (PM) and procuring officials to maximize reutilization and procurement efficiencies by reviewing Enterprise-wide availability of existing or cataloged material and like items before procuring GE.

l. Execute the DON’s Management Internal Controls Program for all GE per references (n) and (o).

m. Support input to the Financial Management Reporting processes as required in reference (o).

n. Assign in writing Service-level fleet managers for non-tactical vehicles and equipment for shore activities per reference (v).

4. Navy BSOs/Headquarters Marine Corps shall:

a. Appoint a Command Property Officer (CPO) in writing per reference (b) whose duties include but are not limited to providing oversight of command-wide GE accountability and management.

b. Support common business practices across Program Offices and subordinate activities.

c. Assign trained, capable, and qualified individuals to provide contracting, financial, and logistics support to PEOs and PMs to properly manage GE per reference (p).

d. Establish local training programs to ensure all personnel entrusted with the management of GE are familiar with and abide by GE rules and regulations.

e. Disseminate current GE guidance and information throughout the command including the latest policies, procedures, standards, and mandates established by FASAB, DoD, DON, Federal regulation, and the laws that pertain to GE accountability and financial requirements.

f. Verify that all subordinate activities are performing physical inventories as required by reference (f) and this instruction. Activities are required to submit Inventory Progress Reports to the BSO via their chain of command substantiating performance against established inventory plans. Inventory Progress Reports shall be submitted using SECNAV 5200/4. SECNAV 5200/4 can be found on the Department of the Navy Issuances website: https://www.secnav.navy.mil/doni/default.aspx

g. Submit summary of annual physical Inventory Progress Reports to CNO or CMC as appropriate indicating that all of their subordinate commands have met the inventory requirements of reference (f) and that corrective action plans with estimated compliance dates are published for any portion of the inventory failing to meet the standards of reference (f) or this policy.

Subordinate reports shall be submitted on SECNAV 5200/4 as directed by Service-level guidance to support Service submission not later than 45 days following the end of the fourth quarter of each fiscal year.

h. In conjunction with ASN (FM&C) develop valuation methodology for all GE.

i. Ensure accountable records that include valuation data are established for all GE upon initial receipt, including but not limited to receipt and acceptance of newly procured GE, transfers, or gains by inventory. Valuation data shall include CIP accruals and Capital Improvements for GE under construction/modification. The BSO that funds a procurement of GE is the owner and shall be held responsible for financial reporting until the property is formally transferred to another BSO.

j. Coordinate with the Head of Contracting Authority (HCA) to establish procedures to ensure proper contract line item structure in accordance with subpart 4.10 of reference (l) to support contract administration, financial reporting, and audit requirements.

k. Compile and report all GE financial information to ASN (FM&C) on a quarterly basis per the requirements outlined in reference (w). Financial transaction or summary data shall be entered either directly to the Defense Departmental Reporting System – Budgetary or through the Data Collection Module.

l. Derive complete lists of all Accountable GE from APSRs and other property management systems in use at the end of each fiscal quarter. These quarterly asset lists shall be forwarded to ASN (FM&C) per the requirements outlined in reference (w), to substantiate General Ledger ending balances. Quarterly asset lists shall be retained locally for two years to support audit requirements. Asset lists shall be submitted in the following categories:

(1) Capital assets included in the footnote of the financial statements, e.g., vessels and aircraft.

(2) Other Capitalized Accountable assets not specifically identified in the footnote to the financial statements.

(3) Project listings to support CIP.

(4) Non-Capitalized Accountable GE.

(5) Potentially impaired Capitalized Accountable GE assets.

(6) Capitalized Accountable assets awaiting disposal.

m. Establish procedures to ensure all subordinate activities are using a Service-directed APSR, data is complete and accurate, and financial information is being reported properly.

n. Support ASN (FM&C) reconciliation of GE financial information as applicable.

o. Retain all records in support of GE accounting for two years after the property is disposed and removed from the DON’s financial statements.

p. Establish controls to ensure every GE transaction is recorded in the designated APSR to support auditability and warfighter readiness.

q. Require PEOs, PMs, and procuring officials to review Enterprise-wide availability of GE and like items to maximize reutilization to the maximum extent practicable before procuring GE.

r. Support periodic testing to ensure proper internal controls for GE management required by reference (o) are met.

s. Consolidate subordinate responses to ASN (RD&A), ASN (FM&C), or Service data calls.

t. Verify the reclassification and revaluation of Capitalized Accountable assets which are designated and held for disposal.

u. Validate impairment transactions are accurately reflected in the APSR. Ensure the impairment transactions are posted in the period in which they occurred.

v. Verify reconciled GE gains and losses are accurately and completely reported in the APSR.

5. PEOs, PMs, and requiring officials shall:

a. Execute controls to ensure every GE transaction is recorded in the designated APSR to support auditability and warfighter readiness.

b. Support common business practices across Program Offices and subordinate activities.

c. Ensure accountable records that include valuation data are established for all Capitalized Accountable and Non-Capitalized Accountable GE upon initial receipt, including but not limited to receipt and acceptance of newly procured GE, transfers or gains by inventory. Valuation data shall include CIP accruals and Capital Improvements for GE under construction or modification and depreciation as appropriate. CIP accruals shall be reconciled annually with actual contract progress.

d. Review contract actions executed during the preceding quarter to ensure all projects that qualify as CIP projects have costs correctly captured in the CIP account at least quarterly.

e. Ensure proper processes and internal controls are established and in place for oversight of DON assets in the possession of or administered by Shared Service Providers.

f. For Navy PEOs only, maintain and retain financial accountability for the life of any asset where life cycle management responsibility is assigned per reference (p). Financial reporting responsibility shall be completed through the supporting BSO for the duration of the time the asset is owned by the DON.

g. Review Enterprise-wide availability of GE and like items to maximize reutilization to the maximum extent practicable before procuring GE.

h. Utilize electronic transactions when transferring Government property between Government activities, to a contractor and upon return of property to DoD. Acceptable methods include utilizing the GFP module within PIEE (formerly the WAWF eBusiness Suite) or DLMS compliant transactions and fillable forms with electronic or digital signatures. When electronic transactions are not available, manual methods, including fillable forms with electronic signatures are authorized.

i. Implement standard processes for transferring GE to other Government and DoD activities that includes notifying the receiving organization of the pending delivery and providing all necessary documentation to maintain accurate, complete, and auditable accountable records. Clear statements of intent to transfer ownership and full financial reporting responsibilities or to only transfer custody of the asset must be included on the transfer documentation.

j. Support periodic testing to ensure proper internal controls for GE management required by reference (o) are met.

k. Consolidate subordinate responses to ASN (RD&A), ASN (FM&C), Service, SYSCOM, or BSO data calls.

l. Designate eligible APOs and assistant APOs in writing. Copies of all APO appointment letters shall be forwarded to the BSO CPO upon the APO acknowledging that appointment.

6. BSO level CPOs shall:

a. Act as the single point of contact for implementing and coordinating all GE data calls and policy ensuring proper management processes are in place.

b. Implement DON and Service-level policies and procedures to manage all GE acquired, leased, or otherwise obtained throughout the property's lifecycle from initial acquisition and receipt, through accountability and custody, until formally relieved of accountability by authorized means, including disposition, or through a completed evaluation and investigation for property loss.

c. Identify and recommend systems for approval as APSRs to ASN (FM&C) via the BSO chain of command. Recommended systems shall integrate with core financial and other systems and processes, particularly those for logistics and acquisition.

d. Perform required reviews and audits to assess GE accountability, management system effectiveness, and policy compliance throughout the command per reference (o).

e. Require appointment in writing of APOs at appropriate levels throughout their organization per reference (b).

f. Establish formal training requirements for APOs and ensure all assigned APOs complete training within six months of appointment. APO training shall include, but is not limited to:

(1) The following courses from the Defense Acquisition University:

(a) CLM 037, "Physical Inventories."

(b) CLM 039, "Foundations of Government Property."

(c) CLM 047, "Fiscal and Physical Accountability and Management of Department of DoD Equipment."

(d) CLM 048, "Audit Readiness Requirements for DoD Equipment."

(e) Contracting (CON) 0510, "Managing Government Property in the Possession of Contractors."

(2) APSR-specific training for the APSR(s) used by the APO. APSR-specific training topics shall include, but are not limited to:

(a) Records creation and management.

(b) Inventory management and processing, including posting gains and losses.

(3) GFP Attachment training from www.DoDProcurementToolbox.com, including but not limited to PIEE GFP Module role specific training for GFP Attachment Reviewer.

(4) Other courses and training as required by local directives.

7. Commanders, commanding officers, and officers in charge shall:

a. Be accountable for all command GE, regardless of custodian or physical location in the command.

b. Publish local implementing instructions to ensure all command GE is safeguarded, maintained, and accounted for by properly recording and reporting accurate physical and financial information. This includes reporting any deficiencies in accordance with references (n) and (o).

c. Perform required reviews and audits to assess GE accountability, management system effectiveness and policy compliance throughout the command per reference (o).

d. Designate eligible personnel as APOs and assistant APOs in writing. Copies of all APO appointment letters shall be forwarded to the BSO CPO upon the APO acknowledging that appointment.

e. Allow personnel assigned as APOs adequate time and funding to undergo formal training required to fully qualify as an APO. While APOs should be fully qualified prior to appointment, commanders, commanding officers and officers in charge shall ensure APOs meet all formal training requirements not later than six months following appointment.

f. Approve in writing physical inventory plans detailing the approach for ensuring 100 percent of all Capitalized Accountable GE, Non-Capitalized Accountable GE, and any locally accountable GE requiring special management is physically sighted and inventoried as required. Specific inventory requirements can be found in reference (f), this instruction, and any instruction that establishes unique inventory requirements for specific categories of property, e.g., small arms or nuclear weapons related material. Locally accountable GE without unique inventory requirements shall be inventoried per local direction. Physical inventory plans shall describe the methodology used to determine inventory candidates, which inventory methods are used and anticipated timelines for each inventory segment. Signed physical inventory plans, with their supporting annual inventory progress reports shall be retained for no less than six years and be provided upon request for audit or inspection.

g. Submit Inventory Progress Reports via the chain of command as required by the BSO using SECNAV 5200/4 to certify accuracy of records.

h. Serve as the Approving Authority for financial liability investigations of property loss as defined in chapter 7 of volume 12 of reference (d). The approving authority's responsibilities may be delegated; however, the delegations must be in writing.

8. APOs shall:

a. Be appointed in writing by activity commanders, commanding officers, or officers in charge at all levels of accountability per reference (b).

(1) The responsibilities of the APO are inherently governmental and therefore not assignable to a contractor or other non-government entity. However, contractors may perform certain functions in support of the APO. These functions must be mandatory requirements, requiring no personal judgment or discretion on the part of the contractor.

(2) To maintain effective two-person validation and segregation of duties, individuals assigned as APOs, custodians, their deputies or assistants may not be assigned financial accounting roles for the same property. When organizational manning permits, APOs, custodians, their deputies or assistants should not be assigned roles as Approver/Acceptor or to physically receive property for which they are responsible.

b. Not later than six months following appointment as an APO, complete all training requirements established by the CPO.

(1) For military personnel assigned as APO for operational units or personnel assigned for less than six months, training shall be provided by the CPO or designee. Training topics shall include, but are not limited to:

(a) APSR-specific training for the APSR(s) used by the APO. APSR-specific training topics shall include, but are not limited to:

1. Records creation and management.

2. Inventory management, processing and reconciliation, including posting gains and losses.

3. Financial reporting.

(b) Key supporting document and record retention requirements.

(c) Other courses and training as required by local directives.

(2) For all APOs assigned ashore for six months or more, training topics shall include, but are not limited to:

(a) Training shall include, but is not limited to the following courses from the Defense Acquisition University:

1. CLM 037, "Physical Inventories."

2. CLM 039, "Foundations of Government Property."

3. CLM 047, "Fiscal and Physical Accountability and Management of Department of DoD Equipment."

4. CLM 048, "Audit Readiness Requirements for DoD Equipment."

5. CON 0510, "Managing Government Property in the Possession of Contractors."

(b) APSR-specific training for the APSR(s) used by the APO. APSR-specific training topics shall include, but are not limited to:

1. Records creation and management.

2. Inventory management and processing, including posting gains and losses.

(c) GFP Attachment training from www.DoDProcurementToolbox.com, including but not limited to PIEE GFP Module role specific training for GFP Attachment Reviewer.

(d) Other courses and training as required by local directives.

c. Ensure proper management and accountability of GE at the activity level, regardless of echelon, and at shared service providers if applicable.

d. Establish and maintain the organization's accountable property and financial records, for all GE, regardless of whether the property is in the individual's or command's immediate control and/or possession. This includes the requirement for maintaining a complete trail of all transactions, suitable for audit, and the ability to implement and adhere to associated internal controls. When key data elements are missing, APOs shall use SECNAV Form 5200/3, Key Supplemental Supporting Documentation, to record required information.

e. Ensure GE is marked with a unique identifier and that the unique identifier matches the entry in the "barcode" field in the APSR. When GE has an existing Unique Item Identifier (UII) or suitable alternate as defined in reference (j), that UII shall be recorded in the "unique identifier" field and a local identifier, e.g., inventory tag, shall be recorded in the "barcode" field. For Defense Property Accountability System, the "asset ID" field shall be used in lieu of the "barcode" field.

f. Develop physical inventory plans detailing the approach for ensuring 100 percent of all GE is physically sighted and inventoried per reference (f) and this instruction. A minimum 98 percent physical inventory accuracy rate (100 percent for classified and sensitive property) will be achieved and maintained.

g. Develop and implement corrective action plans when inventory accuracy falls below 98% or inventory frequency requirements are not maintained. Corrective action plans shall include a determination of root cause, planned actions to correct specific deficiencies and underlying systemic problems, and an estimate of when the corrective action is expected to be complete.

h. Coordinate physical inventories per the published physical inventory plan and to meet the requirements of reference (f). Certify that all GE is properly inventoried.

i. Designate custodial areas within an accountable area and appoint property custodians, in writing, for each custodial area designated.

j. Ensure assets are only transferred with the proper bilateral agreements and supporting documentation. Bilateral agreements may be formal or informal based on the situation. Formal agreements may include, but are not limited to contracts (when providing GE as GFP) and written agreements for inter-service transfers or transfers to academic institutions. Informal agreements are suitable for intra-service transfers and may include, but are not limited to emails or memoranda. No property may be transferred without documented agreement by both the transferring entity and the recipient.

k. Ensure compliance with processes for transferring GE to other Government and DoD activities that includes notifying the receiving organization of the pending delivery and providing all necessary documentation to maintain accurate, complete, and auditable accountable records. Clear statements of intent to transfer ownership and full financial reporting responsibilities or to only transfer custody of the asset must be included on the transfer documentation.

l. Conduct a financial liability investigation of property loss inquiry when designated by the Approving Authority or assist the individual designated to conduct the inquiry. Serve as Accountable Officer, per chapter 7 of volume 12 of reference (c).

m. Upon completion of an investigation of property loss, or during the investigation if the actual property loss is not in question, ensure financial records are adjusted per chapter 7 of volume 12 of reference (c).

n. Confirm cost, receipt, and transfer documents are complete, accurate, and consistent in the APSR upon completion of a CIP project and relieve all CIP project costs.

o. Ensure cancelled CIP projects, or those that do not meet the capitalization threshold are properly relieved and expensed in the APSR.

9. Second Level Reviewers shall:

a. Be assigned in writing per local governance. Assignments may be via letter of appointment, memorandum, position description or standing orders. Second level reviewers must be government employees or military personnel holding a rank or grade equal to or higher than the individual whose work is being reviewed.

b. Review financial and property accountability transactions posted to accountable records and the financial statements as required by reference (u).

10. Custodians shall:

a. Be assigned in writing by the APO or other authorized individual per local governance.

b. Safeguard and maintain accountability of all GE assigned.

c. Report losses, gains, status, or condition changes and any other critical information to the APO and local authorities as required by references (b), (f), (l), and (u).

CAPITALIZATION THRESHOLDS

1. GE that has an acquisition cost, or when applicable an estimated fair market value, equal to or greater than the capitalization threshold identified in Table 1 shall be capitalized and reported on the DON Financial Statements.

2. Acquisitions made prior to fiscal year 2013 shall use the capitalization threshold established at the time the GE was acquired.

Table 1. Accountability and Capitalization Thresholds

Fund Type	Original Acquisition Value	GE Category	Record Type
USN General Fund	Less than $5K	Locally Accountable	Accountability Record
	$5K - <$1M	Non-Capitalized Accountable	Accountable Record in APSR
	$1M or more	Capitalized Accountable	
USMC General Fund	Less than $5K	Locally Accountable	Accountability Record
	$5K - <$100K	Non-Capitalized Accountable	Accountable Record in APSR
	$100K or more	Capitalized Accountable	
Working Capital Fund	Less than $5K	Locally Accountable	Accountability Record
	$5K - <$250K	Non-Capitalized Accountable	Accountable Record in APSR
	$250K or more	Capitalized Accountable	

GLOSSARY AND TERMS

1. Accountability. The obligation imposed by law, lawful order, or regulation, accepted by an organization or person for keeping accurate records, to ensure control of property, documents, or funds, with or without physical possession. The obligation, in this context, refers to the fiduciary duties, responsibilities, and obligations necessary for protecting the public interest. However, it does not necessarily impose personal liability upon an organization or person.

2. Accountability Record/Custodial Record. A non-financial record used to ensure custodial accountability without affecting the custodian’s financial reports. Accountability records are used for locally accountable GE, and GE in on loan. Accountability records may be maintained in the APSR or another suitable system. Also known as management records.

3. Accountable Property Officer (APO)/Eligible APO. An individual who, based on his or her training, knowledge, and experience in property management, accountability, and control procedures, is appointed in writing to establish and maintain an organization’s accountable property records, systems, or financial records, in connection with Government property, irrespective of whether the property is in the individual’s possession. APOs are assigned in writing at all levels of the chain of command. The responsibilities of the APO are inherently governmental and therefore not assignable to a contractor or other non-government entity. However, contractors may perform certain functions in support of the APO. These functions must be mandatory requirements, requiring no personal judgment or discretion on the part of the contractor.

4. Accountable Property System of Record (APSR). The Government system used to manage and control accountable property records. A subset of existing organizational processes related to the life cycle management of property; the system that is integrated with the core financial system. The APSR may also control and manage accountability records. For the DON, APSRs are approved by the ASN (FM&C). Approved APSRs are designated for use at the Service-level. A full list of data elements required for approval as an APSR is located in reference (f).

5. Accountable Record/Accountable Property Record. The record contained within the APSR. Accountable records shall include all data elements required by reference (f) and shall include supporting documentation in sufficient detail to permit tracing balances from their source systems to amounts reported in financial statements. The supporting documentation shall demonstrate the inventory validity, existence, completeness, accuracy of physical and financial balances, valuation, and rights of obligations including but not limited to receipts, material on hand validations, and documentation recording material condition. Accountable records shall be established in the APSR for:

a. All GE purchased or otherwise obtained having a unit acquisition cost of $5,000 or greater.

b. As required by law, policy, regulation, or agency direction.

c. Capital Leases.

d. GE of any value with controlled inventory item codes identifying them as controlled, classified or sensitive which have no alternate governing DON or DoD issuance.

e. GE of any value provided to a contractor for performance on a contract.

6. Acquisition Cost. The total amount paid for the property, including transportation costs, trade and cash discounts, and other ancillary costs as defined below.

7. Ancillary Costs. Costs other than the basic asset acquisition costs that were required to bring the GE to its form and location suitable to its intended use. These costs should be included in the acquisition cost when they are, in management's opinion, significant and identifiable. When the inclusion of ancillary costs brings the acquisition value over the capitalization threshold, the asset shall be considered a capital asset. Examples of ancillary costs may be found in paragraph 250203 of volume 4 of reference (f) and include but are not limited to:

a. The value of GFP installed in end items.

b. The cost of Government-furnished materials consumed during production.

c. Transportation charges to the point of initial use.

d. Handling and storage costs.

e. Labor and other direct or indirect production costs (for assets produced or constructed).

f. Engineering and other outside services for designs, plans, specifications, and surveys.

g. An appropriate share of the cost of the equipment and facilities used in construction work.

h. Acquisition and preparation costs of equipment.

i. Direct costs of inspection, supervision, and administration of construction contracts and construction work.

j. Allowable direct cost of maintaining the Program Management Office, if material.

k. Legal and recording fees and damage claims.

l. Fair value of equipment donated to the DoD.

m. Interest paid directly to providers of goods or services related to the acquisition or construction (not including late payment interest penalties).

n. A prorated share of non-recurring cost associated with the production of the equipment. A non-recurring cost is an unusual charge, expense, or loss that is unlikely to occur again in the normal course of business. Non-recurring costs include write-offs, fire or theft losses, and losses on sales of assets.

8. Approver/Acceptor. The individual within the organization who has the responsibility to accept an incoming asset and approve receipt of an incoming asset. This role is assigned per local guidance.

9. Capital Improvement. Any improvement in which the direct and indirect costs equal or exceed the DoD capitalization threshold and the capability, size, efficiency, or useful life of the property is increased. Regardless of cost, maintenance and repairs, including preventive maintenance, replacement of parts, systems, or components, and other activities needed to preserve or maintain the asset are not considered capital improvements.

10. Contractor Acquired Property (CAP). Any property acquired, fabricated or otherwise provided by the contractor for performing a contract, and to which the Government has title. CAP that is subsequently delivered and accepted by the Government for use on the same or another contract is considered GFP as defined in references (f) and (q).

11. Construction in Progress (CIP). Material specifically designated for installation in or construction of a new end item (ship, aircraft, spacecraft, submarine, or land vehicle) or a capital improvement to an existing end item (see capital improvement above).

12. Custodial Area. A segment of the accountable area (e.g., a ward in a hospital, a division in an organization, within an accountable area). There may be as many custodial areas and officers as are required to execute effective property management.

13. Custodian. An individual appointed by the APO who accepts custodial responsibility for property, typically by signing a hand receipt. The property custodian is directly responsible for the physical custody of accountable property under his control.

14. Donated Personal Property. Personal property that is received from a non-Federal entity without exchange or payment.

15. Fair Market Value. An unbiased, equitable, or just value based on the cost of a similar asset or the price that an impartial buyer would be willing to pay for the asset or a similar asset (also known as fair value).

16. Full Cost. The total cost of producing a single unit/product. Included in the cost is direct materials, direct labor, and overhead.

17. Garrison Mobile Equipment (GME). GME is a type of GE consisting of commercially available owned, leased, or otherwise controlled passenger vehicles, cargo vehicles, material handling equipment, engineer equipment, and railway rolling stock. GME is operated in support of transportation and maintenance requirements at Marine Corps activities and is neither deployed nor used for tactical purposes. This term is used exclusively by the Marine Corps.

18. General Equipment (GE). Tangible personal property that is functionally complete for its intended purpose, durable, and nonexpendable. GE typically has an expected service life of two years or more; is not intended for sale; does not ordinarily lose its identity or become a component part of another article when put into use; and has been acquired or constructed with the intention of being used. Per reference (e), property formerly classified as Military Equipment is now categorized as GE. For purposes of this instruction, GE includes GME. DON GE is classified into two primary categories:

a. Accountable GE. All Accountable GE requires accountable property records be established and maintained in the APSR per reference (f). Accountable GE is subdivided into two primary subcategories:

(1) Capitalized Accountable GE

(a) All GE purchased, or otherwise obtained, that has a unit acquisition cost equal to or above the capitalization threshold identified in enclosure (3) at time of acquisition or is classified as a Capital Lease.

(b) Capitalized Accountable GE shall be reported as an asset and depreciated per reference (c) on DON financial statements.

(2) Non-Capitalized Accountable GE

(a) All GE purchased, or otherwise obtained, that has a unit acquisition cost less than the capitalization threshold identified in enclosure (3) at time of acquisition and meets at least one of the following four criteria:

1. GE with an acquisition cost of $5,000 or more.

2. As required by law, policy, regulation, or agency direction.

3. Assets of any value with Controlled Inventory Item codes identifying them as Controlled, Classified, or Sensitive which have no alternate governing DoD issuance or items specifically identified in reference (f).

4. GE of any value not categorized as Capitalized Accountable GE provided to a contractor for performance on a contract.

(b) Non-Capitalized Accountable GE is financially expensed upon receipt and not reported as an asset on DON financial statements.

b. Locally accountable GE: Locally accountable GE requires accountability records be established and maintained in either an APSR or another suitable system per reference (f). Locally accountable GE must be managed in accordance with volume 4, chapter 6 of reference (c) and references (f) and (g) but is not reported as an asset on the DON financial statements. Locally accountable GE includes all GE purchased, or otherwise obtained, with a unit acquisition cost less than $5,000 that meets at least one of the following criteria:

(1) Notwithstanding the acquisition cost, the GE must be controlled and managed to protect against unauthorized use, disclosure, or loss; or when otherwise required by law, policy, regulation, or agency direction per reference (f).

(2) Information technology property containing personally identifiable information, per the requirements of references (s) and (t) or other sensitive agency information. This property may include, but is not limited to, desktops, laptops, and mobile computing devices, mobile information storage devices, and auxiliary hard drives, regardless of cost.

(3) Pilferable GE when it has been identified as a problem area.

(4) GE hazardous to public health, safety, or the environment. Such property is typically regulated by federal or state environmental and safety laws.

(5) Small arms. See reference (r) for small arms management information.

(6) Seized and confiscated GE.

(7) GE with national security implications.

(8) Tooling subject to Procedures, Guidance and Instructions (PGI) 207.106 (S-73) of reference (n).

(9) Mobile buildings.

(10) Any GE that does not meet the criteria of (1) through (9) above and is identified locally as requiring property management controls to maintain visibility and protect against loss. Note: Accountability records for locally identified GE may be maintained using any system or process as directed by local policy.

c. GE does not include Real Property, Stewardship Land, Heritage Assets, Internal Use Software (IUS), Inventory, Operating Materials and Supplies or CAP prior to acceptance by the Government per references (f) and (g). Per reference (h), property purchased with Non-Appropriated Funds are not considered Federal property and therefore are not subject to this instruction.

19. <u>General Fund</u>. For purposes of this instruction, the General Fund represents all appropriated funds provided by Congress to the DON. General Fund monies may be used to pay acquisition, procurement, maintenance, research, development, operations, and personnel costs as directed in the appropriating legislation.

20. <u>Government Furnished Property (GFP)</u>. Property in the possession of, or directly acquired by the Government and subsequently furnished to the contractor for performance of a

contract. GFP includes, but is not limited to, spares and property furnished for production, repair, maintenance, overhaul, or modification, operation of Government-owned equipment and vessels, special tooling, and special test equipment. GFP also includes CAP if the CAP is a deliverable under a cost contract when accepted by the Government for continued use under the contract. GFP does not include property determined to be incidental to the place of performance per PGI 245.102-70 of reference (m).

21. Head of Contracting Activity (HCA). The official who has overall responsibility for managing the contracting activity. Contracting activities are elements of the DON designated by the agency head and delegated broad authority regarding acquisition functions. A list of contracting activities is located within PGI 202.101 of reference (m).

22. Heritage Assets. GE of historical, natural, cultural, educational, or artistic significance, e.g., aesthetic; or with significant architectural characteristics. Heritage Assets are expected to be preserved. Heritage Asset values may be indeterminable or may have little financial meaning (e.g., museum collections, monuments, assets acquired in the formation of the nation), or allocating the cost of such assets (e.g., military weapons systems) to accounting periods that benefit from the ownership of such assets is not meaningful.

23. Inherently Governmental. A function so intimately related to the public interest as to require performance by Federal Government employees.

24. Internal Use Software (IUS). Software used in conjunction with the operation of equipment, which is not the same as the integrated or embedded software, is considered IUS if all of the following criteria apply (note, IUS is not subject to the requirements of this policy):

a. The software was developed separately from the equipment.

b. The software is not required for the equipment to perform its core purpose and functions.

c. The quantity of equipment items on which the software will be installed is unknown.

25. Inventory

a. The act or process of locating, counting, and reporting property. For DON there are three authorized methods for conducting required inventories. An additional method is authorized for interim checks or to supplement required inventories:

(1) By Exception Inventories. This type of inventory uses actions or transactions, e.g., move orders, maintenance actions, calibration checks, etc., where the items are "touched" by disinterested parties with supporting documentation directly associated with an accountable asset.

(2) Cyclic Inventories. Also called cycle counting, where a portion of the population is counted either daily, weekly, or monthly until the entire population has been counted within the time period specified.

(3) Wall-to-Wall. An inventory process where the entire population is counted at a single point in time.

(4) Statistical Sample. Sampling does not relieve the requirement for triennial or annual inventories but may be used to supplement inventory requirements, test, evaluate or validate inventory accuracy. Statistical sampling counts a portion of the population that is representative of the total population and statistically significant.

b. Tangible property that is (1) held for sale, (2) in the process of production for sale, or (3) to be consumed in the production of goods for sale or in the provision of services for a fee. Inventory is not part of GE. The term "held for sale" shall be interpreted to include items for sale or transfer to (1) entities outside the Federal Government, or (2) other federal entities. The principal objective of the sale or transfer of inventory is to provide a product or service for a fee that generally recovers full cost or an identified portion of the cost. "Other federal entities" may include entities within the same organization/agency. Sales transactions may be executed through transfer of funds between federal entities; it is not essential that the transaction be an exchange of goods for cash or cash equivalents. In addition, inventory may be acquired through donation or barter. Inventory excludes some other property held for sale, such as (1) stockpile materials, (2) seized and forfeited property, (3) foreclosed property, and (4) goods held under price support and stabilization programs. These items may be sold; however, the purpose of acquiring them is not to provide a product or a service for a fee.

26. Item Unique Identification (IUID). A system of establishing globally unique identifiers within the DoD, which serves to distinguish discrete items from other like and unlike items. Full IUID capability requires items to be marked, Automated Information Technology to read the marks, information systems to be modified to use the mark, and business processes to be re-engineered to utilize the capability.

27. Life Cycle Management. A management process applied throughout the life of a system that bases all programmatic decisions on the anticipated mission-related economic benefits derived over the life of the system. This encompasses the acquisition program, in-service support and sustainment, modernization and final disposal.

28. Operating Materials and Supplies (OM&S). Tangible personal property to be consumed in normal operations. DON OM&S is comprised of material such as replacement parts, components, assemblies, and residual property that are to be consumed in normal operations but are not held for sale.

29. Personal Property. All property (systems and equipment, materials, and supplies) except real property (land and improvements to facilities), and records of the Federal Government. Personal Property includes (but is not limited to); Military Platforms (e.g. Ships Aircraft, and Tanks), Weapons (including small arms and light weapons), Weapon Systems, support equipment, office equipment, industrial plant equipment, vehicles, material handling equipment, automated data processing equipment or property acquired through Capital or Operating Leases.

30. Program Manager (PM). Designated individual with responsibility for and authority to accomplish program objectives for development, production, and sustainment to meet

the user's operational needs. The PM shall be accountable for credible cost, schedule, and performance reporting to the Milestone Decision Authority.

31. Quarterly Asset Universe Financial Reporting, Reconciliation and Monitoring. A quarterly submission provided by BSOs to ASN (FM&C) used to substantiate end of quarter and end of year ending financial balances. Submissions include:

a. Asset lists identified in enclosure (2), paragraph 4l.

b. Asset roll-forward analysis.

c. Reconciliation between Defense Departmental Reporting System-Budgetary entries and the asset lists.

d. Field-level journal vouchers needed to record asset balances and trial balances. Trial balances shall be accompanied by a list of parameters used to extract the trial balance.

e. Year-over-year and quarter-over-quarter variance and flux analysis of asset balances.

f. Certification letter supporting (a) through (e) above.

32. Real Property. Land and any interest in land, together with any buildings, fixtures, affixed improvements and structures, growing crops located thereon, and related appurtenances regardless of funding source.

33. Requiring Activity. The organization charged with meeting a mission and delivering requirements. The requiring activity is responsible for obtaining funding or developing the Program Objective Memorandum. The requiring activity may also be the organizational unit that submits a written requirement or statement of need for services required by a contract.

34. Shared Service Provider. An organization external to DON assigned specific responsibilities, functions, and authorities to provide defined levels of support for operational missions, or administrative or other designated activities that involve two or more of the DoD components.

35. Stewardship Land. Land and land rights other than that acquired for or in connection with General Plant Property and Equipment (PP&E), land acquired via the public domain, or land acquired at no cost.

36. Tangible Personal Property. Anything other than real property (land and buildings) that is used in normal operations. In comparison to intangible personal property, tangible property can be touched.

37. Working Capital Fund (WCF). A revolving fund (or account) that relies on sales revenue rather than direct congressional appropriations to finance its operations. A WCF generates revenue by charging customers a stabilized cost recovery rate to offset the full costs of its operations, and to finance the fund's continuing operations without fiscal year limitation. A revolving fund is intended to operate on a break-even basis over time; that is, it neither makes a profit nor incurs a loss. WCFs provide a funding mechanism for DoD and DON corporate structures to absorb risk in planning investment programs for maintenance and supply.

LIST OF ACRONYMS

ASN (FM&C)	Assistant Secretary of the Navy, Financial Management and Comptroller
ASN (RD&A)	Assistant Secretary of the Navy, Research, Development and Acquisition
APO	Accountable Property Officer
APSR	Accountable Property System of Record
BSO	Budget Submitting Office
CAP	Contractor Acquired Property
CIP	Construction in Progress
CMC	Commandant of the Marine Corps
CNO	Chief of Naval Operations
CPO	Command Property Officer
DLMS	Defense Logistics Management Standards
DoD	Department of Defense
DON	Department of the Navy
DRMD	Directives and Records Management Division
FASAB	Federal Accounting Standards Advisory Board
GE	General Equipment
GF	General Fund
GFP	Government Furnished Property
GME	Garrison Mobile Equipment
HCA	Head of Contracting Authority
IUID	Item Unique Identification
IUS	Internal Use Software
OM&S	Operating Materials and Supplies
OSD	Office of the Secretary of Defense
PEO	Program Executive Officer
PGI	Procedures, Guidance and Instructions
PIEE	Procurement Integrated Enterprise Environment
PM	Program Manager
PP&E	Plant Property and Equipment
SECNAV	Secretary of the Navy
USMC	United States Marine Corps
USN	United States Navy
WAWF	Wide Area Workflow
WCF	Working Capital Fund

RECORDS MANAGEMENT

1. Records created as a result of this instruction, regardless of format or media, must be maintained and dispositioned according to the records disposition schedules found on the Directives and Records Management Division (DRMD) portal page: https://portal.secnav.navy.mil/orgs/DUSNM/DONAA/DRM/SitePages/Home.aspx

2. For questions concerning the management of records related to this instruction or the records disposition schedules, please contact your local Records Manager or the DRMD program office.

INFORMATION MANAGEMENT CONTROL

1. Forms. The following forms may be obtained from the Department of the Navy Issuances website at https://www.secnav.navy.mil/doni/default.aspx

a. SECNAV Form 5200/3, Key Supplemental Supporting Documentation form.

b. SECNAV 5200/4, General Equipment Inventory Progress Certification form.

2. Information Collection Control. The reporting requirements contained in enclosure (2), paragraphs 4f, 4g, and 7g have been assigned the following SECNAV Reports Control Symbols (RCS) in accordance with reference (w):

a. SECNAV RCS 5200-3 has been assigned to SECNAV Form 5200/3.

b. SECNAV RCS 5200-4 has been assigned to SECNAV 5200/4.
