COMNAVRESFOR INSTRUCTION 1001.5E

Subj: ADMINISTRATIVE PROCEDURES FOR THE DRILLING RESERVE AND PARTICIPATING MEMBERS OF THE INDIVIDUAL READY RESERVE (IRR)

1. Purpose. To provide administrative procedures for managing participatin members of the Navy Reserve (NAVRES). This instruction has been completely revised and should be read in its entirety.

2. Cancellation. COMNAVRESFOR NEW ORLEANS LA 091000ZMAR98 (ALNAVRESFOR 19/98), COMNAVRESFOR 021000Z OCT00 (ALNAVRESFOR 26/00), and COMNAVRESFORINST 1001.5D.

3. Scope. This instruction applies to the administration of Drilling Navy Reservists.

4. Discussion. Effective immediately, this instruction and BUPERSINST 1001.39D will be used for Navy Reserve administration.

5. Administration and Maintenance. Commander, Navy Reserve Force (COMNAVRESFOR) is responsible for the administration and maintenance of this instruction. Recommended changes, together with supporting documentation, should be submitted to Commander Navy Reserve Forces Command (COMNAVRESFORCOM (N1C2)) via the chain of command.

6. Exhibits, References and Forms. Appendix A is a list of exhibits appearing in this instruction. Appendix B is a list the acronyms used throughout this instruction. Appendix C lists references and publications used and Appendix D is an index of forms referenced in and required by this instruction.

7. Action. Addressees will ensure widest dissemination and implementation of this instruction.

8. Reports. COMNAVRESFOR 1910-1 Drilling Reservist Enlisted Vacancy/Anticipated Loss Report, contained in chapter 2, article 202a, required by this instruction, is approved for 3 years from the date of issue.

J. P. DEBBOUT

SUGGESTION FORMAT

To make this instruction responsive to both program requirements and Reservist's administrative needs, the sample format below shall be used to bring suggestions and/or problems to our attention.

(date)

From:

To: Commander, Navy Reserve Forces Command (N1SC)

Via: (Complete chain of command)

Subj: COMNAVRESFORINST 1001.5E

1. The following suggestion/problems concerning COMNAVRESFORINST 1001.5E is/are submitted for review:

a. Description of suggestion/problem (with paragraph and page numbers):

b. Recommendation:

/s/ Signature
Command identification
Command telephone number
Command e-mail address

APPENDIX D - INDEX OF FORMS

Index of Forms.....	D-1
---------------------	-----

CHAPTER 1AFFILIATIONS/ACCESSIONS101. NAVRES Affiliations/Accessions

a. Policy and eligibility criteria for affiliations are in BUPERSINST 1001.39D. Physical standards are in Military Personnel Manual (MILPERSMAN), Manual of the Medical Department (MANMED) and OPNAVINST 6110.1G. Nonprior Service (NPS), Advanced Pay Grade (APG), Accelerated Initial Accession (AIA), Navy Veteran (NAVET), Other Service Veterans (OSVET), Construction Basic Veteran (CB(VET)), and Recruiting Selective Conversion Reenlistment-Reserve (RESCORE-R) accessions must comply with the provisions in this instruction and COMNAVRESFORCOMINST 3500.1. All Master-at-Arms (MA) enlistments require Director, Naval Criminal Investigative Service (NCIS 24F) approval. Reserve Transition Benefits (RTB) recipients may not affiliate into pay status. Affiliated members are assigned to units (either pay or nonpay).

b. Accessions assign individuals against end-strength (pay units only). Commander, Navy Recruiting Command (COMNAVCRUITCOM) controls enlisted accessions through a rating reservation system based on changing program requirements. Recruiters must have a recruiting reservation number or an approved accession waiver from COMNAVRESFORCOM (N16) to access a new member. Reservation numbers are not required for accession into the Voluntary Training Unit (VTU). Any person with a recruiting reservation must be accessed, even if a vacant local mobilization requirement is not available. Commanding Officer's (CO) of Navy Reserve Activities (NRA) are not authorized to place members into pay status from a VTU without an approved accession package from recruiting or authorization from COMNAVRESFORCOM (N1) as a result of board action (i.e. FY National Command and Senior Non-Command Screening and Selection Board (APPLY Board)).

102. Enlisted Affiliation/Accession Procedures

a. COMNAVCRUITCOMINST 1133.1F lists documents required for affiliation. If reenlistment codes and/or recommendation for reenlistment are not available Navy Personnel Command (NAVPERSCOM) (Pers-4913) must approve applications for affiliation. If a recommendation for reaffiliation cannot be verified, members who are otherwise eligible may be affiliated after signing an Affiliation Administrative Remarks (NAVPERS 1070/613), (see appendix A, exhibit 1). Member's assignment will end effective the date of confirmation indicating ineligibility. Cite this paragraph as termination authorization. Personnel found ineligible for affiliation may not transfer from pay to nonpay units. Transfer the member to the Individual Ready Reserve (IRR) and forward the service record to Navy Reserve Personnel Center (NAVRESPERS-CEN (N312)). Complete Administrative Remarks (NAVPERS 1070/613), prior to transfer (see appendix A, exhibit 2). Send the medical and dental records to the Department of Veteran's Affairs, Service Medical Records Center, P.O. Box 150950, St Louis, MO 63115-8950.

b. Preenrollment of family members in Defense Eligibility Enrollment Reporting Systems (DEERS) is mandatory. Refer to BUPERSINST 1750.10B for procedures.

c. Per DoDFMR volume 5, article 240202, participation in electronic funds transfer (EFT) is mandatory. An administrative remarks (NAVPERS 1070/613) entry is required for all new accessions (see appendix A, exhibit 3).

NRA CO's may grant individual exceptions. DoDFMR volume 5, article 240202.E.2 provides exception guidance. Once the reason for exception no longer exists, the member must participate in EFT.

d. Administrative reduction-in-rate for the purpose of qualifying for affiliation in the NAVRES may be authorized with the following restrictions:

(1) Reduction-in-rate is voluntary and contingent upon affiliation.

(2) COMNAVCRUITCOM (N31) is the approval authority.

(3) Applications considered for this affiliation option may not be approved if reduction-in-rate would place the member beyond high year tenure (HYT) limits per OPNAVINST 1160.7B.

(4) Advancement Manual for the Advancement of Enlisted Personnel of U.S. Navy and U.S. Navy Reserve (BUPERSINST 1430.16E) provides specific reduction-in-rate administrative guidance.

(5) Each prospective candidate must sign an Administrative Remarks (NAVPERS 1070/613) acknowledgment (see appendix A, exhibit 4).

e. Navy Reserve Recruiters are required to submit the gain package to the NRA within 3 working days of the effective date of assignment, which is the date orders to Inactive Duty Training (IDT) were signed. The NRA staff will complete the Navy Standard Integrated Personnel Systems (NSIPS) "gain" within 5 working days of receipt of gain package from the recruiter. The NSIPS gain entry automatically generates a service record request for affiliations. For affiliations from the Individual Ready Reserve (IRR), if the service record is not received within 60 days, provide the member's name, social security number (SSN), and date of gain to NAVRESPERSCEN via e-mail at nrpc_selres@navy.mil. Do not e-mail record requests to NAVRESPERSCEN until 60 days have lapsed from the date the gain is processed. Premature/numerous record requests only delay processing.

103. Officer Affiliation/Accession Procedures. Per the Drilling Reserve Officer Accession Plan, COMNAVCRUITCOM is responsible for recruiting Drilling Reserve officers for IDT pay assignments. All new affiliation/accession requests for O4 and below in either pay or nonpay status will be processed by the local reserve officer recruiter. All O5/O6 accession requests require an accession waiver from COMNAVRESFORCOM (N16) (Officer Community Manager). Assignment to a pay billet via echelon III board action does not require recruiter involvement. NAVRES officers must be in an active status Ready Reserve (USNR-R) or Standby Reserve Active (USNR-S1) before being issued IDT orders authorizing IDT participation. Area Readiness Command's N1 shall process billet accession requests within 5 working days of receipt from a reserve officer recruiter. Every attempt should be made to identify a local vacant billet. If a local vacant billet is not available, a Cross-Assigned Out (CAO) billet shall be identified. If a local or cross-assignment cannot be made, new officer accessions may remain In Assignment Processing (IAP) until a billet is available.

a. COMNAVRESFORCOM (N16) has sole approval authority for pay billet quotas for new accessions. Commander, Naval Air Force Reserve (COMNAVAIRES); Commander, U.S. Naval Forces Europe (COMUSNAVEUR); Commander, Navy Reserve

Readiness Command (NAVRESREDCOM), and COs of Naval Air Reserve (NAVAIRES), and Naval Air Facility (NAF) may approve nonpay assignments and issue orders for approved pay assignments.

b. Effective date of assignment. Do not authorize pay for IDT performed before the effective date of the officer's IDT orders. The effective date may not be earlier than any of the following dates:

- (1) Date orders to IDT were signed.
- (2) Date physical qualifications were established.
- (3) Effective date of transfer to the Ready Reserve.
- (4) Date flight status confirmed.
- (5) Date specified by approval authority.

c. Commands authorized to issue orders may also modify, change or terminate them with justification. Nonpay members may be assigned Additional Duty (ADDU) with Drilling Reserve units.

d. IDT orders issued to personnel in Explosive Ordnance Disposal (EOD) Units, Sea-Air-Land (SEAL) Team, SEAL Delivery Vehicle (SDV) Team, Special Boat Unit (SBU), Mobile Communications Team (MCT), Naval Special Warfare Unit (NSWU), Naval Special Warfare Group (NSWG), Naval Coastal Warfare (NCW), Mobile Inshore Undersea Warfare Unit (MIUWU), Inshore Boat Unit (IBU), Harbor Defense Command (HDCU), and Mobile Diving and Salvage Units (MDSU) shall state if duty involves their particular specialty/qualifications.

e. Twice Failed of Selection (FOS). Any officer who has twice FOSed by a Reserve promotion board to the next higher grade is eligible for affiliation in the NAVRES at their current rank in a nonpay status. Designators 2105/2905 may be eligible for affiliation in a pay status upon receipt of authorization from COMNAVRESFORCOM (N16).

f. Officer Orders. Only the approving authorities listed in paragraph 103a above may issue IDT orders. Order issuing authorities will use the Officer Application/Orders to Inactive Duty (NAVRES 1321/1) to issue orders and make billet assignments. Approving authority shall sign all officer orders within 5 working days of receipt of the accession package from the Reserve officer recruiter. Issuing authorities will process officer orders as follows:

- (1) Screen applications for proper completion.
- (2) Verify eligibility for assignment.
- (3) Process DD 2808 and DD 2807-1 per MANMED (NAVMED P-117) article 15-28. If there are any questions concerning an officer's physical status, hold in abeyance for further application processing pending final eligibility determination by Bureau of Medicine and Surgery (BUMED)(MED-25).
- (4) Process applications for transfer to a pay status for qualified members of the USNR-R and USNR-S1. Applicants from the USNR-S1 must be eligible and request transfer to the USNR-R by submitting a Ready Reserve Transfer Request Service Agreement (NAVPERS 1200/1) to Naval Personnel Command (NAVPERSCOM) (Pers-491).

(5) Orders for aviation officers entitled to aviation career incentive pay (ACIP) must contain one of the following statements:

(a) For 1315/1325/2105 (Flight Surgeon) designated officers and 1515 designated officers who are Naval Aviators or Naval Flight Officers (NFO) assigned by mobilization billet to "Operational Flying" requirements, "ACIP authorized for Duty Involving Flying Operations (DIFOPS)(Duty in a flying status involving operational or training flights)."

(b) For 1315/1325 designated officers and 1515 officers who are Naval Aviators or NFOs assigned to authorized requirements other than Operational Flying, "ACIP authorized."

104. Residency/Affiliation Overseas. See Chapter 17.

105. Reaffiliation of Unsatisfactory Participants. For members who were transfers to the IRR "Not Recommended for Reaffiliation" written approval from the local NRA to which they will be assigned is required and the member must sign a Reaffiliation Waiver (see appendix A, exhibit 5). The NRA CO should conduct a personal interview to determine if the member will be a positive asset to the NAVRES.

106. Drilling Reserve Enlisted Community Management Objectives (ECMO)

a. General. The ECMO provides NRAs with manning statistics by individual rate. Published semiannually by an All Navy Reserve Force (ALNAVRESFOR) message, it identifies open and closed rates, critical Navy Enlisted Classification (NEC) codes, and advancement opportunities for Drilling Reserve.

b. ECMO Categories. The ECMO is used to determine eligibility for rating conversions, participation in E4 advancement examinations, and RESCORE-R Program eligibility.

(1) Rate manning. Divided into the following three categories. Percentages are determined by comparing the Enlisted Program Authorizations to the onboard strength, by rating. ECMO categories are defined as follows:

(a) Category A - Undermanned

(b) Category B - Desired Manning

(c) Category C - Overmanned

(2) Advancement opportunities. Divided into four categories as follows:

(a) Category (1) - excellent

(b) Category (2) - good

(c) Category (3) - limited

(d) Category (4) - minimal opportunity

(3) Critical NEC

(a) "Critical" determination results from both undermanning and replacement requirements (e.g., length of training or school quota availability).

(b) Members holding critical NECs or component NECs listed in the ECMO message are considered ECMO category "A".

c. Restrictions

(1) Ratings requiring class "A" school are closed to entry by non-designated strikers. Participation in the E4 advancement examination for these ratings requires NAVPERSCOM (Pers-812) approval. Requests should be received prior to 15 January or 15 July for the February and August examinations, respectively. Late requests will be considered for participation in the next exam cycle. Waiver requests will be submitted to NAVPERSCOM (Pers-812) (see appendix A, exhibit 6).

(2) Rating conversions are authorized from overmanned to lesser-manned categories. Conversions from category "A" are not authorized. Change of rate or RESCORE-R conversions into category "B" may be granted on a case-by-case basis. Conversions to category "C" are not authorized.

(3) Rating conversion applicants are required to meet the minimum ASVAB standard score for the requested rating per COMNAVCRUITCOMINST 1133.1F.

d. COs, Command Career Counselors (CCCs) and Career Development Boards (CDBs) shall:

(1) Counsel personnel in ECMO Category "A" about the relative advantages and opportunities of a NAVRES career in their present rating. Conversions from category "A" will not be authorized.

(2) Counsel personnel in ECMO Category "C" about the limitations of a NAVRES career in their present rating and encourage them to request conversion to category "A" ratings. Conversions to category "B" will depend upon current manning requirements at the time of the request. Conversion to category "C" ratings will not be approved.

(3) Counsel personnel holding or eligible for critical NECs about retaining eligibility or attaining a critical NEC. If eligible, make assignments to critical NEC requirements per this directive and NAVPERS 18068F, section II. NAVPERS 18068F, section II defines NEC eligibility and gives application procedures.

107. NAVET/OSVET/NPS/NPS BASIC/APG/AIA/RESCORE-R Program Requirements. Members enlisted under these programs with paygrade or rating incentive options hold a temporary paygrade until all requirements are met. All participants have 36 months from the date of enlistment to make their temporary paygrades permanent. Member's enlisting/affiliating under the RESCORE-R option have 18 months to complete the eligibility requirements to participate in the advancement examination to complete the lateral conversion, or in the case of designated strikers, concurrent conversion. Refer to paragraph 1603 concerning required counseling. Ensure appropriate Mobilization Assignment Status (MAS) codes are assigned for the enlistment/affiliation program until rate is made permanent.

a. Navy Veteran (NAVET). This program is based on a prior Naval service occupation and provides for enlistment/reenlistment in a temporary paygrade for personnel having prior active or inactive service in the Navy or NAVRES with more than 4 years and less than 10 years break in Naval service. Non-prior service accession course (NPSAC) and petty officer indoctrination courses are not required.

b. Other Service Veteran (OSVET). This program is based on a prior other service occupation specialty and provides for enlistment in a temporary paygrade for personnel having prior active or inactive service, or presently serving in another Reserve Components of the Armed Forces. Members enlisting/affiliating under this program cannot be accessed into a paygrade higher than E6. The Petty Officer Indoctrination course is required for all petty officers assessed into this program. NPSAC is not required.

c. Nonprior Service Basic (NPS Basic). Non-Prior Service member who joins the Reserve Component and attends a full boot camp and full "A" school. If service member is a corpsman then the member will go on to complete the Field Medical Service School. After completion of schooling the member will affiliate with their reserve center. The member will NOT be assigned a "TBX" MAS code, because he or she has already completed their training requirements and is a mobilization asset. Once the member affiliates with the reserve center, then the member is entitled to the NPS Basic bonus.

d. Nonprior Service (NPS). This program is designed for personnel with no prior military background. Member attends the NRAC course as boot camp equivalent. They are assigned to a Non Prior Service Training Unit and assigned a "TBX" MAS code until all training qualifications are met. This member regardless of rate is NOT entitled to the NPS Basic bonus. Refer to COMNAVCRUITCOMINST 1133.1F and COMNAVRESFORCOMINST 3500.1 for program requirements.

e. Advanced Paygrade (APG). This program is based upon civilian occupation and provides for the enlistment of personnel who are (or have been recently) employed in a civilian occupation, which relates to an undermanned rating. E3 enlistees require no occupational experience, relating to Navy ratings with the following exceptions: Hospital Corpsman (HM) and Dental Technician (DT) require a minimum of 12 months civilian experience; MA, Intelligence Specialist (IS), Cryptologic Technician (CT), and all Construction Battalion (CB) ratings require a minimum of 12 month civilian experience.

f. Accelerated Initial Advancement (AIA). The AIA program allows nonprior service personnel to enlist at a permanent paygrade of E2 with a temporary paygrade of E3. Recruitment to this program will use existing Airman (AN), Fireman (FN), and Seaman (SN) reservations.

g. Recruiting Selective Conversion Reenlistment-Reserve (RESCORE-R). This program allows recently separated or discharged NAVETS, and IRR personnel who are in closed ratings and would otherwise be ineligible for enlistment or affiliation to access into open ratings via a change of rating. The current ALNAVRESFOR ECMO message identifies rates eligible for RESCORE-R. Program requirements follow:

(1) Must be a NAVET in paygrade E4 through E6 or designated E3 striker who meets the professional growth criteria for reenlistment.

Personnel in paygrade E3 must have less than 10 years of qualifying prior military service for retirement and personnel in paygrade E4 must have less than 11 years of qualifying prior military service for retirement.

(2) Must be within 36 months of date of release from Active Duty (AD) or transfer to the IRR from a Drilling Reserve status, whichever is later.

(3) Must be in an ECMO "C" rating at the time of recruitment and agree to convert to an ECMO "A" rating listed in the current ALNAVRESFOR ECMO message. Accessions to ECMO "A" ratings are authorized provided valid training could be obtained at the local NRA. Accessions to ECMO "B" ratings require approval from COMNAVRESFORCOM (N16) on a case-by-case basis.

(4) Must obligate in the Drilling Reserve for a minimum of 4 years from the date of enlistment or affiliation.

(5) Must complete lateral conversion prerequisites within 18 months from date of enlistment or affiliation unless modified by waiver from COMNAVRESFORCOM (N16). The exceptions to this are the Aerographer's Mate (AG), Legalman (LN), IS, and MA ratings, which have 36 months to complete conversion. Additional requirements for these ratings are in BUPERSINST 1001.39D. Aviation (ASW) Technician candidates must be prior qualified aircrew and acknowledge awareness of training requirements specified in MILPERSMAN, BUPERSINST 1326.4D, and OPNAVINST 3710.7S. RESCORE-R personnel must receive documented counseling per article 1603. Failure to complete the program requirements within 18 months shall result in member's termination from the RESCORE-R program. Transfer members with ECMO category "C" to a non-pay drill IDT status in their permanent rating, or to the IRR. RESCORE-R failures are not eligible for future accession under the RESCORE-R program.

(6) All RESCORE-R participants have three examination cycles in order to successfully convert following completion of all advancement prerequisites (if required). To successfully convert, personnel must achieve a Standard Score (SS) of 37. Failure to achieve a SS of 37 within three exam cycles shall result in the transfer to non-pay in their permanent rate. Only designated strikers are authorized concurrent advancement through successful examination participation (e.g., Boatswain's Mate Seaman (BMSN) to Storekeeper Third Class (SK3)). All other RESCORE-R personnel must be laterally converted (e.g., BM3 to SK3) before competing for advancement. RESCORE-R personnel may not compete for advancement in their permanent rate.

(7) Rating conversion NECs will be requested upon enlistment/affiliation by COMNAVRESFORCOM (N16) utilizing attainment reports from COMNAVCRUTCOM. NRAs shall monitor NSIPS to ensure conversion NEC is reflected. If the conversion NEC has not reflected after 90 days, the NRA shall send a tracer to the Enlisted Placement Management Center (EPMAC) (Code 49) using the EPMAC 1221/2 (Navy Enlisted Classification (NEC) Change Request. Conversion NECs are listed in NAVPERS 18068F volume II, chapter III of NAVPERS 18068F.

(8) RESCORE-R participants shall be gained in NSIPS as directed by the help desk following submission of the gain worksheet. Once the gain has processed, change members rating in NSIPS to their temporary rating.

(9) RESCORE-R participants shall be assigned to a local vacant billet of the same rating the member is converting to, consistent with the billet's vertical Reserve Functional Area and Sex Code (RFAS) codes. If no vacancy

exists, participants must be assigned to a local unit whose billet structure contains an exact rating match in the same paygrade or higher. RESCORE-R participants placed IAP after initial billet assignment will be processed per paragraph 306 of this instruction.

(10) NRAs shall remove conversion NECs upon successful conversion, failure to demonstrate satisfactory progress, or failure to complete all requirements. COs/Officers in Charge (OICs) shall notify NAVPERSCOM (Pers-812) and COMNAVRESFORCOM (N16) of terminations. Ensure COMNAVRESFORCOM (N16) is a "copy to" on the EPMAC 1221/2.

(11) MA Rating. Requests for accession/conversion to the MA rating must be approved by Director, Naval Criminal Investigative Service (NCIS 24F) per BUPERSINST 1001.39D. Review and approval by NCIS is available by calling commercial (202) 433-9105 or DSN 288-9105.

(12) Religious Program Specialist (RP) rating applications must include a favorable endorsement from a Navy Chaplain for requests for accession to RP rating applications.

(13) IS rating. Submit requests for accession to the IS rating via the local Reserve Intelligence Program Officer (RIPO).

(14) Submit CT rating. Submit accessions requests via the local NAVRES Security Group (SECGRU) Program Representative.

(15) Members whose permanent rating has changed to an ECMO category "A" or "B" may request to revert to their permanent rating prior to program completion. Requests to withdraw from the RESCORE-R program should be submitted to COMNAVRESFORCOM (N16).

(16) Direct questions for rating eligibility determinations to COMNAVRESFORCOM (N16).

(17) Submit applications to COMNAVCRUITCOM (N31) per COMNAVCRUITCOMINST 1133.1F. Forward requests for RESCORE-R into ratings requiring an "A" school to NAVPERSCOM (Pers-812) via COMNAVCRUITCOM (N31) and COMNAVRESFORCOM (N11).

(18) Action.

(a) COMNAVCRUITCOM shall:

1. Update COMNAVCRUITCOMINST 1133.1F to include procedures for RESCORE-R applications per guidelines in this instruction.

2. Ensure applications for conversion to ratings designated as ECMO category "B" are forwarded to COMNAVRESFORCOM (N16) for final review.

3. Ensure RESCORE-R accessions sign Administrative Remarks, (NAVPER 1070/613) (see appendix A, exhibit 7) acknowledging all requirements needed (with exception of military courses already completed and documented) to make their conversion rate permanent and the consequences if the time frames are not met per this instruction.

(b) COMNAVRESFORCOM will monitor program administrative procedures for accuracy and ensure completion of program requirements within the time allowed.

(c) Echelon IV commands shall:

1. Provide guidance and control to ensure program effectiveness.

2. Monitor NSIPS entries for accuracy.

(d) Echelon V commands shall:

1. Ensure NSIPS gains are submitted using procedures listed in paragraph 8 above and assign MAS code of TRP as defined in COMNAVRESFORINST 3060.7A.

2. Track RESCORE-R conversions ensuring NSIPS and service record entries are completed and reflect accurate affiliation data.

3. Provide resources necessary to complete requirements of the RESCORE-R Program.

4. Counsel all RESCORE-R personnel on a semiannual basis. Document to ensure participants are aware of their status (toward completion of requirements or a need for a COMNAVRESFORCOM (N16) waiver. Include the consequences if requirements for advancement are not completed within the required time frame). File original Administrative Remarks, (NAVPERS 1070/613) in service record.

5. Ensure the termination of all personnel who fail to demonstrate satisfactory progress or fail to complete all requirements within the prescribed time frame. Consider requesting a waiver for members experiencing unusual circumstances. COs/OICs shall determine reaffiliation status and notify NAVPERSCOM (Pers-812) and COMNAVRESFORCOM (N16) of terminations.

6. COMNAVRESFORCOM (N16) waivers may be submitted for the following with supporting documentation:

(a) Members whose permanent rates change to ECMO "A" or "B" from "C" can submit a waiver request to drop out of the RESCORE-R program and be retained in a drill IDT pay status in their permanent rate.

(b) Members who fail to demonstrate satisfactory progress or fail to complete requirements may submit a waiver request to extend time allowed to complete requirements.

7. Additional guidance on management of the RESCORE-R program including separations, appeals or satisfactory performance, can be found in BUPERSINST 1001.39D.

108. Construction Basic Veteran (CB(VET)) Recruiting Program. The CB(VET) Program is designed to enlist veterans from any service interested in a military career within the construction trades. Requirements are as follows:

a. Enlistment/affiliations are open to paygrades E3 or E4 in construction ratings listed in the current ALNAVRESFOR Drilling Reserve ECMO message Category "A" or "B", with the exceptions of the engineering Aid (EA) rating.

(1) The minimum enlistment required is 3 years. Drilling Reservists currently under contract must have a minimum of 3 years remaining on their enlistment contract to meet program requirements. To be eligible for the Drilling Reserve Montgomery GI Bill-Selected Reserve (MGIB-SR), MSO must be at least 6 years.

(2) NAVET personnel will be enlisted/affiliated in their permanent rating, in a paygrade no higher than E4, with subsequent temporary rating change to a construction rating (e.g., MMFN (CMCN), MM3 (CM3)).

(3) OSVET personnel will be enlisted with a permanent rate of Seaman E3, with a subsequent temporary rating change to a construction rating no higher than E4 (e.g., SN (CM3)). OSVETS cannot be enlisted into a paygrade higher than they held in their previous service.

(4) Construction experience is not required. Veterans must have completed a minimum of 12 weeks IADT, basic training, or equivalent and be reenlistment eligible.

(5) Applicants in a temporary paygrade of E3 must have no more than 9 years prior military service. Applicants in the temporary paygrade of an E4 must have no more than 11 years of prior military service.

(6) Applicants must meet entrance and minimum ASVAB test score requirements, per COMNAVCRUITCOMINST 1133.1F. A valid ASVAB test is required for all applicants not under contract; ASVAB waivers may be submitted per COMNAVCRUITCOMINST 1133.1F, chapter 2.

b. CB(VET) members advanced to E5 in their permanent rating by an advancement exam cycle that took place prior to CB(VET) program enrollment will have the choice of accepting a reduction in permanent rate to E4 to remain in the program, or be released from the program to be reassigned in their permanent rating as an E5.

c. CB(VET) personnel will be assigned only to the following program units:

- (1) Naval Mobile Construction Battalion (NMCB)
- (2) Construction Battalion Maintenance Unit (CBMU)
- (3) Naval Construction Force Support Unit (NCFSU)
- (4) Naval Construction Regiment

d. NAVETS will keep their military qualifications however; OSVETS will be required to complete military courses for that paygrades.

e. Gain Administration

(1) Gain CB(VET) Accessions/Affiliations by using the Mandatory Drill Code (MDC) 4, Military Obligation Designator (MOD) 0, and MAS code "TCB". Before entering the gain on a CB(VET) who is a NAVET, NRAs must contact the Reserve Pay Assistance Team (RPAT) or NISPS Helpdesk to verify the members current rating held in the Navy personnel systems. The member is to be gained using his rate and grade held at discharge **Once the gain is processed**, the NRA will make a personal data entry in the NSIPS changing the

permanent rating to the temporary CB rating. Do not change the effective date of rate from the date of rate used when initially gained as a CB(VET) (e.g. Member was a YN3 at discharge, upon accessions/affiliations is converted to a CE3, gain member at a YN3).

(2) Upon affiliation of CB(VET) applicant, a Navy Enlisted Classification (NEC) Change Request, EPMAC 1221/2, will be prepared and submitted by the NRA to EPMAC (Code 49), for assignment of NEC 9920 (this NEC is used for program identification only). The NRA must request removal of this NEC from EPMAC (Code 49) when the member makes his/her rating permanent.

f. CB(VET) requirements to make the rating permanent are:

(1) Qualifications Standards Book (QSB), also known as the "A" School Construction Rating Skills Equivalency Handbook (E3 and E4).

(2) Rating Manual for Petty Officer Third Class (E3 and E4).

(3) Obtain SS of 37 or better on the advancement exam (E4 only). QSB and all course requirements must be completed prior to taking advancement exam. For clarification, temporary E03 takes E03 exam; temporary CM3 takes CM3 exam. NEC 9920 must reflect in members NSIPS account prior to taking exam otherwise an exam-processing error will result.

(4) Military Requirements for Petty Officer Third and Second Class (NAVEDTRA 14504) and Petty Officer Indoctrination (E4 OSVETS only).

g. Program Failure. The NRA shall release CB(VET) personnel who do not complete program requirements within the 36-month timeframe specified on their enlistment contract, or who demonstrate unsatisfactory performance. Personnel in this status are not eligible for reentry into the CB(VET) program, and are not authorized reenlistment/extension beyond the 36-month mandatory obligation without prior approval from COMNAVRESFORCOM (N1). Battalion COs may submit a request for reenlistment/extension to COMNAVRESFORCOM (N1) with a copy to the local NRA. Required administrative actions upon failure are:

(1) Revert the member to their permanent rating.

(2) Submit EPMAC 1221/2 to remove the NEC 9920.

(3) Transfer the member to the IRR or process for Administrative Separation (as appropriate).

h. Naval Construction Force (NCF) gaining commands will provide the QSB to CB(VET) personnel. Battalion COs will exercise validation authority over training resources used for completing the QSB.

i. Unit COs/OICs are further required to:

(1) Track CB(VET) personnel through a standard Navy Facility (NAVFAC) approved CB(VET) Progress Report.

(2) Submit quarterly Unit Level Progress Reports to their respective Naval Construction Regiment.

(3) Submit Quarterly Individual Level Progress Reports to the member's respective NRA Training Department

(4) Require counseling (mentoring) for their CB(VET) members focusing specifically on steps to complete the CB(VET) Program.

j. All personnel accessed into the CB(VET) Program will sign an Administrative Remarks, (NAVPERS 1070/613) (see appendix A, exhibit 8).

109. Military Obligation Designator (MOD) Assignments. The following MODs are assigned to the personnel in the various programs. Updating and verifying MODs is an instrumental tool used to track and monitor those personnel assigned to specific programs:

MOD 0 - Completed 8-year Obligation

1 - Incomplete 8-year SAM RAMP Option

2 - SAM RAMP Completed HM "A" School

3 - Navy Sea College participant

4 - < 8-year USNR - Enlisting USNR

5 - Not used

6 - Not used

7 - USN Nonprior Service or USNR Prior Service < 8-years Total

8 - Enlisting USNR, Active & Full Time Support (FTS)

9 - Enlisting USNR from Navy Reserve Officer Training Corps (NROTC)

110. Mandatory Drill Code (MDC). Currently suspended for possible use under future program changes. Enter 0 for all personnel.

CHAPTER 2

UNIT/PROGRAM ASSIGNMENTS

201. General. Certain units are designated in Reserve Headquarters System (RHS) as priority for manning to ensure operational or mobilization readiness, or by limiting assignment to local personnel or Cross-Assigned In (CAI) from a like unit. The goal of Reserve unit manning is to assist in maintaining desired readiness levels by directing assignment of Reservists to the vacant billets. Units with a priority code have that priority code listed on their Reserve Unit Assignment Document (RUAD).

202. Priority Manning. NRAs must make every effort to man priority 1A and 1B units to at least 95 percent. Do not involuntarily transfer personnel assigned to a valid billet in a lower priority unit to a priority 1A or 1B unit that is at or above 95 percent. Except for Navy Reserve Force (NRF) ship remote detachments, NRF Explosive Ordnance Disposal Mobile Units (EODMU) and U.S. Marine Corps Units, do not assign Reservists CAI to or CAO of priority 1A or 1B units. The primary method of filling vacancies in priority 1A and 1B units is through new accessions and voluntary transfers. Assign officer and enlisted Naval Reservists as follows:

a. Priority 1A Units. Assignment to priority 1A units takes precedence over all other assignments. Priority 1A units must report vacancies and anticipated losses to supporting echelon IV commands so recruiting and reassignment action can be initiated immediately. Anticipated loss reports may be based on results of reenlistment screening required by MILPERSMAN article 1160-030 or other appropriate reasons. Submit Drilling Reserve Enlisted Vacancy/Anticipated Loss reports (report symbol COMNAVRESFOR 1910-1, see appendix A, exhibit 9). Echelon IV commands will direct transfer and assignment of IAP personnel to vacancies within the NRA.

b. Order members residing within a reasonable commuting distance and who are eligible and qualify for assignment by either exact rate; designator; NEC, or Naval Officer Billet Classification (NOBC) code match, within horizontal RFAS Codes to transfer to vacant billets within the reasonable commuting distance. Terminate the IDT pay assignment of officer and enlisted who decline orders to priority 1A units per paragraph 302a of this instruction.

c. Personnel cannot refuse orders. If the individual fails to report to their new assignment and participation becomes unsatisfactory, the gaining activity will process them for unsatisfactory participation.

203. Special Assignments

a. Diver Qualified Personnel. Assign officers with diving NOBCs and enlisted personnel with diving NECs to Special Warfare (SPECWAR), SEAL, EOD, MDSU, or other units having specific NOBC/NEC requirements for divers. Assign SEAL qualified HMs holding NEC 8492 to SEAL units. If a local billet for the NEC/NOBC is not available, CAO the individual to a billet in a unit listed above.

b. Surface Warfare Officer (SWO) Designation. Assign qualified SWOs to billets that require SWO designation. Do not assign officers to other requirements when local unfilled SWO requirements exist.

204. Submarine Force (Program 1). Locally assign or CAO members qualified in submarines or possessing submarine-related NOBCs or NECs, to submarine program requirements. Do not assign such Reservists to other billets when submarine program vacancies exist.

205. Air Forces (Program 5)

a. Enlisted Aircrew. Assign enlisted personnel to duty involving flying as directed by COMNAVRESFORCOM (N12), except as noted in paragraph 227 of this instruction. Aviation Warfare Systems Operators (AW) are authorized Duty Involving Flying Crew (DIFCREW) status. Issue DIFCREW orders to personnel completing Class "A" School and Reserve Anti-Submarine Warfare (ASW) Training Center Sensor Operator training.

b. Aerospace Designated Officer Assignments. Assign Aerospace designated officers to aviation requirements per COMNAVAIRESINST 3710.4D.

(1) Members must meet medical standards (Medical Service Group) per OPNAVINST 3710.7S.

(2) All 1315/1325 officers and 1515 officers who are designated Naval Aviators or NFOs are eligible for ACIP provided they meet mobilization assignment criteria in BUPERSINST 1001.39D. They must also meet the physical standards in MANMED (NAVMED P117), chapter 15 and the physical readiness standards in OPNAVINST 6110.1G.

(3) Upon initial assignment, officer gains must be entered into NSIPS and accepted into the Inactive Manpower and Personnel Management Information System (IMAPMIS) before NAVPERSCOM (Pers-4911D5) will establish Aviation Commission Date (ACD) and Aviation Service Entry Date (ASED) for ACIP entitlement.

c. Operational Billets. Only assignments to operational billets count towards the months of flying needed to qualify for continuous ACIP at the 12 and 18-year gates. The Chief of Naval Operations (CNO) has designated operational flying assignments as follows:

(1) Designated Officers 1315/1325. All 13XX billets in Reserve Force Squadrons (RESFORONs), C-12/T-39 logistic units, training units providing flight instructor augmentation of Naval Air Training Command and Commander, Carrier Air Wing Reserve 20 (COMCARAIRWINGRES 20) units are operational flying assignments. All other 13XX/RUAD billets are Duty Involving Flying Denied (Duty in a flying status not involving flying) (DIFDEN) regardless of the Assignment Designator appearing on the RUAD.

(2) Designated Officers 21XX (Flight Surgeon). Only Flight Surgeon billets assigned to RESFORONs are operational flying assignments. Flight Surgeon billets in units located at sites not supporting RESFORON aircraft are DIFDEN regardless of assignment designator appearing on the RUAD.

(3) Officers in DIFDEN Status. Per OPNAVINST 3710.7S, officers in a DIFDEN status shall not perform aircrew duties unless waived by competent authority.

d. Flight requirements

(1) Naval aviators who have not served in a DIFOPS position within the past 5 years are not normally approved for pilot billets.

(2) Aviators permanently placed in Medical Service Group II are restricted from carrier operations except in helicopters.

(3) COMNAVRESFORCOM (N12) COMNAVRESFORCOM Force Medical (N00M) and Local Area Coordinators for Air (LACAIR) (NAF/NAS/NAVAIRES COs) may assign Medical Service Group II and III Naval Aviators to a unit.

e. Specific Assignments

(1) VP Squadrons. Prospective pilots and NFOs should be fleet VP qualified. When sufficient fleet VP qualified pilots or NFOs are not available, order-approving authorities must consider Fleet experience, motivation, ability and individual background. Pilots and NFOs with no ASW experience in fleet squadrons or no attendance at formal ASW courses in the past 3 years, must attend Reserve ASW Training Center Officers' ASW Tactical Course, or a comparable course conducted by Fleet Aviation Specialized Operational Training Group Atlantic or Patrol Squadron 30.

(2) VFC/VF/VAQ/VFA Squadrons. Members should have completed operational or jet aircraft training and/or served in similar type fleet squadrons for at least 12 months within the past 5 years. Do not assign pilots with only multiengine propeller experience to VFC/VF/VAQ/VFA squadrons.

(3) VAW Squadrons. Aircrew members should have completed operational training in fleet VAW squadrons or have been assigned to fleet VAW squadrons for at least 12 months. When sufficient fleet VAW qualified aircrew are not available, consider candidates motivation, ability, and individual background.

(4) Helicopter Squadrons

(a) Members should be certified as a naval helicopter pilot.

(b) When certified naval helicopter pilots are not available, COMNAVRESFORCOM (N3A) will consider requests from fixed wing pilots. Fixed wing pilots in this category are not normally assigned to helicopter squadrons when qualified for locally unfilled requirements in fixed wing squadrons.

(c) When assigned to helicopter squadrons, pilots who are not helicopter qualified must perform continuous ADT for transitional training in helicopters until qualified.

206. Fleet Marine Force (FMF) (Programs 5 and 9)

a. Commands issuing orders must comply with COMNAVRESFORINST 1540.10B when they have Reservists attached to Selected Marine Corps Reserve units.

b. Assign all HMs with NEC HM-8404, DTs with NEC DT-8707, and RPs with NEC RP-2401 who reside within a reasonable commuting distance of a NAVRES unit in support of the U.S. Marine Corps to that unit if a local billet exists. Exceptions are as follows:

(1) Members affiliated from AD who completed an overseas FMF tour or deployment within the past 2 years.

(2) Members who have just completed 3 years of Drilling Reserve participation in a program 5 or 9 Selected Marine Corps Reserve support billet and desire transfer to a hospital/clinic unit to enhance their clinical mobilization value.

c. Provide HM and DT personnel with NEC HM-0000/DT-0000 the opportunity to perform IDT with Marine Corps support units and provide training via the Navy Enlisted Classification Code Attainment Program (NECAP) for NEC HM-8404/DT-8707.

d. Encourage members completing 3 years of participation in program 5 or 9 assignments to continue in the program. They should ensure that clinical and in-rate-training skills are kept current through appropriate training with their unit and consolidated training programs with hospital/clinic units.

207. Naval Expeditionary Logistics Support Force (NAVELSF) (Program 6)

a. NAVELSF is an echelon IV activity assigned to COMFLTFORCOM. NAVELSF plans and directs the peacetime training and mobilization readiness of 12 Navy Cargo Handling Battalions (NCHBs) and two Naval Supply Support Battalions (NSSBs) which include supply, transportation and related Naval Supply Systems Command (NAVSUPSYSCOM) Advanced Based Functional Component (ABFC) units. Cross-assign Reservists to fill valid mobilization requirements within a NCHB/NSSB as follows: Headquarter-to-detachment, detachment-to-headquarters, or detachment-to-detachment.

b. Do not cross-assign Reservists between different NCHBs. Cross-assignment of personnel within similar Naval Supply (NAVSUP) ABFC unit types is permitted to support unit manning. Do not cross-assign Reservists between different NAVSUP ABFC unit types.

c. COMNAVRESFORCOM (N122A) is responsible for assigning personnel to Occupational Field (OF)13 and Civil Engineering Corps (CEC) billets in Program 6 units. COMNAVRESFORCOM (N122A) may only cross-assign CEC and OF-13 personnel to program 6 units within the local geographic area.

d. COMNAVELSF Staff officers and E7-E9 enlisted members are chosen by selection boards as follows:

(1) CAPT/CDR National Billet Selection Board.

(2) LCDR and below, E6 through E9. COMNAVELSF Selection Board. LCDR and below staff members may be CAI if they reside outside a reasonable commuting distance. Administratively assign staff member CAI to a unit (within program 6, if possible) located at the NRA closest to their residence. All E5 and below assignments to COMNAVELSF Staff are local assignments and should have no assignment outside a reasonable commuting distance.

208. Construction Forces (Program 7)

a. Mobilization assignments to Construction Force units are restricted to personnel who train with Construction Force units. Other Reserve program units may not cross-assign personnel to Reserve Naval Construction Force (RNCF) (Program 7) units.

b. COMNAVRESFORCOM (N122A) holds total responsibility for processing officer assignment orders to all RNCF units. COMNAVRESFORCOM (N122A) will process all requests for transfer to the IRR from officers in RNCF units. Use the NAVRES 1301/5 to process requests from officers who request transfer from RNCF units to other units. Ensure coordination between affected NRAs.

c. COMNAVRESFORCOM (N122A) has total responsibility for all officer and enlisted billet assignments within RNCF. NRAs will affiliate enlisted personnel and assign them IAP. COMNAVRESFORCOM (N122A) will make the appropriate billet assignment through the Reserve Training Support System (RTSS). If no local vacant billet exists, enlisted personnel in construction ratings may be gained into a local non-RNCF unit that has a valid billet for the member.

d. COMNAVRESFORCOM (N122A) is responsible for the assignment of personnel to Program 46 (construction battalion augment units).

e. Do not make any local assignments to NMCBs, NCFSUs, or CBMUs except where appropriate for CB(Vet) personnel per article 108 of this instruction. Personnel are assigned to a local detachment for administrative purposes and cross-assigned to a billet in the parent NMCB, NCFSU, or CBMU.

f. Assign all nonpay CEC officers and nonpay OF-13 E8 and E9 personnel to a general VTU.

209. Navy Reserve (NR) Telecommunications Program (Program 15). The NR Telecommunications (TELCOM) Program is aligned with the Naval Network Warfare Command (NETWARCOM). The mission of NR TELCOM Program is to provide communications for command and control to naval commands ashore and afloat and to Army, Marine Corps, Coast Guard, and Air Force commands in peacetime and during combat operations. NR TELCOM Program is composed of experienced reserve officer and enlisted personnel from the NR unrestricted and restricted line communities that have specific rate and/or civilian experience in computer hardware/software support, telecommunications, data networking, and information technology. Officer billets are primarily 1605 (Information Professional), although other qualified officers may be assigned. Enlisted rates consist primarily of IT/ET ratings. NR TELCOM Program units support Naval Computer and Telecommunications Area Master Stations (NCTAMS) and associated detachments located throughout the United States and overseas as well as the Naval Network and Space Operations Command (NNSOC) in Dahlgren, Virginia.

210. Security Group (SECGRU) (Program 16). The COMNAVRESFORCOM (N2C) SECGRU Program Coordinator must approve officer and enlisted assignments and cross-assignments to SECGRU units.

211. Intelligence (Program 17)

a. Reserve Intelligence Area Command (RIACs) are the personnel/billet managers for all 1635, 6450 and 7450 officers, IS and support personnel (i.e., Yeoman (YN), Personnelman (PN)) with top secret/sensitive compartmented information clearances assigned within their area of responsibility. RIACs control all 1635, 6450, 7450 and IS assignments to Navy Reserve Intelligence Program (NRIP) units and nonintelligence units. The Office of Naval Intelligence (ONI-14) may restrict assignment to personnel with special qualifications.

b. The unique qualifications and requirements for assignment to NR Defense Attaché 0166 (area experts and linguists), NR ONI 0766 (linguists), and NR ONI 1666 (civil maritime experts), necessitate nation-wide employment of personnel assets. Orders assigning personnel to the above units will specify the local IDT site and include that IDT site as "copy to" on orders. Send IDT documentation to the unit's headquarters at NAF Washington.

c. The unique qualifications and requirements for assignment to NR NICHQ 0170, Commander, Navy Reserve Intelligence Command (COMNAVRESINTCOM) (Staff Support) and NR ONI HQ DET 0170 (RIACs/command chiefs) necessitates personnel assignment from nationwide assets. COMNAVRESFORCOM (N2) will assign personnel residing outside a reasonable commuting distance to a local intelligence unit at the site nearest their residence and CAO to one of the above units. COMNAVRESINTCOM approves NR ONI 0170 assignments. COMNAVRESFORCOM (N2) approves RIAC and command chief assignments. Orders will indicate COMNAVRESINTCOM as regular reporting senior for personnel assigned (local and CAI) to these units.

212. NR Space and Network Warfare Program (SNWP) (Program 18)

a. The NR SNWP is aligned with the Naval Network Warfare Command (NETWARCOM) and tethers together units from across the USNR that have a Space/Intelligence, Surveillance, and Reconnaissance (ISR) focus. The mission of the SNWP is to prepare the Navy to fight and win naval-centric warfare. The SNWP works to produce and integrate space-derived ISR data into Fleet operations and to conduct Information Warfare. The unique professional, technical, work experience and security qualifications (generally a Top Secret/Sensitive Compartmented Information (SCI) Access) necessitate screening of all candidates prior to assignment. The Director, SNWP in conjunction with SNWP unit COs approve all officer and enlisted assignments to SNWP units.

b. Prospective candidates for SNWP unit assignment must meet one or more of the following prerequisites; current civilian, or military experience involving:

(1) Space/ISR data tactical applications (i.e., time critical strike, ballistic missile defense, combat search and rescue)

(2) Space communications, navigation, surveillance, or meteorology systems

(3) Space policy, acquisition, or operations

(4) Information Warfare and/or Information Operations

Note: Officer subspecialty codes of XX46 (Electronic Warfare), XX75 (Space Systems), XX76 (Space Operations), XX77 (Space Engineering) and XX8X (Communications) are highly desirable.

213. Naval Air Systems Command (NAVAIRSYSCOM) (Program 25)

a. COMNAVRESFORCOM (N3A) must approve initial assignment of 11XX, 13XX, or 15XX officers to Naval Air System Program (NAVAIR) units or VTUs. The appropriate NAF/NAS/NAVAIRES/NAVRESCEN will initiate requests for assignment. Send letter requests to COMNAVRESFORCOM (N3A) via COMNAVAIRSYSCOM (Air-09P4). Requests must include a current Navy Reserve Qualification Questionnaire (NRQQ) for Inactive Duty Personnel (NRPC 1200/1 NRQQ) plus any

additional supporting documentation such as a professional resume. COMNAVRESFORCOM will notify requesting activities of final disposition. Initial assignment of direct commissioned 15XX/6XXX officers requires prior approval from the order issuing authority (NAS/NAF/NAVAIRES). Initial assignment of officers with designators other than 11XX/13XX/15XX requires prior approval from the order issuing authority (NAS/NAF/NAVAIRES), provided the assignment is an exact designator match. Upon assignment of approved officers, Reserve activities will forward a copy of IDT orders to COMNAVAIRSYSCOM (Air-09R). Transfer of officers between NAVAIR units does not require COMNAVRESFORCOM approval.

b. Initial assignment of 11XX/13XX officers is normally limited to Lieutenant Commanders (LCDRs) and below. COMNAVRESFORCOM (N3A) may assign 11XX/13XX Commanders (CDRs) to an NAVAIR VTU after they submit their requests to change their designator to 15XX per MILPERSMAN 1212-010. COMNAVRESFORCOM may consider waivers to this policy when a serious shortfall in unit manning exists.

c. Prospective 13XX/1515 candidates for NAVAIR unit assignments must meet the following prerequisites:

(1) Undergraduate (preferably graduate) degree in engineering, physical science, or computer science.

(2) Current civilian or military experience involving aerospace aviation weapon systems or related support systems.

(3) A minimum of 4 years AD experience involving operation, development, acquisition, production, testing, logistics support of aircraft, and air weapon systems.

d. Prospective 1525 candidates for NAVAIR unit assignment must meet the following prerequisites:

(1) Undergraduate (preferably graduate) degree in engineering, computer science, physical science, management, or business;

(2) Current civilian or military experience in systems management, maintenance, or logistics support of aviation weapons systems or related support systems; or

(3) A minimum of 2 years experience at the organizational or intermediate maintenance levels; or

(4) A combination of the prerequisites in paragraphs 213d(2) and (3) above.

e. Prospective 11XX candidates for NAVAIR unit assignment must meet the following prerequisites:

(1) Undergraduate (preferably graduate) degree in engineering, computer science, or physical science;

(2) Current civilian or military experience involving aviation, ship, or submarine weapon systems or related support systems; or

(3) A minimum of 2 years experience involving development, acquisition, production, testing, or logistic support of aircraft, ships or submarine weapon systems, or related support systems; or

(4) A combination of the prerequisites in paragraphs 213e(2) and (3) above.

214. Naval Sea Systems Command (NAVSEASYSCOM) (Program 29)

a. NAVSEAINST 1001.3K governs the qualification of Navy Reserve Engineering Duty (NRED) officers (14X5 designators). NRED officers may have the designators 1445 (Ship Engineering Specialist) and 1465 (in-training for 1445).

(1) Assign all 1445/1465 designated officers and non-14XX designated officers accepted into the NRED Qualification Program (NREDQP) to 14XX requirements. NAVPERSCOM (Pers-812) issues waivers to non-14XX designated officers accepted into the NREDQP so they can fill a 14XX requirement during their time in training for the 1445 designator. Do not assign 1465 officers who have been removed from the NREDQP to 14XX requirements.

(2) If an NRED qualified officer is not available, order-approving authorities may assign an unrestricted line officer that meets the academic requirements of NAVSEAINST 1001.3K to a 14XX billet. When an NRED qualified officer becomes available and is otherwise eligible for assignment to the mobilization requirement, assign the officer as soon as practicable.

b. Fill 1XXX officer requirements with either unrestricted line officers or 14XX designated officers.

c. Fill other officer requirements, which are neither 1000 nor 14XX with officers holding the applicable designator.

215. Supply Systems Command (Program 30). When possible, assign officers commissioned under the NAVRES Supply Corps Direct Commission Program to NAVSUP sponsored units (program 6 or 30) until they satisfactorily complete the Navy Supply Corps Basic Qualification Course. Officers disenrolled from the Basic Qualification Course are not eligible for assignment to 3105 billets.

216. Merchant Marine Reserve (MMR)(Program 31)

a. The MMR Program authorizes participation of MMR officers as either Merchant Marine Individual Ready Reserve Group (MMIRRG) or a Drilling Reservist. The governing directives are OPNAVINST 1534.1B and COMNAVRESFORCOMINST 1534.1B. The Merchant Marine program manager is COMNAVRESFORCOM (N14). The program sponsor is Deputy CNO (N42E). The program technical manager is Military Sealift Command (MSC).

b. Assignment Eligibility

(1) The COMNAVRESFORCOM MMR Program Office (N14) administers MMR officers in the IRR. These officers belong to the MMIRRG. All MMIRRG officers in good standing are eligible to voluntarily participate with NAVRES units to obtain additional training and retirement points. The MMR Program Office issues authorization for this voluntary nonpay IDT participation.

(2) There are 117 billets specifically coded for MMR officer designators within MMR Operational Command Headquarters (MMROCH) units (Program 31) and MSC units (Program 21). These billets are available to 1XXX officers who hold a current U.S. Coast Guard Merchant Marine License.

(3) Drilling Reserve Affiliation. COMNAVRESFORCOM (N14) must approve all accessions of MMR officers to Drilling Reserve or VTU.

217. Medical (Program 32). BUMED has Operational Control of program 32 units. This includes AT, ADT, ADSW requests. Using the Fleet Hospital Units outside of Claimancy 18 must be requested through OPNAV 093. COMNAVRESFORCOM (N01M) has Administrative Control over medical units. Medical personnel are assigned to structured units with optional IDT opportunities.

218. Law (Program 36)

a. The Judge Advocate General (JAG) as required by Title 10 United States Code (USC) 806 (Article 6, Uniform Code of Military Justice (UCMJ)) controls duty assignment of all Reserve JAGs regardless of program. JAGINST 1301.2B publishes the application format and filing deadlines. Request interim billet assignments from COMNAVRESFORCOM (N00J).

b. Assign only fully trained LNs to independent duty assignments, where no supervisory Judge Advocate (2505 designator) officers are attached. Do not make any independent duty LN assignments without prior approval of COMNAVRESFORCOM (N00J).

219. Religious Ministries Program (Program 37)

a. In geographic areas where inter-service training is feasible, NRA COs may authorize Chaplains and RPs to perform IDT at another military installation. Issue appropriate documents (normally in the form of orders) for off-site training.

b. Assign RPs regular duties in direct support of Command Religious Programs. COMNAVRESFORCOM (N01G) approval is required for assignments that result in RPs performing IDT at sites independent of a Chaplain.

220. Naval Science and Technology Reserve Program (Program 38)

a. The Chief of Naval Research (CNR) is the technical manager for the Science and Technology (S&T) Reserve Program (Program 38), which includes billets assigned to the Director, Test and Evaluation and Technology Requirements (CNO N091) (AUIC 00011), the Office of Naval Research (ONR) (AUIC 00014), and the Naval Research Laboratory (NRL) (AUIC 00173). The Program 38 Resource Sponsor is CNO (N091). The Director, Naval Science and Technology Reserve Program (ONR 09R) is the designated representative of the CNR and serves as Program Director and Operational Support Officer (OSO)(RLO) for CNO (N091) to the Director, Navy Reserves (CNO (N095)).

b. There is no specialty established for the management and assignment of either S&T AD or Reserve officer personnel. Most billets are open to all unrestricted line designators. There are specific billets designated for 1800s, 2300s, 13xx, 1510 and 1630 officers to support key S&T programs in tactical oceanography; Chemical, Biological, and Radiological Defense (CBRD); Unmanned Aerial Vehicles; and S&T intelligence respectively. Enlisted billets call for personnel from the HM, YN, CTA, and various aviation ratings.

(1) In general, each Program 38 officer should have a strong technical background to enable effective liaison and management of S&T projects. This includes a technical degree, preferably advanced (M.S. or Ph.D.), and at least 5 years technical work experience to complement their Naval experience. Due to the diverse nature of supported warfare areas and technologies, Reservists may have acceptable knowledge and experience in a wide variety of technical fields; however, qualifying experience must enable a Reservist to be immediately useful in understanding how technologies can be applied to different operational environments. In many cases, program management experience is also highly desired since assignments often include planning and inserting technologies into Fleet/FMF operational arenas.

(2) Security Clearance. Many program 38 officers and enlisted personnel will be assigned to classified projects and must have the proper security clearance. These billets provide vital contributory support requiring Sensitive Compartmented Information (SCI) access. To qualify for assignment to one of the SCI access billets, a current military or civilian sponsored Single Scope Background Investigation (SSBI) for access to Top Secret and SCI is required. Due to the time required to process SSBIs, it is imperative that officers selected for these billets already have a current (5 year) SSBI if they are able to make any contribution to these ongoing projects during their first year in the billets.

(3) Certain billets require participation in various projects and close integration of military and civilian resources with supported commands. The assigned officer must live within daily commuting distance from supported commands and have civilian work flexibility to perform IDT during the week.

(4) A key focus area of Program 38 is CBRD. Medical Service Corps applicants for Program 38 billets specifically designated for 2300 designators must have specific qualifications. Program 38 must obtain MSC officers with the proper expertise and technical experience. This normally requires medical service corps officers with an advanced technical degree and/or civilian experience in such areas as microbiology, biochemistry, toxicology, environmental or physical sciences, and radiation health to complement their naval experience. HMs in Program 38 support CBRD technology demonstrations, exercises, and training. Enlisted personnel will qualify after assignment through On-The-Job Training (OJT) with CBRD technologies and attending various joint service CBRD schools.

(5) Program 38 provides support to the Center for Interdisciplinary Remotely Piloted Aircraft Studies program. Selected billets require officers with 1315 designators. Candidates for these billets must have an FAA pilot certification at the time of billet assignment.

(6) Assignment tenure is 3 years. An optional 1-year extension waiver may apply to selected billets.

221. Selective Service (Program 39). Officers assigned to billets in this program must have prior written approval of the Director, Selective Service System. Assignment tenure is 3 years with an optional 4th year at the request of the Selective Service System.

222. VTU (Program 40). The VTU is used for 2 purposes: to provide qualified personnel the opportunity to drill in a nonpay status and as a holding unit for certain personnel.

a. VTUs provide members in an Active Status (USNR-R, USNR-S1), the opportunity to voluntarily participate in IDT if training is available. Nonpay members must meet assignment eligibility requirements in MILPERSMAN 1100-050. Assignment is to General VTUs or Program VTUs (i.e., SECGRU, CEC, Intelligence, Law, Dental, and Research) only. When requested, assign VTU members ADDU to support other squadrons or units. VTU members must maintain satisfactory IDT participation (at least 40 of 48 scheduled IDT periods per FY) and may request AT and/or ADT if available. Reserve activity COs should task VTU members with direct support roles locally or at other active commands in the area. Vigorous support to Reserve commands and other area commands is an excellent method to establish the basis for a member's EVAL/FITREP, maintain professional currency and enhance potential for future assignment to a pay billet in the case of officer personnel. VTU personnel should also participate in the Navy Reserve Officer Training Program (NROTC) and Naval Junior Reserve Officers Training Corps programs (NJROTC), Naval Sea Cadet Corps (NSCC), and Sea Power Programs. Per paragraph 224 below, VTU members may receive retirement point credit for participation in the NRSE program. COMNAVRESFORINST 5760.2C authorizes nonpay IDT credit for participation in the NSCC program. IDT retirement point credit earned under the NSCC Program counts toward satisfactory participation. Transfer VTU members who fail to maintain satisfactory performance to the IRR per determination of the NRA CO. MILPERSMAN 1100-050 permits assignment of Key Federal Employees who want to participate in IDT to VTUs only. Assign VTU personnel to the NRA closest to their residence. Echelon IV approval is required for assignment to an NRA not closest to their residence.

b. Personnel who are being processed for determination of physical qualification will be assigned to the VTU per paragraph 307.

c. Personnel undergoing administrative board action that could result in retention will be assigned to the General VTU pending resolution of their case per paragraph 307. They are not authorized to drill, and will be assigned AAs.

d. Personnel assigned to VTU are eligible for Servicemembers' Group Life Insurance (SGLI) and Family Servicemembers' Group Life Insurance (FSGLI) coverage (see appendix A, exhibits 10) upon transfer to the VTU.

223. Records Review (Program 44)

a. Transfer personnel undergoing administrative separation processing and who will definitely be separated (i.e., personnel being separated by reason of civil conviction) to the appropriate echelon IV Records Review Unit with an assign the MAS code "AAP." Administrative separations that may result in retention (i.e., unsatisfactory participation, drug abuse, or hardship) assign members to the general VTU pending outcome of separation processing.

b. Records Review personnel are not authorized to drill. Issue AAs until the member is either discharged or cleared for return to drilling status.

c. The NRA will ensure the member signs an Administrative Remarks (NAVPERS 1070/613) entry acknowledging the member's assignment to Records Review (see appendix A, exhibit 11).

d. The NRA will then mail the Administrative Remarks (NAVPERS 1070/613) to last known address. If an enlisted member cannot be located, file the

original Administrative Remarks in the member's service record and continue separation processing. If an officer cannot be located, transfer the member to the IRR and report the action to NAVPERSCOM (Pers-4911) for separation.

e. Personnel authorized to return to IDT status from Records Review status must be affiliated into a pay status through the recruiting process. The NRA must ensure new SGLI and FSGLI (if applicable) election forms are completed.

224. Navy Reserve Support Element (NRSE) (Program 45). Members may be assigned primary or secondary duties in NRSE units and receive retirement point credit. IDT pay is not authorized.

a. NRSE reporting seniors must certify all nonpay IDT periods and submit certification to the parent NRA for proper credit.

b. For Secondary Participation: Modify orders to read:

"In addition to your basic orders, you are authorized secondary additional participation in a nonpay status with (unit) effective (date). Submit your nonpay Inactive Duty Training reports to (Parent Navy Reserve Activity for NRSE unit) via (NRSE reporting senior) for certification and retirement point credit."

225. Navy Reserve Fleet Hospitals (NAVRESFLTHOSP) (Program 46). BUMED has operation control over Program 46 units. This includes AT, ADT, ADSW requests. Using Fleet Hospital Units outside of Claimancy 18 must be requested through OPNAV (093). COMNAVRESFORCOM (N01M) has administrative control over Program 46 units. NAVRESFLTHOSPs are structured with detachment headquarters, detachments, and CBMUs. All billets are maintained at headquarters and all members are cross-assigned.

226. Individual Mobilization Augmentees (IMA). IMAs are assigned to individual mobilization billets identified to augment the active or wartime emergency structure of the Department of Defense (DoD) and other departments or agencies of the government. These billets must be filled on, or shortly after, mobilization. Requirements:

a. Assignment is to a valid mobilization requirement. IMAs are assigned against Drilling Reserve end-strength.

b. Must train with the organization to which assigned.

c. Must perform at least 12 days AT per FY.

d. Perform IDT commensurate with the training required to maintain their required skill levels (0-48 periods of IDT).

e. May not be primarily assigned to the Reserve component or subordinate commands.

f. May not be assigned to vacant AD billet, peacetime only requirements

g. May be formed into detachments to facilitate training or administration.

h. May be assigned outside DoD to fill approved military mobilization requirements with the Coast Guard, Selective Service System, and Federal Emergency Management Agency (FEMA).

i. May be assigned to valid Office of Secretary of Defense, Joint Staff, Secretary of the Navy (SECNAV), and other joint service mobilization requirements.

j. Must maintain satisfactory participation per BUPERSINST 1001.39D.

227. Female Personnel

a. Female Naval Reservists may be affiliated with NAVRES units based on SECNAV authorized assignment policy to counterpart or similar type active forces, with the exception of Reserve units that conduct training where berthing conditions preclude female assignment.

b. Generally, treat women in the same manner as men. Minor differences in administration include discharge policies relating to pregnancy and childbirth, certain differences in matters of discipline and variations in berthing requirements, see MILPERSMAN article 1910 and 1920 for enlisted and officer matters concerning separation.

228. Security Clearances and Special Access Eligibility

a. All officers, CTs and all other enlisted members assigned to mobilization billets requiring access to SCI in the Navy Reserve Security Group (NAVRESSECGRU) Program, must have a Special Background Investigation (SBI) completed within the past 5 years. The Department of the Navy Central Adjudication Facility (DONCAF) must determine if they meet Director Central Intelligence Directives (DCID) 1/14 eligibility requirements for SCI access. Unit COs (Assistant Special Security Officers) must interview candidates for NAVRESSECGRU program units and provide a positive recommendation. Candidates must submit proper SBI investigation forms to the appropriate Program Representative, if required. AD COs may grant appropriate interim clearance levels (Secret, Top Secret) for which individuals may be eligible under SECNAVINST 5510.30A. However, individuals are not authorized access to SCI until a favorable adjudication of an SBI is complete or DONCAF has verified eligibility for access (meet DCID 1/14 standards), and individuals are indoctrinated for SCI. Send all requests for DCID 1/14 standards to DONCAF and authorization to indoctrinate for SCI, based upon eligibility determination from DONCAF, via the program representative.

(1) Assign officers to NAVRESSECGRU program units to fill valid mobilization requirements only after favorable adjudication of an SBI or DONCAF has verified eligibility for access to SCI (meet DCID 1/14 standards). Process cryptologic (161X) officers who do not receive a satisfactory SBI for change of designator or discharge.

(2) CTs and all other enlisted members may request mobilization assignments to NAVRESSECGRU program units if they meet DCID 1/14 standards or program representative review of SBI investigation forms indicates they will eventually meet these standards. Assign temporary rated CTs to NAVRESSECGRU units only. Process CTs (permanent and temporary) who do not receive a satisfactory adjudicated SBI for change of rating per BUPERSINST 1001.39D or for discharge per MILPERSMAN article 1910-130, 1910-132 or 1910-164.

b. All officers, ISs and all other enlisted members assigned to NRIP units or to Navy Reserve Command Intelligence Support (NRCIS) mobilization requirements (i.e., an IS or 1635 requirement in a nonintelligence unit) must have an SBI completed within the past 5 years. DONCAF must determine if they meet DCID 1/14 eligibility requirements for SCI access. Candidates who desire affiliation with NRIP units or assignment to NRCIS requirements must receive a positive recommendation from the local RIAC and submit proper SBI investigative forms to the appropriate Reserve Intelligence Program Office (RIPOs). RIACs may affiliate and assign candidates if they meet DCID 1/14 standards or the RIPO's review of investigative forms indicates they will eventually meet these standards. Active duty COs may grant appropriate clearance levels for which individuals may be eligible under SECNAVINST 5510.30A. Send investigative forms directly to Defense Investigative Service with a copy to Commander, Naval Intelligence Command (COMNAVINTCOM) (NIC-04). The COMNAVINTCOM copy must include 2 copies of a Special Intelligence Eligibility Determination Request (NAVINTCOM 5510/12). The Request for Personnel Security Investigation (DD Form 1879), block 7, must request that SBI results be returned to COMNAVINTCOM (NIC-04). This will allow proper Navy adjudication and recording of SBI results and eligibility for SCI access. Upon completion of the adjudication, COMNAVINTCOM will provide notification of candidates' SBI results/eligibility for SCI access. COs will not grant access to classified or SCI information for individuals assigned to NRIP units or NRCIS requirements unless DONCAF has granted an appropriate clearance.

(1) Process Intelligence (163X) officers who do not receive a satisfactory SBI for change of designator or discharge.

(2) Process ISs (temporary and permanent) who do not receive a satisfactory SBI for change of rating per BUPERSINST 1001.39D or discharge per MILPERSMAN 1910-130, 1910-132, or 1910-164.

c. To the maximum extent possible, assign personnel with SBIs to mobilization requirements requiring SBIs. Do not reassign personnel with SBIs, current or in processing, who are in mobilization assignments requiring SBIs, to billets not requiring SBIs, regardless of unit priority, without concurrence of the appropriate RIAC.

(1) To adequately train for and perform their Strategic Sealift role, MMR, USNR officers shall hold Secret clearances.

(2) All other individuals must obtain proper clearances for their particular rating or mobilization assignment per SECNAVINST 5510.30A and BUPERSINST 1430.16E.

229. Conflict of Interest

a. Do not assign officer and enlisted members to units or billets where either their civilian employment or financial interests could create a conflict of interest per DoD 5500.7-R.

b. When required, Reservists will furnish a Confidential Financial Disclosure (OGE 450).

c. Conflicts within units caused by civilian relationships can affect objectivity within the unit chain of command. Personnel should be screened for past or present business or professional relationships (i.e., employee

and employer, professional and client, vendor and customer) and any family or marital relationship. Husband and wife cannot be in the same unit or under the same reporting senior.

d. Do not assign government employees to a mobilization billet in the office where they are employed as a civilian. Do not use IDT as a continuation of an individual's job. Refer unresolved questions to COMNAVRESFORCOM (N00J).

CHAPTER 3

PERSONNEL ASSIGNMENTS

301. Unit Assignments. The NSIPS RUAD is the official manning document and manpower authorization for all field activities. COMNAVRESFORCOM and echelon IV will use the RHS RUAD to monitor and verify manpower assignments. Echelon Vs will use the NSIPS RUAD to manage assignments to their units. Updates to the RUAD will be transmitted via NSIPS as they occur. Enter Mobilization Billet Assignment and MAS code changes to keep mobilization assignments current. Individual Readiness Assessment Designator (IRAD) are currently not used. Whenever possible, make exact match in the following order NOBC/NEC, designator/rating and paygrade. Assign personnel to mobilization billets in the following priority:

<u>PRIORITY</u>	<u>NOBC/NEC (IF ANY)</u>	<u>DESIGNATOR/ RATING</u>	<u>PAYGRADE</u>
(1)	Match	Match	Match
(2)	Match	Match	RFAS
(3)	Match	RFAS	Match
(4)	Match	RFAS	RFAS
(5)	RFAS	Match	Match
(6)	RFAS	Match	RFAS
(7)	RFAS	RFAS	Match
(8)	RFAS	RFAS	RFAS

302. Inactive Duty Training (IDT) Pay Assignments

a. General. Assign officers, LCDR and below, and enlisted members to unfilled billets at the assigned NRA per the unit allowances on the NSIPS RUAD. If local billets are not available, encourage members to transfer to another activity within 100 miles of the vacant billet.

(1) If member is unwilling to transfer to the vacant activity billet, the NRAs will cross-assign them to a valid vacant billet per the CNRFINST 5320.1C, via their echelon IV command. These cross-assigned personnel do not need to perform IDT with their parent unit every month. This does not apply to personnel assigned to priority 1A and 1B units.

(2) If a member declines such orders, terminate the member's IDT pay orders and transfer to the VTU (member will still have a drill obligation). Make an Administrative Remarks (NAVPERS 1070/613) entry (see appendix A, exhibit 12). "Not recommended for reaffiliation or reenlistment".

(3) Complete transfer EVALS/FITREPS before sending member to the VTU. Include remarks indicating reason(s) for ending assignment and reaffiliation status.

b. Enlisted assignments to mobilization requirements. Reserve activities must use discretion in selecting and assigning members to mobilization billets. Consider all aspects of eligibility, such as recent AD experience and performance, previous IDT performance, compatible civilian occupation, physical fitness, NEC requirements, subspecialties, and mobilization potential.

(1) OSVET, and NAVET members are eligible for assignment in their temporary rate to any NAVRES unit that has appropriate vacancies.

(2) APG, NPS personnel must be assigned to the NPS unit until completion of Phase 4.

(3) Reassign personnel to appropriate billet on the RUAD per CNRFC INST 5320.1C.

(4) If members cannot be assigned using the parameters of paragraph 301 above transfer them to an appropriate activity. If an appropriate activity is not within a reasonable commuting distance from their residence, afford them the following options:

(a) Commute to an NRA of their choice by privately owned conveyance.

(b) Submit request for IDTT Pri-Man program.

(c) Submit a change of rating request per BUPERSINST 1001.39D.

(d) Transfer to the local VTU.

(e) Transfer to the IRR.

(f) Transfer to the Retired Reserve (without pay), if eligible.

(5) Local NRAs must assign personnel with conversion NECs to a billet equivalent to their NEC (i.e., assign a PN2 with conversion NEC of 0199 to a BM2 billet). Local NRAs may assign members to conversion billets pending approval of the rating conversion request. RESCORE-R personnel will be assigned to a billet equivalent to their RESCORE-R rate.

c. Officer Assignments to Mobilization Requirements

(1) Assign best-qualified officers per allowances on the unit RUADs.

(2) Campus Liaison Officers (Blue and Gold officers) may only be affiliated to the VTU, they will not be affiliated to an IDT pay status for the primary purpose of recruiting.

d. Officer/Enlisted Precedence of Assignment. Except for billets with critical designators, SSPs and NOBCs, do not assign a senior officer to a billet requiring a junior officer (CAPT to CDR billet and CDR to LCDR billet, reserve echelon IV commanders have oversight waiver authority). Assign LCDRs and below to any billet for which they are eligible. If all personnel placement criteria considered for assigning individuals to a billet are regarded as equal (i.e., same rate, grade, NEC, NOBC, active service) then use the following precedence in making all pay assignments:

(1) First Precedence. Members who are separated from AD and in less than 6 months they affiliate as a Drilling Reservist.

(2) Second Precedence. Personnel with a drilling obligation (i.e., NPS, APG and AIA).

(3) Third Precedence. Enlisted personnel authorized an enlistment or affiliation bonus and officers receiving incentives under the Health Care Professionals Program, Loan Repayment Program, or Recruitment Bonus Programs.

(4) Fourth Precedence. Personnel from the 1st precedence who have transferred to the IRR and are requesting re-affiliation.

(5) Fifth Precedence. Enlisted personnel having completed 3 years with an NRF Ship or FMF unit who requests assignment to shore duty at a local reserve activity.

e. Assignment of CAPTs and CDRs to noncommand billets. Normal assignment to CAPT and CDR requirements is limited to a maximum of 36 months. COMNAVRESFORCOM may grant yearly extensions not to exceed 4 years. The activity responsible for administrative support will ensure NSIPS Projected Rotation Date (PRD) entry. Refer to current FY COMNAVRESFORCOMNOTE 5400 for CAPT/CDR noncommand billet screening and detailing procedures.

(1) Assignment to CAPT and CDR requirements is determined by formal board action. COMNAVRESFORCOM will convene the Apply board specifically for screening officers for assignment to CAPT and CDR billets. Assignments are made from nominees and alternates recommended by the board. When practical, conduct assignment screening with other regularly scheduled selection boards. Incorporate the same composition and application procedures.

(2) Determine tour assignment and PRD from the date of initial assignment to a billet (not the date the officer was assigned to the unit) to allow Executive Officer (XO) to CO progression within the same unit.

(3) Announce CAPT and CDR vacancies in advance. Include noncommand vacancies in annual vacancy Apply program. Stagger CAPT and CDR PRDs to ensure that approximately one third of the total available CAPT and CDR requirements become available annually.

303. Assignment Substitution Policy

a. General. Since exact rate or grade/designator matches are not always possible, unit assignment documents provide RFAS codes that identify allowable substitutions.

b. RFAS Codes. Tables of authorized RFAS codes are in COMNAVRESFORINST 5320.1C. Forward requests to change RFAS codes for specific mobilization requirements on RUADs via/from gaining command, to COMNAVRESFORCOM (N12/N13).

304. Unit Assignment Waivers. Request an assignment waiver for both officer and enlisted personnel when a critical need exists for an individual's mobilization skills. Waivers must be in the correct format (see appendix A, exhibit 13).

a. Officers. Assign junior officers to mobilization requirements equal to their grade unless a waiver is authorized.

(1) Grade Waivers. Units will submit requests to the echelon IV or Wing for approval via the chain of command including their AD gaining command. Process grade waivers from echelon V commands as required. Waiver approving authorities must closely examine all waiver requests and rigorously apply the following criteria:

(a) Requesting activities will continue to seek exact matches for overgrade assignments.

(b) Member requesting a waiver must be the best choice for the assignment.

(c) Advise overgrade personnel that they may lose their billet if an officer in the proper grade becomes available.

(d) No waivers will be approved if other qualified officers are available for assignment within a reasonable commuting distance. Conduct liaison between co-located air and surface activities.

(e) Overgrade assignments must not create an unacceptable grade inversion at supported commands.

(f) Vacant mobilization billets must not be the only justification for waiver.

(g) Grade waivers for command vacancies must be submitted to COMNAVRESFORCOM.

(2) Designator Waivers. Submit waiver requests to COMNAVRESFORCOM (N12) via the administrative chain of command. Requests shall state those areas of experience and education that qualify applicants for the vacant mobilization billets. Designators listed on the assignment documents represent required mobilization skills. Waivers permit officers with appropriate skills to fill valid mobilization requirements. Do not submit designator waiver requests for staff corps officers.

(3) NOBC Waivers. Submit requests for waiver of essential NOBC requirements to COMNAVRESFORCOM (N12), as appropriate.

b. Enlisted. Submit enlisted waiver requests, via the administrative chain of command to COMNAVRESFORCOM (N12). NRF ships, Naval Coastal Warfare Group (NCWGRU)/MIUWU/IBU/HDCU, and RESFORONs forward waivers via the appropriate NAVRESREDCOM, Group or Wing. Requests must certify nonavailability of qualified personnel eligible for assignment to the billet. Waivers expire per waiver approval letter. For NRF Pri-crew units, waivers will expire at the member's PRD.

305. Cross-Assignments. All reservists in a pay status must fill a mobilization requirement. Since demographics preclude local assignment at every activity, individuals may fill mobilization requirements by cross-assignment.

a. Place cross-assigned individuals in local units that can provide training for their mobilization billets.

b. Cross-assignments are not authorized for the following:

(1) CAPTs and CDRs (except medical community)

(2) Units with a priority designation in RHS, unless specifically authorized in this instruction.

(3) VTUs.

(4) Intelligence units (Program 17) without approval from COMNAVRESINTCOM N1.

(5) SECGRU units (Program 16) without approval from the NAVRESSECGRU Program Manager.

c. COMNAVRESFORCOM may authorize waivers when required to provide assignment of personnel to commissioned Reserve units with specific skills and experience.

d. Qualified members available locally may displace members CAI (within RFAS substitution criteria) when no other local unfilled requirement is available. COMNAVRESFORCOM may issue more restrictive guidance to achieve billet stability.

306. In Assignment Processing (IAP)

a. Retention in Pay Status. Personnel must fill an authorized manpower requirement to remain in a pay status. Echelon IVs and Vs must aggressively pursue billet assignments, including cross assignments, to ensure personnel are not in an IAP status indefinitely.

b. Exceptions. Personnel in the following categories may be retained in pay status, regardless of billet assignment, provided the total number of personnel in an IAP status NAVRES-wide does not exceed CNO (N095) established limits.

(1) Officers receiving incentives under the Health Care Professionals Program.

(2) Direct Commission Officers and Limited Duty Officers (LDO)/Chief Warrant Officers (CWO). Assign to mobilization requirements upon commissioning. Detail to billets currently filled by overgrade waiver assignments. Continue to pursue mobilization billet assignment do not retain in IAP status for more than 3 years from commissioning.

(3) Enlisted personnel receiving a bonus.

(4) Enlisted personnel in ECMO category A or B. Includes personnel with a change-of-rate/RESCORE-R conversion NEC. Detail to billets currently filled by overgrade waiver assignments.

(5) Unless otherwise designated by COMNAVRESFORCOM policy.

307. Personnel Undergoing Administrative/Medical Processing

a. Personnel who have been found Not Physically Qualified (NPQ) by BUMED/BUPERS and who elect a Physical Evaluation Board (PEB), will be transferred to the General VTU per paragraph 222 above, and assigned AAs. Complete Administrative Remarks (NAVPERS 1070/613) (see appendix A, exhibit 14)

b. Personnel who are Unsatisfactory Participants undergoing Administrative Separation processing will be assigned to the General VTU and will be assigned AAs.

c. Assign personnel undergoing Administrative Separation processing and who will definitely be separated (i.e., personnel being separated by reason of civil conviction) to the appropriate echelon IV Records Review Unit per paragraph 223 above.

d. Submit a Detachment of Individual EVAL/FITREP upon member's assignment to the VTU/Records Review. Submit a Not Observed (NOB) Detachment of Individual EVAL/FITREP if a member is returned to IDT status as appropriate per BUPERSINST 1610.10.

e. Personnel transferred to the VTU and ultimately retained are eligible for accession back to pay status via the recruiting process discussed in chapter 1.

CHAPTER 4TRANSFERS/TERMINATIONS401. Officer Transfers

a. Losing activities will use the Reserve Officer Request for Transfer/Termination (NAVRES 1301/5) to initiate officer transfer requests between NAVRES units or between billet requirements in the same unit. Mail an endorsed copy of the NAVRES 1301/5 to the member. Transfer officers without assignments to vacant billets at another NRA if within a reasonable commuting distance. Transfer officers who refuse such assignment to the IRR, "Not Recommended for Reaffiliation" per paragraph 302.a.2. Upon transfer or discharge, print an IDT history review and file in the personal IDT folder prior to mailing the folder to the member. Forward the member's health records to Department Veteran Administration, Service Medical Record Center, PO Box 150950, St. Louis, MO. 63115-8950.

b. Do not transfer officers approved for "In-training status" to another mobilization assignment until approved by NAVPERSCOM (Pers-4912).

c. Modify IDT orders when:

(1) Supported command deletes mobilization requirements and the displaced officer cannot be reassigned within allowances.

(2) A waiver expires. Do not delay transfer pending action on waiver requests.

(3) Command/billet tenure expires.

(4) Members did not change designator or "In-training status" expires.

(5) Members are found TNPQ or NPQ (Refer to chapter 12).

d. Transfers between squadrons/units at the same location.

(1) Reserve echelon III/IVs may authorize officer transfers only when the following criteria are met:

(a) The gaining activity's order approving authority approves the transfer. The CO of the losing command, if a commissioned unit, must also approve the transfer.

(b) The officer is eligible for the new assignment.

(2) Forward copies of the officer transfer orders to:

(a) Military Personnel Management Branch, NAVPERSCOM (Pers-313C).

(b) Losing and gaining unit's and supporting NRAs.

(c) NAVAIRSYSCOM (AIR-09R4) (NAVAIR officers only)

(d) NAVSEASYSYSCOM (CHENG/NR1) (Sea Systems Program officers only).

(e) Any special distribution listed on the NAVRES 1301/5.

(3) Local officer transfers will direct officers to report to CO/OIC of their new unit. Examples:

(a) "...Modified as indicated below, effective 2 July 2004, report to CO, VA 999 at NAS JRB Willow Grove for IDT. ACIP authorized for DIFOPS."

(b) "...Modified as indicated below, effective 2 July 2004, report to CO, VTU 9999 at NAVMARCORESCEN Milwaukee, Wisconsin for IDT in a nonpay status."

(4) All orders must indicate the physical location of the permanent IDT site, (i.e., "at NAVRESCEN, Fargo, North Dakota") or the supported command if that is where the majority (more than 50 percent) of the IDTs are performed.

(5) Air sites are NOT authorized to transfer Reserve unit COs, unless specifically directed by COMNAVRESFORCOM. When authorizing the transfer of a Reserve Unit CO, ensure the order modification contains the statements shown below:

(a) "Reference (), which designated you as the Commanding Officer of (UNIT) is canceled effective (DATE) due to (REASON) (i.e., expiration of command tenure, expiration of waiver, etc.)."

(b) "This action requires detachment of reporting senior FITREP."

(6) When officers are selected for command, modify their orders as follows:

(a) "You are assigned as Commanding Officer/Officer in Charge (AS APPROPRIATE), of (UNIT NAME) for inactive duty training in a pay status and Additional Duty to (ASSIGNED ECHELON IV COMMAND). Reporting senior is (SUPPORTING COMMAND COMMANDER/COMMANDING OFFICER)."

(b) If applicable: "Upon assumption of command you will report by letter to (REPORTING SENIOR)."

e. Transfers between stations. Officers must provide advance notice of expected transfers to losing activities to establish a transfer date and avoid interruption of drill status. Upon receipt of signed transfer orders the losing activity must complete the NSIPS check out procedure.

(1) Attach a copy of current NRQQ for Inactive Duty Personnel (NRPCC 1200/1) to transfer requests.

(2) If losing activities fail to process transfer requests, gaining activities may initiate a NAVRES 1301/5 only after notifying the losing activity.

(3) The gaining echelon IV will act on the NAVRES 1301/5 based on available billets and the officer's qualifications. Order approving authorities will use the NAVRES 1301/5 to prepare an order modification on a NAVRES 1321/2 as necessary.

(4) The gaining echelon IV should fax the approved NAVRES 1301/5 to the losing NRA. Upon receipt of NAVRES 1301/5 the losing NRA will generate

an NSIPS check out. They will also complete a FITREP and forward the member's personal records (i.e., IDT folder, health, dental and any other personnel records) to the gaining NRA.

f. Transfers to the IRR. Members must request transfer to the IRR in writing. The local NRA may approve transfers to the IRR for officers without a drilling obligation. The unit CO must interview the requesting officer to determine the reason(s) for transfer. Do not transfer medical personnel without verification of obligation. Do not transfer a member in a TNPQ or NPQ status, refer to chapter 12. Approve transfers when:

- (1) Requested in writing by the member.
- (2) Required by law or regulation.
- (3) A mobilization billet is unavailable.
- (4) Directed by higher authority.
- (5) An officer in an incentive program requests period of non-availability.

g. Transfers to Standby Reserve. NAVRES Officer Status Branch, NAVPERSCOM (Pers-4911) must approve officer transfers to the Standby Reserve. Initiate transfer requests when:

- (1) An officer is designated a Key Federal Employee per BUPERSINST 1001.39D.
- (2) An officer enters a recognized school of theology/seminary per BUPERSINST 1001.39D.
- (3) An officer in an incentive program requests period of non-availability.
- (4) Otherwise required by law or regulation.
- (5) Directed by higher authority.

402. Enlisted Transfers

a. Comply with all applicable directives when transferring enlisted personnel between units in the same geographic area. Transfer personnel between units at the same NRA using Enlisted Application and Orders to Navy Reserve Unit Termination/Modification (NAVRES 1326/2). For transfers outside of the local area use Enlisted Application and Orders to a Navy Reserve Unit (Non-Obligor)(NAVPERS 1326/4). Do not transfer unsatisfactory participants between units unless the gaining activity agrees to accept them. Failure to follow these procedures could adversely impact a member's drilling status. Refer to chapter 12 of this instruction for members who are TNPQ or NPQ.

b. Enlisted transfers between units within a reasonable commuting distance. Submit enlisted transfer requests between squadrons/ships and augment units to the gaining activity via the losing activity. The losing activity will recommend approval/disapproval and attach a copy of the member's IDT history review to the request.

(1) Losing activities will:

(a) Retain a copy of the IDT history review in the unit IDT accounting folder.

(b) Ensure all IDT periods have been adjudicated and provide a copy of member's IDT history review to the gaining command.

(c) Upon transfer print an IDT history review, and file in the personal IDT folder. Forward the personal IDT folder, service, health, and dental records to the gaining command.

(2) Gaining activities must prepare a NAVRES 1326/2 or NAVRES 1326/4

c. Transfers between units outside a reasonable commuting distance.

(1) The gaining activity must receive the IDT history review, before issuing orders.

(2) Reservists are responsible for informing the losing activity of expected transfers.

(3) A transfer date must provide the NRA with sufficient lead-time to prevent interruption of the member's drilling status.

d. Reasonable commuting distance is defined in BUPERSINST 1001.39D, paragraph 405.3. Members who agree to perform IDT outside the reasonable commuting distance must complete an Administrative Remarks, (NAVPERS 1070/613) entry. (See appendix A, exhibit 15).

e. The gaining command should fax the approved NAVRES 1326/2 or NAVRES 1326/4 to the losing NRA. Upon receipt of NAVRES 1326/2 or NAVRES 1326/4 the losing NRA will generate an NSIPS check out. They will also complete an EVAL/FITREP and forward the member's personnel records (i.e. IDT folder, health, dental and service record) to the gaining NRA. Direct liaison between gaining and losing activities is required to ensure smooth transition.

f. Transfers to the IRR. Specific policies and procedures are contained in chapter 4 of BUPERSINST 1001.39D.

(1) Process APG/AIA/NPS personnel who have not completed their initial 8-year Military Service Obligation (MSO) per BUPERSINST 1001.39D. Nonprior service members must complete 84 days (2 IDTs equal 1 day of training) of training before they are eligible for transfer to the IRR.

(2) Upon a member's request, the local NRA may transfer personnel with a temporary rating (NAVET, OSVET, RESCORE-R, and CB(VET)) to the IRR. Prior to transfer submit EMPAC form 1221/3 requesting removal of conversion NECs and revert the member to their permanent rating.

(3) For members with 9 or more "Us". The NRA CO will determine if the member has any potential for future mobilization. Once a determination has been made, either place member on 6-months probation per BUPERSINST 1001.39D or transfer member to the VTU pending administrative separation.

(4) Transfer member using NSIPS.

(5) Forward service records to Commanding Officer, Naval Reserve Personnel Center (N312), New Orleans La 70149-7800, health and dental records are mailed to Department of Veteran's Affairs, Service Medical Records Center, P.O. Box 150950, St. Louis, MO 63115-8950.

(6) Members approved for transfer to the IRR because of unreasonable commuting distance must sign a NAVPERS 1070/613 entry (see appendix A, exhibit 16).

403. PRD for Enlisted Drilling Reserve Personnel

a. Establish 3-year PRDs for all enlisted members from the date assigned to the unit. After 3 years, NRF/FMF members may request reassignment to shore duty units for 2 years. Do not involuntarily assign members to NRF or FMF units during this 2-year period.

b. NRF and FMF units will compute PRDs per BUPERSINST 1001.39D and enter the PRD into NSIPS. Terminate the drilling reserve assignment of personnel who refuse orders. Send service, health, and dental records to appropriate activities.

c. Upon completing 3 years with NRF or FMF units members may request a PRD extension. They may also request transfer to a mobilization billet at an NRA within a reasonable commuting distance of their home. Upon completion of 2 years of shore duty, members are eligible for reassignment to NRF or FMF.

404. PRD for Officer Drilling Reserve Personnel

a. Establish 3-year PRDs for senior officers (05/06) selected to non-command billets by the national board effective 1 October of the next FY.

b. Establish 2-year PRDs for officers selected to command billets by the national board effective 1 October of the next FY.

c. Establish 3-year PRDs for junior officers in noncommand billets.

405. Officer Assignment Terminations

a. Terminate assignments as follows:

(1) When participation becomes unsatisfactory, orders must state "Not Recommended for Reaffiliation" unless waived by competent order issuing authority. Reaffiliation requires written approval from echelon III.

(2) When required by COMNAVRESFORCOM assignment policy.

(3) With an approved termination request. Indicate reason for transfer and officer's future affiliation plans on termination order.

(4) When promotion is declined. Do not assign officers who decline promotion to any Reserve unit, pay or nonpay.

b. Special Cases. Assignment termination is authorized for the following reasons:

(1) Documented substandard performance per SECNAVINST 1920.6B.

- (2) Failure to submit a NRQQ for Inactive Duty Personnel.
- (3) Failure to acknowledge official correspondence.
- (4) Failure to complete a required physical examination.
- (5) Failure to qualify in a warfare specialty or NOBC required by assignment.
- (6) Any other documented reason deemed appropriate by echelon IV or higher authority.

c. Procedures

(1) The losing unit will submit assignment/termination requests on a NAVRES 1301/5.

(2) Counsel members on ramifications of transfer.

(3) Forward a copy of transfer/termination orders to NAVPERSCOM (Pers-313C). Assignment termination requests will include:

(a) Reason for termination (explanation).

(b) Recommendation for future affiliation.

406. Enlisted Assignment Terminations. Refer to BUPERSINST 1001.39D chapter 4. Terminate assignment of personnel when deemed appropriate by the echelon V or at the member's request.

407. Members Ordered to AD, ADSW, or Voluntary Recall to AD

a. Officers (LCDR and below) and enlisted personnel assigned in an IDT pay status and who are ordered to AD or ADSW for 179 days or less will remain assigned to their present unit

b. Transfer officers (LCDR and below) and enlisted personnel assigned in an IDT pay status, who are ordered to AD or ADSW for 180 days or more (consecutive or nonconsecutive) **in a progressive 12 month period**, to the VTU. The effective date of assignment is the 180th day of AD or ADSW. A NAVPERS 1070/613 will be completed acknowledging VTU transfer requirement (see appendix A, exhibit 17)

c. Transfer CAPTs and CDRs who are ordered to AD or ADSW to the VTU upon completion of 90 days of AD or ADSW. Upon completion of AD or ADSW they may apply for a pay billet through the screening board process as discussed in chapter 3. They may request waivers of the VTU transfer requirement from COMNAVRESFORCOM (N12) prior to commencement of AD or ADSW.

d. Personnel who were transferred to the VTU/IRR because of voluntary orders to AD or ADSW must go through the recruiting process contained in Chapter 1.

e. Personnel in a nonpay status who receive voluntary AD or ADSW orders will return to nonpay status (VTU/IRR) upon completion of orders.

408. Members Mobilized. Personnel involuntarily ordered to AD will remain assigned to their present billet. If the member's unit/billet is disestablished or moved, the member should be assigned to an appropriate vacant pay billet. When a local vacant pay billet does not exist, cross-assign the member per current policy. When a billet assignment cannot be made through any of the above means, the member may remain IAP for up to 1 year (member will remain in unit until he/she returns from mobilization).

409. Retroactive Transfers/Terminations. Issue officer and enlisted orders sufficiently in advance to avoid retroactive transfers/terminations. The following exceptions apply:

- a. Received by another Reserve unit, transfer date is NSIPS generated.
- b. Death. Date of death is loss date.
- c. Chief of Naval Personnel (CHNAVPERS) or COMNAVRESFORCOM directs retroactive transfer/termination.

CHAPTER 5COMMAND OF RESERVE UNITS501. General

a. COMNAVRESFORCOM approves and appoints officers to command all Drilling Reserve units except officers in command of units specifically detailed by CHNAVPERs or OICs for Medical programs 32 and 46 and squadrons. The authority to approve and appoint officers to command VTUs is delegated to the appropriate echelon IV.

b. This chapter applies to COs, OICs, and Drilling Reserve Coordinators.

c. The unit CO is normally the senior officer assigned or detailed by competent authority. Unit COs have precedence over all personnel attached to the command regardless of rank or corps. Waivers of this requirement require COMNAVRESFORCOM approval. The unit COs for programs 32 and 46 will select their OICs by board process as determined by their Region.

d. The unit XO, if assigned, is normally the next senior officer eligible to succeed in command. Unit XOs have precedence over all other personnel under the CO.

e. Except those individuals serving in a temporary or acting appointment, selection to command is by formal board action. Selection boards convened to review command nominations are announced in advance. Billets vacated during the course of the FY will be filled by Officers nominated by echelon IV staffs for interim assignment and approved by COMNAVRESFORCOM. The tenure of officers serving on an interim basis will be for the remainder of the FY.

f. MILPERSMAN article 1210-180 authorizes the wear of the Command Ashore Insignia by inactive duty COs of the following NAVRES commands:

- (1) Naval Construction Regiments (1st, 3rd, 7th, 8th, 9th only)
- (2) NMCBs
- (3) Naval Construction Forces Support Units
- (4) Cargo Handling Battalion
- (5) Mobile Inshore Undersea Warfare Units (MIUWU)
- (6) Fourth Dental Battalion
- (7) Fourth Medical Battalion
- (8) NAVRESFLTHOSP

g. Assignment in the following categories does not confer eligibility for the Command Ashore Insignia:

- (1) Officers temporarily in command.
- (2) Officers who were removed from command for cause.
- (3) Officers assigned in a billet designated OIC.

502. Maximum Tenure Guidelines. The following guidelines govern maximum tenure in command. Tenure less than the maximum allowed should not imply poor performance or lack of ability. Do not reassign former COs to other positions within the unit without an approved waiver from COMNAVRESFORCOM.

a. Officers may not hold command longer than 4 years in any one paygrade unless extended per paragraph 502d below. Time served by an officer in an interim assignment does not counted towards total command tenure.

b. Command of nonpay units does not count against command tenure.

c. Assignment as CO, OIC not to include Medical Units (Program 32 and 46) or assignment as the Drilling Reserve coordinator in NRF units is considered "command" for computing command tenure.

d. Normally an officer may not command the same unit for more than 2 years, with the exception of VTU (3 years). In exceptional cases COMNAVRESFORCOM may grant a 1-year extension of command tour when there are no other qualified officers available. (See appendix A, exhibit 13)

e. When command assignment is completed, transfer CAPTs and CDRs to nonpay unless selected to another mobilization billet. Assign LCDRs and below to vacant mobilization billets.

503. Qualifications and Prerequisites for Command

a. General. Officers considered for command must meet the following criteria before selection:

(1) Be in the proper corps or community and possess the proper designator for the type of command under consideration; or

(a) Be in an "In-training" status for the proper designator; or

(b) Have a waiver approved by competent authority.

(2) Meet, or be eligible to meet, the skill requirements of the mobilization assignment, or meet specific mobilization substitution criteria.

(3) Will not exceed age-in-grade restrictions per BUPERSINST 1001.39D.

(4) Will not exceed paygrade command tenure restrictions.

(5) Meet CHNAVPERS command screening criteria (if pertinent).

(6) Not be in a selected for promotion status which creates an overgrade situation.

b. Program Requirements

(1) Military Sealift Command (MSC)

(a) Required

1. Served in at least one MSC Reserve unit.

2. JCS/MSC exercise experience.

(b) Preferable

1. NOBC 9471 (MSCO XO) or NOBC 9421 (Shore Activity CO) or NOBC 9436 (Shore Activity XO).

2. Significant active military or civilian MSC experience.

(c) Submit waivers of the above requirements to COMNAVRESFORCOM (N12) via Commander, MSC (N00R) and the affected area commander.

(d) Supported commands may provide written billet profile information as direct correspondence to screening board presidents.

(2) Naval Control of Shipping (NCOS)

(a) Required: Primary NOBC 9424 (NCOS Officer)

(b) Preferable: Secondary NOBC 9019 (Convoy Commodore Staff Officer)

(3) Intelligence Program Requirements

(a) Restricted line officer with a 1635 designator or a LDO with a 6455 designator.

(b) Meet professional requirements in COMNAVRESINTCOMINST 5400.5L.

(4) Cargo Handling/Supply Systems Programs

(a) Requirements: Supply Corps officer with a 3105 designator or have a valid waiver.

(b) Submit waiver requests to COMNAVRESFORCOM (N12).

(5) Sea Systems Program: COMNAVSEASYS COM (CHENG/NR1) may review and comment on candidate qualifications prior to final approval.

(6) Public Affairs

(a) 1655 officers are detailed by the public affairs community manager for COMNAVPERSCOM.

(7) Naval Security Group Reserve. Refer to CNSGRINST 5400.5C, selection of Drilling Reserve CO and for NAVRES augment unit COs or senior officers.

(8) Naval Coastal Warfare Group

(a) Requirements for unit command:

1. Qualified in warfare specialty.

(9) Merchant Marine Reserve Officer

(a) Requirements:

1. Restricted line officer with 16XX designator.
2. Line officer designator 1XXX with a U.S. Coast Guard Merchant Marine unlimited license.
3. Possess an NOBC of 9050.

(b) CNO (N42E) may comment on the qualifications of a candidate before final approval.

(10) Space Warfare System Program: Commander, Space Warfare Systems Command (SPAWAR 18-R/09R) may comment on candidate qualifications before final approval (except Naval Space Reserve Program units).

(11) JAG Program requirements

- (a) 2505 designator.
- (b) Certification per 10 U.S. Code 827(b) (article 27b, UCMJ).
- (c) Recommendation per 10 U.S. Code 806 (article 6, UCMJ).

(12) Operational Health Support Units (OHSU) requirements

- (a) Medical Corps officer.
- (b) Possess an NOBC of 9421.
- (c) Professional requirements per COMNAVRESFORCOMNOTE 5400.

(13) SNWP (Program 18)

- (a) Prior service with at least one SNWP unit.
- (b) Experience in working with the gaining command to be supported in a military or civilian capacity.
- (c) Satisfy the special technical qualifications, work experience and security requirements called for in the board precepts or gaining command billet requirements.
- (d) Possess an NOBC of 2098 (space project technologist) or 5930 (space requirements analyst).

504. Command Screening Procedures

a. COMNAVRESFORCOMNOTE 5400 contains specific guidance for program unit command and senior officer (CAPT/CDR) noncommand billets. U.S. Navy supporting command OSO may update billet profile information directly into the Apply Program via the COMNAVRESFORCOM website for the screening board presidents. This profile should describe specific desirable or necessary qualities of the type of individual best suited to meet the active Navy command's requirements. Screening boards will reject any specific individual nominations for billets. This does not preclude third party correspondence submitted via the member with the member's application.

b. Boards convened to nominate reserve officers for command should represent a significant cross section of senior officer professional skills. Members will not be in competition for, nor have applied for, command billets under consideration during that FY. Do not assign inactive duty Reservists having past or present civilian business relationships (i.e., employer/employee, professional/client, vendor/customer, or any family or marital relationship) with any officer under consideration for command.

505. CO and XO Selection for RESFORONs. See COMNAVAIRES directives web page for current policy.

506. Selection for Command Billets of Construction Force. NAVFACENGCOM and COMNAVRESFORCOM establish PRDs for all command and senior officers. Billets are advertised, screened, and detailed per COMNAVRESFORCOMNOTE 5400. COMNAVRESFORCOM will provide an opportunity for comment and review of all recommendations prior to COMNAVRESFORCOM approval.

507. Selection for Reserve Intelligence Area Command (RIAC). Procedures are in COMNAVRESINTCOMINST 5400.5K.

508. Selection for Command of Operational Health Support Units OHSU (program 32). Detachment OIC positions are not assigned via the APPLY board. This is a collateral duty determined by selection process conducted by the Active Duty OHSU CO and the CO of the NR OHSU Headquarters detachment.

CHAPTER 6IDT PARTICIPATION REQUIREMENTS

601. Acknowledgment of Performance Requirements. Reservists acknowledge their understanding of the Navy's policy concerning IDT by signing a Satisfactory Participation Requirements/Record of Unexcused Absences (NAVRES 1570/2). This includes attendance, notification of absences, and procedures to take for missed IDT periods.

602. IDT Scheduling. The following responsibilities, policies, and considerations apply:

a. Reserve units will work with the supporting NRA to establish, in advance for the upcoming FY, dates and times for the normal IDT weekend. Schedule IDT periods using the following format:

- (1) Unit training plans.
- (2) Plans of the month.
- (3) IDT plans.

b. Verbal changes to IDT schedules must be documented. When changes occur during an IDT weekend, annotate changes in the remarks column of the Inactive Duty Training (IDT) Participation Record (NAVRES 1570/21). When changes occur outside IDT weekends, Rescheduled (RS) authorization (verbal or in writing; as local policy dictates) must be received by the NRA before the RS period is performed. The authorization must include the date(s) the IDT(s) were originally scheduled and the location where the IDT periods will be performed. When the RS authorization is recorded in NSIPS, an Individual Inactive Duty Training (IDT) Participation Record (IPR) (NAVRES 1570/22) is produced. The form must be annotated to reflect the authorization (i.e., attached faxed memo or annotate telephone authorization). The date of the Individual IPR (NAVRES 1570/22) (determined by the NSIPS program) is not to be misinterpreted as the date of the authorization for an RS IDT period; it is only the date the schedule change was recorded in NSIPS. In all cases, notify the supporting NRA of unit/personnel IDT schedules and changes to prevent recording unexcused absences. Use the NSIPS generated Individual IPR (NAVRES 1570/22), however to facilitate unavoidable short notice IDT scheduling changes a hand written IPR may be used. This must be an exception and not the rule. **In all cases, the NRA must receive authorization before the IDT periods are performed.**

c. When scheduling unit and individual regular IDT:

(1) Do not permit administrative procedures or legislative conflicts to inhibit performance of operational support. Common sense (meeting intent of regulations) is paramount.

(2) Do not exceed FY IDT pay limits.

(3) Do not jeopardize the member's ability to earn qualifying service for a satisfactory year during the anniversary year.

(4) Ensure satisfactory participation standards are met.

(5) Schedule training into a comprehensive plan built on, but not limited to, regular weekly, monthly or quarterly IDT/IDTT periods.

d. Reschedule training to meet Navy requirements only. RS IDT must be within a reasonable commuting distance. Commands are authorized to direct performance of RS IDT periods to:

(1) Take advantage of emergent training opportunities, including IDTT evolutions.

(2) Resolve conflicts with AT/ADT.

(3) Accommodate nonavailability of training resulting from schedule changes, equipment breakdown or when access to sites is impossible due to adverse weather conditions (i.e., flood, heavy snowfall, etc.), civil disturbances or increased threat condition (THREATCON) levels.

e. Chaplains must maintain ecclesiastical endorsements, dictated by their faith group, to keep their commission. All efforts should be made to schedule IDT periods to enhance training while permitting chaplains to meet necessary ecclesiastical endorsement requirements.

603. Missed IDT Periods. Individuals miss regular IDT periods for a variety of reasons. Reasons to excuse absences on the day they occur include: Sick-ness, injury or other circumstances beyond a member's reasonable control. It is the member's responsibility to contact the unit or parent Reserve activity when absent from IDT periods before the end of the IDT period(s)/weekend.

The unit should contact the member if the member fails to contact the unit. COs will make one of the following determinations by close of an IDT weekend in all cases concerning missed IDT periods:

a. RS IDTs. Unit COs may RS the IDT if there is a valid Navy mission or training opportunities that can be accomplished. RS of the IDTs must be for the needs of the Navy. RS IDT periods may not be scheduled after the fact. Commands can direct/document scheduling of RS IDT via training schedules, plan of the month, IDT plans or if done verbally, by annotating in the remarks section of the Inactive Duty Training (IDT) Participation Record (NAVRES 1570/21)/Individual IPR (NAVRES 1570/22). The IDT function in NSIPS will generate the Individual IPR (NAVRES 1570/22) when the scheduling change is recorded in NSIPS. Documenting attendance at a RS IDT will be on a Unit IPR (NAVRES 1570/21) or Individual IPR (NAVRES 1570/22). If RS IDT periods are missed, they will be administered as AAs or Us.

b. Authorized Absence (AAs). Assign AAs when valid training or mission support opportunities do not exist and the CO determines that the absence is excused. Enter the AAs into NSIPS. This will reduce the total number of authorized IDT periods for the FY. AA's do not count toward retirement credit. The member still must obtain 50 points for a qualifying or satisfactory year. IDT periods adjudicated as AAs cannot be removed or changed to RS or Us without NRA CO approval. Once AAs are authorized, there is no IDT requirement. AAs may be assigned for the following reasons:

(1) AT/ADT/ADSW/Mobilization Conflict.

(a) For periods less than 179 days:

1 A member can request to RS IDT periods that conflict with dates of AT/ADT/ADSW/Mobilization Conflict. Members are responsible for submitting rescheduled IDT requests before commencing any training. Members may perform RS IDTs either before or after training period provided it is within the same FY.

2 A member may request AAs for the missed IDT periods, however, record the AAs in NSIPS following the training period.

(b) For periods greater than 180 days:

1 IDTs missed after the 180th day may not be RS and must be considered AA's

For example, if a member was mobilized 17 Nov 03 - 25 Jul 04, the member may perform IDT periods missed for Nov 03 - Apr 04 (24 IDTs), and will be issued AAs for May - Jul IDTs. The member will be limited to 36 regular IDT periods for FY.

(2) Temporary work conflicts/personal hardships. Retain Drilling Reservist and members of the VTU with valid, documented, short-term work conflicts/personal hardship. Keep individuals in their present unit in an AA status up to six months with approval from the unit CO. For conflicts beyond six months, transfer the member to the IRR. The unit CO should consider the impact on unit readiness and manning when reviewing requests for retention based on temporary work conflicts or personal hardships. If the unit CO does not recommend retention, process member for transfer to the IRR, or process for discharge if warranted, a NAVPERS 1070/613 will be completed, (see appendix A, exhibits 18 and 19). Entries are required for individuals retained per this paragraph.

(3) Medical/Dental Disqualification. Personnel in this status who are not approved to perform IDTs will be assigned AAs for IDT periods missed. Refer to paragraph 307. Per COMNAVRESFORINST 3060.7A ensure proper MAS code has been assigned.

c. Unexcused IDTs. Unit/Command COs will determine if a missed IDT period is unexcused. Us cannot be made up. Commands must inform members of Us as they occur by annotating the original NAVRES 1570/2 and mailing a signed copy to the individual within 5 working days of the unexcused IDT period. When a member acquires nine or more Us during a progressive 12 month period, either terminate member's pay unit assignment **or place the member in a probationary status** (see appendix A, exhibit 20). Update NSIPS to reflect proper MAS codes. File the original NAVRES 1570/2 and one signed copy in the member's IDT folder. This form reiterates IDT requirements and provides the member a record of all unexcused IDTs.

604. Processing Missed IDT Periods. Process missed IDT periods as follows:

a. Document approvals of RS/AAs on the Unit IPR (NAVRES 1570/21) or Individual IPR (NAVRES 1570/22) in the remarks section.

b. Document disapproval or unexcused absences as Us on the Unit/Individual IPR and annotate the NAVRES 1570/2, send a signed copy to the member by regular mail.

605. ET. The use of ETS is not currently authorized for IDT recording.

606 Temporary Additional Duty (TAD) IDT Administration

a. TAD Orders (NAVRES 1320/2) authorize IDT performance at activities other than the location where the member normally trains. TAD IDT periods will be reported as RS. If appropriate mobilization training is not readily available at the TAD site, NRAs should disapprove the request and consider issuing AAs.

b. TAD orders will be issued subject to the following:

(1) Reservist requests orders. Parent NRA has approval authority.

(2) NRA must confirm availability of training at the TAD site and gain approval from the TAD NRA.

(3) Orders must be at no cost to the government.

(4) Training is permissive (not directed).

(5) TAD may not exceed 90 days.

(6) TAD OCONUS is not authorized.

c. After confirmation, per paragraph 606(2) above, the parent NRA prepares the NAVRES 1320/2. Parent NRA retains service, health, dental, and pay record maintenance in addition to IDT accounting responsibilities.

607 Removal of Unexcused Absences. On occasion, units and NRAs will erroneously assign Us. In such instances, NRA COs may authorize changing an unexcused IDT period to an AA or RS. Units should submit requests to remove erroneous Us to the NRA CO within 30 days of the unexcused IDT with a complete explanation of the circumstances causing the error and steps taken to prevent future problems. The NRA CO has final approval/disapproval authority.

608. Additional Duty (ADDU). ADDU orders will be used to enhance mobilization readiness and training of individuals and/or units. Specifically:

a. Members of NAVRES units that support, but are remote from Marine Corps units, may be assigned ADDU to those units.

b. Per ALNAVRESFOR 005/04 Drilling Reserve unit COs/OICs will be assigned to their supported command and ADDU to their echelon IV.

c. COMNAVRESFORCOM may prescribe individual assignment to ADDU with other DoD or Coast Guard activities or units.

d. ADDU FITREPs and evaluations must be prepared per BUPERSINST 1610.10.

609. Assignment of Inactive Duty Reservists to a Unit. BUPERSINST 1001.39D provides that all members in the USNR-R, or USNR-S1 may be assigned to a unit upon their application. They must be qualified in all respects. COMNAVRESFORCOM requires that all Drilling Reservists and members of the VTU, not assigned as IMAs, will be assigned to a unit, or detachment of a unit, in the NAVRES. Each unit or detachment will have a designated NRA tasked with record maintenance, logistics, and administrative support for members

assigned to the unit. NRAs in the administrative chain of command of Reserve units will be designated as the supporting NRA for those units. For units that do not report to an NRA (i.e., commands afloat and established ashore units, commonly called "commissioned" units), COMNAVRESFORCOM will designate the supporting NRA. It will normally be the NRA closest to the homeport or location of the drilling reserve unit or detachment.

610. Off-site IDT. IDT periods performed away from the individual's supporting NRA, but not under travel orders, will be called "Offsite IDT." Offsite IDT periods are governed by the same statutory requirements and regulations as IDT performed at the NRA.

611. Inactive Duty Training Travel (IDTT)

a. Members executing multiple IDTT periods for longer than 6 days must acknowledge that they incur a drilling reserve obligation through the end of the month for which advance IDT(s) have been performed. The maximum number of IDTT days is limited to the number of drills the member is authorized per FY. See para 612 for further guidance.

b. Additional IDT periods, if authorized, may be performed under IDTT orders. IDTT orders delineate travel and per diem entitlements only. The number of regular periods of IDT performed will be coordinated, in advance, with the NRA. Performance of ATPs, RMPs or AFTPs must follow existing rules for accounting.

c. IDTT shall not be conducted in designated imminent danger areas therefore Imminent Danger Pay (IDP) is not authorized under these orders.

612. Flexible (FLEX) IDT Option. To enhance mission support and readiness of the Active Component (AC) supported command, the FLEX IDT option was developed. This option is a significant departure from traditional IDT scheduling that offers flexibility for members to best meet the requirements of their supported command while completing their FY IDT requirements. If the supported command, through coordination with the unit CO, can better optimize mission support or readiness through extended IDT, Unit CO's are authorized to schedule up to 48 FY IDT periods sequentially. If authorized, Additional Training Periods (ATPs) can be included in this schedule. In addition, FLEX IDT may be performed separately or with AT, ADT or IDTT. Member participation in the FLEX IDT option is voluntary. Unit leadership (i.e., CO, XO, CMC) are not authorized to participate in the FLEX IDT Option.

a. Unit COs will:

(1) Oversee and coordinate the scheduling of FLEX IDT with the supported command and the unit member.

(2) Liaise with the supported command to use FLEX IDT to best meet mission and/or required readiness training requirements.

(3) If FLEX IDT is implemented, approve/disapprove member's request to participate in FLEX IDT.

(4) Verify with the supported command which, if any, navy annual administrative requirements, such as a physical/dental exam, and physical fitness assessment (PFA) completion, can be accomplished at the supported command. If the supported command is unable to support specific

requirements, the member will complete the requirements at the NRA, using drills as appropriate.

(5) Counsel member on the procedures to submit documentation to the NRA for NSIPS/ Reserve Automated Medical Interim System (RAMIS) input, i.e., drill muster forms, PFA completion certification by the supported command, and annual dental/physical exam.

(6) The FLEX IDT option does not waive member responsibility from meeting satisfactory participation requirements to remain a member of the Navy Reserve or earn a satisfactory year for retirement per BUPERSINST 1001.39D. Counsel members on requirements and have member sign a NAVPERS 1070/613 acknowledging understanding (see appendix A exhibit 21).

b. Members desiring to participate in the FLEX IDT program must:

(1) Request the FLEX IDT option through their unit chain of command.

(2) Ensure completed drill documentation is submitted to the NRA every 3 days following completion of IDT to ensure timely payment and proper recording of retirement points.

a. IDT Reporting. Drilling Reservist and members of the VTU are expected to provide a completed Individual IPR (NAVRES 1570/22) to the unit CO within 2 working days after completion. The unit CO has 3 working days to forward the completed Individual IPR (NAVRES 1570/22) to the NRA for processing.

b. Travel. Performing FLEX IDT combined with either AT or ADT at OCONUS sites is permissible provided the Status of Forces Agreement allows performance of IDT in the host nation.

c. FLEX IDT Scheduling. Unit COs must coordinate FLEX IDT schedules as **far in advance** as possible with supporting NRAs to prevent pay and billeting problems. This is particularly important for FLEX IDT periods being performed before the normal IDT periods (i.e., Performing IDTs in June for July and August).

613. Incremental IDT Periods. Incremental IDT periods provide an opportunity for unit personnel to receive Reserve IDT pay, training credit, and retirement points for operational support at the request of their supported command. It is not for the convenience of the individual Reservist in lieu of traditionally scheduled unit training. Reservists may also perform incremental IDT periods to accomplish COMNAVRESFORCOM approved unit administrative functions and individual training. This program will be administered in the following manner:

a. The Reservist will perform IDT in hourly increments while earning credit for each hour until 3 hours for a nonpaid IDT or 4 hours for a paid IDT have accrued, which equates to one IDT period.

b. Up to 40 IDT periods per FY may be performed in this manner. RS, FLEX and additional IDT periods are included in this authority.

c. At least 2 IDT periods per quarter will be performed at the supporting NRA for PFA and other administrative functions.

d. Incremental IDTs may be performed at the NRA, supported command, or other location at the discretion of the unit CO. Examples of incremental drills include medical personnel completing Continuing Medical Education (CME) courses or a member working on a project for the supported command. Incremental drill credit will not be credited for physical fitness activities completed at home.

e. Precise documentation and monitoring is essential to the success of this program. The unit CO will approve and provide written authorization for the member to perform incremental drills. The Individual Monthly IPR (NAVRES 1570/19) will be used to document incremental periods and will be forwarded to the unit CO for endorsement. The unit CO has 3 working days to forward the completed IPR to the NRA for processing. The NSIPS clerk will process per current directives.

f. FLEX IDT requirements discussed in paragraph 612 above apply to those incremental IDTs performed as FLEX IDTs.

614. Advance IDT. IDTs performed in advance result in the same drill obligation as if the IDT periods had been performed as originally scheduled (i.e., a member who performs a total of 12 IDT periods in the month of July, 4 each for July, August and September will incur a Reserve obligation through the end of September). The billet filled by a Reservist performing IDT in advance remains filled by the member until completion of obligated service. Scheduling FLEX IDT should take into consideration the following: anniversary year, EOS, HYT, mandatory transfer, expiration of the Montgomery GI Bill, Selected Reserve (MGIB-SR) obligation, and satisfactory Drilling Reserve Participation. For members erroneously transferred before completing IDT obligation, NRAs will reestablish the member's pay status for completing advance IDT. Personnel who perform advance IDTs and are subsequently lost from pay status (separation, transfer to the IRR, retirement, etc) will have their drill limits recalculated and may face recoupment of IDT pay.

615. Military Funeral Honors Duty (FHD)

a. Drilling Reserve personnel are not authorized to perform funeral honors while on IDT, IDTT, AT or ADT.

b. Drilling Reserve personnel to include chaplains may perform funeral honors duty in a voluntary capacity when authorized by the regional CAC/FHS Coordinator.

c. Drilling Reserve personnel performing FHD will receive compensation in the form of a Funeral Honors Duty Allowance (FHDA) and retirement point credit. Until further notice, IRR, VTU, and Retired Reserve (without pay) personnel may perform FHD for retirement point credit and FHDA. When documenting the FHD, additional information is required on the IRR personnel. The following FHD provisions apply:

(1) FHD may be used for performing funeral honors, and for associated training and preparation.

(2) A period of FHD must be for at least 2 hours, but only one period may be performed on a given day (defined as 0000-2359). Note: While honors may be performed at more than one funeral on a given day, only one FHDA payment and one retirement point credit will be earned. Personnel may be assigned to separate periods of FHD on consecutive days.

(3) FHDA will be in the amount of a \$50 stipend or 1 days' pay, less taxes; whichever is more, per FHD assignment.

(4) Personnel will receive one inactive duty retirement point per FHD assignment. This may exceed the maximum inactive point amount of 90.

(5) Personnel will be entitled to reimbursement for travel expenses if the location to which they are directed to report (i.e., location of funeral, Reserve activity, or location to meet government transportation) is more than 50 miles from the member's residence, and if authorized by the regional CAC/FHS Coordinator. This reimbursement is processed by the regional CAC/FHS Coordinator.

(6) Personnel will be subject to the UCMJ, and entitled to medical benefits authorized for the duty status in which honors are performed.

d. Personnel who volunteer to perform FHD will be required to sign an Administrative Remarks (NAVPERS 1070/613) entry acknowledging that they understand and accept requirements and responsibilities of FHD (see appendix A, exhibit 23).

e. For FHDA payment and retirement point recording, after completing FHD, the NRA will forward to COMNAVRESFORCOM (N11) a memo reporting FHD performed signed by an E7 and above. The following information is required on SELRES. This includes VTU members at the parent NRA.

(1) Member's full name.

(2) Member's SSN.

(3) Date FHD performed.

(4) Period performed: Use 1 or 2 for AM or PM.

f. For member's that do not perform IDT and are in the IRR, the additional information is required to establish their Master Military Pay Account (MMPA):

(1) Member's mailing address.

(2) Member's Rank/Rate.

(3) Member's Bank Routing number.

(4) Member's Bank Account number.

(5) What type of account.

(6) State code.

(7) State exemptions.

g. Members, pay or nonpay, update banking information via NSIPS.

h. NAVRESPERSCEN will update banking information via RHS for IRR personnel.

i. File a copy of the memo in the member's pay record for monitoring payment. For VTU, retired and IRR personnel, maintain a copy for your NRA records. FHDA will be paid via the member's MMPA and will be reflected on the member's Leave and Earnings Statement (LES) as FHD performed. The FHDA will reflect on the NRAs Earnings Statement Report and should be used as a tracking tool. On IRR personnel, the member will get an LES that reflects payment. There will not be any reports generated to the NRA on IRR personnel.

616. Reserve Chaplain Support of Casualty Assistance Calls Officers (CACO)

a. Drilling Chaplains are not authorized to receive additional pay in support of CACO while on IDT, IDTT, AT or ADT.

b. Drilling Reserve personnel may perform in support of CACO in a voluntary capacity when/tasked/authorized by the regional CAC/FHS Coordinator.

c. Drilling Reserve Chaplains, IRR, Volunteer Training Unit (VTU) and Retired Reserve personnel performing in support of CACO will receive compensation in the form of a days pay and retirement point credit. When documenting support of CACO, more information is required on the IRR personnel. The following provisions apply:

(1) Chaplain Support of CACO may be used for accompanying CACO on notification calls, and for associated training and preparation.

(2) A period of support for CACO must be for at least 2 hours, but only one period may be performed on a given day (defined as 0000-2359). Note: While support may be performed at more than one location on a given day, only one payment and one retirement point credit will be earned. Personnel may be assigned to separate periods of support for CACO on consecutive days.

(3) Chaplain support will be 1 days pay, less taxes per assignment.

(4) Personnel will receive one inactive duty retirement point. This may exceed the maximum inactive point amount of 90.

(5) Personnel will be entitled to reimbursement for travel expenses if the location to which they are directed to report (i.e., location of notification, Reserve activity, or location to meet government transportation) is more than 50 miles from the member's residence, and if authorized by the regional CAC/FHS Coordinator. This reimbursement is processed by the regional CAC/FHS Coordinator.

(6) Personnel will be subject to the UCMJ, and entitled to medical benefits authorized for the duty status.

d. For payment and retirement point recording, after completing duty, the NRA will forward to COMNAVRESFORCOM (N11) a memo reporting duty performed signed by an E7 and above. The following information is required on SELRES. This includes VTU members at the parent NRA.

(1) Member's full name.

(2) Member's SSN.

(3) Date duty performed.

(4) Period performed: Use 1 or 2 for AM or PM.

e. For member's that do not perform IDT and are in the IRR, the additional information is required to establish an MMPA:

(1) Member's mailing address.

(2) Member's Rank/Rate.

(3) Member's Bank Routing number.

(4) Member's Bank Account number.

(5) What type of account.

(6) State code.

(7) State exemptions.

f. Members, pay or nonpay, update banking information via NSIPS.

g. NAVRESPERSCEN will update banking information via RHS for IRR personnel.

h. File a copy of the memo in the member's pay record for monitoring payment. For VTU, retired and IRR personnel, maintain a copy for your NRA records. FHDA will be paid via the member's MMPA and will be reflected on the member's LES as FHD performed. The duty will reflect on the NRAs Earnings Statement Report and should be used as a tracking tool. On IRR personnel, the member will get an LES that reflects payment. There will not be any reports generated to the NRA on IRR personnel.

617. General Telecommuting Policy. Telecommuting is the practice of performing assigned military duties at home or some other nonmilitary location. It is a management option meant to increase flexibility and productivity by maximizing resources, and is not to be used solely for the convenience of the member. Performance of IDT is authorized under the following conditions:

a. The Unit CO will be responsible for approving and directing the use of telecommuting, and for the monitoring and reporting completion of drills to the supporting NRA.

b. Participants must meet all administrative and medical requirements for the performance of IDT.

c. Participants will sign an Administrative Remarks NAVPERS 1070/613 (see appendix A, exhibit 23) acknowledging their accountability and personal responsibility, including coverage by the UCMJ and other pertinent regulations concerning determination for line of duty, injury/illness, and misconduct.

d. Performance of duties will involve only unclassified issues and material.

e. Use of government equipment or expense reimbursement will be limited to that provided and coordinated by the requesting command or agency and Unit CO.

f. Participants may be required by the command or agency they are supporting to complete a separate statement of understanding or work agreement.

(1) IDT Administration:

(a) Telecommuting may be used for pay and nonpay drills.

(b) A member who has been authorized to perform drills via telecommuting must perform at least 2 drills per quarter at the supporting NRA to ensure completion of organization and administrative requirements.

(c) The Drilling Reservist is expected to provide a completed Individual IPR (NAVRES 1570/22) to the unit CO within 2 working days after completion. Unit COs should collect Individual IPRs (NAVRES 1570/22) until they total four hours for one pay IDT and/or 3 hours for a nonpay IDT. The Unit CO is responsible for providing appropriate oversight of participating members, and for verifying completion of drills. The unit CO has 3 working days to forward the completed Individual IPR (NAVRES 1570/22) to the NRA for processing.

CHAPTER 7

IDT REPORTING PROCEDURES

701. IDT Participation Reporting Procedures. Accurate documentation of IDT participation must be recorded for all unit personnel. The NSIPS IDT function contains all procedures to process IDT participation, including the submission of verified IDT participation information for electronic transmission and producing reports used for validation and record keeping purposes.

702. Responsibility. The unit CO or his representative, designated in writing (i.e., in the collateral duties notice), will ensure the IPR data is properly submitted. The Reserve activity CO is responsible for the following:

a. Ensuring FTS personnel maintain all correspondence, including forms, relating to IDT participation.

b. Ensuring all IDT periods are scheduled into NSIPS per the FY IDT schedule. This applies to all units, pay or nonpay.

c. Ensuring all Individual IPRs are submitted to the NRA within 3 working days following completion of the IDT periods. For FLEX and Incremental IDTs: The member is expected to provide completed Individual IPR (NAVRES 1570/22) to the unit CO within 2 working days of completion. For incremental drills the unit COs should collect IDTs until there are a total of 4 hours for one pay IDT or 3 hours for a nonpay IDT. The unit CO has 3 working days to forward all completed Individual IPRs to the NRA for processing.

d. Ensuring FTS personnel establish and maintain personal IDT folders for each Reservist.

e. Ensuring action is taken on NSIPS and Defense Finance and Accounting Service (DFAS) reports per chapter 9 of this instruction.

f. Ensuring all signatures are executed by a designated "By direction" authority with limitations as indicated. The Unit or Individual IPR, which is the authority to pay IDTs, will continue to be signed by an E7 and above. (right hand side for the Unit IPR (NAVRES 1570/21) and left hand side for the Individual IPR (NAVRES 1570/22)).

g. Ensuring FTS staff run reports listed in paragraph 703 prior to the drill weekend for use by the unit COs as a management tool.

703. Reports

a. IDT Reports

(1) The Inactive Duty Training Authorized Absences Report. A report that lists those personnel who have had AAs within 12 months. This report provides a running 12-month total and should be produced prior to the unit IDT weekend each month as a management tool.

(2) The Inactive Duty Training Additional Report. Provides a listing of additional IDTs scheduled/performed within the current FY. IDTs are

separated by type of additional drills (AFTP, ATP, or RMP). This report is sorted by Reserve Unit Identification Code (RUIC) and should be produced before the unit IDT weekend each month as a management tool.

(3) IDT History Review Report. Reflects all IDTs, both pay and nonpay, broken down by type of IDT and set up on a progressive year and on a FY basis, covering 14 months for a unit. This report is required to be filed in the personal IDT folder of members upon their annual anniversary update, transfer, or separation. It is also used as a management tool to research IDT pay problems.

(4) IDT Verification Report. Must be run prior to final approval/ transmission of IDT periods for payment. It provides a list of IDTs that are ready to be released by the supervisor and is used as a management tool to verify that the IDTs recorded in the system match the IPR. Once verified an individual designated by the CO will sign the report.

(5) IDT Detail Review. Reflects all IDT periods stored on the database and the status of each in date order for an individual. This report is required to be filed in the personal IDT folder of members upon their annual anniversary update, transfer or separation. It is also used as a management tool to research IDT pay problems.

(6) IDT Unadjudicated Report. A listing of members who have IDT periods reflected in the system in a Scheduled or Recorded status, that are more than 24 hours old. The report includes the period, type of drill, and should be used as a management tool to ensure proper disposition of each IDT and should be produced weekly. All IDTs listed should be reviewed for determination of status. If the NRA has not received a completed IPR within 3 working days of the drill date it should then be adjudicated as unexcused.

(7) Rejected Drills Report. Lists all IDT periods that have been rejected within a specified date range. This report can be produced by RUIC or by SSN and is either produced as needed or as local procedures warrant. Can be used as a management tool for researching IDT pay problems.

b. System Reports

(1) Retain Transmittal Log. Produced daily for transactions created the day before and is used for verifying transactions submitted. The report is divided into 3 sections. Section I will be a listing of all SSN based messages and will reflect all transactions that were released to the corporate system based on a member's SSN. Section II will be a listing of all RUIC based messages and will reflect all transactions that were released to the corporate system based on a RUIC. Section III will be a listing of all local database updates and will reflect actions taken to update the database that do not generate transactions to the corporate system. The report is based on the support UIC and a date range selected.

(2) Feedback Report. Produced daily and is used to verify that transactions submitted have been processed and reflect correct information. The report reflects feedback of all transactions that have been acknowledged, accepted, recycled, rejected and unsolicited. **Verify all items listed as rejected ensuring all corrective action necessary is taken to resolve the error. The rejected transaction portion of this report must be annotated with the corrective action taken and maintained until all errors have been corrected.**

(3) Pending Feedback Report. Produced daily. A listing of all transactions submitted to a corporate system for which feedback has not been received. This report should be produced daily in conjunction with the feedback report. Any transaction reflected on the report as pending feedback over 7 days requires research to determine the cause.

(4) Pending Transactions Report. Produced weekly. Provides a listing by operator and supervisor, of work saved but not yet released. This is a management report used to verify if any transactions are pending release, overdue or are being held beyond what is considered a normal processing time.

c. NR IDT Earning Statement Report. Received weekly via Outlook e-mail. Verification should be completed within 5 working days of receipt. Review for EFT enrollment, SGLI payments and annotate all corrective action taken. Report will be signed and maintained in an active file until all pay errors have been corrected and all pay has been posted to the members account. (Ensure proper print setup before printing. Use Courier New font, 8 pitch, print in landscape format to avoid "wrapped around" information). **If the reserve activity has not received an earning statement contact the ECH IV for assistance.**

704. Misrepresentation/Negligence. All users of the NSIPS system (individual Reservists, unit/activity COs, mustering personnel, and FTS personnel) must be keenly aware that the recording of IDT data reports IDT attendance, which ultimately results in an obligation for pay and crediting of retirement points. Therefore, misrepresentation and/or negligence in executing these procedures are a serious matter punishable under the UCMJ.

705. Signatures. Signatures on the Unit IPR (NAVPERS 1570/21), Individual IPR (NAVPERS 1570/22) and all reports will be an E7 and above were practical. It is understood that some commands are limited on the number of senior personnel. Caution should be exercised when assigning E6 or below to sign reports

706. IDT Weekend Guidance. FTS personnel will prepare the Unit/Partial Unit IPR (NAVPERS 1570/21) before the IDT weekend. Known absences of unit members will be annotated in the "comments" section of the NSIPS "muster" report (i.e., RS, IDTTs, AT, ADSW). The mustering official will conduct the muster, annotating in black ink all personnel Absent (A) and all personnel Present (P). Include justification in the remarks section for all personnel marked absent. Any member marked absent without justification in the remarks column will be adjudicated as unexcused. The mustering official is not required to be an E7 and above. A "sight" muster is required. The unit CO or designated representative (E7 and above) will sign the IPR validating that each member authorized IDT pay was present for at least 4 hours, or that AAs, or Us annotated in remarks column were approved. The following steps provide guidance in recording unit IDT:

a. Before the IDT weekend, the FTS IDT recording petty officer will print the Unit IPR (NAVPERS 1570/21). For group IDTTs a Partial Unit IPR (NAVPERS 1570/21) may be prepared using the unit schedule change option. Also print a Unit IDT Summary report at this time.

b. Saturday morning of the IDT weekend, the FTS NSIPS Reserve pay clerk will deliver the unit IPR to the unit. Additionally, the following NSIPS reports should be provided: Additional IDT, AAs, RS, and Unexcused IDT report. The authorized mustering official will conduct a sight muster.

c. By the end of the IDT period(s)/weekend, the unit CO or designated representative (E7 and above) will adjudicate all changes to the IPR, sign, and date it.

d. Sunday afternoon, the authorized mustering official will deliver the signed IPR to the NRA's designated representative. When IDTs are performed away from the NRA, the use of a fax machine to submit unit/individual IPRs is authorized.

e. The following actions will be taken within 3 working days after the IDT weekend:

(1) The FTS NSIPS Reserve pay clerk will record the IDT attendance data into NSIPS and reenter any individual IDT schedule changes annotated on the unit IPR that occurred during the IDT weekend. Print the IDT verification report and Individual IPRs (NAVPERS 1570/22) generated as a result of IDT scheduling changes during the recording process. Deliver the IDT verification report, Individual IPRs (NAVPERS 1570/22) and Unit IPR (NAVPERS 1570/21) to the NRA CO or designated representative (E7 and above) who will review and sign the IDT verification report authorizing release of IDT data for transmission.

(2) The NSIPS Reserve pay clerk will then post/update the IDT data in NSIPS after the verification report is signed.

(3) NSIPS will automatically transmit upon posting of data. (NRAs should transmit daily when possible and back up the NSIPS database after all transactions are completed for the day).

(4) The NRA CO or designated representative will verify and sign all transmission reports. Annotate and date all action taken to correct errors reflected on the report. See chapter 9 of this instruction entitled "Standard File Maintenance Requirements." These reports will be maintained and destroyed per the Privacy Act Program, SECNAVINST 5211.5D, and Disposal of Navy and Marine Corps Records, SECNAVINST 5212.5D.

(5) The Unadjudicated IDT Report is mandatory and will be prepared to ensure all IDTs have been adjudicated. Commands are required to print this report at least weekly to ensure adjudication of all IDTs performed during the week. Unit COs must adjudicate all IDTs that have not been paid and are 3 days old or older.

707. Individual IPR Muster. The Individual IPR (NAVPERS 1570/22) is composed of four sections. The top section is for annotating the member's name, rank/rate, SSN, and for recording the individual's attendance. When recording their muster, annotate with a "P" for present followed by the number "1" (in the block with the #) or an "A" for absent followed by the number "0" (in the block with the #). This is to be done for each day's scheduled AM and PM drill. Section two is for comments (entries in this section is optional). Section three is for task and accomplishments; this section must list the work completed by the member during the drill. Section four is the signature block; the left side is CO or Designated representative (E7 and above). The right side is for the mustering official (FTS/USN Petty Officer E4 and above who completed the visual muster). Once the muster has been recorded in NSIPS annotate the bottom of the 1570/22 with the clerks initials. Do not accept the 1570/22 if it is not completely filled out and signed.

708. IDT Monitoring. IDT performance will be continuously monitored. Members who are unsatisfactory in IDT participation will be processed per BUPERSINST 1001.39D. The Unit CO or designated representative (E7 and above) has final authority for adjudicating missed IDT periods. The NRA CO or designated representative (E7 and above) has ultimate responsibility for ensuring members do not exceed IDT limits.

709. Unit IDT Recording. FTS personnel will use this NSIPS module and the IPR to record the IDT attendance for the unit.

710. Individual IDT Recording. This NSIPS module allows the entry of IDT attendance on an individual basis.

CAUTION: Exercise care when entering IDT data for individuals not assigned to the local NRA. There are no checks for SSN and name. This information must be entered correctly for the entry to be accepted.

711. Reserve Pay Timing. Data entered into NSIPS is transmitted three times a day to RHS (Monday through Friday). Data entered in NSIPS on Saturday and Sunday will be transmitted to RHS on the first available upload on Monday. From RHS data is transmitted to Defense Joint Military Pay System-Reserve Component (DJMS-RC) and IMAPMIS nightly

a. The day after the file is sent to DJMS-RC, IDT feedback is transmitted from DJMS-RC to RHS. On the same day, RHS processes the IDT feedback and sends the feedback to NSIPS on the next NSIPS transmission.

b. DJMS-RC runs a payment update weekly as per the DJMS-RC Update Schedule.

712. IDT Periods Away From the Parent Unit. (Paragraph 606 contains policy for TAD IDT administration.) TAD IDT periods can be reported via any activity having access to NSIPS. When submitting IDT data on a Reservist attached to another NRA, forward a copy of the IDT verification report to the member's supporting NRA. RHS will provide this information through feedback to the parent activity to prevent assigning the member unexcused IDT periods. For Drilling Reserves performing TAD IDT at sites without NSIPS capabilities, verify IDT attendance data in writing and mail or fax to the supporting NRA within 3 working days of the last consecutive IDT period. The supporting NRA is responsible for the following:

a. Entering the IDT data in NSIPS (TAD IDT period will be recorded as RSs).

b. Provide the Reservist with an original set of TAD orders, a copy for the training activity (TAD site), and an additional copy for each month of authorized TAD and envelopes (with the address of supporting NRA) for each month of authorized TAD.

c. Forward an advance copy of the TAD orders to the TAD site.

713. FY IDT Limitations. Each Drilling Reservist is required and authorized to perform a specified number of IDT periods during a FY. Regular IDT periods, Us, and AAs accumulate toward the total FY IDT authorization. Additional IDT periods may be authorized for certain units per chapter 8 of this instruction. IDTs may not be performed or RS after the end of the FY.

Refer to BUPERSINST 1001.39D, paragraph 1206 regarding issuing Us for IDT periods crossing FY boundaries. This also applies to VTU personnel.

714. Reporting of IDT Periods Over 12 Months Old. Report IDT periods over 12 months old via TT to the Space and Naval Warfare Information Technology Center (SPAWAR ITC) Help Desk.

715. "De facto" IDT periods. Personnel in a pay status, who have performed IDT before being notified that their assignment has been terminated or no longer under contract, will be considered in "de facto" active status and paid for those IDT periods. This will be resolved by the NRA sending a letter to DFAS-CL with explanation and supporting documents.

CHAPTER 8ADDITIONAL IDT PERIODS801. General

a. DoDINST 1215.19 para 6.2 establishes policy for authorizing and scheduling additional IDT periods. Additional IDT periods provide individuals and units additional IDTs to achieve and maintain required mobilization readiness levels when 48 regular IDT periods are not enough to meet training objectives.

b. Schedule additional IDT periods in advance. Scheduling can be accomplished via unit training schedules, flight schedules, additional IDT schedules, plan of the month, or verbally in short fuse/emergent situations. Document attendance using the NSIPS Individual IPR (NAVRES 1570/22).

c. Duration of Additional IDT Periods. Minimum duration of Additional IDT periods with pay is 4 hours. Minimum duration of Additional IDT without pay is 3 hours. IDT periods must be conducted aboard specifically authorized training activities only (i.e., NRF ships, NAVRESCENS, Navy aircraft). Additional IDT periods will be recorded via NSIPS within 3 working days from the day they are performed.

d. Because of substantial costs, additional IDT periods must be supported by one of the following justifications:

(1) Additional Training Periods (ATPs) provide units and individuals the ability to complete additional required training. This instruction limits most individuals to no more than 12 ATPs per FY. For a comprehensive listing of ATP authorizations see Table 8-1 on page 8-2 of this instruction.

(2) Additional Flying and Flight Training Periods (AFTPs) provide additional flight training to achieve and maintain aircrew flying proficiency and sustain mobilization readiness. AFTPs cannot be used in addition to the ATPs in paragraph 801d(1) above. AFTPs will not exceed 48 per FY for any aircrew member unless specifically authorized by SECNAV.

(3) Readiness Management Periods (RMPs) provide support for the day-to-day operation of the unit; accomplishing unit administration, training preparation, support activities, and maintenance functions. RMPs may not be performed on the same day with any other type training period (i.e., IDT, ATP, or AFTP). Only one RMP may be performed in a calendar day. Units, with the exception of VTUs, are authorized 24 officer and 24 enlisted RMPs per unit per FY. Personnel performing these drills must have unit CO's approval.

(4) Per DoDINST 1215.19, in no case shall either ATPs or RMPs or a combination of those additional IDT periods, exceed 54 in a FY for each person.

802. Specific

a. AFTP (aircrew IDT periods). Two AFTPs are authorized per day in which actual flight or required flight training (involving syllabus flights and crew qualification exercises conducted in an approved simulator, including tactical trainer), transition schools, Aircrew Coordination

Training, Tactical Proficiency Course, swimming, or physiology qualifications that require a minimum of eight hours to complete. One AFTP per day is allowed for Naval Air Training and Operating Procedures Standardization (NATOPS) training/testing, classroom training, schools, other required flight-related ground training, and completing OPNAVINST 3710.7T flight requirements.

b. ATP (nonaircrew IDT periods). Two ATPs are authorized per day for a minimum of eight hours training in formal or informal OJT, which contributes to unit or individual mobilization readiness as follows:

(1) Any schools/classes that enhance the member's mobilization readiness.

(2) Informal OJT such as aircraft maintenance training, phase maintenance training and administrative procedures training. This OJT is not to include administrative requirements associated with the mobilization billet such as preparing enlisted evaluations or FITREPS, or other general administrative duties. The training must be specific to mobilization billet or rate training.

c. Aviation program IDT periods. The number of AFTPs, ATPs, and RMPs cannot exceed limits authorized in Table 8-2 on page 8-3.

TABLE 8-1 COMNAVRESFORCOM MAXIMUM ALLOWABLE ATPs

	<u>OFFICERS</u>	<u>ENLISTED</u>
Program 1 (SUB FORCES)	12	12
Program 2 (MINEWARCOM)	12	12
Program 3 (MDSU)	12	12

(C-37/C-40)				
C-12 (Program 5)	72	48	0	24(note 1)

Notes:

1. In addition to the additional IDT periods authorized in the table above, RMPs may be authorized for accomplishing unit administration, training preparation, support activities, and maintenance functions.

2. Enlisted Flight engineers/crew chiefs/load masters/flight attendants may be authorized AFTPs equal to officer IDT periods by same type aircraft.

3. Helicopter Squadron Aircrewmen who maintain dual qualifications as Search and Rescue Swimmer (NEC 7815) or Helicopter Rescue Aircrewman (NEC 8215) are authorized 60 additional IDT periods.

CHAPTER 9STANDARD FILE MAINTENANCE REQUIREMENTS901. Personal IDT Folder. (Two part or six part folder authorized)

a. Left side of folder: File the history review and detail review within 30 days of the member's anniversary date.

b. Right side of folder:

(1) Copies of orders to current unit.

(2) Original Satisfactory Participation Requirements/Record of Unexcused Absences (NAVRES 1570/2).

(3) Copies of all Satisfactory Participation Requirements/Record of Unexcused Absences (NAVRES 1570/2) notifying the member of their unexcused IDT periods.

(4) Copies of correspondence (i.e., letters, memos) relating to IDT participation. (Does not include IPR).

(5) Completed AT/ADT/ADSW orders with endorsements, which includes any documents that were paid on completion of these orders. **(Maintain for 6 FYs and 3 months)**

(6) Reschedule/Additional IPR.

902. Disposition of Personal IDT Folder. A Reservist's personal IDT folder will remain with their official records. The following procedures shall be followed:

a. Transfer Between Units. If the transfer is to a unit within the same NRA, their personal IDT folder will be filed with the gaining unit's folders. For transfer to a unit in a different geographic location, print 2 copies of the member's IDT history review. File one copy on the right side of the Personal IDT Folder and fax the other copy to the gaining NRA (retain faxed copy in Unit IDT Accounting folder). Mail IDT folder along with service (enlisted personnel only), health, and dental records to the gaining activity.

b. Discharge/transfer to NAVRESPERCEN. Give the personal IDT folder to the member for retention. For officers, forward a copy of the orders to NAVRESPERCEN.

c. Immediate Reenlistment. Immediate reenlistment in present assignment does not affect maintenance of the personal IDT folder.

903. Unit IDT Accounting Folder. NRA FTS personnel will maintain a folder for each Reserve unit for the current and previous 2 FYs. The following will be retained in the this folder:

a. Unit IDT participation record.

b. NSIPS IDT Verification reports.

c. Copies of correspondence relating to the administration of unit IDT records (i.e., "By direction" letters).

904. Unit Pay Report Folder. Each unit will establish and maintain a unit pay folder for current and past 2 FYs. This folder will contain Navy Reserve IDT Earning Statement Reports. These reports provide a list of unit personnel who received a payment during each pay cycle.

Note: This report contains information from DJMS-RC and is e-mailed to the NRA. NRAs must notify their Echelon IV command when there is a change to their e-mail address. To avoid information wrap around, printer should be setup to print 8 pitch Courier New font in landscape.

905. Transmission Log. File chronologically by date, with cover sheet showing date of transmission. Review, sign, date, and annotate with corrective action for any transactions failing RHS/IMAPMIS edits. These transactions will be reflected on the "error record" in the log.

CHAPTER 10PERFORMANCE EVALUATION (EVAL), FITNESS REPORT (FITREP), AND COUNSELING SYSTEM

1001. General. Prepare EVALs/FITREPs and conduct counseling for Reservists per BUPERSINST 1610.10.

1002. Control of Submission/Quality Control. Supporting NRAs must maintain a system for report control and establish a time line for submitting reports. Units will submit completed EVAL/FITREPs to the supporting NRA for quality control review and for submission to NAVPERSCOM before established deadlines.

a. Per ALNAVRESFOR 005/04 Drilling Reserve unit COs/OICs will be assigned to their supported command and ADDU to their Echelon IV command.

b. Reserve echelon IV commander has the authority and responsibility for ensuring appropriate reporting, either through concurrent fitness reports or Performance Information Memorandum (PIM) to the Unit's supported command regarding significant performance that cannot be adequately evaluated by the regular reporting senior.

c. Reserve echelon IV commands will maintain a system for reports control on Reservists assigned to their respective staffs.

CHAPTER 11RATIONS-IN-KIND (RIK) FOR ENLISTED PERSONNEL AND
COMMERCIAL/BACHELOR QUARTERS (BQ) BERTHING FOR NAVRES PERSONNEL

1101. General. This chapter provides policy and procedures for issuing RIK to enlisted Reserve personnel and commercial/BQ berthing for Reserve officers. The same policy applies to all personnel participating in multiple IDT periods.

1102. Policy. To provide rations/berthing to personnel performing IDT under Title 37 USC, and chapter 6 of this instruction. COs of NRAs are authorized to provide RIK to enlisted personnel and commercial/BQ berthing for officers and enlisted personnel performing multiple IDT periods who meet the eligibility requirements below.

1103. Eligibility Requirements for Individual Meals. RIK will be provided to Reserve enlisted personnel performing multiple IDT periods. Payment cannot be made to members for missed meals. Furthermore, members must make repayment for RIK consumed if the requirements are not met. A summary of eligibility requirements for RIK follows:

a. Breakfast. Satisfactorily performs at least two 4-hour IDT periods during the calendar day the breakfast meal is consumed. The member must reside and travel more than 50 miles to the IDT site, and have occupied local quarters the previous night.

b. Lunch. Satisfactorily performs at least two 4-hour IDT periods on the day the lunch meal is consumed.

c. Dinner. Satisfactorily performs at least two 4-hour IDT periods the day following consumption of the evening meal, will occupy local quarters, and will travel more than 50 miles to member's residence from the IDT site.

1104. Eligibility Requirements for Berthing. Berthing may be provided to officer and enlisted Reserve personnel performing multiple IDT periods and living more than 50 miles away from their permanent IDT site/off-site IDT site. Payment cannot be made to members for berthing not used. Furthermore, members must make repayment for berthing used if the requirements are not met. A summary of eligibility requirements for berthing follows:

a. Satisfactorily performs at least two 4-hour IDT periods during the calendar day after the calendar day berthing was used, reside and travel more than 50 miles from the permanent IDT site.

b. Satisfactorily performs at least two 4-hour IDT periods during the calendar day after the calendar day berthing was used, travel more than 50 miles to the permanent IDT site

1105. Procurement. COMNAVRESFOR P4000.1A provides procedures for obtaining RIK for enlisted personnel and commercial berthing/BQ for officers and enlisted personnel performing multiple IDT periods who meet the eligibility requirements.

CHAPTER 12

MEDICAL

1201. General. All Reserve Component (RC) members are required to have a physical and dental examination per the Manual of the Medical Department (MANMED). Failure to obtain a physical or dental examination 90 days after the member's expired examination may result in the member being processed for separation by reason of unsatisfactory participation in the ready reserve per MILPERSMAN 1910-158. Those personnel who are found either physically or dentally disqualified, temporarily or permanently, will follow the guidance below in the disposition of their case. Medical Department personnel may find all NAVPERS 1070/613s and SF 600s for medical/dental record entries for medically/dentally disqualified status within the RAMIS.

1202. Temporary Physical Disqualification

a. Temporarily Not Physically Qualified (TNPQ) status is used when a RC member has a medical condition that is not service connected, and is expected to be resolved in less than 180 days. The supporting NRA will assign appropriate MAS codes for the member's disqualification per COMNAVRESFORINST 3060.7A.

b. The Medical Officer (MO) and/or Medical Department Representative (MDR) will recommend either TNPQ-Drill or TNPQ-Non-Drill status to the unit CO/OIC and supporting NRA CO. The NRA will administratively manage all TNPQ cases. These cases will not be forwarded to NPC via BUMED. The supporting NRA CO will make the final determination of whether the TNPQ member may or may not continue to perform IDT.

c. RC members in TNPQ-Drill or TNPQ-Non-Drill status may be retained in their unit.

d. RC members in a TNPQ-Non-Drill status will be given AAs per paragraph 603(4) above.

e. RC members in a TNPQ-Drill status may perform IDT, but may not perform IDTT or any type of active duty to include AT, ADT, ADSW, or IADT.

f. The RC member must submit monthly medical treatment documentation to the supporting NRA medical department. The MDR is required to update the member's medical record and RAMIS monthly.

g. If an additional 180 days of TNPQ is required, the NRA (Medical Department) shall request an extension from COMNAVRESFORCOM (N01M) using the TNPQ management module of RAMIS.

h. When the RC member provides documentation from their civilian health care provider stating that he/she no longer requires further medical care, the MDR shall document in the member's medical record that the member is now fit for duty and shall file all supporting documents (civilian/ military) into the RC member's medical record. If there is no supporting NRA MO, the MDR shall consult the Echelon IV medical officer or with BUMED (M3F1) should there be questions concerning the determination of fitness by the member's civilian provider.

1203. Permanent Physical Disqualification

a. If the MO and/or MDR determine that a Reservist has or may have an extensive physical disqualification, the member will be placed in Medical Retention Review (MRR) status. The supporting NRA will assign the appropriate MAS code for this member's disqualification per COMNAVRESFORINST 3060.7A.

b. MO and/or MDR will recommend either MRR-Drill or MRR-Non-Drill status to the unit CO/OIC and supporting NRA CO. The NRA will two administratively manage all MRR cases. These cases will be submitted to NAVPERSCOM (Officers: Pers-4911/Enlisted: Pers-4913) via BUMED (M3F1) for chronic nonservice connected medical conditions that require a medical determination of Physically Qualified (PQ) or Not Physically Qualified (NPQ) for retention. The supporting NRA CO will make the final determination of whether the MRR member may or may not continue to perform IDT.

c. Mandatory transfer of RC members in MRR status to the VTU is no longer required. The NRA CO still retains the option to transfer RC members in MRR status to the VTU.

d. RC members in MRR-Drill or MRR-Non-Drill status may be retained in their unit.

e. RC members in MRR-Non-Drill status will be given AA's.

f. Members in a MRR-Drill status may perform IDT, but may not perform IDTT or any type of active duty to include AT, ADT, ADSW, or IADT.

g. The RC member is required to provide medical documentation within 30 days. The NRA CO may grant a one time extension of 30 days. Failure to provide required documentation may result in administrative action.

h. MRR package submission requires a copy of the member's periodic physical examination, civilian/military medical documentation pertaining to the MRR condition, and a nonmedical assessment completed per SECNAVINST 1850.4E by his/her unit CO or the NRA CO. The MRR package is then forwarded to the NRA CO for final determination of member's status in the unit. The NRA CO will forward the MRR package to NAVPERSCOM via BUMED per paragraph 1203b. Once BUMED and NAVPERSCOM have evaluated the MRR, the waiver letters are to be placed in the member's medical record per MANMED. MRR cases are to be managed and tracked using RAMIS.

i. NAVPERSCOM (Officers: Pers-4911/Enlisted: Pers-4913) will notify the RC member's supporting NRA of final disposition of his/her MRR package. Disposition of the RC member will be either risk classification A (PQ) for retention or the member will be assigned a physical risk classification code of B, C, four or five. The supporting NRA will take action as directed by the NAVPERSCOM letter.

j. RC members who do not agree with NAVPERSCOM's disposition may appeal to the Physical Examination Board (PEB). RC members requesting a PEB shall be transferred to the VTU per paragraph 307 until final disposition is made by the PEB.

1204. Temporary Dental Disqualifications

a. Temporarily Not Dentally Qualified (TNDQ) status is used when a SELRES member has a dental condition, dental class III, that is not service connected, and is expected to be resolved in less than 180 days.

b. The supporting NRA will assign an appropriate MAS code for the member's disqualification per COMNAVRESFORINST 3060.7A. Dental MAS Codes are to be used only when members have no MAS Code previously assigned, or may be used to replace MAS Codes VOL, OAT, or TRP.

c. SELRES in a TNDQ status may perform IDT. Such members may only perform IDTT if it is to complete an annual Type 2 dental examination. Such members may not perform any other type of IDTT or active duty to include AT, ADT, ADSW, or IADT.

d. SELRES member is required to submit monthly dental treatment documentation on NAVMED 6600/12 to the supporting NRA medical department. The MDR is required to update the member's dental record and RAMIS monthly.

e. If an additional 180 days of TNDQ is required, the NRA (Medical Department) shall request an extension from COMNAVRESFORCOM (N01M) using the TNDQ management module of RAMIS. Members not showing progress may be processed for separation by reason of unsatisfactory participation in the Ready Reserve per MILPERSMAN 1910-158.

f. When SELRES provides the NAVMED 6600/12 documentation from his/her dentist stating that he/she no longer requires further dental care, the MDR shall place this document in the member's dental record.

1205. New Accession Processing

a. New accessions shall have a Type 2 dental examination or completed DD 2813 (Navy over print) within the first year of enlistment in the Navy Reserves.

b. New accessions shall not be placed TNDQ in the first year of their enlistment.

c. New accessions who are dental class III at the beginning of their second year of enlistment will be placed TNDQ.

1206. Orthodontic Appliance (Braces) and/or Orthognathic Treatment (Surgical Jaw Repositioning)

a. Nonprior service SELRES undergoing active orthodontic treatment and/or combined orthodontic/orthognathic treatment, cannot be enlisted or attend IADT NPSAC training.

b. RC who decide to undergo active orthodontic treatment and/or combined orthodontic/orthognathic treatment are required to notify their unit CO/OIC and the supporting NRA MDR. The MDR will counsel members on the Navy's recall and deployment policy of SELRES who choose to undergo this treatment.

c. RC undergoing active treatment shall not be placed TNDQ nor are they to be classified as dental class III. Member's can be dental class I or II and be under active treatment.

d. The government shall incur no obligation to adjust, activate, remove, or replace orthodontic appliances in place at the time of executing voluntary/involuntary active duty orders. Further, the government shall not incur any financial liability for repair or replacement of orthodontic appliances or any other expenses associated with prolonged orthodontic treatment requirements following release from active duty orders.

e. If removal of orthodontic appliances becomes necessary, the government shall incur no obligation to retain the Reservist on active duty to replace or reinstitute or continue treatment. The government shall not incur liability for cost associated with reinstituted or continued treatment by civilian dentists or orthodontists.

f. RC who execute voluntary or involuntary active duty orders for less than 30 days are not required to have their active orthodontic treatment (braces) inactivated.

g. RC who execute voluntary or involuntary active duty greater than 30 days are required to have their active orthodontic treatment (braces) inactivated. The SELRES' treating dentist or orthodontist must certify that the SELRES' orthodontic appliances have been placed in a stabilized and inactivated status.

h. RC choosing to undergo combined orthodontic/orthognathic treatment, shall be placed TNPQ-Non-Drill status until all surgical stents and inter-maxillary fixation devices have been removed and their oral surgeon has certified in writing that adequate healing of the bones of the face and jaw has occurred.

CHAPTER 13

PAY AND ALLOWANCES

1301. General. Refer to BUPERSINST 1001.39D/DoDFMR/Title 37 USC.

a. IDT Compensation. Inactive duty personnel are entitled to compensation for performing IDT. While in an IDT status, a member is entitled to compensation at the rate of 1/30th of the monthly basic pay authorized their active duty counterpart of equal rank and time-in-grade. They may also, under some conditions, be entitled to receive special and incentive pays for the performance of IDT also figured at the 1/30th of the monthly allowance. An enlisted member may also be authorized rations when the instruction or duty periods total at least 8 hours in a calendar day.

b. Regular Military Compensation (RMC). Navy Reservists may also be eligible for RMC when on AD. The 3 main elements of RMC are:

- (1) Base pay.
- (2) Basic allowance for housing (or quarters-in-kind).
- (3) Basic allowance for subsistence (or RIK).

c. Special Pay and Allowances. Navy Reservists may also receive other military compensation, whether pay or allowances, when authorized by Congress, depending on the nature of their duty assignment, their military specialty, where they are stationed, and the duration of their orders.

d. EFT. EFT has been established as the standard pay delivery system in the NAVRES. All Drilling Reservists must enroll in EFT at the earliest opportunity. Participation is mandatory.

1302. Career Sea Pay (CSP) for Reservists

a. Policy. Naval Reservists on sea duty while performing AT, ADT, or ADSW earn CSP per DoDFMR Vol 7A and SECNAVINST 7220.77D.

b. Eligibility Criteria. The DoDFMR contains regulations concerning entitlement to CSP. Entitlement to CSP does not always exist at all times while serving on any type ship. Enlisted members can become entitled to CSP only while serving on a category A or B ship per MILPERSMAN article 7220-060.

c. Rates Payable. The DoDFMR lists monthly CSP rates.

d. Administrative Procedures. The following administrative procedures apply to Naval Reservists on inactive duty:

- (1) Reservists require computation of sea duty for CSP purposes.

(2) An Administrative Remarks (NAVPERS 1070/613) entry shall be made in all enlisted member's service record. The entry will reflect the starting, stopping, or idling of the members' counter per SECNAVINST 7220.77D. Activities where personnel normally experience a large number of brief sea duty periods, such as Fleet Training Units (FTUs), may make a quarterly summary entry of sea duty days credited each member

(3) Enter cumulative sea duty in NSIPS upon initial computation and update as changes occur.

1303. Special Pay and Allowances. Navy Reservists may also receive other military compensation, whether pay or allowances, when authorized by Congress, depending on the nature of their duty assignment, their military specialty, where they are stationed, and the duration of their orders.

a. Designated Unit Pay. Reservists assigned to NRF Ships are authorized an additional \$10 per IDT period up to 60 IDT periods per FY. If the CO of a newly commissioned ship believes the members of his command are eligible for Designated Unit Pay (or Fleet Pay) a letter must be sent to COMNAVRESFORCOM N11 and N13 to determine eligibility and proper coding in RHS.

b. Diving Duty Pay. Member must be a qualified diver prior to assignment to a dive billet/unit. Orders to duty involving diving for Reserve personnel are issued by echelon IV or V. Orders must specifically state "Performance of Diving Duty is Authorized." For Reservists assigned to duty involving diving, dive pay is authorized when performing IDT. Dive pay equates to 1/30th of the monthly amount payable to an active duty member of the same paygrade. Eligibility for special pay for diving terminates upon detachment from an authorized Navy Reserve diving unit, transfers between authorized Navy Reserve diving units, removal from diving duty, or upon lapse of diver qualification. Members are responsible for making sure that their qualifications are completed in a timely manner and submitted via their chain of command to the reserve echelon IV for update in RHS. Qualifications must be updated every six months per the MILPERSMAN 1220.260. Any periods of IDT, ADT, AD, or ADSW performed during a lapse in qualification will not be paid until the qualifications are updated in RHS. If the qualifications were not updated a service request may be opened and supporting documentation forwarded to the RPAT helpdesk for manual push into RHS (see appendix A exhibit 25).

c. Aviation Career Incentive Pay and Career Enlisted Flyer Incentive Pay (ACIP and CEFIP). Entitlement to ACIP/CEFIP is determined per the DoDFMR and BUPERSINST 7220.29A. BUPERSINST 1001.39D, chapter 14 provides specific procedures and limitations that apply to inactive duty officers. All commands maintaining NATOPS records will need to track and verify payment for the proper gates. If any member is not receiving the proper amount, a service request will need to be open and a letter from the command stating the members Name, SSN, Aviation Service Indicator (ASI) Code, ASED, Months of Flying (MOF) and Career Months of Flying (CMOF) per the BUPERSINST 7220.29A must be submitted to COMNAVRESFORCOM RPAT (see appendix A exhibit 25 and exhibit 26). A member transferred to a billet not requiring flying status may continue to draw ACIP for 24 months. The NRA is responsible for tracking the 24 month period of eligibility of ACIP and requesting termination through COMNAVRESFORCOM N11 RPAT.

d. Special Pay (Medical). Doctors, dentists, and certain Nurse Corps officers may be authorized special pay when they meet qualifications specified by Title 10 and ordered to AD for more than 30 days. The point of contact for establishing professional service dates for these officers is NAVPERSCOM (Pers-4912). For initiating medical special pay, complete the form (see appendix A exhibit 27) and route through your chain of command.

e. IDP. Drilling Reservist and members of the VTU performing AT/ADT/ADSW in designated imminent danger areas are entitled to IDP.

Note: IDTT shall not be conducted in designated imminent danger areas nor will IDP be authorized under IDTT orders.

f. Special Duty Assignment Pay (SDAP). To qualify for SDAP, members must hold a qualifying NEC and be assigned to a designated SDAP billet as specified in the annual ALNAVRESFOR. To initiate/continue payment the member's commands must forward a certification letter (see appendix A exhibit 28) to COMNAVRESFORCOM N11 upon assignment or no later than 30 September of the current FY

g. Foreign Language Proficiency Pay (FLPP). FLPP consists of two types of pay FLPP I and FLPP II. Effective April 2000 FLPP pay was increased to a maximum of \$300.00 per month. To be eligible, a member must be a CT assigned to a designated FLPP billet in a SECGRU unit and have successfully completed the Defense Language Proficiency Test (DLPT). Commands must submit documentation along with test scores to COMNAVRESFORCOM N11 (see appendix A exhibit 29). FLPP will be paid to members performing IDT or AT/ADT/ADSW.

h. Funeral Honors Duty (FHD). Members performing FHD are authorized either pay or drill credit. For member's who are drilling reservists, payment/drill credit is made through NSIPS. For IRR members; the NRA that requested their assistance will submit a letter requesting payment/drill credit to COMNAVRESFORCOM N11 (see appendix A exhibit 30).

CHAPTER 14PAY INQUIRIES AND DISCREPANCIES

1401. General. This section provides the NSIPS coordinator, IDT clerk information to resolve pay discrepancies. By reviewing the Earning Statement Report, DJMS-RC Status Report, NSIPS Transmission Log, and the DJMS-RC Unit Error Report, NSIPS coordinators and IDT clerks can determine what corrective action is required or what action may be in process. COMNAVRESFORCOM has established service request procedures to assist in resolving pay discrepancies when the NSIPS coordinator or IDT clerk is unable to determine the proper corrective action.

1402. Officer Promotion Letters

a. To compute pay for IDT at the new rank, a copy of the Officer Promotion Letter (NAVPERS 1421/7), indicating the effective date of rank, will be submitted to NAVPERSCOM (Pers-4802) by the command holding the officer's record. Promotions are submitted as an NSIPS entry as "GRADE" only. Date of rank is entered by NAVPERSCOM.

b. To receive a pay increase because of a promotion, for a period of AT or ADT, a certified copy of the officer promotion letter, order modification, and payment voucher (NAVCOMPT 2120) should be forwarded to the disbursing office that made the original payment. The orders will be returned to the officer upon liquidation.

1403. Inquiries Concerning IDT Pay. The Privacy Act of 1974 (PL 93-579) authorizes DFAS-Cleveland to release check information to the Reservist, the Reserve unit, and certain pay information to authorized civilian personnel such as banks or mortgage companies.

1404. Returned IDT Paychecks. If a Reservist's IDT paycheck is returned for postal reasons, all future check mailings will be suspended until a valid address is received. Upon receipt of a valid address, submitted via service request, or correspondence from the Reservist or Reserve unit, returned check(s) will be re-mailed and any back pay will be included in the next check.

1405. Change of Check Mailing/Correspondence Addresses. DFAS-Cleveland has the capability to maintain two addresses. The first is a check mailing address and the second is a correspondence address. The check mailing address will be used only for mailing of checks, while the correspondence address will be used for everything else.

a. Use NSIPS to report home address changes to DFAS-Cleveland for Naval Reservists on IDT Orders. Use the Change of Address Notice (blue) NAVFINCEN 5110/7 (Rev. 11-84) or a letter to DFAS-Cleveland (Code FMBA) only to change foreign addresses not currently supported by NSIPS. The following foreign addresses are currently supported by NSIPS and do not require submission of the NAVFINCEN 5110/7:

COUNTRY CODE	LOCATION
PR	Puerto Rico
GU	Guam
PW	Palau

MP	Northern Mariana Islands
PS	Trust Territory of the Pacific Islands
AS	American Samoa
FM	Federated States of Micronesia
VI	Virgin Islands

b. Correspondence and check mailing addresses are different. Correspondence address is used to mail all day-to-day correspondence. Check mailing address is the financial institution's address. NSIPS home address change will only change the correspondence address

c. Naval Reservists not on IDT orders and all others will submit the Change of Address Notice (blue) (NAVFINCEN 5110/7) to DFAS-Cleveland (FM). A supply of forms may be obtained from the same address. Addresses, which show c/o (in care of), are not acceptable.

1406 Withholding Tax for Navy Reserve IDT Pay. IDT pay is subject to withholding tax in the year that payment was made, not when the IDT periods were performed. NSIPS entries are required for reporting State and Federal Tax status changes to DFAS-Cleveland. The original W-4 Form will be retained in the personal IDT folder. See chapter 9 for filing requirements.

1407. Remedy. Remedy is primarily a pay problem reporting, research, and tracking system. A pay problem is submitted as a service request in Remedy and is defined as, but not limited to, any occurrence that would cause a member not to receive IDT pay, bonus payments, or special pay. Echelon IV commands have the ability to research NSIPS uploads/downloads and RTSS(TE), IMAPMIS, and DFAS databases to resolve pay problems at the lowest level.

a. Echelon V responsibilities: Echelon V activities will report all pay problems within 1 working day using a service request. Report only problems that cannot be resolved locally to the SPAWAR ITC Help Desk for entry into the Remedy system for tracking and research.

b. Echelon IV/V operational units responsibilities: NRF ships, MIUW, RNMCF units, or other units not subordinate to a NAVRESREDCOM or other NRA, but subordinate to COMNAVRESFORCOM, will report all pay problems to the SPAWAR ITC Help Desk immediately upon discovery.

c. Echelon IV responsibilities: Echelon IV activities will review all service request logged for their subordinate commands on a weekly basis to ensure all efforts are being made to resolve the problem expeditiously. Echelon IV activities will contact the COMNAVRESFORCOM RPAT for any issues not sufficiently resolved through the service request process.

d. Feedback: Problem status and resolution will be provided through Remedy to echelon IV activities. Immediately upon receipt of feedback from the Help Desk or the supporting echelon IV activity, the reporting command will initiate all required corrective action. After corrective action has been taken and the information has been verified, the echelon V will report resolution of the issue to the SPAWAR ITC Help Desk and the service request will be closed.

CHAPTER 15

UNIFORMS

1501. General. U.S. Navy Uniform Regulations (NAVPERS 15665I) prescribes uniform and grooming standards for all personnel authorized to wear the U.S. Navy uniform.

1502. Uniform Requirements. COMNAVRESFOR P4000.1A, section III prescribes uniform requirements for officers, chief petty officers, and enlisted personnel E6 and below.

Chapter 16

ENLISTED CLASSIFICATION PROGRAM

1601. General. The purpose of the enlisted classification program is to achieve the most effective use of available manpower. MILPERSMAN articles 1221-010 through 1221-030 provide basic information concerning enlisted classification program.

1602. Responsibilities. COMNAVRESFOR is responsible for providing classification program guidance throughout the NAVRES. COMNAVRESFORCOM is responsible for inspecting all areas of classification as part of their regular assessment cycles and providing technical assistance to their echelon IV commands.

a. Echelon IV commands (NAF/NAS/NAVAIRES/NAVRESREDCOM) are responsible for assigning a qualified classifier with an NEC of PN-2612 and designated in writing in the command's collateral duty notice to administer the enlisted classification program. The classifier will:

(1) Implement and inspect the enlisted classification program for all assigned personnel, active and inactive, in their command including operational support units.

(2) Provide technical guidance to their cognizant NRA classifiers/classification coordinators.

(3) Review service records, submit and monitor NEC requests for staff personnel, and operational support units.

(4) Monitor progress of and counsel, any Drilling Reservist assigned or under their administrative control who has enlisted/affiliated in a temporary paygrade.

(5) Administer other aspects of the classification program including: Submission of request for retests, administer retests, entry of authorized NECs, assignment, and service record entry of Defense Group (DG) NECs for nondesignated personnel, and entry of ASVAB test scores on Enlisted Qualifications History (NAVPERS 1070/604). Ensure destruction of classification material per SECNAVINST 5212.5D and MILPERSMAN article 1236-030.

b. Echelon V commands (NRAs, RESFORONs, and NAVAIRESs) are responsible for:

(1) Assigning the collateral duty of and designating a staff member as the classification coordinator.

(2) The classification coordinator will:

(a) Implement an enlisted classification program for assigned units including operational support units.

(b) Maintain close liaison with and inform parent echelon IV classifiers concerning all classification matters under their purview.

(c) Monitor progress of individuals possessing conversion NECs.

(d) Request NECs as follows:

1. Ensure conversion NECs are requested on personnel who have enlisted/affiliated under any temporary rating program.
2. Request NECs from NAVRESPERSSEN (N51) using NEC Change Request (EPMAC 1221/2). The request may be signed "By direction" and will also be signed by the classifier/classification coordinator.
3. Review service records upon affiliation or as soon as it is received from NAVRESPERSSEN to ensure that NECs member obtained while on AD, and are required by billet or unit collateral assignment, are requested upon assignment. Requests for NECs are required to have appropriate justification (i.e., DD 214N, NAVPERS 1070/604 or other substantiating documentation).
4. Ensure NEC sequence codes have been considered when assigning NECs. The Manual of Navy Enlisted Manpower and Personnel Classifications and Occupational Standards (NAVPERS 18068F, volume II) lists all sequence codes
5. Ensure the individual is in the proper source rate/rating for the requested NEC.
6. Maintain copies of NEC requests and approvals to keep track of status.
7. Liaise with training department concerning drilling reserves who are in or have completed any school, OJT projects or correspondence courses that authorize/award an NEC upon completion.
8. Assign DG NECs to all nondesignated (SN/AN/FN) personnel per Manual of Navy Enlisted Manpower and Personnel Classifications and Occupational Standards (NAVPERS 18068F, volume II).
9. Enter, or ensure service record holder enters all authorized and assigned NECs on NAVPERS 1070/604, per MILPERSMAN article 1200-050 and NAVPERS 18068F, volume II.
10. Remove DG NECs and add appropriate rating NECs to NAVPERS 1070/604 when nondesignated members are authorized/awarded striker identification or advanced to a designated rate.

(e) Monitor progress of and provide counseling to Naval Reservists who enlisted under the provisions of the AIA, APG, NAVET, OSVET, RESCORE-R, or CB(VET) programs. Establish tickler files to track record of counseling, rating requirement progress, and advancement requirement progress. Tickler files may be kept on index cards or Automatic Data Processing (ADP) equipment.

(f) Ensure every service record has ASVAB test recorded on either DD1966, NAVPERS 1070/604, section II or previously issued NAVPERS 1070/603. Do not transcribe ASVAB scores from the DD1966 to the NAVPERS 1070/604.

1603. Counseling. Provide counseling every 6 months for all temporary rated personnel until rating is made permanent or member is disenrolled from their program.

a. For CB(VET) personnel. Unit COs/OICs will ensure counseling by the unit career counselor on a 6-month basis, reporting progress to their battalion with a copy to the NRA classifier/classification coordinator.

b. Document all counseling sessions with an Administrative Remarks (NAVPERS 1070/613) entry. If the member fails to show for counseling session or is unavailable at the scheduled time, notify the member by certified mail of their requirements that remain to be completed.

1604. Basic Reserve Intelligence Training (BRIT) Program. Nondesignated personnel desiring to strike for IS must be interviewed by a classifier. The classification interview appraisal worksheet will be included as an enclosure when submitting an in-training status request to enroll in the program. Submit change-of-rate requests to NAVPERSCOM (Pers-4812), via the chain of command. Upon approval from NAVPERSCOM (Pers-4812) assign members the DG NEC 9720 via NSIPS and make appropriate service record entries.

CHAPTER 17NAVY RESERVISTS ASSIGNED TO OVERSEAS NAVY RESERVE ACTIVITIES

1701. General. This chapter provides guidance regarding requirements and responsibilities of NRAs for Navy Reservists assigned to billets while overseas.

1702. Policy. To provide Navy Reservists career continuity during overseas residence due to civilian employment or relocation. IDT is authorized only at overseas locations with valid Navy Reserve support requirements in countries with a standing Status of Forces Agreement (SOFA).

1703. Definitions

a. Supported Activity. A U.S. Navy or DoD Joint Command (with USN personnel attached) that has been identified and approved by the respective overseas NRA and which is ready and willing to receive reservists under IDTT/ADT/AT/ADSW orders for operational support. The Supported Activity, in coordination with the overseas NRA, is responsible for the reservist's readiness including PFA reporting, urinalysis/drug program participation, medical/dental readiness and drill approvals.

b. Overseas NRA. Command responsible for administrative requirements, billet assignment, IDT/IDTT/ADT/AT/ADSW processing, activation under mobilization, and readiness including medical and dental readiness, PFA monitoring. The overseas NRA shall maintain all personnel, dental and health records. The following NRAs shall be responsible for Drilling Reservists residing overseas as follows:

(1) Navy Reserve Center Guam: Shall be responsible for all Drilling Reservists residing overseas under the Central Command and Pacific Command areas of responsibility (AOR), not to include NRC Hawaii.

(2) Commander, U.S. Naval Forces Europe (N1R) Operational Support Office, Naples Italy: Shall be responsible for all Drilling Reservists residing overseas under the European Command AOR.

(3) Naval Reserve Readiness Command Region Southeast: Shall be responsible for all Drilling Reservists residing overseas under the Southern Command AOR.

c. Established units:

<u>Location</u>	<u>Unit</u>	<u>RUIC</u>	<u>Approval Authority</u>
London, England	COMUSNAVEUR D-130, NAVACTS 230, VTU 3001	86912 89940 3001G	COMUSNAVEUR (N1R)*
Stuttgart, Germany	COMUSNAVEUR D-0130	88820	COMUSNAVEUR (N1R)*
Rota, Spain	VTU 3009	3009G	COMUSNAVEUR (N1R)*
Naples, Italy	VTU 3004	3004G	COMUSNAVEUR (N1R)*

Yokosuka, Japan	VTU 3005	3005G	NRC Guam
Seoul, Korea	VTU 3101	3801G	NRC Guam
Naval Station Guam	NAVSTA GUAM D-120 VTU 3006	86855 3006G	NRC Guam

* Commander, U.S. Naval Forces Europe (N1R),

1704. Overseas Assignment and Affiliation Process

a. Overseas assignment and IDT is allowed only in those countries with an existing SOFA that provides protections for active duty. The following limitations or parameters apply:

(1) The Drilling Reservist must reside in a country with whom the United States has SOFA that provides protection to military personnel. Expenses associated with commuting to a separate host nation to perform IDTs for a supported activity is at the member's personal expense.

(2) Drilling Reservists residing in a country with a SOFA will not be permitted to drill until they have signed an Administrative Remarks (NAVPERS 1070/613) (see appendix A, exhibit 31).

(3) Personnel may travel to any country to perform IDT if the host country has a SOFA with the United States that specifically provides protection for IDT.

b. Reservists who wish to affiliate with an overseas NRA shall forward assignment requests to the appropriate command listed in paragraph 1703b via their chain of command including their NRA. Requests should be submitted as soon as practical but at least 60 days prior to anticipated departure. In order to ensure drill continuity while affiliating with an overseas NRA, Drilling Reservists should request AAs or RS as necessary. All overseas assignment requests must include the following:

(1) Current mailing address and contact address OCONUS.

(2) Telephone numbers: Current day/night numbers. Point of contact number OCONUS if available.

(3) Anticipated date of departure from CONUS and arrival at contact address OCONUS.

(4) Anticipated duration of residency OCONUS. (Must be greater than six months for overseas assignment.)

(5) Statement that member will/will not accept a nonpay assignment if a pay assignment is not available.

(6) Government employees must also provide the name and OCONUS address of the government agency where they will be working.

c. Enlisted personnel must include an Enlisted Application and Orders to a NAVRES Unit (NAVRES 1326/4), with the applicable member's section completed.

d. 05/06 officers requesting overseas affiliation, who are filling "Apply" billets per COMNAVRESFORCOMNOTE 5400, must relinquish those billets. A waiver may be granted for those officers filling a non-command billet in support of a gaining command overseas. Such a waiver must be endorsed by the Unit CO and forwarded to COMNAVRESFORCOM N1 for approval. 05/06 officers residing overseas may also apply for the very limited number of CO billets assigned to the overseas units, per paragraphs 302e and 504 of this instruction. All other 05/06 officers must drill with the VTU. Officers shall submit a letter application indicating unit, location and billet desired (if known).

e. The following personnel are not eligible for overseas assignment:

- (1) Members with temporary ratings.
- (2) Members who have not completed Basic Training/IADT equivalency (84 days of training).
- (3) Members failing to meet prescribed physical readiness standards.
- (4) Members testing Human Immunodeficiency Virus (HIV) positive.

f. TAD overseas is not authorized.

g. Security Clearances. The performance of IDT/ADT/AT/IDTT/ADSW with an overseas Supported Activity normally requires a security clearance. Affiliation for personnel supporting U.S. Naval Forces Europe activities requires a minimum Secret clearance.

h. Support Services. Affiliation overseas is authorized with the understanding that many of the administrative and logistical support services available at CONUS activities (e.g., messing, berthing, and uniform issue) will not be available.

1705. Temporary Nonmilitary Travel Residency Overseas

a. For personnel whose nonmilitary travel/residency overseas in excess of 30 days would create an IDT hardship may request transfer to the IRR or request Authorized Absence (AAs) up to six months per paragraph 603b(2).

b. Personnel who have not completed IADT or equivalent and whose temporary nonmilitary travel/residency overseas in excess of 30 days would create an IDT hardship are not eligible to transfer to the IRR, therefore assignment of AAs is the only option.

1706. Overseas Navy Reserve Activity (NRA). The overseas NRA shall find a Supported Activity with reserve support requirements that desires overseas reserve IDT support. Every effort will be made to find all Reservists pay billets, however, some Reservists may be required to drill in the VTU if a billet is not available. The overseas NRA shall:

a. Ensure applicants comply with physical readiness standards and have up-to-date medical records.

b. Verify applicant's civilian employment does not pose a conflict of interest per paragraph 229 of this instruction.

1707. Supported Activity. Supported Activities may submit requests for Reserve overseas operational support to the overseas NRA CO or the Operational Support Officer with the following information:

a. Identify requirements/billets that meet the criteria for reserve support. Delineate Reservist's credentials and qualifications, which satisfy that requirement.

b. In coordination with the overseas NRA, verify through the respective Unified Command JAG and/or COMNAVRESFORCOM N00J, that the SOFA between the United States and the host country permits Reservists to perform IDT and ADT/AT in the host country.

c. Verify if host country provides Drilling Reservist diplomatic immunity if member is to support a US Embassy.

1708. Administrative and Operational Support

a. Overseas NRA will:

(1) Assignment. Establish an effective date and assignment to a billet or VTU. All Drilling Reservists and members of the VTU will have established PRDs, per paragraphs 403 and 404 of this instruction. Cross assignments will be considered a local fill for those Drilling Reservists providing operational support to their gaining command.

(2) IDT and IDTT. Authorize a maximum 48 paid IDT periods. Additional non-pay IDT periods are authorized. Since the gaining command is identified as the Permanent Training Site, IDTT is authorized for drill at the respective NRA as necessary to complete medical, dental, PFA and other readiness requirements.

(3) Posting of Drills. Upon receipt of drill forms, post the drills per chapter 7 of this instruction.

(4) Medical/Dental Readiness. Maintain all medical and dental records for assigned Drilling Reservists. Coordinate with the Supported Activity in maintaining medical and dental readiness of assigned Drilling Reservists per MANMED (NAVMED P117), SECNAVINST 1850.4D and BUPERSINST 1001.39D. Specifically, ensure:

(a) Physicals are current.

(b) Annual medical/dental certifications are conducted. This should be done prior to commencing AT. This certification should include completion of Annual Certification of Physical Conditions (NAVMED 6120/3), HIV testing and Type II Dental exam.

(c) Dental class I/II status. Drill credit is authorized for reservists to complete dental exams in order to maintain Class II status and may be completed as RS drills. If a Drilling Reservist falls out of standards (into Class III), the NRA shall place the Drilling Reservist into TNPQ, per BUPERSINST 1001.39D.

(d) Line of Duty (LOD). The NRA shall submit a LOD on any reservist who incurs or aggravates an injury, illness or disease while on active duty orders of 30 days or less. A LOD can provide authorization for

medical benefits and/or incapacitation pay for the Reservist per COMNAVRESFORINST 1770.5B. NRAs are to contact COMNAVRESFORCOM (N01M) to initiate LOD procedures or to clarify any questions.

(5) Enlisted Advancement Exams

(a) Track, monitor, and update personnel data for each Drilling Reservist on the advancement eligibility list per BUPERSINST 1430.16D. Ensure all prerequisites to qualify for the upcoming advancement exam are verified and documented no later than 45 days prior to the exam date.

(b) Eligibility requirements. Verify the following categories on worksheets prior to ordering advancement exams: Time-in-Rate (TIR), Health and Physical Readiness, Performance Mark Average (PMA), Satisfactory Drill Performance and HYT.

(c) Order advancement exams during June/December and ensure delivery to Personnel Support Detachment (PSD), OSO or Support Activity as applicable 30 days prior to the exam date.

(6) Order Writing Authority. The NRA is responsible for the order writing process, and AT and IDTT funding for assigned units and personnel. The NRA will ensure Drilling Reservists meet appropriate AT requirements and that all administrative and technical order writing support requirements are fulfilled.

1709. Supported Activity will:

a. Medical/Dental Readiness. In coordination with the NRA, maintain the medical and dental readiness for all assigned Drilling Reservists per MANMED (NAVMED P117), SECNAVINST 1850.4D and BUPERSINST 1001.39D. Specifically, support Drilling Reservists, through RS IDTs as necessary, in completing:

- (1) Physicals (once every 5 years if under age 50).
- (2) Annual medical/dental certifications prior to commencement of AT/ADT/ADSW.
- (3) Dental exams in order to maintain Class II status.
- (4) Notify NRA if Drilling Reservist incurs or aggravates an injury, illness or disease while on active duty for 30 days or less.

b. Physical Fitness Assessment Program

- (1) Ensure all required PFAs are completed and documented per OPNAVINST 6110.1F.
- (2) Ensure Drilling Reservist is in a drill status during semi-annual PFA.
- (3) Provide copies of (or export) personnel data from HAPRIMS Program to NRA Command Fitness Leader (CFL) at end of each cycle.

c. Enlisted Advancement

(1) In coordination with the respective overseas NRA, ensure advancement exams are ordered one month prior to exam cycle and administer the enlisted Reserve advancement examination.

(2) Destroy exam booklets and send completed exam sheets per exam instructions and BUPERSINST 1430.16D.

d. Drill accountability

(1) Documentation. Sign and submit all completed IDT regular/reschedule/flexible drill forms and schedules to the NRA. With the approval of the NRA, ensure Drilling Reservists comply with drill scheduling participation requirements, per chapter 7 of this instruction.

(2) Acknowledgement. Ensure Drilling Reservists acknowledge their understanding of the Navy's policy concerning IDT (see annex A exhibit 21). This includes attendance, notification of absences, and procedures to take for missed IDT periods.

(3) Satisfactory Participation. Enable the Drilling Reservist to complete 40 of 48 drills to maintain satisfactory participation. Additional non-pay IDT periods are authorized.

(4) RS Drills. The Supported Activity may authorize RS drills. RS drills must be completed to further operational support or readiness and not solely at the convenience of the member at a date different from planned drill weekend, per paragraph 603(b) of this instruction.

(5) FLEX Drills. The Supported Activity in coordination with the NRA may authorize FLEX Drills in order to maximize operational support per paragraph 613 of this instruction. FLEX IDT schedules must be coordinated in advance, per paragraph 612 of this instruction. Reservists who FLEX drill are required to sign and return an Administrative Remarks (NAVPERS 1070/613) (see annex A exhibit 22) to the NRA prior to conducting any FLEX drills. Supporting Activities in coordination with the NRA may authorize up to 40 flexible IDT periods per FY. However, at least 2 IDTs must be performed at the Supporting Activity per quarter.

(6) Unexcused Absences. U's will be reported by the Supporting Activity to the respective NRA per paragraph 603(c) of this instruction.

(7) AAs. AAs may be requested by a Drilling Reservist and granted by the NRA with the endorsement by the Supporting Activity, per paragraph 603(b) of this instruction. The Drilling Reservist may initiate the request utilizing e-mail to the Supported Activity via the NRA.

e. AT

(1) Drilling Reservists in a pay status will coordinate scheduling and administrative processing of 12 days AT to be performed at the supported command. Reservists will forward the AT application via NROWS to their NRA for processing. Performance of both IDT and AT is authorized only at the supported command.

(2) Drilling Reservists, falling under subparagraph (b) and (c), if unable to perform AT can request an AT waiver.

f. Drug and Alcohol Awareness/Prevention. The Supported Activity in coordination with the NRA shall provide Drilling Reservists alcohol/drug abuse prevention and control and ensure they participate in urinalysis screening.

g. Personal Security Clearances. The Supported Activity will request all security issuance and administration from the NRA per SECNAVINST 5510.36 and SECNAVINST 5510.13B, including but not limited to security clearance/access administration and security clearance notification requirements. The Supported Activity shall advise the NRA of security clearance access and notification requirements and ensure reservists provide appropriate documents for security clearance investigations as required.

1710. Overseas Drilling Reservists. Prior to their first drill weekend, Drilling Reservists shall provide the Overseas NRA with completed copies of the following:

a. All Reservists: A signed Status of Forces Agreement Administrative Remarks (NAVPERS 1070/613).

b. Single parent or Reservists' married to another military member (active or reserve) with dependent children: Completed Department of the Navy Family Care Plan/Dependent Care Certificate (NAVPERS 1740/6/7), per OPNAVINST 1740.4A.

1711. Unit Commanding Officer. The Unit CO is the Drilling Reservist's regular reporting senior and is responsible for FITREP/Eval and midterm counseling submissions per BUPERSINST 1610.10. Supported Activities may submit concurrent FITREPS/Eval and should send originals to the Unit CO for signature via the overseas NRA.

Electronic Funds Transfer (EFT) Administrative Remarks (NAVPERS 1070/613)

"Date": Per the DoDFMR, volume 5, article 240202 I understand that:

- I am required to participate in Electronic Funds Transfer (EFT). I must provide the necessary documentation required by my Administrative/Personnel Office for EFT Participation.
- I may freely choose or change financial institutions.
- It is my responsibility to maintain an account for EFT of my Navy Reserve Inactive Duty Training (IDT) pay, as long as I am a member of the Drilling Reserve, unless I receive an exception from this requirement.
- Failure to establish and maintain an account may subject me to administrative and/or disciplinary action under the Uniform Code of Military Justice.

RESCORE-R Administrative Remarks (NAVPERS 1070/613)

"Date": I understand by enrolling in the RESCORE-R program, I must complete all lateral conversion prerequisites within 18 months of this date. These prerequisites are:_____. I must participate in the first advancement exam following completion of these prerequisites. If my rating conversion is not completed within 36 months of this date, I will be terminated from the RESCORE-R program, and may be transferred to a nonpay IDT status or to the Individual Ready Reserve. I further understand, RESCORE-R is authorized only once, and noncompletion of RESCORE-R requirements disallows any future RESCORE-R application. Should I decide at any time before completing RESCORE-R prerequisites that I want to keep my permanent rate (that rate which I am RESCORING from), I must request this from COMNAVRESFORCOM (N11).

CB(VET) Program Administrative Remarks (NAVPERS 1070/613)

"Date": I understand I must incur a minimum 3-year service obligation for accession into the CB(VET) Program. This may be accomplished as an extension, if eligible, or as an enlistment/reenlistment. To be eligible for the Montgomery G.I. Bill, I must enlist for 6-years. Under the provisions of the CB(VET) Program, I understand that I have a permanent rating of (insert rating) and temporary rating of (insert rating). I am assigned to (Naval Construction Force Unit) in an IDT pay status. I will report to (Navy Reserve Activity or NCF Unit) on (date). I understand to fully qualify for the temporary rating of (insert rating) that I must complete the following requirements within 36 months:

- (1) Qualifications Standards Book (QSB), also known as the "A" School Construction Rating Skills Equivalency Handbook, which is located at the following web site:

www.SEABEE.NAVY.MIL/CBVET.

- (2) Rating Manual for Petty Officer Third Class (PO3).

- (3) Obtain Standard Score of 37 or better on Advancement Exam E4 CB(VETS) only).

- (4) Military Requirements for Petty Officers Third and Second Class (NAVEDTRA 14504) and Petty Officer Indoctrination (E4 OSVETS ONLY).

I understand that I must complete the QSB and all course requirements prior to taking the Navy-Wide Advancement Examination. If I do not complete the requirements or do not score a standard score of 37 or better on the advancement exam in the authorized time frame, I will be reverted to my permanent rating and transferred to the Individual Ready Reserve (IRR). If I request transfer to the IRR, am involuntarily transferred to the IRR, or Administratively Separated before completing all requirements for my temporary rating, I will be reverted to my permanent rating and will be ineligible for reentry into the CB(VET) Program. I certify that I have not previously participated in the CB(VET) Program and failed to make that rating permanent.

MOB REQUIREMENT/A RATE

MONTH OF VACANCY

Exhibit 10

SGLI Letter for Naval Reservists Assigned to VTU

Dear Naval Reservist,

Please read this letter carefully for information concerning your Service-members Group Life Insurance (SGLI) and Family Servicemembers Group Life Insurance (FSGLI).

Reservists who are in a pay status have SGLI/FSGLI premiums deducted from their pay. Members in a nonpay status are sent quarterly SGLI premium notices.

In addition, upon transfer to a nonpay status, Reservists who have FSGLI coverage will be sent coupons to remit FSGLI premiums. These premiums may be sent monthly or annually.

Premiums for SGLI and FSGLI should be sent on separate checks. All premium payments (SGLI/FSGLI) should be mailed directly to: DFAS-CL, ATTN: Code ADBC, 1240 East 9th Street, Cleveland, OH 44199.

Be sure your social security number is on your check and on all correspondence. Payment should be made within 60 days. If payment is not received, a termination warning will be issued. Failure to make payment within 60 days will result in termination of SGLI/FSGLI coverage.

Guidance from the Assistant Secretary of Defense states that: "Member's SGLI coverage may subsequently be continued if, and only if, within 60 days of the date notified of pending SGLI termination, the member (1) makes payment in full for all premiums past due, and (2) justifies, to the satisfaction of the Secretary concerned, the failure to remit premiums in a timely manner. Absent acceptance of this justification by the Service Secretary concerned, the member's SGLI coverage is terminated with reinstatement only as approved by the Secretary of Department of Veterans Affairs. Each Service must establish procedures to review justifications of late payments, judging each case on its own merit. In general, a late payment may be justified only when circumstances beyond the member's control prevented timely payment. Lack of available funds, lack of awareness of the requirement to make timely payment, and not having kept the Service informed of a current mailing address are not acceptable reasons in and of themselves."

To ensure that you receive your premium notice in a timely manner, it is essential that your current mailing address be on file. Please ensure this information is accurately reflected in your NRA's system. DFAS-CL will automatically be notified of address changes via transactions submitted through normal processing channels.

SGLI coverage is in effect for the coverage amount shown on the enclosed billing statement. If this is not the coverage level you would like, please contact your NRA to process the appropriate transaction for the level of coverage you desire.

Questions regarding your SGLI billing statement or FSGLI coupons should be directed to DFAS-CL Customer Service at 1-800-255-0974 or (216) 522-5138, Monday through Friday, 7:00 a.m. to 7:00 p.m. (EST).

Exhibit 11

Transfer To VTU or Records Review Administrative Remarks (NAVPERS 1070/163)

"Date": I have been assigned to Voluntary Training Unit (Unit number) as the result of pending administrative or medical action that may result in my discharge from the Naval Service.

I understand that although scheduled to perform IDT, I will not perform DTs and will be assigned Authorized Absences for all scheduled IDTs until I am cleared for return to IDT status.

Although assigned to a unit that may allow performance of annual training or other active service, I will not perform active service until I am cleared for return to an IDT status. I must still attain 50 points per anniversary year to have a satisfactory year of service for nonregular retirement. I have been provided information regarding the process for obtaining, completing, and submitting correspondence courses for retirement point credit. I am also aware that my anniversary year begins: _____ (anniversary date).

I will be eligible for full time Servicemembers' Group Life Insurance (SGLI) coverage, and Family Servicemembers' Group Life Insurance (FSGLI) if applicable and Defense Finance and Accounting Service (DFAS), Cleveland Center will bill me on a quarterly basis. To ensure that I receive my premium notices in a timely manner, I will keep my Navy Reserve activity informed of my current mailing address. Premiums for SGLI and FSGLI will be sent on separate checks and mailed directly to DFAS-CL, ATTN: Code ADBC, 1240 East 9th Street, Cleveland, OH 44199.

I also understand that if I return to pay status before being billed, DFAS will automatically deduct past due premiums from my first IDT payment. I further understand that if I fail to make required payments within 30 days of due date; action will be taken to terminate my account.

It is my responsibility to notify my service record holder of any changes in my status that may affect my assignment.

Temporary Not Physically Qualified (TNPQ)
Administrative Remarks (NAVPERS 1070/613)

"Date": I understand, although I am temporarily physically disqualified, that I have been retained in a Drilling Reserve unit with no inactive duty training travel, active duty for training, or annual training authorized. I understand this assignment may change for any reason deemed necessary by competent authority. I understand I must comply with all correspondence sent to me by the activity. I further understand I must immediately inform the Commanding Officer, (activity, location, zip code) of any change in my status, physical condition, or address. I have been counseled concerning completing Navy correspondence courses and retirement points required to get creditable satisfactory federal service toward retirement. I have been provided a copy of this statement of understanding.

Exhibit 20

**SATISFACTORY PARTICIPATION REQUIREMENTS/
RECORD OF UNEXCUSED ABSENCES**

COMNAVRESFORINST 1001.5C

1. Requirements for Satisfactory Participation for Naval Reservists:
 - a. Must attend 40 of 48 scheduled Inactive Duty Training (IDT) periods including IDT travel away from your permanent IDT site. Percentage of attendance is based on a progressive 12 month period.
 - b. Perform a minimum of 12 days Annual Training (AT) within each fiscal year.
 - c. Must report for scheduled physical examination.
 - d. Responsible for the receipt/response to all official correspondence.
 - e. You must keep your unit Commanding Officer informed of the following:
 - (1) Current address and work/home telephone number
 - (2) Changes in physical status
 - (3) Dependency changes
 - (4) Current employment status
 - (5) Other factors which could jeopardize mobilization potential
2. Requirements for Excuse of Missed IDT periods:
 - a. Request must be made to the unit Commanding Officer prior to the end of the missed scheduled IDT period/IDT weekend.
 - b. IDT periods excused will be scheduled as Equivalent Training (ET) IDTs and will be performed the month before, the month of, or the month after the originally scheduled IDT date. (A maximum of four ET IDTs will be credited for pay each fiscal year.)
3. IDT periods are considered Unexcused when:
 - a. No request for excuse to miss the IDT period was made prior to the end of the missed scheduled IDT period/IDT weekend.
 - b. Insufficient reasons of request for excuse of missed IDT period(s) as determined by unit Commanding Officer.
4. Nine Unexcused IDT periods in any 12 month period or failure to comply with requirements outlined in paragraph 1 above is considered Unsatisfactory Participation.
5. Failure to maintain Satisfactory Participation may result in the following actions:
 - a. **Officers:** Termination from assigned unit.
 - b. **Non-obligor:** Termination from the Selected Reserve or be placed in a 6 month probationary status.
 - c. **Advanced Pay Grade:** Reversion to your permanent rate and termination from the Selected Reserve.
 - d. **Sea and Air Mariner:** Involuntary orders up to 45 days, be placed in a probation status for 6 months, or processed for administrative separation.
6. Failure to receipt for or respond to OFFICIAL MAIL and failure to keep your Commanding Officer advised of your current address will not prevent the actions described in paragraph 5 above.
7. Termination of IDT Status:
 - a. All Reservists may request termination of IDT status due to extreme personal hardships.
 - b. You may be terminated from IDT status due to mobilization requirement change, changes in laws or regulations, or as the needs of the service dictate.
8. It is your responsibility to contact your Commanding Officer or the Naval Reserve activity where you participate concerning missed IDT(s). The activity telephone number is (504) 678-1300.

I will conform to the above requirements.

Exhibit 21

"Flexible (FLEX) IDTs Administrative Remarks, (NAVPERS 1070/613)

_____: I acknowledge that participation in a nontraditional training program such as the Flexible (FLEX) IDT option bears unique responsibilities and obligations, and that established safeguards which ensure proper crediting of IDT and active duty for training retirement point credit may no longer apply. I understand that I share in the responsibility for my Navy Reserve career. I received a briefing concerning satisfactory participation requirements and retirement point credit and understand that my anniversary date for a satisfactory qualifying year for retirement is __ (Date) __.

1. As a participant in the FLEX IDT Option, I acknowledge that:

a. Participation in the FLEX IDT option is voluntary and can be terminated by me, or my unit Commanding Officer.

b. I can use IDT and any additional drills authorized my unit to fulfill my FY drilling requirements. IDTs can be grouped consecutively and in conjunction with a 12-29 day Annual Training (AT) period as needed by the Supported Command (i.e., drill in March for 10 days (20 drills) and May for 26 days (28 drills and 12 day AT) or drill in May/June for 57 days (48 drills, 29 days AT and 8 ATPs)).

c. Submit completed drill muster form every 3 days while performing IDT for payment and proper recording of retirement points.

d. If required by BUPERSINST 1610.10, Annex M, ensure a Performance Information Memorandum (PIM) report is submitted to my unit Commanding Officer upon completion of AT.

e. I must complete annual Navy administrative and organizational requirements (i.e., Common Access Card issuance, Advancement examination participation, medical/dental assessments, physical fitness assessment (PFA), general military training (GMT)). I understand these requirements may be accomplished at the supported command, if facilities/services exist. If not, they will be accomplished at my Naval Reserve Activity using drills as appropriate.

f. My Servicemen's Group Life Insurance (SGLI) premiums continue to accrue on a monthly basis, whether or not I actually perform IDT during that calendar month. To retain SGLI eligibility, premiums accrued during the months IDT was not performed will be retroactively deducted in a lump sum from my next IDT paycheck.

g. My Expiration of Obligated Service for the Montgomery GI Bill-Selected Reserve is __ (date) __. If separated prior to that date, I will be required to repay prorated benefits received under the Montgomery GI Bill- Selected Reserve Program.

h. I must maintain satisfactory drill participation per BUPERSINST 1001.39D to remain a member of the Navy Reserve, earn a satisfactory year for retirement and remain eligible for continued anniversary installments of an enlisted bonus. If separated before completing of my obligated service for a bonus, I will be required to repay prorated bonus amount received under the Enlisted Incentive Program.

i. IDT periods performed in advance will result in the same Drilling Reserve obligation as if the IDT periods would have been performed on a normal four IDT periods per month schedule. During this obligated period, I must remain in my current billet assignment. I further understand that I cannot perform advance IDTs for service beyond my expiration of service, high year tenure, or any mandatory separation/transfer date as directed by higher authority. I remain eligible for recall through the end of the month for which I have performed IDT periods. Commander, Naval Reserve Forces Command or designated authority may release me from this obligation. I further understand that requests to change my obligation for my convenience may be delayed or disapproved.

WITNESSED: _____ (Name, Rank, Title)

_____" (Reservist's Signature)"

Exhibit 22

Funeral Honors Duty Administrative Remarks (NAVPERS 1070/613)

"Date": I have this date volunteered for assignment to Funeral Honors Duty (FHD) assignment under the Military Funeral Honors program. Such assignment will be under the following conditions:

- a. That acceptance of an assignment is strictly voluntary.
- b. That by performing a FHD assignment I will receive a Funeral Honors Duty Allowance (FHDA) in the amount of a \$50 stipend or 1 day's pay, less federal and applicable state income tax whichever is greater.
- c. That by performing a FHD assignment I will receive one inactive duty retirement point.
- d. That if the location to which I am directed to report (funeral location, Reserve Activity, or location to meet government transportation) is more than 50 miles from my place of residence, and if authorized by orders, I will be eligible for reimbursement of travel expenses.
- e. That while I may perform honors at more than one funeral per day, only one period of FHD will be assigned for FHDA payment and retirement point credit on any given day.

I acknowledge the following regarding my voluntary assignment to FHD that:

- a. I will be carried on the FHD Volunteer Roster of my assigned Navy Reserve Activity (NRA) until I request to be removed.
- b. I will be required to maintain current contact points and telephone numbers for recall information.
- c. I will be required to maintain dress uniforms and to report for FHD in the designated uniform.
- d. I will be required to report to my NRA, to a location to meet government transportation, or to the location of the funeral.
- e. For the period of FHD assignment, which will include the time between my departure from and return to my personal residence or place of work, I will be subject to the Uniform Code of Military Justice.
- f. For the period of FHD assignment, which will include the time between my departure from and return to my personal residence, I will be entitled to medical benefits authorized for the duty status under which I perform honors.

Tele-Commuting IDTs Administrative Remarks (NAVPERS 1070/613)

"Date": I acknowledge that I have been authorized to perform IDT via tele-commuting, that is performing assigned military duties at home or some other non-military establishment.

I understand the following:

- a. That telecommuting is not a right, but a complimentary tool the Naval Reserve may use to accomplish work. It is a management option meant to increase flexibility and productivity by maximizing resources, and is not to be used solely for the convenience of the member.
- b. I will be subject to monitoring of my performance by assigned superiors.
- c. During the performance of duty, I will be under the jurisdiction of the Uniform Code of Military Justice, and will be subject to regulations and policy related to line of duty, injury/illness and misconduct.
- d. The duties I perform are such that expenses should not be incurred. No reimbursement or compensation will be made unless the requirement is established and approved in advance.
- e. I am responsible for the installation, service or maintenance of privately owned equipment used in the performance of drills.
- f. The government will not incur any expense or liability resulting from the use, misuse, loss, theft, or destruction of privately owned computers, resources or equipment used in the performance of drills. I will be responsible for maintaining anti-virus protection.
- g. I am responsible for providing security against all losses, including but not limited to physical or virus loss, theft or damage. Anti-virus software is available for both government and privately owned computers.
- h. I agree that I will not conduct personal business while performing IDT tele-commuting drills.
- i. I will complete all work according to procedures established by my Reserve Unit Commanding Officer.
- j. I may perform regular pay or non-pay drills via tele-commuting. However, I will be required to perform at least 2 regular drill periods per quarter at my supporting Navy Reserve Activity. I will be required to report to my Reserve Unit Commanding Officer, using NAVRES 1570/23, the dates and times of drill periods performed and the work/projects accomplished. My Reserve Unit Commanding Officer will verify and submit muster documents to my drill pay activity.
- k. Tele-commuting authority may be revoked at any time by my Reserve Unit Commanding Officer.

Inactive Duty Training (IDT) Assignment Overseas Administrative Remarks
(NAVPERS 1070/613)

"Date": I understand that while performing inactive duty training in (name of country) I will not receive any of the rights or benefits under the Status of Forces Agreement treaty that active duty members of the Armed Forces and/or their family members receive.

I understand that while performing annual training/active duty for training/active duty for special work in an active duty status as a Drilling Reserve in (name of country), I will receive the same rights and benefits under the Status of Forces Agreement treaty received by active duty members of the Armed Forces and/or their family members.
