

DEPARTMENT OF THE NAVY
FISCAL YEAR (FY) 2026
BUDGET ESTIMATES

JUSTIFICATION OF ESTIMATES
JUNE 2025

Operation and Maintenance, Navy Reserve
(OMNR)

The estimated cost of this report for the Department of the Navy (DON) is \$60,393.

The estimated total cost for supporting the DON budget justification material is approximately \$3,113,561 during the 2025 fiscal year. This includes \$202,708 in supplies and \$2,910,853 in labor.

Operation and Maintenance, Navy Reserve							

The Operation and Maintenance, Navy Reserve (O&M,NR) appropriation provides for the cost of operating Navy Reserve forces and maintaining their assigned equipment at a state of readiness that will permit rapid employment in the event of full or partial mobilization and meet fleet operational support requirements. In FY 2026, the Navy Reserve will continue to contribute significantly to the effectiveness of the Navy’s Total Force.

The Navy Reserve operating force consists of aircraft, combat support units, High Value Unit escort boats, and their associated weapons. The cost of operating and maintaining Reserve aircraft in the Fourth Marine Aircraft Wing is also funded in this appropriation. The Navy and Marine Corps Reserve average aircraft totals 247 in FY 2026.

The Operation and Maintenance, Navy Reserve appropriation consists of two budget activities: BA 1 - Operating Forces and BA 4 - Administration and Service-wide Support. Operating Forces (BA 1) funding provides for the operation and maintenance of Reserve Force boats, aircraft, and combat support forces. In addition, funding is used to operate and maintain Navy Reserve activities and commands in all fifty states including the territories of Puerto Rico and Guam. There are expected to be 105 Navy Reserve Centers, seven hangars, and three Naval Air Station-Joint Reserve Bases in the Reserve Force at the end of FY 2026. Administration and Service-wide Support (BA 4) encompasses the funding required for various command and administrative activities.

As we look to a future of greater unpredictability, our maritime power is crucial. Readiness touches all elements of our Navy – from our aviation depots to the flying hours our Sailors use to hone their skills. Over the last several years, the Navy has improved its readiness through sustained funding and a relentless focus on reform, ensuring good stewardship of taxpayer dollars. We remain committed to sustaining these gains to field a ready and lethal force.

One Navy-Marine Corps Team. The DON will strive to “achieve seamless integration, communication, and collaboration across the DON.” The Department will achieve this goal through building “a strong culture, of communication, collaboration, trust, and transparency across the DON, supported with appropriate tools and processes.” The DON will prioritize the modernization of business systems, driving towards a more data-driven decision-making culture. We will strive for a “common understanding of maritime challenges” and the DON’s contribution to joint operations.

The FY 2026 budget maintains and enhances military readiness with our perform-to-plan initiatives that have improved aircraft mission capable rates. Performance improvements in recent years have enabled the Navy and Marine Corps to execute larger portions of the full readiness requirements. In aviation readiness, higher aircraft mission capable rates enable pilots to execute more of their training matrix, completing more “sets” and “reps” and improving proficiency. Our emphasis has been on turning material readiness into warfighting readiness. In shore readiness, we prioritize critical shore investments that increase Reserve Force readiness and utilities infrastructure repairs. Finally, the FY 2026 budget takes care of people by providing increased focus on education, eradication of sexual harassment within our ranks, as well as emphasis on the mental and physical readiness of our fighting force and their families.

Department of the Navy
FY 2026 President's Budget Submission
Operation and Maintenance, Navy Reserve
Exhibit PBA-19 Appropriation Highlights
(\$ in Millions)

The FY 2026 estimate of \$1,442.1 million includes a price increase of \$16.0 million and program increase of \$109.5 million. The summary of major program changes is explained below.

	FY 2024 Actual ¹	Price Growth	Program Growth	FY 2025 Enacted ²	Price Growth	Program Growth	FY 2026 Request³
Budget Activity 1: Operating Forces	1,344.6	34.3	-80.2	1,298.7	15.9	101.2	1,415.8
Budget Activity 4: Administrative and Service-wide Support	15.7	0.3	1.8	17.8	0.1	8.3	26.2

In BA 1 (Operating Forces), the FY 2026 request includes a pricing increase of \$26.6 million and a net program increase of \$101.2 million. Major programmatic changes in BA 1 include an increase in Air Operations, Mission, and Other Flight Operations (1A1A) driven by an increase in cost and flight hours for Navy Reserve Component C-130T, KC-130T, C-40A, C-37A, C-37B, EA-18G, F/A-18E, F/A-18F, F/A-18C, F-16C and P-8A and contract maintenance cost associated with those platforms; additionally, an increase in cost and flight hours for Marine Corps Reserve Component MV-22B, CH-53E, AH-1Z, UH-1Y, UC-35D, C-40A, UC-12F, UC-12W, KC-130J and F/A-18C. Increase in Aircraft Depot Maintenance (1A5A) airframe requirements due to a shift in the workload mix for Phased Depot Maintenance (PDM) / Planned Maintenance Interval (PMI) maintenance on the C-130T, C-37A, C-40A, EA-18G, F-16C, F-5F/N, KC-130J, MH-60R, and P-8A aircraft. Increase in Airframe Depot Maintenance (1A5A) engine requirements due to the addition of overhaul events for C-40A and F-5, as well as major repair events for F/A-18E/F and EA-18G, resulting in an engine count increase in FY26.

In BA 4 (Administration and Service-wide Support), the FY 2026 request includes a pricing increase of \$0.1 million and a net program increase of \$8.3 million. Major programmatic changes in BA 4 include an increase in Military Manpower and Personnel Management (4A4M) in support of Reinstatement of Expelled COVID Vaccination Member with Back Pay. Increase in Facilities Sustainment (BSMR) in order to maintain proper funding levels in accordance with the Facilities Sustainment Model (FSM). Major program increase change is in 4A1M to support the Navy recruitment Reserve Command (NRRC) and 5 Reserve Talent Acquisition Groups (RTAG) in developing infrastructure to enhance Navy Reserve recruitment capabilities.

Footnote:

1/ FY2024 actuals includes \$1.3 million in Overseas Operations costs executed and accounted for in the base budget. Overseas Operation Costs (OOC) were financed previously with Overseas Contingency Operations (OCO) funding.

2/ FY2025 enacted includes \$2.7 million in Overseas Operations costs estimate and accounted for in the base budget. Overseas Operation Costs (OOC) were financed previously with Overseas Contingency Operations (OCO) funding.

3/ FY2026 request includes \$2.5 million in Overseas Operations costs estimate and accounted for in the base budget. Overseas Operation Costs (OOC) were financed previously with Overseas Contingency Operations (OCO) funding.

FY 2026 President's Budget Submission
Operation and Maintenance, Navy Reserve
Budget Activity: Operating Forces
Activity Group: Air Operations
Detail by Subactivity Group: Mission and Other Flight Operations

I. Description of Operations Financed:

The Commander, Naval Air Force Reserve flying hour program funds the Navy Reserve and Marine Corps Reserve air operations from flying hours to specialized training, maintenance, and associated support programs. This includes day-to-day aviation operations and unit operational activities, organizational (O-Level) and intermediate (I-Level) maintenance activities, contracted aviation maintenance services, unit and operational training, engineering and logistics support, and administrative support for Wing staffs. Flying hour funding is provided to maintain an adequate level of readiness and enable Reserve Component aviation forces to operate, maintain, and deploy aviation forces in support of the National Military Strategy.

II. Force Structure Summary:

The Naval Air Force Reserve consists of one Logistics Support Wing (twelve squadrons), one Tactical Support Wing (five squadrons), one Maritime Support Wing (three squadrons) and one integrated Helicopter Mine Countermeasures squadron. The Navy Reserve provides one hundred percent of Navy's organic lift through the Logistics Support Wing. The Fourth Marine Aircraft Wing consists of twelve squadrons and supporting units that are also funded through the Naval Air Force Reserve Flying Hour Program.

i) FY 2025 Base for Reprogramming Border Security Support (Baseline: \$0)	2,100	
FY 2025 Current Estimate		700,801
Price Change		2,374
3) Program Increases		109,418
a) Program Increase in FY 2026		109,418
i) Flying Hours, Quantity, and Cost Per Hour Changes. Increase flight hours and cost for Marine Reserve Component MV-22B, CH-53E, AH-1Z and UH-1Y aircraft. Increase in aviation depot level repairable consumption rate due to increase in flying hours driving increased scheduled, and unscheduled, maintenance to support increased readiness requirements related to USMC Force Design and Stand-In Force initiatives. Increase of 565 flight hours. (Baseline: \$708,701)	51,077	
ii) Flying Hours, Quantity, and Cost Per Hour Changes. Increase flight hours and cost for Marine Corps Reserve Component F/A-18C due to an increase in aviation depot level repairable cost. Increase of 736 flight hours. (Baseline: \$708,701)	19,467	
iii) Flying Hours, Quantity, and Cost Per Hour Changes. Increase flight hours and cost for Navy Reserve Component EA-18G, F/A-18E, F/A-18F, F-16C, and P-8A due to an increase in aviation depot level repairable cost, maintenance cost, contract maintenance cost, and an increased demand for operational aircraft. Increase of 9,715 flight hours. (Baseline: \$708,701)	16,483	
iv) Flying Hours, Quantity, and Cost Per Hour Changes. Increase flight hours and cost for Navy Reserve Component C-130T, KC-130T, C-40A, C-37A, and C-37B due to an increase in aviation depot level repairable cost. Increase of 810 flight hours. (Baseline: \$708,701)	14,219	
v) Flying Hours, Quantity, and Cost Per Hour Changes. Increase flight hours and cost for Marine Reserve Component KC-130J, C-40A, UC-12F, UC-12W, and UC-35D due to an increase in fuel costs. Increase of 1,017 flight hours. (Baseline: \$708,701)	5,511	
vi) Travel. Increase cost for Navy Reserve Component and Marine Corps Reserve Component due to an increase in mission operations and training requirements. (Baseline: \$44,462)	1,807	
vii) Department of Navy Reform. Divestment of Navy Reserve Component MH-53E. Increase of 2 flight hours. (Baseline: \$708,701)	454	
viii) Flight Other Costs. Increase funding to support the establishment of Fleet Readiness Center Reserve - Midwest (FRCR-MW). (Baseline: \$708,701)	400	
4) Program Decreases		-52,750
a) Program Decrease in FY 2026		-52,750
i) Flight Other Costs. Decrease transportation, administration staff, Individual Material Readiness List, and simulator training	-727

requirements for Navy Reserve Component and Marine Corps Reserve Component. (Baseline: \$708,701)		
ii) Civilian Personnel. Reduces civilian personnel full-time equivalents and funding to optimize the workforce in compliance with Executive Order 14210, "Implementing the President's Department of Government Efficiency Workforce Optimization Initiative." (Baseline: \$5,860; -6 civilian FTE)	-905	
iii) Department of Navy Reform - Divestment of Navy expeditionary systems and equipment to implement more cost-effective management of resources in compliance with the President's cost-effective initiative. (Baseline: \$708,701)	-926	
iv) Flying Hours, Quantity, and Cost Per Hour Changes. Decrease cost for Navy Reserve Component MH-60R due to a decrease in aviation depot level repairable cost. Increase of 16 flight hours. (Baseline: \$708,701)	-1,658	
v) Efficiency - Contract Services. Reduces contracts for Advisory and Assistance Services to promote efficiencies and advance the policies of the Administration in alignment with Executive Order 14222, Implementing the President's Department of Government Efficiency Cost Efficiency Initiative. (Baseline: \$708,701)	-4,508	
vi) Flying Hours, Quantity, and Cost Per Hour Changes. Decrease flight hours and cost for the Navy Reserve Component and Marine Corps Reserve Component F-5N and F-5F due to a decrease in aviation depot level repairable cost, maintenance cost and contract maintenance cost. Increase of (7) F-5N and a decrease of 5,681 flight hours and an increase of (1) F-5F and an increase of 3,490 flight hours. (Baseline: \$708,701)	-44,026

Explanation of Performance Variance

Prior Year

Commander Naval Air Force Reserve and the Marine 4th Marine Air Wing (MAW) executed 89.5% of budgeted flight hours. Under-execution was due to maintenance problems with the F-5 aircraft and F-16 engine overhauls delays.

Current Year

The FY2025 cost per hour and flying hours reflect FY2025 required.

I. Description of Operations Financed:

Reserve Engineering Technical Services - This program provides on-site technical information, instruction and training (formal and on the job) to aviation maintenance personnel at the organizational and intermediate levels of maintenance for a network of 23 detachments dispersed worldwide. The purpose of the training is to elevate the technical knowledge and skills of Navy and Marine aviation maintenance technicians in the installation, maintenance, repair, and operation of all types of aviation and associated support equipment. Engineering Technical Services (ETS) tasks are performed by Contractor Engineering Technical Service (CETS) and Navy Engineering Technical Service (NETS) personnel.

II. Force Structure Summary:

Naval Air Force Reserve consists of one Logistics Support Wing (twelve squadrons), one Tactical Support Wing (five squadrons), one Maritime Support Wing (four squadrons), and two integrated Helicopter Mine Countermeasures squadrons. The Navy Reserve provides one hundred percent of Navy's organic lift through the Logistics Support Wing. The Fourth Marine Aircraft Wing consists of twelve squadrons and supporting units that are funded through the Naval Air Force Reserve Flying Hour Program.

I. Description of Operations Financed:

Reserve Engineering Technical Services - This program provides on-site technical information, instruction and training (formal and on the job) to aviation maintenance personnel at the organizational and intermediate levels of maintenance for a network of 23 detachments dispersed worldwide. The purpose of the training is to elevate the technical knowledge and skills of Navy and Marine aviation maintenance technicians in the installation, maintenance, repair, and operation of all types of aviation and associated support equipment. Engineering Technical Services (ETS) tasks are performed by Contractor Engineering Technical Service (CETS) and Navy Engineering Technical Service (NETS) personnel.

Aircraft Depot Operations Support - The reserve support services program provides unscheduled services to the reserve forces and enhances operational readiness by providing expeditious solutions for the correction of unplanned depot maintenance problems incurred in the field. Customer service includes the costs of nonscheduled work for depot-level industrial services provided directly to reserve force activities for immediate needs both in hardware rework and technical/engineering services. This service is provided for the accomplishment of emergency check/test and minor repair of aeronautical material and provides special industrial processes such as plating, heat-treating, nondestructive testing, and machine shop services. Ferry flights includes the costs of travel, per diem, and fuel associated with flying aircraft to an organic rework facility prior to maintenance or returning aircraft to the reserve fleet following maintenance.

II. Force Structure Summary:

The Naval Air Force Reserve consists of one Logistics Support Wing (twelve squadrons), one Tactical Support Wing (five squadrons), one Maritime Support Wing (four squadrons), and two integrated Helicopter Mine Countermeasures squadrons. The Navy Reserve provides one hundred percent of Navy's organic lift through the Logistics Support Wing. The Fourth Marine Aircraft Wing consists of twelve squadrons and supporting units that are also funded through the Naval Air Force Reserve Flying Hour Program.

Department of the Navy
FY 2026 President's Budget Submission
Operation and Maintenance, Navy Reserve
Budget Activity: Operating Forces
Activity Group: Air Operations
Detail by Subactivity Group: Aircraft Depot Maintenance

I. Description of Operations Financed:

The Aircraft Depot Maintenance program funds repairs, overhauls, and inspections within available capacity to ensure sufficient aircraft quantities are available for operational units. The readiness-based model determines airframe and engine maintenance based on the squadron inventory authorization necessary to execute assigned missions.

Airframe Rework - This program provides inspection, maintenance, and emergent repairs of Naval Reserve aircraft. Through periodic depot level maintenance activities, aircraft major structures and airframe systems are maintained in a safe flyable condition. Depot maintenance is currently being performed under both the Integrated Maintenance Concept (IMC) and the Phase Depot Maintenance (PDM) programs. The goals of these programs are to improve readiness while reducing operating and support costs. The IMC concept uses Planned Maintenance Intervals (PMI), performing more frequent depot maintenance, with smaller work packages, reducing out of service time. Currently, the C-130, C-37, C-40, EA-18, FA-18, V-22, H-1, H-53, H-60, P-3, UC-12 and UC-35 aircraft programs have been incorporated under IMC. The PDM concept is used with the F-5 and F-16 aircraft and Standard Level Maintenance is done on the C-20 aircraft.

Engine Rework - The engine rework program accomplishes the repair, modification, and overhaul of aircraft engines, engine modules, gearboxes, and torque meters. The program objective is to return depot-repairable engines to ready-for-issue (RFI) status to support reserve aircraft and reserve engine pool requirements. Under the Reliability Centered Maintenance (RCM) Program, engines are repaired at the lowest level of maintenance possible. Engines beyond the repair capability of intermediate maintenance activities are scheduled for induction into the depots. Engine field team assistance is included in this budget submission to provide on-site depot level maintenance on an as-needed basis.

Components - The component repair program supports the depot-level repair of aeronautical components for the aircraft systems and equipment under Contractor Logistics Support (CLS). CLS support is provided for weapon systems and equipment that will be commercially supported for the life-of-type, special programs, and projects that do not have an established material support date (MSD).

Depot Readiness Initiative - AVDLR - The Depot Readiness Initiative (DRI) utilizes depot capacity (i.e. skilled depot level artisans) to accomplish select organizational level (O-level) tasks (repairs, inspections, technical directive incorporation, etc.) into Phased Depot Maintenance (PDM) and Planned Maintenance Interval (PMI) events on reserve aircraft. This initiative will expedite the delivery of a mission-capable aircraft to the squadron following a depot event. O-level DRI maintenance events may include special inspections, phase/hourly inspections, Technical Directives (TDs), ordering the replacement of non-RFI components and unscheduled maintenance (over and aboves).

II. Force Structure Summary:

The Naval Air Force Reserve consists of one Logistics Support Wing (twelve squadrons), one Tactical Support Wing (five squadrons), one Maritime Support Wing (four squadrons), and two integrated Helicopter Mine Countermeasures squadrons. The Navy Reserve provides one hundred percent of Navy's organic lift through the Logistics Support Wing. The Fourth Marine Aircraft Wing consists of twelve squadrons and supporting units that are also funded through the Naval Air Force Reserve Flying Hour Program.

	<u>Amount</u>	<u>Total</u>
C. Reconciliation of Increases and Decreases		
FY 2025 President's Budget Request		148,292
1) Congressional Adjustments		-10,800
a) Undistributed Adjustments		-10,800
i) FY25 Undistributed Reduction for Historical Unobligated Balances (Baseline: \$0)	-1,656	
ii) FY25 Undistributed OSD Requested Reduction (Baseline: \$0)	-9,144	
FY 2025 Current Estimate		137,492
Price Change		6,036
2) Program Increases		62,163
a) Program Increase in FY 2026		62,163
i) Aviation Airframes. Increase in Airframes due to a change in the requirements workload mix for the Phased Depot Maintenance (PDM) / Planned Maintenance Interval (PMI) maintenance for the C-130T, C-37A, C-40A, EA-18G, F-16C, F-5F/N, KC-130J, MH-60R and P-8A aircraft. The requirements are cyclical in nature with aircraft inductions based on fixed induction dates (FIDs) or flight hours which results in changes from year-to-year due to the number of PDM/PMI events scheduled. (Baseline: \$97,276)	30,749	
ii) Aviation Engines. Increase in Engines due to the addition of Overhaul events in FY26 for CFM567B24 (C-40A) and J85GE21C (F-5) and the addition of Major Repair events in FY26 for F414 (F/A-18E/F, EA-18G). Engine Depot Requirements are generated based on budgeted flying hours, reliability projections, and Beyond Capability Maintenance (BCM) rates. (Baseline: \$39,251)	29,480	
iii) Aviation Airframes. Increase in Airframes due to a change in the requirements workload mix in Air Worthiness Inspections (AWI) associated with the C/KC-130T aircraft. (Baseline: \$97,276)	1,926	
iv) Aviation Components. Increase in Components driven by increased projected Propeller repairs in FY26. (Baseline: \$965)	8	
3) Program Decreases		-1,088
a) Program Decrease in FY 2026		-1,088
i) Aviation Engines. Decrease in Engines due to updated requirements for Contractor Field Team support. Engine Depot Requirements are generated based on budgeted flying hours, reliability projections, and Beyond Capability Maintenance (BCM) rates. (Baseline: \$39,251)	-55	
ii) Aviation Airframes. Decrease in Airframes for Standard Depot Level Maintenance (SDLM) associated with the C-37B aircraft. (Baseline: \$97,276)	-437	
iii) Aviation Airframes. Decrease in Airframes for estimated Emergency Repair costs associated primarily with In-Service Repairs. (Baseline: \$97,276)	-596

* FY25 includes Congressional Marks.

** NOTE: Completions and Carry in (Work In Progress) reported are thru 30 September 2024**

Explanation of Performance Variances [from original President's Budget for Prior Year and Current Year]:

Prior Year:

The Airframes and Engines funding levels increased in the year of execution to account for higher priority requirements.

Current Year:

The Airframes funding lever has decreased from the FY25 President's Budget due to internal realignment, and Engines funding levels has remained constant from the FY25 President's Budget.

I. Description of Operations Financed:

The reserve support services program provides unscheduled services to the reserve forces and enhances operational readiness by providing expeditious solutions for the correction of unplanned depot maintenance problems incurred in the field. Customer service includes the costs of nonscheduled work for depot-level industrial services provided directly to reserve force activities for immediate needs both in hardware rework and technical/engineering services. This service is provided for the accomplishment of emergency check/test and minor repair of aeronautical material and provides special industrial processes such as plating, heat-treating, nondestructive testing, and machine shop services. Ferry flights includes the costs of travel, per diem, and fuel associated with flying aircraft to an organic rework facility prior to maintenance or returning aircraft to the reserve fleet following maintenance.

II. Force Structure Summary:

The Naval Air Force Reserve consists of one Logistics Support Wing (twelve squadrons), one Tactical Support Wing (five squadrons), one Maritime Support Wing (four squadrons), and two integrated Helicopter Mine Countermeasures squadrons. The Navy Reserve provides one hundred percent of Navy's organic lift through the Logistics Support Wing. The Fourth Marine Aircraft Wing consists of twelve squadrons and supporting units that are also funded through the Naval Air Force Reserve Flying Hour Program.

Department of the Navy
FY 2026 President's Budget Submission
Operation and Maintenance, Navy Reserve
Budget Activity: Operating Forces
Activity Group: Air Operations
Detail by Subactivity Group: Aviation Logistics

I. Description of Operations Financed:

The aviation logistics program provides Navy Reserve and Marine Corps Reserve aviation programs a budget line item for contractor logistics support (CLS) and performance-based logistics (PBL) contracts. CLS is the performance of maintenance and/or materiel management functions for a DoD system by a commercial activity. PBL is the purchase of support as an integrated, performance package designed to optimize system readiness and meet performance goals for a weapon system through long-term support arrangements with clear lines of authority and responsibility. The MV-22 power-by-the-hour (PBtH) contractor provides engine sustainment on a flight-hour basis that includes all material required for depot engine and component repair. The KC-130J PBtH contractor provides all the parts support required in the performance of depot-level maintenance both scheduled and unscheduled for the engine and propeller systems.

II. Force Structure Summary:

The Aviation Logistics Reserve program is performed both commercially and organically, supporting MV-22 and KC-130J United States Marine Corps Reserve squadrons.

C. Reconciliation of Increases and Decreases		
FY 2025 President's Budget Request		33,200
FY 2025 Current Estimate		33,200
Price Change		695
1) Program Decreases		-9,426
a) Program Decrease in FY 2026		-9,426
i) Airframe Logistics. Decrease in Airframe Logistics for Reserve KC-130J Logistics and Engineering efforts due to reduction in sustainment/logistic requirements for Field Service Representative (FSR) support and parts under the new Sustaining Engineering and Logistics Support Services (SELSS) (Baseline: \$1,098)	-318	
ii) Contractor Logistics. Decrease in Contractor Logistics for Reserve MV-22 Propulsion program driven by restructuring of new mission care engine contract from Engine Flight Hour and Low Power Removal to Engine Flight Hour only, providing incentive to improve engine reliability and future time on wing. (Baseline: \$6,664)	-3,016	
iii) Contractor Logistics. Decrease in Contractor Logistics for Reserve KC-130J Propulsion Program driven by decrease in number of engine repair requirements due to increased overall engine reliability. (Baseline: \$25,438)	-6,092

Operation and Maintenance, Navy Reserve
Budget Activity: Operating Forces
Activity Group: Combat Operations/Support
Detail by Subactivity Group: Combat Communications and Electronic Warfare

I. Description of Operations Financed:

This sub-activity group provides resources for communications support and services to Navy and non-Navy activities worldwide. Funding is used to operate, maintain, and manage the communications infrastructure supporting the transport of voice, video, and data including pier side connectivity. Sub-activity also supports the Navy Reserve Intelligence Program to include funding for supplies, travel, and civilian personnel associated with operations of the national headquarters in Fort Worth, Texas and regional offices nationwide.

II. Force Structure Summary:

Naval Information Force Reserve Command headquarters is located in Fort Worth, Texas. This command headquarters supports naval intelligence military, civilian personnel and facilities, equipment, and services used to support electromagnetic dissemination, transmission, or reception of information via voice, data, video, integrated telecommunications, wire or radio within the confines of a post, camp, station, or base.

FY 2026 President's Budget Submission
Operation and Maintenance, Navy Reserve
Budget Activity: Operating Forces
Activity Group: Combat Operations/Support
Detail by Subactivity Group: Combat Communications and Electronic Warfare

IV. Performance Criteria and Evaluation Summary:

	<u>FY2024</u>	<u>FY2025</u>	<u>FY2026</u>
Base Communications (\$000):	\$4,388	\$4,143	\$4,203
- Sites	5	5	5
- Telephone lines supported	9,240	9,240	9,240
- Number of Telephone Switches	2	2	2
CNIRF Sites:			
- Joint Reserve Intelligence Centers (JRIC)	9	9	9
- Navy Information Force Reserve (NIFR)	6	6	6
JRIC/NIFR Site Sustainment (\$000)	2,528	5,845	7,048
CNIFR Civilian Labor and Travel (\$000)	6,233	6,416	5,821
JRIC/NIFR Equipment Maintenance (\$000)	2,786	1,902	2,293
JRIC/NIFR Supplies and Material (\$000)	82	276	333
Total (\$000)	16,017	18,582	19,698

CNIFR: Commander, Naval Information Force Reserve
JRIC: Joint Reserve Intelligence Center
NIFR: Navy Information Force Reserve
SELRES: Selected Reserve

Department of the Navy
FY 2026 President's Budget Submission
Operation and Maintenance, Navy Reserve
Budget Activity: Operating Forces
Activity Group: Combat Operations/Support
Detail by Subactivity Group: Combat Support Forces

I. Description of Operations Financed:

Funding is provided for the readiness and peacetime support of combat support forces of Navy Expeditionary Combat Command (NECC), Navy Expeditionary Combat Forces (NECF), Commander, Naval Surface Force Atlantic (CNSL), Navy Expeditionary Combat Command Pacific (NECCPAC), Commander, Naval Surface Force Pacific (CNSP), and the operations of the Navy Reserve Force headquarters and its subordinate commands.

Navy Expeditionary Combat Command (NECC): NECC serves as a Type Command (TYCOM) for the Navy's expeditionary forces and as central management for the readiness, resources, manning, training, and equipping of those forces to execute combat, combat support, and combat service support missions across the full spectrum of naval, joint, and combined operations. These expeditionary Sailors support the U.S. Navy while serving as members of Maritime Expeditionary Groups, Naval Construction Groups, Navy Expeditionary Logistics Support Group, and the Expeditionary Combat Readiness Center (ECRC). Funds provide for the logistic delivery system for the initial outfitting, modernization, re-capitalization, and Integrated Logistic Support (ILS) for the Reserve Component of expeditionary forces.

Commander Naval Surface Atlantic (CNSL) / Commander, Naval Surface Pacific (CNSP): CNSL and CNSP are Type Commands (TYCOM) that provide combat ready ships and stations to the fleet and ensures those ships and stations are supplied, equipped, maintained, and trained to conduct operations.

Commander Navy Reserve Forces (CNRF) Headquarters: Resources the operation of the Chief of Navy Reserve (Office of the Chief of Navy Reserve), Commander, Navy Reserve Forces Command headquarters, and the Reserve Component of the Chief of Naval Operations (OPNAV) staff. These Commands provide policy, control, administration, and management direction to include the management of all resources (manpower, hardware, and facilities) that maintain an optimum training posture and mobilization-ready Navy Reserve Force. Funding also provides civilian salaries and administrative support. The OPNAV staff advises and assists the Chief of Naval Operations in the discharge of his responsibilities as the principal advisor and executive of the Navy to the Secretary of the Navy on the conduct of the activities of the Department of the Navy, and as the Navy member of the Joint Chiefs of Staff. The OPNAV Support Activity performs functions of an operational nature that support the Chief of Naval Operations Staff Offices.

Department of the Navy
FY 2026 President's Budget Submission
Operation and Maintenance, Navy Reserve
Budget Activity: Operating Forces
Activity Group: Combat Operations/Support
Detail by Subactivity Group: Combat Support Forces

II. Force Structure Summary:

Navy Expeditionary Combat Enterprise (NECE): The Reserve Component (RC) expeditionary forces are integrated with the Active Component (AC) forces to provide a continuum of capabilities unique to the maritime environment within the NECE. Blending the AC and RC brings strength to the force and is an important part of the Navy's ability to carry out the Naval Maritime Strategy from blue water into green and brown water and in direct support of the Joint Force. Approximately half of the NECE TYCOM Sailors are RC supporting expeditionary missions including: naval construction, maritime expeditionary security, expeditionary logistics (cargo handling battalions), and other mission capabilities seamlessly integrated with operational forces around the world.

Navy Expeditionary Combat Command (NECC): NECC serves as Type Command (TYCOM) for the Navy's expeditionary forces and as central management for the readiness, resources, manning, training and equipping of those forces to execute combat, combat support, and combat service support missions across the full spectrum of naval, joint, and combined operations. These expeditionary Sailors support the U.S. Navy while serving as members of Coastal Riverine, Naval Construction Forces, Navy Expeditionary Logistics Support Group, and the Expeditionary Combat Readiness Command.

Commander Naval Surface Atlantic (CNSL): In addition to CNSL's ships and stations, there are special mission and fleet support units. Amphibious Construction Battalion Two (ACB2) supports the Naval Support Element (NSE) Commander in conducting Maritime Preposition Force (MPF) and Logistics- over- the- Shore (LOTS)/Joint Logistics- over- the- Shore (JLOTS), and disaster relief operations worldwide by training and equipping lighterage crews. Amphibious Construction Battalion Two (ACB2) reports directly to Commander, Naval Beach Group Two (BEACHGRU).

Commander Naval Surface Pacific (CNSP): Commander, Littoral Combat Ship Squadron ONE (COMLCSRON1) supports Search and Rescue diving efforts.

Reserve Activity Support: The Reserve Component maintains 115 facilities, to include 105 Navy Reserve Centers (NRC), seven hangars, and three Naval Air Station / Joint Reserve Bases (NAS/JRB). The mission of these commands is to support training for over 48,256 Selected Reservists located in geographically dispersed locations throughout CONUS and overseas. Supported functions include administrative support funds, contract berthing, contract physicals, dental exams, organizational clothing, Reserve specific training, Information Technology (IT) legacy support, long distance toll calls, and cell phones.

Commander Navy Reserve Forces Headquarters: Resources the operation of the Chief of Navy Reserve (Office of the Chief of Navy Reserve), Commander, Navy Reserve Forces Command headquarters, and the Reserve Component of the Chief of Naval Operations (OPNAV) staff. These Commands provide policy, control, administration, and management direction to include the management of all resources (manpower, hardware, and facilities) that maintain an optimum training posture and mobilization-ready Navy Reserve Force. Funding also provides civilian salaries and administrative support. The OPNAV staff advises and assists the Chief of Naval Operations in the discharge of his responsibilities as the principal advisor and executive of the Navy to the Secretary of the Navy on the conduct of the activities of the Department of the Navy, and as the Navy member of the Joint Chiefs of Staff. The OPNAV Support Activity performs functions of an operational nature that support the Chief of Naval Operations Staff Offices.

	<u>(\$ in Thousands)</u>	
	<u>Amount</u>	<u>Total</u>
C. Reconciliation of Increases and Decreases		
FY 2025 President's Budget Request		199,551
1) Congressional Adjustments		-1,142
a) Undistributed Adjustments		-1,142
i) FY25 Undistributed Reduction for Historical Unobligated Balances (Baseline: \$0)	-1,142	
FY 2025 Current Estimate		198,409
Price Change		2,873
2) Transfers		378
a) Transfers In		387
i) Transfers In. Transfers in from Operation and Maintenance, Navy (OMN) BA 1 Operating Forces (BSS1) to Operation and Maintenance, Navy Reserve (OMNR) BA 1 Combat Support Forces (1C6C) to support Integrated Prevention Coordinators for Sexual Assault Prevention and Response (SAPR). (Baseline: \$109,255; +3 civilian FTE)	387	
b) Transfers Out		-9
i) Transfers Out. Transfer to Operations and Maintenance, Air Force from Operations and Maintenance, Navy Reserve, BA 1, Combat Support Forces (1C6C) for the Logistics Readiness Squadron (LRS) and associated installation support functions at Joint Base Pearl Harbor Hickam (JBPHH), Hawaii. (Baseline: \$27,590)	-9	
3) Program Increases		4,504
a) Program Increase in FY 2026		4,504
i) Adaptive Mobilization. Increase supports data analysis and predictive outcomes for rapid distributed mobilization of Selected Reserve Sailors to meet critical Fleet Warfighting needs during conflict. (Baseline: \$109,255)	2,166	
ii) Navy Expeditionary Combat Command. Increase to fully fund the Maritime Expeditionary Security Force (MESF) and Naval Construction Force (NCF) for Directed Readiness Table (DRT) units to support increased field exercises, Personal Gear Issuance (PGI), and life support costs. (Baseline: \$6,462)	1,034	
iii) Civilian Personnel. Increase in civilian personnel costs and positions associated with Chief of Navy Reserve Information Technology Management and Adaptive Mobilization, as well as the establishment of the Sexual Assault Prevention and Response (SAPR) workforce. (Baseline: \$43,636; +4 civilian FTE)	701	
iv) Involuntary Activation (IA) Reduction. Increase supports sustainment of Navy Special Warfare Group Eleven (NSWG-11) equipment as part of CNO direction to reduce IA requirements and source with permanent solutions. (Baseline: \$109,255)	600	
v) Fuel. Increase in baseline fuel (17 BBLS) required for Naval Construction Force and Coastal Riverine Force due to increased Operations Tempo and participation in training exercises. (Baseline: \$109)	3	
4) Program Decreases		-19,218
a) Program Decrease in FY 2026		-19,218
i) Yellow Ribbon. Overseas Operating Costs decrease in supplies and material costs associated with pre- and post- deployment events. (Baseline: \$2,692)	-2	

Department of the Navy
FY 2026 President's Budget Submission
Operation and Maintenance, Navy Reserve
Budget Activity: Operating Forces
Activity Group: Combat Operations/Support
Detail by Subactivity Group: Combat Support Forces

	<u>(\$ in Thousands)</u>	
C. Reconciliation of Increases and Decreases	<u>Amount</u>	<u>Total</u>
ii)Navy Expeditionary Combat Command. Decrease in operational training contacts supporting Naval Expeditionary Logistics Support Groups (NAVELSG). (Baseline: \$1,280)	-32	
iii)Navy Expeditionary Combat Command. Net decrease in Intermediate/Depot (I/D) level maintenance requirements for Naval Construction Force and Coastal Riverine Force as they approach scheduled cyclical depot level maintenance. (Baseline: \$27,590)	-56	
iv)Department of Navy Reform. Divestment of Navy expeditionary systems and equipment to implement more cost-effective management of resources in compliance with the President's cost-effective initiative. (Baseline: \$109,255)	-86	
v)Navy Expeditionary Combat Command. Net decrease in supplies and materials, purchased communications, clothing and textiles expenses, and other purchases supporting Navy Expeditionary Combat Activities along with organizational maintenance at Naval Coastal Warfare Component Security Forces and Naval Construction Forces. (Baseline: \$27,590)	-502	
vi)Navy Expeditionary Combat Command. Net decrease in funding Navy Expeditionary Combat Command Activities including asset management, life support services, product support integration, repair parts, supply support, Table of Allowance (TOA) equipment replacement, sustaining engineering, and travel for the following Expeditionary programs: Construction Equipment (CE), Expeditionary Basing (EB), Expeditionary Mine-Counter Measures (ExMCM) Forces, Industrial Production and Handling (IPH), Materials Handling Equipment (MHE), Mobile Mission Support (MMS), Personal Gear Issue (PGI), and Tactical Vehicles (TV), due to realignment of requirements to support Navy Priority Programs. (Baseline: \$33,204)	-564	
vii)Amphibious Landing Craft. Decrease realigns Landing Craft Utility (LCU) and Landing Craft Air Cushion (LCAC) operations and sustainment to Mission and Other Ship Operations (1B1B), and maintenance availabilities to Ship Maintenance (1B4B) from Combat Support Forces (1C6C). As LCU and LCAC vessels deploy from Landing Helicopter Assault (LHA) ships, Landing Helicopter Dock (LHD) ships, and Dock Landing (LSD) ships, their operations and maintenance costs are most appropriately funded in the 1B accounting group. (Baseline: \$11,847)	-835	
viii)Travel. Reduces discretionary travel funding to align with Executive Order 14222, Implementing the President's Department of Government Efficiency Cost Efficiency Initiative. (Baseline: \$109,255)	-2,293	
ix)Efficiency - Contract Services. Reduces contracts for Advisory and Assistance Services to promote efficiencies and advance the policies of the Administration in alignment with Executive Order 14222, Implementing the President's Department of Government Efficiency Initiative. (Baseline: \$109,255)	-2,969	
x)Subsistence and Support of Persons. Decrease in day-to-day mission operational costs related to subsistence and support of services. (Baseline: \$109,255)	-3,566	
xi)Civilian Personnel. Decrease in labor, civilian personnel full-time equivalents, and funding to optimize the workforce in compliance with Executive Order 1420, Implementing the President's Department of Government Efficiency Workforce Optimization Initiative. (Baseline: \$0; -28 civilian FTE)	-8,313

Department of the Navy
FY 2026 President's Budget Submission
Operation and Maintenance, Navy Reserve
Budget Activity: Operating Forces
Activity Group: Combat Operations/Support
Detail by Subactivity Group: Cyberspace Activities

I. Description of Operations Financed:

Funding in this sub-activity supports all aspects of Cyberspace Activities specifically intended to secure, defend and preserve data, networks, net-centric capabilities, and other designated systems by ensuring security controls and measures are in place, and taking internal defense actions. This includes access to system controls, monitoring, administration and integration of cybersecurity into all aspects of engineering and acquisition of cyberspace capabilities. In addition, these activities include implementation, evaluation, and dispose of information technology and services, as well as, information resources management, and the management, storage, transmission, and display of data and information. Cyberspace Operation is a domain within the information environment consisting of the interdependent network of information technology infrastructures, including the internet, telecommunications networks, computer systems, and embedded processors and resources associated with Information Operations, Computer Network Defense (CND), Information Systems Security Program (ISSP)/Cyber Security Inspection and Compliance Program (CSICP) and Information Security Assessment and Authorization (A&A) programs.

Cyberspace Operation is a domain within the information environment consisting of the interdependent network of information technology infrastructures, including the internet, telecommunications networks, computer systems, and embedded processors and resources associated with Information Operations, Computer Network Defense, Information Assurance, Computer Network Operations, Cyber Mission Forces (CMF), and Computer Security Inspection and Compliance Program (CSICP). It ensures the prevention of damage to, protection of, and restoration of computers, electronic communications systems and services, wire communication, and electronic communication, including information contained therein, to ensure its availability, integrity, authentication, confidentiality, and nonrepudiation.

The Computer Network Defense (CND) provides fleet engineering support and software maintenance support to fielded computer information assurance defense agents and primary network boundary protection systems to include host based security systems for Command, Control, Communications, Computers, and Intelligence (C4I) Afloat Networks Ships and Outside Continental United States. The funding supports conducting shipboard operational readiness CND in Depth Baseline Assessments (CNDiDBA), Information Assurance Vulnerability Management (IAVM), Commercial off-the-shelf (COTS) annual renewal license and warranty support for operational components, updating logistics support documentation, training curricula, In-Service Engineering Agent (ISEA) 24/7 help desk support, and cyber remediation requirements that will improve network defense and security wholeness. Additionally, the funding will support the Navy's portion of the Nuclear Command, Control, and Communications (NC3) system of systems and Navy Cyber Situational Awareness (NCSA), Common Operational Picture (COP), and SHARKCAGE.

II. Force Structure Summary:

Cyberspace Activities supports Computer Network Defense, Information Assurance, Computer Network Operations, Cyber Mission Forces (CMF), Computer Security Inspection and Compliance Program (CSICP), and Special Access Program (SAP), as well as Information Systems Security Program (ISSP) for the Navy, Coast Guard, Military Sealift Command (MSC), and Marine Corps to protect and defend day-to-day communication.

Department of the Navy
FY 2026 President's Budget Submission
Operation and Maintenance, Navy Reserve
Budget Activity: Operating Forces
Activity Group: Base Support
Detail by Subactivity Group: Enterprise Information Technology

I. Description of Operations Financed:

Enterprise Information Technology (IT) includes resources for various Reserve IT requirements, including Next Generation Enterprise Network Re-compete (NGEN-R) and Navy Reserve Commercial Cloud. NGEN-R integrates the existing Department of Navy (DON) networks into a seamless, reliable, interoperable, and highly secure net-centric enterprise network environment. It will be interoperable with the Department of Defense Information Network (DODIN) implementation and sustainment strategy and make use of DOD-provided Net-Centric Enterprise Services (NCES). Navy Reserve Commercial Cloud will provide significant communication and collaboration capabilities and a complete work solution to the almost 47,091 Selected Reservists who do not have daily access to Navy and Marine Corps Intranet (NMCI) assets.

II. Force Structure Summary:

The Next Generation Enterprise Network Re-compete (NGEN-R) provides increased government operational and design control of the networks, and requisite Information Assurance and Cyber Security enhancements to meet evolving security requirements. The specified areas of operations financed are the major contributors to the secure and interoperable enterprise environment of NGEN-R. NGEN-R supports the Department of the Navy's (DoN) core war fighting, business, scientific, research, and computing processes. The objective is to provide universal, secure, and interoperable network services across the DoN. NGEN-R supports an enterprise network, which will provide secure, net-centric data and services to Navy and Marine Reserve personnel. Navy Reserve Commercial Cloud provides for a Dedicated-International Traffic in Arms Regulation (D-ITAR) environment in a commercial hosted facility under a Software as a Service (SaaS) contract. Navy Reserve Commercial Cloud provides reservists 24/7 access to Navy e-mail, business productivity applications, and Navy enterprise IT resources. These unique areas of excellence provide the Navy Reserve with the organic ability to support the SELRES community with state of the art enterprise communication that is developed, accredited and implemented in accordance with the Commander's fighting orders.

Department of the Navy
FY 2026 President's Budget Submission
Operation and Maintenance, Navy Reserve
Budget Activity: Operating Forces
Activity Group: Base Support

Detail by Subactivity Group: Sustainment, Restoration and Modernization

I. Description of Operations Financed:

Facility sustainment, restoration and modernization (FSRM) includes funding for shore activities supporting ship, aviation, combat operations and operational support forces. FSRM funding enables maintenance, repair and minor construction for all buildings, structures, ground and utility systems to permit assigned forces and tenants to perform their mission. This program has two major work classifications and subprograms: the sustainment program and the restoration and modernization program. These programs accomplish work through a combination of recurring maintenance contracts, contracted special projects and government forces. Facility sustainment includes regularly scheduled maintenance, emergency services and cyclical major repairs to preserve shore infrastructure in working order over its expected service life. Restoration and modernization includes repairs to restore facilities degraded by inadequate sustainment, excessive age or other damage. It also funds modifications required to support currently assigned missions and implement new or higher facility standards.

II. Force Structure Summary:

Commander, Navy Installations Command (CNIC) provides base support funding for 105 Navy Reserve Centers (NRC), seven hangars, and three Naval Air Station – Joint Reserve Bases (NAS / JRB) located in all 50 states including the territories of Puerto Rico and Guam.

Department of the Navy
FY 2026 President's Budget Submission
Operation and Maintenance, Navy Reserve
Budget Activity: Administration and Servicewide Activities
Activity Group: Servicewide Support
Detail by Subactivity Group: Administration

I. Description of Operations Financed:

This sub-activity group provides resources for the operation of the Office of the Chief of Navy Reserve. The Chief of Navy Reserve provides policy, control, administration, and direction including the management of all resources (manpower, hardware, and facilities) to facilitate an optimum training posture and mobilization readiness. To aid in readiness, funding supports Navy Recruiting Reserve Command (NRRC) and five Reserve Talent Acquisition Groups (RTAGs) commands to fully exercise Navy Reserve recruiting capabilities. The positions allow for a more expansive deployment of RTAGs, intensifying efforts in key regions, capitalizing on emerging opportunities, and bolstering responsiveness to dynamic shifts in the recruitment landscape. This aligns with the commitment to securing a diverse and highly qualified Reserve Force. Funding also provides for Defense Finance and Accounting Services (DFAS) for the Navy Reserve.

II. Force Structure Summary:

The staff of the Office of the Chief of Navy Reserve advises and assists the Chief of Naval Operations in the discharge of his responsibilities as the principal naval advisor and naval executive to the Secretary of the Navy on the conduct of the activities of the Department of the Navy and as the Navy member of the Joint Chiefs of Staff.

Department of the Navy
FY 2026 President's Budget Submission
Operation and Maintenance, Navy Reserve
Budget Activity: Administration and Servicewide Activities
Activity Group: Servicewide Support
Detail by Subactivity Group: Military Manpower and Personnel Mgt

I. Description of Operations Financed:

This sub-activity group funds maintenance and support for the following military manpower and personnel management systems: Navy Reserve Order Writing System (NROWS), Reserve Headquarters Support (RHS) System, Reserve Integrated Management System (RIMS) Financial Management (FM), and Inactive Manpower and Personnel Management Information System (IMAPMIS). Navy Personnel and Pay (NP2) is one of the cornerstones of the Navy/N1 Transformation strategy formerly known as Navy Standard Integrated Personnel System (NSIPS). NP2 includes Navy Personnel and Pay sustainment and the collapse of Legacy Manpower Systems' functionality. NP2 is the Human Resources (HR) component of Navy's Transformation Roadmap specifically focused on maximizing human capital and improving fleet readiness by ensuring the right skills are in the right place at the right time. Also funded are all functions related to Reserve personnel management performed by the Navy Reserve Personnel Management Department (PERS-9).

Reserve Integrated Management System (RIMS): Reserve Integrated Management System (RIMS) Financial Management (FM) is a mission critical Financial Management application created to manage those funds appropriated by Congress to the Navy Reserves. The system allows the entry and processing of two primary transactions reservations and adjustments. The RIMS (FM) system handles information that is necessary for the conduct of day-to-day businesses, but does not materially affect support to deployed or contingency forces in the short term.

Naval Information Warfare Center (NIWC) Atlantic IT Center - New Orleans (RES): The Naval Information Warfare Center (NIWC) Atlantic, New Orleans is located in the Research and Technology Park of the University of New Orleans. The manpower and personnel systems supported by NIWC New Orleans are required by all Navy active duty, reserve, and retired personnel. Systems are deployed in every state at Navy Recruiting Centers, Personnel Support Detachments, and Navy Operational Support Centers. NIWC Atlantic provides direct operations and maintenance support to Navy Reserve business systems, and site overhead/indirect operational support including, but not limited to travel, training, & supplies.

Navy Reserve Order Writing System (NROWS): Navy Reserve Order Writing System (NROWS) is a consolidated information system that combines all Commander, Naval Reserve Force (CNRF) order-writing functions. NROWS is a single, enterprise-wide application for putting a Reservist on Annual Training (AT), Active Duty Training (ADT), and Inactive Duty Training Travel (IDTT) orders. It provides users and managers with information on total force readiness and availability for operational planning. The objective of NROWS is to perform many of the data impact edits as early in the order writing process as possible. Meeting this objective reduces the number of applications and order validations currently being performed manually and greatly decreases the application error rate.

FY 2026 President's Budget Submission
Operation and Maintenance, Navy Reserve
Budget Activity: Administration and Servicewide Activities
Activity Group: Servicewide Support
Detail by Subactivity Group: Military Manpower and Personnel Mgt

II. Force Structure Summary:

This sub-activity supports the Sea Warrior Program, the Space and Naval Information Warfare Center (NIWC) Atlantic, New Orleans, and the Navy Reserve Personnel Management Department (PERS 9). Sea Warrior Program Reserve Force Systems are a collection of manpower and personnel systems that support the Navy's Reserve Forces by performing several functions including order writing, billet and unit management, drill management, mobilization management, data collection and dissemination, personnel pay management, training management, and financial management. Sea Warrior MyNavy HR (formerly MPT&E): Sea Warrior supports the Navy's Workforce by providing the foundation for establishing common training paths and creating more flexible distribution practices. This includes knowledge, skills, abilities, and tools required to perform tasks and maintain existing MyNavy HR business IT systems. The Naval Information Warfare Center (NIWC) Atlantic, New Orleans is located in the Research and Technology Park of the University of New Orleans. The manpower and personnel systems supported by NIWC New Orleans are required by all Navy active duty, reserve, and retired personnel. Systems are deployed in every state at Navy Recruiting Centers, Personnel Support Detachments, and Navy Operational Support Centers. The Navy Reserve Personnel Management Department (PERS 9) is located in Millington, Tennessee and is part of the Navy Personnel Command.

Sea Warrior Program Reserve Force Systems are a collection of manpower and personnel systems that support the Navy's Reserve Forces by performing several functions including order writing, billet and unit management, drill management, mobilization management, data collection and dissemination, personnel pay management, training management, and financial management. Sea Warrior also provides operations and competency support, including risk management, configuration management, and logistical support.

Sea Warrior MyNavy HR (formerly MPT&E): Sea Warrior supports the Navy's Workforce by providing the foundation for establishing common training paths and creating more flexible distribution practices. This includes knowledge, skills, abilities, and tools required to perform tasks and maintain existing MyNavy HR business IT systems to include funds appropriated by Congress to the Navy Reserve including all detail documents in order to determine when to send accounting transactions to the Standard Accounting Budgeting and Reporting System (SABRS).

Department of the Navy
FY 2026 President's Budget Submission
Operation and Maintenance, Navy Reserve
Budget Activity: Administration and Servicewide Activities
Activity Group: Logistics Operations And Technical Support
Detail by Subactivity Group: Acquisition and Program Management

I. Description of Operations Financed:

This sub-activity group funds logistics operations and program management at Naval Supply Systems Command (NAVSUP) Reserve Component field activities and Headquarters in the areas of supply operations, contracting, resale, fuel, card management, security assistance, conventional ordnance, food service and other quality of life programs. Through its Products and Services Initiative, NAVSUP is restructuring and realigning its organization to most effectively and efficiently accomplish its purpose of delivering combat capability through logistics to maritime forces, and to support the CNO's guidance to reduce Navy total ownership cost.

II. Force Structure Summary:

Funding provides Reserve support provided by the Fleet Logistics Centers (FLCs).
