BUPERS INSTRUCTION 1001.39E

From: Chief of Naval Personnel

Subj: ADMINISTRATIVE PROCEDURES FOR NAVY RESERVISTS ON
INACTIVE DUTY

Ref: (a) See Appendix B to enclosure (1)

Encl: (1) Administrative Procedures for Navy Reservists on
Inactive Duty

1. Purpose. To provide personnel and administrative policies for the management of Navy Reservists serving on inactive duty. This instruction is a complete revision and should be reviewed in its entirety.

2. Cancellation. BUPERSINST 1001.39D.

3. Scope. This instruction provides policy for administering inactive duty Navy Reserve personnel. It does not address the manning or training requirements of the specific units that comprise the Navy Reserve.

4. Administration and Maintenance. Chief of Naval Personnel (CHNAVPERS) delegates to Commander, Navy Personnel Command (COMNAVPERSCOM) the responsibility for administration and maintenance of this instruction. Recommendations for changes, together with supporting data, are solicited and should be submitted to Assistant Commander, Navy Reserve Personnel Management (PERS-49), Navy Personnel Command (NAVPERSCOM), 5720 Integrity Drive, Millington, TN 38055-0000. Commercial 901-874-4482/DSN 882.

5. Action. Addressees shall ensure widest dissemination and compliance with the provisions of this instruction.

6. Forms. Required forms are listed in appendix C to enclosure (1).

7. Directives and Publications. Appendix B to enclosure (1) provides current suffixes for the directives and publications

CHAPTER 1

NAVY RESERVE STATUS AND CATEGORIES

101. General. Each member of the Navy Reserve who is not on the Active Duty List is placed in one of three categories:

1. Ready Reserve (USNR-R),
2. Standby Reserve, consisting of the Standby Reserve-Active (USNR-S1) and Standby Reserve-Inactive (USNR-S2),
3. Retired Reserve (USNR-Retired).

Members in USNR-R and USNR-S1 are considered to be in an active status; members in USNR-S2 are in an inactive status; members in USNR-Retired are in a retired status. Figures 1-1 and 1-2 are provided to clarify status and categories. Assignment to or transfer between any category, except to the USNR-Retired, is made only by NAVPERSCOM (PERS-4911) for officers; (PERS-4913) and Naval Reserve Personnel Center (NAVRESPERSCEN) for enlisted. Requests for transfer to the Retired Reserve are processed by NAVRESPERSCEN (N32).

102. Status. Each member of the Navy Reserve is in either an active, inactive, or retired status as defined below.

1. Active Status. Reserve members assigned to the USNR-R and USNR-S1 are in an active status. Officers in an active status are also listed on the Reserve Active Status List (RASL). Active Status members are eligible to

- a. train with or without pay, based on the member's category.
- b. serve on active duty, active duty for training, or Funeral Honors Duty.
- c. earn retirement points.
- d. be considered for advancement or promotion, if eligible (see figure 1-2).

Limitations on a member's eligibility to remain in an active status are identified in sections 104 through 107 of this chapter.

2. Inactive Status. Reserve members assigned to the USNR-S2 are in an inactive status and they are on the Reserve Inactive Status List (ISL). They are assigned for reasons outlined in section 103.3. They are not eligible to

- a. receive pay for training.
- b. earn retirement points.
- c. be considered for advancement or promotion or be advanced or promoted.

3. Retired Status. Members in the Retired Reserve are in a retired status. Unless recalled to active duty, they may not receive retirement point credit. They may not be advanced or promoted. Refer to section 103, chapter 4, section 404; and chapter 10, section 1008.

103. Reserve Categories. The four sub-categories to which Navy Reserve members may be assigned are USNR-R, USNR-S1, USNR-S2, and USNR-Retired. Information pertaining to each of the categories follows:

1. USNR-R

- a. Members of the USNR-R are in an active status.
- b. The USNR-R is composed of the Selected Reserve (SELRES) and the Individual Ready Reserve (IRR). Members who serve on extended Active Duty for Special Work (ADSW) or Active Duty for Training (ADT), or who drill for pay are in the SELRES. Members not assigned to a pay billet are in the IRR. Members in the IRR either participate in a Voluntary Training Unit (VTU) or are assigned to the Active Status Pool at NAVRESPERSSEN.
- c. All individuals obligated to serve in the Navy Reserve shall be assigned to the USNR-R upon original appointment or enlistment and will normally remain in the USNR-R for the remainder of their military service obligation (MSO).

Upon completion of MSO, members may voluntarily elect to remain in the USNR-R by

(1) Officers. Officers, who are members of the Ready Reserve, remain Ready Reservists until transferred or discharged per SECNAVINST 1920.6B. Refer to section 1012.2a of this instruction for further guidance.

(2) Enlisted. Signing a statement of enlistment, reenlistment, or extension document per chapter 3, section 302.

d. Limitations on eligibility for members to remain in the USNR-R are identified throughout this chapter.

e. Members of the Ready Reserve are eligible for involuntary recall to active duty in time of national emergency or when authorized by law (see figure 22-4).

2. USNR-S1. Navy Reservists are transferred to the USNR-S1 by NAVPERSCOM (PERS-4911/4913). They are in an active status and are eligible to participate in a Navy Reserve program without pay for retirement point credit only. They may not receive pay, allowances, or travel allowances for any drill participation, ADSW, or ADT. Officers below the grade of Captain continue to be eligible for promotion consideration. Enlisted members in this category are not eligible for advancement unless they are drilling in a VTU, and are not subject to High Year Tenure (HYT). Members are subject to involuntary recall to active duty only in time of war or national emergency per 10 U.S.C. 12301 (see figure 22-1). Reservists eligible for USNR-S1 are transferred to that category by NAVPERSCOM (PERS-4911/4913) for any of the following reasons:

a. Reservists who have temporary mobilization restrictions as identified through the mobilization screening process (chapter 21) or for other reasons approved by NAVPERSCOM (PERS-4911/4913), and intend to return to the USNR-R.

b. Reservists who are declared to be key employees in either the Federal or non-Federal workforce per applicable Department of Defense (DOD) instructions or DOD policy guidance.

c. Students, other than those with designator 1945, preparing for religious ministry by attending recognized

theological or divinity schools (or equivalent), or those preparing to meet religious faith group requirements.

d. Reservists, other than designated medical department officers (19X5 designator), who enroll in an accredited medical, osteopathic or dental program (MILPERSMAN 1001-070).

e. Persons whose retention, in an active status for reasons other than those specified above, is considered by Secretary of the Navy (SECNAV) to be in the best interest of the Navy.

3. USNR-S2

a. Members transferred to the USNR-S2 by NAVPERSCOM (PERS-4911/4913) are in an inactive status. They may not participate for retirement points or pay, and may not be assigned to any Navy Reserve organization other than the Inactive Status Pool at NAVRESPERSCEN. They may not be considered for advancement or promotion. If they have been selected for advancement or promotion, but not advanced or appointed to the higher rank or grade at the time of their transfer to the USNR-S2, that promotion or advancement will not take effect. They are subject to recall as authorized by law (see figure 22-4). Enlisted members (USNR-S2) may be returned to USNR-R status if qualified and requested, or retired if eligible, or discharged at end of the contract. Officers not eligible for transfer to the Retired Reserve may normally remain in the USNR-S2 for 1 to 3 years. After that time, officers will be screened and considered for discharge unless they

(1) execute a Ready Reserve Service Agreement, if eligible.

(2) request transfer to the USNR-R, if eligible.

(3) are offered the option to remain on the Inactive Status List for an additional period of time.

(4) are members receiving annual Voluntary Separation Incentive (VSI) payments.

b. Reservists who have completed their MSO may be transferred to USNR-S2 by NAVPERSCOM (PERS-4911/4913) for any of the following reasons:

(1) Failure to complete a Ready Reserve Service Agreement when required (officers only).

(2) Failure to satisfy minimum participation requirements per section 104.

(3) Submission of a personal request that is approved by NAVPERSCOM (PERS-4911/4913).

(4) Selective early removal from the RASL under 10 U.S.C. 14704.

(5) Members eligible for retired pay per chapter 1223 of 10 U.S.C., with a disability rating of less than 30 percent and assigned to the (USNR-S2) instead of being separated for that disability.

(6) When otherwise authorized or directed by law, regulation, policy, or when judged to be in the best interests of the Navy.

4. USNR-Retired. Reservists in the USNR-R, USNR-S1 and USNR-S2 are transferred to the Retired Reserve upon request or as directed per SECNAVINST 1820.2B. In order for them to become a member of the USNR-Retired, they must

a. meet eligibility requirements per chapter 20, section 2008 and

b. submit a request to transfer to the USNR-Retired to NAVRESPERSCEN (N32) or

c. be directed for transfer to the USNR-Retired by NAVPERSCOM (PERS-491) and

d. be transferred to the USNR-Retired by NAVRESPERSCEN (N32).

Members of the USNR-Retired are subject to recall to active duty in time of war or national emergency declared by Congress or

when otherwise authorized by law (see figure 22-4). Retired reservists may not receive retirement point credit for the performance of any duty (except while authorized to serve on active duty) after the effective date of their transfer to retired status. Voluntary participation in the Navy Reserve is authorized on a permissive basis (see chapter 4, section 404 for enlisted; chapter 10, section 1008 for officers).

5. Former Members. Members of the Navy Reserve who become eligible for non-regular retired pay at or after age 60 by meeting the service requirements per 10 U.S.C., 12731 and who are subsequently discharged are referred to as "Former Members". Having been discharged, these individuals are no longer members of the Navy Reserve and are therefore not found in one of the status categories discussed in sections 101 and 102; however, Former Members are still entitled to receive retired pay at age 60 and benefits provided for under chapter 54 of 10 U.S.C. However, computation at age 60 will necessarily be adjusted to account for their earlier separation from Military Service. (See chapter 20, section 2020 for specific entitlements).

104. Minimum Participation Requirements to Remain in an Active Status in the Navy Reserve. USNR-R and USNR-S1 are continually screened by NAVPERSCOM (PERS-4911/4913) to ensure that assigned members are participating at a level consistent with their active status. NAVPERSCOM (PERS-4911/4913) may transfer members who have completed their initial MSO and who are not earning sufficient retirement point credit to the USNR-S2. Officers so transferred may request reinstatement to the USNR-R by meeting the requirements specified in this instruction and completing a NAVPERS 1200/1 (Rev. 09/90), Ready Reserve Transfer Request Service Agreement. Enlisted members may agree to remain in the USNR-R by signing a statement on the enlistment/reenlistment contract, or on the extension documents. The member must take appropriate steps to meet minimum participation requirements or may again be screened from an active status. Successive requests for reinstatements will generally be disapproved. Minimum participation requirements are

1. officers with fewer than 20 years of qualifying service, computed as of the date of the screening, need to earn at least 27 points including membership points, each anniversary year. (Refer to chapters 20 and 21). There are no minimum participation requirements for enlisted members with fewer than

20 years of qualifying service to remain in an active status. Failure to earn 50 points in an anniversary year will result in a non-qualifying year for retirement.

2. officers and enlisted members with 20 years or more of qualifying service, computed as of the date of the screening, need to earn at least 50 points, including membership points, each anniversary year per DODI 1200.15 of 18 September 1997. Note that the minimum participation standards for drilling members (chapter 11) are different than the standards required to remain in an active status.

105. Officer Participation in an Active Status

1. Promotion of Navy Reserve Officers. Promotions to chief warrant officer (CWO3), (CWO4), (CWO5) and to all grades above lieutenant result from recommendations made by selection boards. Prior to being considered for promotion by a selection board, officers must meet the following requirements:

a. Possess a date of rank and register number within or above the zone of consideration for their designator and grade.

b. Serve continuously on the RASL or ADL during the 1 year period ending on the date of the convening of the promotion board per 10 U.S.C. 14301. Accordingly, officers returning to an active status from a period of broken service, (USNR-S2 or USNR-Retired) are eligible for consideration for promotion only after continuously serving in an active status for 1 full year.

2. Years of Commissioned Service. As defined in 10 U.S.C., 14706, a Navy Reserve officer's years of service include all service, other than constructive service and initial commissioned student service as a 19XX designated officer, of the officer as a commissioned officer of any uniformed service (other than service as a warrant officer). Years of commissioned service, as now defined above, serves by law as the indicator for identifying officers in the grade of commander or above who become subject to attrition under 10 U.S.C., 14507, and one of the indicators for attrition of officers in the grade of lieutenant commander who become subject to attrition under 10 U.S.C., 14506.

3. Attrition from an Active Status Due to Failure of Selection/Years of Service. Criteria for attrition from an active status (USNR-R or USNR-S1), as specified in 10 U.S.C., 14503, 14504, 14505, 14506 and SECNAVINST 1920.6B, are summarized in this section. The general policy is for NAVPERSCOM (PERS-4911) to notify active status Navy Reserve officers who meet the following attrition criteria that they must either retire if eligible, be retained or continued if eligible and elected by the member, or be discharged:

a. Lieutenants (junior grade) who twice fail to select to the next higher grade will be retired if eligible or discharged no later than the first day of the seventh month after the month which the President approves the report of the board which considered the officer for the second time.

b. Lieutenants who twice fail to select to the next higher grade before a Navy Reserve Selection board will be retired if eligible or discharged at the later of

(1) completion of their MSO.

(2) the first day of the seventh month after the month which the President approves the report of the board which considered the officer for the second time.

c. Lieutenant commanders who twice fail to select to the next higher grade before a Navy Reserve Selection board will be retired if eligible or discharged at the later of

(1) the first day of the month after the month which the officer completes 20 years of commissioned service.

(2) the first day of the seventh month after the month which the President approves the report of the board which considered the officer for the second time.

d. Commanders and captains not on a promotion list for the next higher grade will be subject to attrition on the first day of the month after the month in which they have completed 28 or 30 years, respectively, of actual commissioned service.

e. Exceptions:

(1) Officers continued or retained as approved by SECNAV annual Navy Reserve Retention and Continuation Plan (NRRCP).

(2) Officers in the grades of captain and below meeting the provisions addressed above, who have between 18 and 20 years of qualifying service for retirement purposes at the time of required attrition, are offered a one time exemption (for a specified time per 10 U.S.C., 12646), allowing them the opportunity to attain 20 years of qualifying service.

(3) Women officers and Navy Nurse Corps officers who were serving in the Navy Reserve on active duty or on the RASL on 30 September 1996 are subject to attrition from an active status under conditions of law in effect before 1 October 1996. Accordingly, they may be involuntarily removed from the RASL for reasons of failure for selection or years of service only by a special board convened by SECNAV.

(4) Per 10 U.S.C., 14703, officers in the grades of captain and commander appointed in the Navy Medical Corps, Dental Corps, Nurse Corps, Chaplain Corps or appointed in the Medical Service Corps and designated to perform as a veterinarian, optometrist, podiatrist, health officer, or biomedical sciences officer may be retained in an active status as specified in SECNAV NRRCP.

f. Permanent warrant officers who have

(1) twice failed of selection for promotion to the next higher permanent warrant officer grade are subject to the attrition provisions of SECNAVINST 1920.6B. Officers with 20 years or more of qualifying service will be notified by NAVPERSCOM (PERS-4911) and retired. Officers with at least 18 years, but fewer than 20 years of qualifying service, may be extended for a limited period of additional time allowing them the opportunity to attain 20 years of qualifying service. Officers with fewer than 18 years of qualifying service will be afforded an opportunity to revert to their former enlisted status, or be discharged from the Navy Reserve.

(2) attained 30 or more years of qualifying service are subject to attrition from an active status in the Navy Reserve per SECNAVINST 1421.7B. Warrant officers approaching 30 years of qualifying service will be advised by letter from NAVPERSCOM (PERS-4911) that they will be removed from an active status list unless selectively retained. If not offered retention, members will be retired.

4. Age Restrictions. As per 10 U.S.C., chapter 1407, officers who reach the age-in-grade limits set out below are not eligible for retention in the Selected Reserve, IRR, or Standby Reserve. When officers approach the age limits listed below, they will be notified by NAVPERSCOM (PERS-4911) and advised of their options. Possible options include: retirement, if eligible and requested; honorable discharge, if appropriate; or retention, if authorized and requested (see note 1 below). The following maximum age-in-grade limits apply as provided in 10 U.S.C., 14509-14511:

O-7 and below - - - - - 60 years
O-8 - - - - - 62 years

Note 1: Periodically, SECNAV will authorize the retention of certain categories of officers via the SECNAV NRRCP as authorized in 10 U.S.C., 14703. NAVPERSCOM (PERS-4911) will then notify these officers of their eligibility for retention. The affected officers may then request to be considered for retention. If selected for retention, NAVPERSCOM (PERS-4911) will inform them of the specific period of authorized retention. In all cases, however, the maximum period of retention will not exceed the date when the officer reaches 67 years of age.

5. Selective Early Removal from the RASL. Law restricts the number and composition of Navy Reserve officers authorized to serve in an active status. When a category of officers is projected to reach the maximum number allowed by law, NAVPERSCOM (PERS-49) convenes a board to remove certain officers in that category from the RASL under 10 U.S.C., 14704. Members being considered for removal are normally notified in advance so that they may communicate with the board. Those non-continued will be notified of their separation date.

106. Bureau of Naval Personnel (BUPERS) Control Group Category. There are certain inactive duty personnel that NAVPERSCOM

(PERS-49) tracks for various reasons. These personnel are placed in BUPERS Control Group Categories, and NAVPERSCOM (PERS-49) retains control over their possible assignment, retention, and mobilization. The BUPERS Control Group Categories are updated by NAVPERSCOM in the Inactive Manpower and Personnel Management Information System (IMAPMIS) Data File.

1. Identification. There are currently three BUPERS Control Group Categories used by NAVPERSCOM (PERS-49). Placement in Control Group Category 1 indicates the member is not in compliance with the Navy's Physical Readiness Program. BUPERS Control Group Categories 8 and 9 are internal codes used by NAVPERSCOM (PERS-49) for various reasons.

2. Navy Reserve Participation and Mobilization Assignment. Personnel in BUPERS Control Categories 8 and 9 will not be permitted to affiliate with or separate from any Reserve unit (pay or non-pay); perform AT, ADT, ADSW; or be called to active duty without prior verbal approval of NAVPERSCOM (PERS-4911) for officers and (PERS-4913) for enlisted personnel. Personnel in BUPERS Control Category 1 will be monitored by the Order Issuing Authority to assure compliance with the Navy Physical Readiness Program.

3. Discharges and Retirements. Discharge and retirement orders for individuals in BUPERS Control Categories 8 and 9 will not be accomplished until approval has been received from NAVPERSCOM (PERS-4911) for officers and (PERS-4913) for enlisted personnel. NAVRESPERCEN will notify NAVPERSCOM (PERS-491) in writing of any retirement or discharge requests involving members assigned to BUPERS Control Group Categories 8 and 9, and NAVPERSCOM will reply to each request in writing.

107. Enlisted Participation in an Active Status: Age and Years of Service Restrictions

1. Age Restrictions. Normally, enlisted members of the Navy Reserve are not eligible for retention in an active status (i.e., USNR-R, USNR-S1) after attaining 60 years of age.

a. Notification. Supporting Navy Reserve Activity (NRA) COs will ensure that affected members are notified at least 12 months prior to the 60th birthday, and required counseling is

conducted. Enter the following as a service record entry on an NAVPERS 1070/613 (Rev. 10-81), Administrative Remarks:

(Date) : I will reach my 60th birthday on _____. In order for me to continue in a pay status from that date forward, I must request and receive an approved age 60 waiver from NAVPERSCOM (PERS-4913) before my 60th birthday. If my request to remain in a pay status is not approved, I may be transferred into a non pay status where I may continue to accrue qualifying service through non pay drills or the completion of correspondence courses until I become retirement eligible or age 63, whichever occurs first. Additionally, if it is subsequently determined that I will not be able to attain 20 qualifying years of service prior to reaching age 63, I will be transferred to the USNR-S2 where I will not be allowed to reenlist or extend upon expiration of my current enlistment and I will not be recommended for reenlistment.

b. Waiver Policy

(1) If otherwise qualified, members may request a waiver to be retained in an active status after attaining age 60 under the following circumstances:

(a) A member assigned to a NRA who originally enlisted prior to 15 April 1987, and is unable to complete 20 years of qualifying service prior to attaining age 60 but who can complete 20 years of qualifying service prior to age 63, may apply for an age waiver no later than 9 months prior to their 60th birthday. Authority to grant such waivers has been delegated to NAVPERSCOM (PERS-49).

(b) An IRR member attached to the active status pool who is unable to complete 20 years of qualifying service prior to attaining age 60 but who can complete 20 years of qualifying service prior to age 63 may apply for an age waiver. Authority to grant this waiver is delegated to CO, NAVRESPERCEN.

(2) If the age waiver is approved, the member will be authorized to continue in an active status in either a pay or non-pay capacity until eligible for retired pay, but in no instance past their 63rd birthday. Determination as to pay or non-pay is made by NAVPERSCOM (PERS-4913) and is based upon

numerous factors, among which are manning levels, special skills/qualifications, mobilization potential, reserve unit manning, length of waiver and physical readiness.

(3) Supporting NRA will remove from a pay status those reservists who have reached age 60 and are not in receipt of an age waiver.

(4) Members who cannot reach retirement eligibility by their 63rd birthday will not be retained in the Active Reserve and will be transferred to the USNR-S2 by NAVPERSCOM (PERS-4913). Such members will not be reenlisted, extended upon expiration of current enlistment, or recommended for reenlistment.

(5) A member who receives a waiver to participate beyond age 60 and subsequently becomes unable to achieve retirement eligibility will be processed for discharge under MILPERSMAN 1910.

c. Waiver Submission Procedures

(1) Members desiring an age 60 waiver to serve in an active status shall submit a written request to NAVPERSCOM (PERS-4913) via their Navy Reserve Unit CO, and the supporting NRA (figure 1-4).

(2) At a minimum, the Reserve Unit CO's endorsement should include a statement concerning the impact that the loss of the member would have on the unit along with any other pertinent information supporting the member's request.

2. HYT. Personnel desiring to serve in the Selected Reserve past HYT gates must request a waiver per OPNAVINST 1160.7B.

108. Sanctuary Provisions

1. As a general rule, if members become subject to any of the foregoing attrition actions at a time when they have accumulated between 18 and 20 years of qualifying service, NAVPERSCOM (PERS-4911/PERS-4913) will notify the members and offer an extension in an active status allowing them the opportunity to complete 20 years of qualifying service. For

BUPERSINST 1001.39E
26 Apr 05

officer personnel, 10 U.S.C. 12646 applies, which excludes sanctuary in cases of separation due to age, physical disability, or cause. For enlisted personnel, 10 U.S.C., 1176 applies, which excludes sanctuary in cases of separation due to physical disability or cause.

2. Per 10 U.S.C., 12686, members ordered to active duty, other than for training, may not be involuntarily released from active duty until eligible for an active duty retirement unless release is approved by SECNAV. Therefore, members serving on ADSW, ACDU, or mobilization orders who have accumulated at least 18 years of active service (all ACDU, ADT, AT, ADSW or other active service counts) are included in the sanctuary. Members serving on ADT or AT orders are not affected by this sanctuary provision.

PRIVACY ACT STATEMENT: Authority to request this information is contained in 10 United States Code Chapter 11. Purpose of the information is to identify attributable Lieutenant Commanders who desire to remain in the Naval Reserve, or to screen other Naval Reserve personnel for immediate recall potential. Information is used in the continuous screening of units and members of the Ready Reserve to insure a proper balance of military skills in the Naval Reserve. Completion of the form is mandatory; failure to provide requested information may result in transfer to the Standby Reserve, Retired Reserve or discharge from the Naval Reserve as appropriate.

INSTRUCTIONS

ENLISTED PERSONNEL: Submit direct to the command maintaining your service record. The date and year to be entered in paragraph two must be for entire period of current enlistment (EOS). The date cannot extend beyond the expiration of your enlistment.

OFFICER PERSONNEL: Submit to Chief of Naval Personnel (R61) via the command maintaining your service record, and/or the command to which you are requesting assignment. Send copies to remainder of chain of command, if any.

CHAPTER 2

PHYSICAL QUALIFICATION

201. Policy. Navy Reservists are required to meet physical qualifications for retention in the Navy Reserve. These standards are set forth in the Manual of the Medical Department (MANMED). Reservists must also comply with physical readiness standards provided in OPNAVINST 6110.1G, which are separate and distinct from physical qualifications. All reservists are responsible for notifying their commanding officer (CO) of any physical/dental problem that may delay or preclude their performance of regular drill, required annual training, or mobilization. Additionally, if unit or activity COs receive information from the annual screening (see chapter 21) or, for any other reason, believe a reservist is not physically qualified for active duty or retention, they shall ensure the member is examined by a medical officer (MO) as soon as possible. If the MO discovers a potentially disqualifying condition, the supporting NRA CO will forward the results of the examination to Bureau of Medicine and Surgery (BUMED), via the Echelon 4 command, for retention determination and compliance with the provisions of section 202 or 203.

202. Injury while in a duty status. Navy Reservists injured or incurring a disease while in a duty status may be eligible for disability benefits per SECNAVINST 1770.3C. Duty status includes but is not limited to: AT, ADT, ADSW, Initial Active Duty Training (IADT), Inactive Duty Travel Training (IDTT), Inactive Duty for Training (IDT) or Presidential Recall to Active Duty (PRC). Case management authority is Naval Reserve Forces Command (NAVRESFORCOM) (N01M)/NAVPERSCOM (PERS-4911).

203. Injury while not in a duty status. Navy Reservists not in a duty status who are injured or develop a potential physically disqualifying condition are categorized as Temporarily Not Physically Qualified (TNPQ) or Physically Disqualified.

1. Temporarily Not Physically Qualified (TNPQ). Temporarily not physically qualified status results from an injury/condition which is expected to be corrected or healed within 6 months. Navy Reservist will normally remain assigned to the unit while TNPQ (less than 180 days). The member may also be reassigned to a local VTU at the discretion of the NRA

CO. The local NRA CO shall determine if the member is authorized drill participation while in TNPQ status. If allowed to drill (TNPQ drill status), the member's participation is limited to performing IDT drills and completing correspondence courses. The member may not perform any other type of training or active duty orders including AT, ADT, ADSW, IDTT or recall/mobilization. Members must be counseled that if they are transferred to the VTU, their participation is limited to completing correspondence courses for retirement point credit or drilling non-pay if authorized. Members must also be made aware of collection changes to Servicemen's Group Life Insurance (SGLI) as outlined in chapter 15. It is especially important for members who are nearing, but have not yet completed, 20 years of qualifying service to recognize the importance of continuing to accrue retirement point credit.

a. The supporting NRA must

(1) prepare a NAVPERS 1070/613 to document the member has been advised of participation options. Have member sign it and give a copy of NAVPERS 1070/613 to member. (See figure 2-1).

(2) prepare a NAVPERS 1070/613 to document member has been advised of changes to SGLI. Have member sign it and give a copy of NAVPERS 1070/613 to member. (See figure 15-1).

Note: TNPQ policy is ultimately the responsibility of Commander, Naval Reserve Forces Command (COMNAVRESFORCOM) and their TNPQ policy instruction should be referenced for further guidance.

2. Physical Disqualification. Physical disqualification status results from an injury/condition that is determined to be permanent. When the MO or Medical Department Representative (MDR) determines that an officer or enlisted member has a physical disqualification, the member will be placed in Medical Retention Review (MRR) status. In this status, the MO or MDR will recommend that either the member be allowed or denied the opportunity to remain in a drill status. The supporting NRA CO will make the final determination of whether the member may or may not continue to drill with the unit while in MRR status and awaiting final determination of physical qualification.

a. The CO's options include retaining members in their assigned units with or without drill authorization, or reassigning the member to the local VTU in an authorized absence status. If authorized to remain in a drill pay status, the member will be limited to IDT only. No other type of training or active duty orders will be authorized. Members may complete correspondence courses regardless of assignment status and should be encouraged to do so, if necessary, in order to continue earning years of qualifying service towards retirement. The MO, unit CO and NRA CO shall make appropriate recommendations to BUMED (M3F1) regarding the ability of the member to continue to perform duties.

b. Members must be counseled that if they are transferred to the VTU, their participation is limited to completing correspondence courses for retirement point credit or drilling non-pay if authorized. Members must also be made aware of collection changes to SGLI as outlined in chapter 15. It is especially important for members who are nearing, but have not yet completed, 20 years of qualifying service to recognize the importance of continuing to accrue retirement point credit.

c. The supporting NRA must

(1) prepare a NAVPERS 1070/613 to document member has been advised of participation options. Have member sign it and give a copy of NAVPERS 1070/613 to member. (See figure 2-1).

(2) prepare a NAVPERS 1070/613 to document member has been advised of changes to SGLI. Have member sign it and give a copy of NAVPERS 1070/613 to member. (See figure 15-1).

(3) Submit a package of physical qualification for retention in the Navy Reserve to include current physical examination, all medical surgical treatment records, with an update within the last 6 months, and non-medical assessment.

d. BUMED (M3F1) will review available information and recommend disposition of member to NAVPERSCOM (PERS-4911/4913). BUMED will recommend either physical qualification or Physical Risk Classification (A, B, C, 4, or 5), as appropriate.

e. NAVPERSCOM (PERS-4911/4913) will assign, per MILPERSMAN 6110-020, a Physical Risk Classification (A, B, C, 4, or 5). NAVPERSCOM (PERS-4911/4913) will notify members and the supporting NRA of the assigned Physical Risk Classification to include limitations on participation, options available, and actions for the members to take to resolve their status.

f. If the member is determined to be physically disqualified (risk class 5), options are

(1) accept the findings and retire, if eligible, or be discharged.

(2) request Physical Evaluation Board (PEB).

(a) The PEB request will be returned to NAVPERSCOM (PERS-4911/4913) with the information as outlined in the Physical Risk Classification letter.

(b) NAVPERSCOM (PERS-4911/4913) will then forward request to PEB via NAVRESFORCOM (N01MD) for further disposition.

(c) If the PEB determines the member is fit for retention, NAVPERSCOM (PERS-4911/4913) may assign another appropriate Physical Risk Classification and notify the member and command of that action.

Note: Members who fail to respond to the notification to elect one of the options will be retired or discharged as further directed by NAVPERSCOM (PERS-4911/4913).

g. SELRES members who accept physical risk classification 5, or are found not fit for retention by a PEB and who have at least 15 years of qualifying service may be eligible for early retirement. (See chapter 20 for details.)

3. Enlisted Contract Management During Medical Review.
Enlisted members with less than 6 months remaining on their enlistment shall sign the following NAVPERS 1070/613 entry:

Date:

"I do/do not consent to be retained in the Navy Reserve beyond the normal date of expiration of enlistment pending resolution of my fitness for retention."

If these members consent to being held beyond the normal expiration of enlistment, the following NAVPERS 1070/613 entry shall be entered at their Expiration of Service (EOS) date:

Date:

"Held beyond normal date of expiration of enlistment pending resolution of fitness for retention. AUTH: MILPERSMAN 1160-050 and BUPERSINST 1001.39E."

Members who do not consent to being retained beyond their normal EOS pending resolution of fitness for retention shall be discharged at EOS, or retired, if eligible, as directed by NAVPERSCOM (PERS-491). The supporting NRA may forward the NAVPERS 1070/613 entries by certified mail to members who are in a MRR status

204. Temporary/Permanent Disability Retired List (TDRL/PDRL). Only those personnel who are authorized NOE/LOD benefits and have been processed through the PEB qualify for TDRL/PDRL. The PEB may determine member's condition necessitates assignment to a PDRL or TDRL status. Members are assigned to the TDRL if their disability may not be permanent in nature. If assigned to the TDRL members must undergo a periodic medical examination and processed through the PEB. Selected reserve members transferred to the TDRL/PDRL requires special handling. When the separating activity receives orders from NAVPERSCOM (PERS-482), transferring a member to the TDRL/PDRL, the separating activity shall take the following actions:

1. Have member complete DD 2656 (Rev. 09-01), Data for Payment of Retired Personnel.

2. Provide Defense Finance and Accounting Service (DFAS) with a copy of the member's, Annual Retirement Point Record, completed DD 2656 and the TDRL/PDRL orders to assist in establishing the member's pay account.

3. Change the member's status in the Defense Enrollment Eligibility Reporting System (DEERS) to the TDRL/PDRL to ensure eligibility for medical care.

4. Forward the record (with TDRL/PDRL orders) to NAVRESPERSCEN (N311).

205. Dental. Dental class III personnel will be placed in a Temporarily Not Dentally Qualified (TNDQ) status for the management and tracking of dental treatment. TNDQ policy is ultimately governed as directed by NAVRESFORCOM (N01M).

1. Members in TNDQ status may perform IDT, but they may not perform any type of AT, ADT, ADSW, or IDTT while TNDQ. If the member's unit performs IDTT, the member's drills will be rescheduled.

2. Members who are dental class III and IV can be mobilized, if otherwise physically qualified.

3. Non-Prior Service members, who must perform their IADT within a year of enlistment, may attend the Non-Prior Service Accession Course (NPSAC), if they are dental class III. Non-Prior servicemembers, who are dental class IV, may attend the NPSAC only if they attend within the first 90 days of their enlistment.

**NAVPERS 1070/613 ENTRY REQUIRED DUE TO CHANGES IN CIRCUMSTANCES
THAT AFFECT RESERVE PARTICIPATION**

Reservists who have changes in circumstances (e.g., administrative or medical) that may affect their reserve participation will acknowledge their understanding of how to continue to accrue retirement points. These reserve members will initial the following entries:

- Date 1. I have been assigned to (applicable unit) as a result of pending administrative or medical action that may result in my discharge from the Naval Service. (Initial)
2. I have been counseled that I must attain 50 retirement points per anniversary year to ensure a qualifying year for retirement credit and I must maintain minimum participation in the Navy Reserve per BUPERSINST 1001.39E. I have been provided information on how to get and complete correspondence courses and how points are credited to my Navy Enlisted/Officer Participation System (NEOPS) record. I am also aware of my anniversary date of (anniversary date) .
 (Initial)
3. I understand I must keep my supporting NRA informed of any changes to my physical health that may affect reserve participation. Further I must provide the supporting NRA with health or dental records upon request. (Initial)
4. I acknowledge that I have been provided a copy of this NAVPERS 1070/613, and I am aware of its contents.

CHAPTER 3

ENLISTED PROGRAMS AND OBLIGATIONS

301. General. The Navy Reserve is comprised of members with various statutory and contractual obligations and agreements. This chapter identifies various active and inactive Navy Reserve enlisted programs.

302. Enlistment Programs in the Navy Reserve for Active Duty. There are several options for enlistment in the Navy Reserve for active duty. First term enlistment options include the Two-year General Detail (GENDET) Enlistment Program, the Three-Year Enlistment Apprenticeship Training Program, the Training and Administration of the Reserve (TAR) Enlistment Program (TEP). The Sea Air Mariner (SAM) Program no longer exists but is discussed for historical reference. Specific eligibility requirements for first term programs may be found in COMNAVRESCUITCOMINST 1133.1E. Specific programs include:

1. The Two-Year GENDET Enlistment Program. Provides for first enlistment in the Navy Reserve of male and female applicants for a period of 8 years under authority of 10 U.S.C., 12102 and 12103. Applicants in this program are enlisted for 2 years of active duty, without school guarantee, in either the Seaman or Fireman apprenticeships. All members of this program have a continuous active duty obligation of 24 months, and serve the remaining 72 months as members of the Ready Reserve.

2. The Three-Year Enlistment Apprenticeship Training Program. Provides for first enlistment of male and female applicants in the Navy Reserve for a period of 8 years under authority of 10 U.S.C., 12102 and 12103. Applicants in this program are enlisted for 3 years of active duty in either the Seaman, Airman, or Fireman apprenticeship without a school guarantee. All members of this program have a continuous active duty obligation of 36 months and serve the remaining 60 months of duty as members of the Ready Reserve.

3. Full Time Support (FTS) (Formerly TAR)

- a. TAR Enlistment Program (TEP). Provides for first enlistment in the Navy Reserve of male and female applicants for a period of 8 years under authority of 10 U.S.C., 12102(c) and

12103. Applicants may elect a 4 or 5-year active duty obligation with a school guarantee or a 6-year active duty obligation in the Advanced Electronics Field or Advanced Technical Field Program. All applicants have a minimum continuous active duty obligation of at least 48 months and serve the remainder of their MSO in the Ready Reserve.

b. TAR Recall Program. Provides for veterans recalled under this provision whereby members incur a minimum active duty obligation of 48 months. Program guidance is outlined in MILPERSMAN articles 1306-1500 and 1306-1502.

4. SAM Program (this program no longer is available). The SAM program was a non-prior service, mandatory-drilling program. Personnel, who enlisted in the SAM Program, under the authority of 10 U.S.C., 12103, incurred an 8-year MSO. They were required to drill continuously in the SELRES for 6 of those 8 years. The mandatory continuous 6-year period began the day the member reported for recruit training.

5. SAM II Program (this program no longer is available). Members who enlisted under the SAM II program incurred an 8-year MSO. The first 2 years were spent on IADT, which consisted of recruit training, followed by either "A" school or the Apprenticeship Training Program, and assignment on board a designated Navy Reserve Force (NRF) trainer. The remaining 6 years were served in the Ready Reserve.

303. Enlistment Programs in the Navy Reserve for Inactive Duty. There are several Navy Reserve inactive duty enlistment options. Enlistment options include Navy Veteran (NAVET), Other Service Veteran (OSVET), Advanced Paygrade (APG), Accelerated Initial Assessment (AIA), Recruiting Selective conversion Reenlistment-Reserve (RESCORE-R), Construction Basic Veteran (CBVET), Non-Prior Service Basic (NPS Basic), and National Call to Service (NCS). Refer to COMNAVRESFORINST 1001.5D, and COMNAVRESCRUITCOMINST 1133.1E for specific program requirements.

1. NAVET and NAVET Incentive Enlistment Program. Prior service active duty Navy or Navy Drilling Reservists who enlist or reenlist into the Navy Reserve based on their prior naval service rating are NAVETs. The NAVET incentive enlistment program offers NAVETs who have been discharged from the Navy or Navy Reserve more than 4 years but less than 6 years an

incentive to return in a temporary paygrade based on their prior naval service occupation.

2. OSVET Incentive Program. This program provides for enlistment in a temporary paygrade for personnel having prior active or inactive service or presently serving in other Reserve components of the armed forces. The rating and paygrade under which they enlist in the Navy Reserve is based upon their prior other service occupation specialty.

3. APG. This program is both a prior service and non-prior service enlistment program and provides for enlistment in a temporary paygrade in which the enlistees' rating/paygrade is based upon their civilian occupation.

4. AIA. The AIA program allows non-prior service personnel to enlist as a non-designated ratee at a permanent paygrade of E-2 with a temporary paygrade of E-3.

5. RESCORE-R. Navy veterans enlisting/affiliating under the RESCORE-R option enlist/affiliate in their permanent overmanned rating/paygrade. Members then have 36 months to complete advancement prerequisites and pass their temporary rating exam with a standard score of 37 or higher.

6. CBVET. This program is designed to enlist in a temporary rating, veterans from any service interested in a naval career within the construction trades. Construction experience is not required. Following completion of advancement prerequisites, CBVET enlistees participate in advancement exam cycles to complete their rating conversion.

7. NPS Basic. This program provides for the accession of non-prior service individuals enlisting for 8 years in the Navy Reserve in critical ratings, as determined by NAVRESFOR (N11). IADT will be comprised of Recruit Training followed by assignment to a guaranteed rating "A" school. Upon completion if IADT, personnel will be released from active duty and returned to their home of record where they will affiliate at the nearest NRA.

8. NCS. This program provides for the accession of non-prior service individuals for the purposes of supporting near-term active duty manning requirements and future Selected

Reserve (SELRES) manning shortfalls. NCS candidates will be accessed as USNR recruits (Branch and Class of Service Code 32) and count against active duty strength while serving on active duty. Once affiliated with the Navy Reserve, they will count against Reserve strength. Whether serving on active duty or in the Reserves, NCS participants will be managed the same as other Navy members. Enlistments under the NCS program will incur an 8-year MSO. This MSO will consist of

15 months of active duty after completion of initial training (to include Boot Camp, Apprenticeship Training, and "A"/"C" school (as applicable)), followed by:

EITHER reenlistment/extension on active duty for at least 24 months, OR 24 months as a Drilling Reservist, followed by:

Remainder of MSO in

Active Duty

SELRES

IRR

Other national service programs as designated by Secretary of Defense (SECDEF) (if qualified and accepted)

AmeriCorps

Peace Corps

Any Combination of the above

304. Former USN Members. Members of the regular Navy released from active duty normally become members of the Ready Reserve and may affiliate with the Selected Reserve or complete their remaining MSO in the IRR if qualified. As members of the IRR, they are obligated to advise Naval Reserve Personnel Center (N311), New Orleans, LA 70149-7800, of their current address, promptly respond to all official correspondence, and to report for a 1-day annual muster when directed by official notification. These members may be screened for transfer to S-2 or discharged per DODI 12.15.18 of 17 July 2002.

305. Inter-Service Transfer. Under 10 U.S.C. 12104, members of another component who are approved by that service for enlistment in the Navy Reserve must enlist for a period sufficient to complete the training requirements and service obligation incurred under their original contract.

306. Personnel Who Have Completed Their MSO. Members who have fulfilled their MSO may enlist or reenlist in the Navy Reserve per MILPERSMAN 1160-030 and COMNAVRESCUITCOMINST 1133.1E, or may extend their enlistment with the provisions of MILPERSMAN 1160-070. Enlistment, reenlistment, or extension shall be in the Ready Reserve. The following entry will be typed in the appropriate block of the enlistment and extension document:

"I agree to remain a member of the Ready Reserve during the period of this enlistment and extension unless relieved earlier by proper authority. I understand the provisions of this agreement and I acknowledge that no promises of any kind, except as noted above, have been made to me."

(Signature of Reservist)

CHAPTER 4

ENLISTED ASSIGNMENT/TRANSFER

401. General. Enlisted personnel are accessed to the SELRES from the USNR-R where they have incurred a statutory obligation through regular Navy enlistment, reenlistment, or extension as a member of the Navy Reserve. SELRES are assigned to programs and units of the Navy Reserve consistent with their background, experience, and training.

402. General Assignment Eligibility. NAVRESCRUITCOM must verify an individual's reenlistment eligibility as part of the affiliation process. Eligibility restrictions include but are not limited to the following:

1. Personnel discharged from the Navy Reserve not recommended for reenlistment require NAVPERSCOM (PERS-4913) approval prior to reenlistment or re-affiliation.

2. Reaffiliation of Unsatisfactory Participants. Members terminated or separated from the Drilling Reserve of any Service with a characterization of "Not Recommended for Reaffiliation" require written approval from the NRA to which the member will be assigned using the format per COMNAVRESFORINST 1001.5D, appendix A, exhibit 6. The NRA CO should conduct a personal interview to determine the member's motivation, intentions, and whether they are a positive asset to the Navy Reserve.

3. Enlisted personnel released from active duty (other than for training) in paygrades E-1 and E-2 are not eligible for reenlistment or affiliation in a drilling status without prior approval.

4. Individuals receiving a disqualifying reenlistment code from any service component require approval prior to reenlistment or affiliation.

5. Personnel who exceed HYT criteria are not authorized to be accessed to the SELRES per OPNAVINST 1160.7B. Personnel who will reach their HYT date within 18 months of enlistment/affiliation may only be enlisted or affiliated with approval. Personnel who do not exceed HYT criteria, but are retirement eligible, may only be enlisted or affiliated with

approval. Generally, waivers will only be considered for members who are in a critical rating, or possess a critical Navy Enlisted Classification (NEC) code.

6. Enlisted members who have received Reserve Transition Benefits are not eligible for re-affiliation.

7. Members who cannot achieve 20 years of qualifying service by age 60 are ineligible for affiliation or re-affiliation.

403. Affiliation with the Selected Reserve. While serving in the Navy Reserve, members will maintain the standards of performance outlined here to ensure their personal readiness for mobilization. Upon assignment to the SELRES, members must sign a NAVRES 1570/2 (Rev. 1-98), Satisfactory Participation Requirements/Record of Unexcused Absence.

1. Orders. Navy Reservists must be issued individual orders assigning them to perform inactive duty for training. Supporting NRA authorizes COs to issue pay or non-pay IDT orders using the NAVRES 1326/4 (Rev. 2-79), Enlisted Application and Orders to a Navy Reserve Unit (Non-Obligor), or NAVRES 1326/5 (Rev. 7-81), Enlisted Inactive Duty Training Orders to a Navy Reserve Unit (Obligor). IDT orders for qualified personnel performing hazardous or special duty will specify that performance of such duty involving their particular specialty is authorized (e.g., performance of diving duty is authorized). See MILPERSMAN 7220 for specific requirements.

2. BUPERS Control Group. Certain individual members may be coded and placed on a BUPERS Control Group listing. Members listed as Control Group 8 or 9 shall not be removed from their current assignment or issued any AT, ADT, IDTT, ADSW, retirement, or discharge orders, without approval of NAVPERSCOM (PERS-4913).

3. Service Records. Service records for members affiliating from the IRR will be mailed to the gaining activity once they are entered in the Navy Standard Personnel Integrated System (NSIPS) as an affiliation gain. Order issuing activities should contact NAVRESPERS-CEN (N31) if the record is not received within 60 days of the affiliation gain submission. A request for the record can be E-Mailed to NRPC_SELRES@NAVY.MIL. (Please note that there is an underscore between NRPC and SELRES).

4. Billet Assignment. Navy Reservists will be assigned per unit manning priorities to mobilization billets which match their rating, paygrade, and, if applicable, specialized skills such as NEC codes. Assign all HM's with NEC HM-8404 and DT's with NEC DT-8707 who reside within a reasonable commuting distance of a Navy Reserve unit in support of the U.S. Marine Corps to that unit if a local billet exists per COMNAVRESFORINST 1001.5D, chapter 2. See section 405.2b(1) for definition of reasonable commuting distance.

404. Participation of Retired Personnel. If authorized by the order issuing authority, retired personnel and Fleet Reserve enlisted personnel may participate on a voluntary, non-pay basis with all Navy Reserve units except Navy Reserve Force (NRF) ships, NRF squadrons, and units that regularly embark for underway or flight operations. Basic guidance pertaining to retiree participation follows:

1. The order issuing authority will determine that member's service will contribute to the mission of the unit and Navy. The member may not, however, be assigned within the unit billet authorizations.

2. The order issuing authority will prepare permissive letter-type orders (figure 4-1). A NAVRES 1326/4 will not be issued. Orders will not exceed 1 year and may be canceled at any time.

3. Member's security clearance must be appropriate for the assignment.

4. IDTT orders and ADT orders are not authorized.

5. Retired members will not be reported via NSIPS or any other personnel or administrative reports.

6. Performance EVALs/FITREPs will not be submitted.

7. Members receive no retirement point credit for permissive order service.

405. General Transfers from the Selected Reserve. Per chapter 21, Ready Reservists are continuously screened for immediate mobilization availability. Accordingly, enlisted personnel may

be transferred voluntarily or involuntarily per the following guidelines:

1. Key Employees. NAVPERSCOM (PERS-4913) is the approval authority for the transfer of members identified as key employees in Federal and Non-Federal employment to the USNR-S1 after formal notification by the member's employer or agency. Such transfers will only be made as authorized by DOD subsequent to notice of alert or mobilization (See chapter 21, section 2103.1).

2. Mandatory Drillers. Under this paragraph, mandatory drillers are those non-prior service personnel who have not completed the minimum training requirements as outlined in COMNAVSEVTRACOM/COMNAVRESFORCOMINST 3500.1.

a. Mandatory Drillers with Temporary Participation Conflicts. Mandatory drilling members who encounter temporary conflicts that would preclude participation may apply for relief to NAVRESFOR (N7) as outlined in COMNAVSEVTRACOM/COMNAVRESFORCOMINST 3500.1.

b. Mandatory Drillers with Permanent Participation Conflicts. In cases such as work transfer outside reasonable commuting distance, deactivation of unit, family medical situation, etc. members should be processed for hardship discharge per MILPERSMAN 1910-110. See figure 4-2 for appropriate page 13 entry.

(1) The definition of "reasonable commuting distance" follows:

(a) For units that conduct four drills on 2 consecutive days with meals and quarters provided: Any distance within a 100-mile radius of the drill site, but not exceeding that which can be traveled by automobile under average conditions of traffic, weather, and roads within a period of 3 hours.

(b) For all other units: Any distance within a 50-mile radius of the drill site, but not exceeding that which can be traveled by automobile under average conditions of traffic, weather, and roads within a period of 1 hour and 30 minutes.

(2) Reasonable commuting distances for NRF ships will be based on the location of the supporting NRA or the member's designated drill site when the ship is not in homeport.

3. Transfer to IRR Upon Completion of Mandatory Drilling Obligation. Upon satisfactory completion of their training requirements, members may request transfer to the IRR as governed by COMNAVRESFORINST 1001.5D.

4. Transfer Due to HYT. Unless waived, SELRES meeting HYT limits will be transferred from SELRES per OPNAVINST 1160.7B.

5. Transfer of Non-Obligor Veterans. Veterans may be transferred from SELRES for any applicable reason listed in this directive or COMNAVRESFORINST 1001.5D.

6. Transfer to USNR-S1 Due to Theological Studies. Navy Reservists who are civilian clergy or are students of theological studies who are preparing for the ministry in a recognized theological or divinity school must notify NAVPERSCOM (PERS-4913) of their activities. Members will be directed to seek appointment in the Chaplain Corps or prospective Chaplain Corps as appropriate or be transferred by NAVPERSCOM (PERS-4913) to USNR-S1 status.

406. Conflict of Interest. Individuals may not be assigned to any reserve billet in which there could be a financial interest or civilian employment conflict of interest situation as defined by DOD 5500.7-R of 30 August 1993 (e.g., civilian employees of the government may not be assigned to a mobilization billet in the office where they are employed as a civilian). Reserve activities will forward any potential conflict of interest situations that they cannot resolve per DOD 5500.7-R to NAVPERSCOM (PERS-4913).

CHAPTER 5

ENLISTED CLASSIFICATION PROGRAM

501. General. The purpose of the enlisted classification program is to achieve the most effective use of available manpower. COMNAVCRUITCOMINST 1300.8F sets forth the objectives, principles, and procedures for an efficient and effective program. MILPERSMAN 1221-030, 1200-050, 1221-010, 1236-010, 1236-020, and 1236-030 provide the basic policies and scope of the enlisted classification program. Specific classification functions relating to the Navy Reserve are contained in COMNAVRESFORINST 1001.5D.

502. Responsibilities

1. COMNAVRESFORCOM implements the enlisted SELRES classification program and exercises control over the program by establishing criteria, conducting field trips, and providing directives and guidance to NRAs.

2. EPMAC is responsible for assignment and update of all NEC codes for enlisted personnel not on active duty.

CHAPTER 6

CHANGE OF RATING

601. General. The objective of COMNAVPERSCOM and COMNAVRESFORCOM regarding enlisted members is to encourage them to serve in the rating for which they have the greatest aptitude and interest. In all cases, Navy's requirements shall take precedence. The enlisted classification program described in chapter 5 will play an integral part in assigning striker identification and rating changes.

602. Assignment of Striker Designation. Members in the general apprenticeships at paygrades E-1, E-2, and E-3 are identified as strikers for ratings for which they have significant aptitude and interest. They may attain the requisite skills either through successful participation in a Navy-wide advancement examination or by completing "A" school as identified below.

1. Examination Participation for Non-designated Personnel

a. Members must select a rating that is listed as "A" or "B" in the current Drilling Reserve Enlisted Career Management Objectives (ECMO) ALNAVRESFOR message.

b. Ratings listed in the ECMO as "A" school required, approval required, or closed must have NAVPERSCOM (PERS-4812) approval prior to administering a Navy-wide advancement examination. Refer to figure 6-1 for request format.

c. Members must be physically, medically, and professionally qualified for the requested rating and meet all eligibility requirements for taking the E-4 advancement examination per the Advancement Manual (BUPERSINST 1430.16E), MILPERSMAN article 1306-618, the current ECMO ALNAVRESFOR message, and the current NAVADMIN for the respective advancement examination cycle for which participating.

d. Striker designation is based on final multiple score (FMS) and quotas established by COMNAVRESFORCOM. Naval Education and Training Professional Development and Technology Center (NETPDTC) will provide authorization for striker identification after the member has participated in the Navy-wide advancement examination.

2. "A" School

a. Members may serve in ratings that require an "A" school as listed in the ECMO, without having attended the applicable school. Those members may be required to attend the school upon mobilization if they have not progressed in the rating beyond the training provided at the "A" school. Members fully qualified for advancement in any of those ratings normally requiring "A" school completion must have NAVPERSCOM (PERS-4812) approval before competing in a Navy-wide examination. Refer to figure 6-1 for request format.

b. Members must meet minimum eligibility requirements to attend "A" school as outlined in MILPERSMAN article 1306-618.

c. Members must meet all other requirements for the specific rating as identified in NAVPERS 18068F, Manual of Naval Enlisted Manpower and Personnel Classifications and Occupational Standards, volume I, BUPERSINST 1430.16E, the current ECMO ALNAVRESFOR, and the current NAVADMIN for the respective advancement examination cycle for which participating.

603. Removal of Striker Designation. Striker designation may be removed for reasons such as medical disqualification, loss of security clearance, Personnel Reliability Program (PRP) de-certification, loss of Sensitive Compartmented Information (SCI) eligibility, insufficient progress, or demonstrated lack of proficiency in the rating. Removal is not intended to serve as a punitive measure.

1. NAVPERSCOM (PERS-4812) must approve all striker designation removals. COs will submit a letter via the chain of command with justification to support striker removal to NAVPERSCOM (PERS-4812).

2. For designated-strikers who have their designation removed due to professional incompetence, COs must counsel the member and document that counseling on a NAVPERS 1070/613, and prepare a NAVPERS 1616/26 (Rev.03-02), Evaluation Report & Counseling Record (E1 - E6).

3. Designated-strikers who are reduced in rate for disciplinary reasons will retain their striker identification unless reduction is as a result of mishandling of government

funds, committing fraudulent acts, or theft involving government property.

4. All non-designated strikers must become designated through successful completion of "A" school or examination participation, with the exception of the Master-at-Arms (MA) and Intelligence Specialist (IS) ratings.

604. Change of Rating. Members who are interested in changing their rating may request a direct conversion, "successful competition" via examination participation in the current paygrade, or a concurrent change of rating. Prior to submitting a request for change of rating, the member must be interviewed to determine that all criteria and medical, physical, and professional requirements have been met.

605. Change of Rating Eligibility. Members must meet the following eligibility criteria and requirements:

1. Participate satisfactorily in a drilling unit.
2. Be in paygrade E-6 or below. COs should carefully consider requests of a petty officer first class before making a favorable endorsement. These members have gained valuable experience and training in their present rating. Petty officers first class must be able to carry out the duties and responsibilities of a petty officer first class in the new rating with minimal training. Personnel in paygrade E-6 must have less than 15 years of qualifying service for retirement (MA rating must have less than 12 years). E-7 personnel will be considered on a case-by-case basis only under unique circumstances.
3. Request a rating listed in Category "A" or "B" of the current ECMO.
4. Meet the medical, physical, and professional requirements as outlined in NAVPERS 18068F, volume I, BUPERSINST 1430.16E, MILPERSMAN article 1306-618, current NAVADMIN for the respective advancement cycle, and current ECMO ALNAVRESFOR.

5. Meet the physical readiness requirements per OPNAVINST 6110.1G.

606. The supporting NRA CO's endorsement will

1. Verify member meets ALL eligibility requirements.
2. Express assurance that the member will be successful in the requested rating.
3. Locate an available billet within the NRA for the requested rating.
4. Ensure the request contains all the necessary documentation and annotate explanations for missing documentation.

607. Methods for Change of Rating. Lateral conversions are effected as follows:

1. Administrative Action. The supporting NRA CO has the authority to change the apprenticeship of non-designated personnel (SN, AN, and FN) provided
 - a. a valid mobilization billet for the desired apprenticeship exists within the unit or activity.
 - b. member is fully qualified for the new apprenticeship per BUPERSINST 1430.16E.
2. Direct Conversion. Members may request a direct conversion to another rating provided they meet all the eligibility criteria and rating requirements listed above. Direct conversion approval will be based on related skills, experience, and training in both the present and requested rating, mobilization potential, and manning. Members of the IRR are eligible for a change of rating if they would have greater mobilization potential in a rating other than that presently held.
3. Successful Competition via Navy-wide Advancement Examination Participation in the Current Paygrade. A request for a change of rating via "successful competition" can be submitted when the member possesses related skills and the

opportunity to complete the qualifications for the desired rating exists within the unit or activity. Training is normally on-the-job (OJT) supplemented by self-study courses.

a. If "successful competition" is approved, the following guidelines pertain:

(1) A rating identification symbol (e.g., PN2(YN)) and a rating conversion NEC, (e.g., YN-2599) will be assigned.

(2) Participation in the rating examination for the new rating will be at the paygrade presently held (e.g. PN2 will take YN2 examination).

(3) Personnel in paygrade E-4 through E-6 will normally be authorized two examination cycles to successfully pass a Navy-wide examination. A passing score on the examination for conversion purposes consists of a standard score (SS) of 37 or greater.

(4) Assignment should be made in a pay billet in the new rating, if eligible, per Reserve Unit Assignment Document (RUAD).

(5) Once members are approved for conversion via "successful competition", they may remain in the new rating without regard to the DRILLRES ECMO, provided they are making satisfactory progress toward conversion within the authorized time.

b. Supporting NRA COs will monitor the progress and completion of requirements. If a member does not complete the requirements for rating conversion, the following actions will be taken:

(1) The supporting NRA CO will remove the member from "successful competition".

(2) The supporting NRA CO will submit a request for removal of the conversion NEC to EPMAC.

(3) Service record entries will be made to remove the rating identification symbol and conversion NEC.

(4) If a member has extenuating circumstances for not completing requirements in the prescribed time, an extension of "successful competition" for a period not to exceed one additional examination cycle may be requested from NAVPERSCOM (PERS-4812).

4. Concurrent Change of Rating. Members may request authorization to participate in an examination in an out-of-path rating at the next higher paygrade (e.g., YN3 to LN2). They will be authorized two examination cycles. If member's cut a standard score (SS) of 37 but do not obtain "selectee" status, they may be converted to the new rating. If members obtain "selectee" status, they may be converted to the new rating and advanced in that rating (e.g., OS3 authorized to take a STG2 exam. SS of 38 is obtained but score is not high enough for a "selectee" status, member is converted from OS3 to STG3. Or, member who obtains a "selectee" status is converted to STG3 with a prospective advancement to STG2).

a. If the member is unsuccessful, a new request must be submitted to NAVPERSCOM (PERS-4812).

b. Concurrent change of rating should only be requested for individuals eminently qualified to assume the duties of the next higher paygrade in the requested rating.

608. Procedures for Requesting a Change of Rating. All requests for changes of rating through either direct conversion, "successful competition", or a concurrent change of rating will be submitted to NAVPERSCOM (PERS-4812) by the member via the supporting NRA with a copy to the reserve unit. Members of the IRR will submit requests to NAVPERSCOM (PERS-4812) via NAVRESPERSCEN (N51). Requests for "successful competition" or "concurrent change of rating" must be received by NAVPERSCOM (PERS-4812) 90 days prior to the examination month to allow ample time for processing and examination ordering. Requests received within 90 days of the examination cycle will be considered for the following advancement examination cycle. Refer to figure 6-1 for request format for all conversions.

1. Additional information for specific ratings

a. Cryptologic Technician (CT) ratings. Upon obtaining local Naval Reserve Security Group (NAVRESSECGRU) (N00E)

endorsement, forward requests to NAVPERSCOM (PERS-4812). NAVPERSCOM (PERS-4812) will forward "CT" requests to Naval Security Group (NAVSECGRU) (N00E) for endorsement.

b. Intelligence Specialist (IS) ratings. Upon obtaining endorsement from local Reserve Intelligence Program Office (RIPO), forward to NAVPERSCOM (PERS-4812). NAVPERSCOM (PERS-4812) will forward "IS" requests to Chief of Naval Operations (CNO) (N32/N34) for endorsement. Approved ISSN, IS3 and IS2 requests will require the member to complete the Basic Reserve Intelligence Training (BRIT) course (self-paced computer based training (CBT) modules) and the 2-week IS "A" Reserve Training Course (IS-A-RES) at Navy, Marine Corps Intelligence Training Center (NMITC) or Fleet Intelligence Training Center, Pacific (FITCPAC) (CIN: J-150-2978). Members will have 18 months to complete all requirements. Upon completion, members may be converted to "IS". Approved IS1 requests will require the member to complete the BRIT course, IS "A" Reserve Training Course, and pass a Navy-wide advancement examination for IS1 by scoring a minimum standard score of 37. Members will have 36 months to complete all requirements.

c. Religious Program (RP) rating. Upon obtaining favorable endorsement from a Navy Chaplain, forward to NAVPERSCOM (PERS-4812). NAVPERSCOM (PERS-4812) will forward to NAVRESFOR (N008) for endorsement.

d. MA rating. NAVPERSCOM (PERS-4812) will forward all "MA" requests to Director, Naval Criminal Investigative Service (NCIS) (24F3) for endorsement. Members may not be employed in any civilian capacity which may appear/result in the appearance of conflict of interest, either financially or in authority, while engaged in Navy Reserve law enforcement/physical security duties. Employment or seeking employment as a private investigator or bail bondsman is prohibited. Employment as a private guard or watchman is allowed, providing there is no conflict with Navy Reserve law enforcement/physical security duties. There must be no history of mental impairment or disorder, domestic violence, emotional instability, alcoholism, or drug abuse. Members must be in good physical condition capable of sustained exertion, meet body fat standards and be fit for full duty. Each member must meet or exceed all requirements of the Physical Fitness Assessment per OPNAVINST 6110.1G for the last three PFA's. Each request must contain an

endorsement from a MA security office/civilian law enforcement department supervisor, or Physical Security Officer.

e. Legalman (LN) rating. Approvals for conversion to "LN" will require successful completion of Reserve Legalman Phase I, II, and III (each Phase lasts 2 weeks) at the Naval Justice School. Upon successful completion, members may be converted to "LN".

f. NAVPERSCOM (PERS-4812) will forward all conversion requests to NAVRESFOR for manning endorsement.

2. Reasons for Change of Rating Disapprovals

a. Failure to meet rating requirements as contained in NAVPERS 18068F, volume I, BUPERSINST 1430.16E, current ECMO ALNAVRESFOR for the respective advancement cycle, and current NAVADMIN for the respective advancement cycle.

b. Requests for ratings listed as ECMO "C" on the current DRILLRES ECMO.

c. Requests submitted with missing information or lack of explanation for missing information will be returned with no action taken.

609. APG, RESCORE-R, and OSVET. Personnel who enlist in the Navy Reserve with a temporary paygrade will be required to qualify for that paygrade prior to requesting a change of rating.

610. Forced Conversions. Members unable to continue in their current rating for medical, physical, or disciplinary reasons, or those in ratings that have merged or disestablished, should submit a forced conversion request per figure 6-1. A detailed explanation of the circumstances surrounding the forced conversion should be included in the request.

CHAPTER 7

TRANSFERS TO OTHER COMPONENTS OR SERVICES

701. General Policy. Navy Reservists may be authorized release from the Navy Reserve for recall or enlistment in another component or Service, active or inactive per DODD 1205.5 of 10 April 1995, and as specified in this chapter. Transfers from the SELRES to the IRR or Standby Reserve of another service are not permitted.

702. Application Requirements. The following are prerequisites for release to be commissioned, recalled or enlisted in another component or Service, active or inactive:

1. DD 368 (Rev. 11-94), Request for Conditional Release, shall be used in all cases involving inter-service transfer. It shall also be used when enlisted personnel are entering the U.S Navy via Commander, Navy Recruiting Command (COMNAVCRUITCOM).

2. Personnel are not authorized release for enrollment in the Delayed Entry Program (DEP) of an active component.

703. Special Procedures for Enlisted Personnel. Personnel serving under the following programs or policies have specific conditions for release that must be met prior to approval. These requirements are displayed in figure 7-1.

1. Members currently affected by a Navy-wide stop-loss policy or identified for mobilization/PRC.

2. Non-prior service personnel who have not completed their initial training requirements.

3. Members serving in a rating that is listed as ECMO category "A".

4. Members possessing a critical NEC.

5. Members assigned to a priority 1 unit.

6. Members in receipt of bonus for their current enlistment.

7. Members serving in a temporary rating.

8. Members of the IRR should follow application guidance contained herein. NAVRESPERSCEN (N3) is the final approval authority.

704. Special Procedures for Officers. Officers requesting a release to another service should follow the guidance contained in SECNAVINST 1000.7E, MILPERSMAN 1300-080 and chapter 10 of this instruction.

705. Procedures for Processing Enlisted Requests. Once a DD 368 is received from either the servicemember or a recruiter, it should be processed as follows:

1. Ensure the document is completed accurately as detailed in the instructions. Ensure information and dates are current.

2. Determine the appropriate approval authority as delineated in figure 7-1.

a. If the NRA CO is the approval authority and approval is granted, the NRA should complete part II. If the NRA CO disapproves the request, it must be forwarded to NAVPERSCOM (PERS-4913) for final disposition.

b. If NAVPERSCOM (PERS-4913) is the approval authority, forward the DD 368 with any required endorsements.

c. Once an approved DD 368 is completed, return it to the address listed in part I of the DD 368.

3. The NRA shall track approved DD 368's to ensure enlistment/appointment paperwork is received so that discharge entries may be entered into NSIPS.

706. Application for General Assignment/Recall with U.S. Navy. Enlisted personnel desiring general assignment/recall with the U.S. Navy should refer to MILPERSMAN article 1306-1400 for guidance.

CHAPTER 8

ENLISTED ADMINISTRATIVE SEPARATIONS

801. General Policy

1. Navy policy is to promote readiness by maintaining high standards of conduct and performance. MILPERSMAN 1910 provides overall policy guidance and procedures pertaining to enlisted administrative separations.

2. In times of war or national emergency, or when directed by higher authority, CHNAVPERS may suspend separation and retirement actions for personnel with critical specialties.

802. Administrative Separation Authority. The tables in MILPERSMAN 1910-704/708 list separation authority and should be referred to before sending an administrative separation case to NAVPERSCOM (PERS-4913) for adjudication. Additional guidance is found in SECNAVINST 1910.4B.

803. Enlisted Administrative Separation Procedures

1. Commands must comply with the procedures set forth in MILPERSMAN 1910 and promptly process personnel for administrative separation.

2. The following specific guidelines from the MILPERSMAN should be noted:

a. When least favorable characterization of service is General or Honorable, utilize the most current NAVPERS 1910/32 (09-01), Administrative Separation Processing Notification Procedures, MILPERSMAN 1910-402.

Note: When least favorable characterization of service is General or Honorable, only members with 6 or more years of service are entitled to an administrative board.

b. When least favorable characterization of service is Other Than Honorable, utilize the most current NAVPERS 1910/31 (09-01), Administrative Separation Processing Notice - Administrative Board Procedures, and MILPERSMAN 1910-404. When

Administrative Board procedures are used members may request an Administrative Board regardless of years of service.

804. Additional Guidance

1. Unsatisfactory participants undergoing ADSEP processing, that in the NRA CO's opinion are not considered mobilization assets, will be assigned to the VTU as soon as the administrative board procedures letter (ABPL)/notification procedures letter (NPL) is signed by the NRA CO. NRA CO's have the discretion to retain all other members being processed for administrative separation in the unit until processing is complete. This authority is case dependent and should be used with discretion. Members transferred to the VTU will not be transferred back into drill status until their case is adjudicated and retention authorized. Accessions back into drill status will be as authorized by COMNAVRESFORCOM through the Navy Reserve recruiting system. Contact NAVPERSCOM (PERS-4913) if member has any difficulty in re-accession.

2. Members will not be transferred to the IRR in lieu of administrative separation processing. Non Prior Service (NPS) members will not be transferred to the IRR until they have met the minimum training requirements as specified in COMNAVSEVTRACOM/COMNAVRESFORCOMINST 3500.1.

3. The following cases must be forwarded to NAVPERSCOM (PERS-913) for adjudication:

a. All cases for which an administrative board or separation authority recommends retention.

b. All cases for which an Other than Honorable discharge is recommended.

c. All cases for personnel who have remaining Military Service Obligation (MSO).

4. Navy Reservists who cannot be located will be processed for separation per MILPERSMAN 1000-140.

5. All administrative separation packages, even those of members discharged locally, must be forwarded to NAVPERSCOM (PERS-4913) under a letter of transmittal (LOT). "By direction"

signatures are not authorized. If discharged locally, the LOT must include the effective date of discharge and a copy of the service record entry required by section 806. Refer to MILPERSMAN 1910-600 for sample format for LOT.

805. Transfer to USNR-S1/2 Status in Lieu of Separation. A Navy Reservist, who encounters a hardship that may preclude recall or mobilization, may be transferred to the USNR-S1/S2 by NAVPERSCOM (PERS-491) when the hardship temporarily prevents participation in the Ready Reserve. See chapter 21, section 2104 for guidance.

806. Required NAVPERS 1070/613 Entry for a Discharge that Occurs at Other Than Normal Expiration of Enlistment. When a discharge is authorized prior to the normal expiration of enlistment, the record holder will make the following NAVPERS 1070/613 in lieu of the NAVPERS 1070/615 per MILPERSMAN 1070-330:

Date) : Discharged this date with an (Type Discharge).
Reason for Discharge, (e.g., Enlisted USN, Other Than
Honorable Discharge, etc.)

CHAPTER 9

NAVY OFFICER OCCUPATIONAL CLASSIFICATION SYSTEM (NOOCS)

901. General. Navy Officer Occupational Classification System (NOOCS) is the method used to identify skills, education, training, experience, and capabilities related to officer requirements. This chapter discusses the four subsystems of NOOCS as they relate to the Navy Reserve: Designator/Grade, Navy Officer Billet Classification (NOBC), Subspecialty (SSP), and Additional Qualification Designation (AQD). This chapter also discusses the Civilian Occupation Code Indicator (COCI) that displays skills obtained through the Navy Reservist's civilian occupation or experience, which may be of potential value to the Navy Reserve. The Navy Reserve has traditionally used NOBC as the primary identification of specific skills within a designator.

902. Designator and Change of Designator. NAVPERSCOM (PERS-4911) assigns a four-digit designator code to all officers to reflect the type of duty officers are qualified to perform according to their appointment and status. Procedures for requesting a change of designator are provided in this chapter, and MILPERSMAN 1212-010 and 1212-020.

1. General change of designator information contained in the MILPERSMAN, as it applies to inactive duty Navy Reserve officers, follows:

a. Applications for redesignation or reappointment will not be accepted from officers who are subject to the attrition provisions of law, in USNR-S2, or USNR-Retired.

b. SELRES and IRR members assigned to a VTU will forward requests for change of designator to NAVPERSCOM (PERS-4911) via the Immediate Superior in Command (ISIC), and program sponsor (if applicable), unless specified otherwise. IRR members assigned to NAVRESPERS-CEN will forward requests to NAVPERSCOM (PERS-4911). Format for requesting a change of designator is provided in figure 9-1.

c. Requests will be presented to the Inactive Duty Navy Reserve Officer Designator Review Board conducted by NAVPERSCOM (PERS-4911).

d. Designator change may be obtained through In-Training Assignments per chapter 10, section 1003.

2. Requirements and procedures for inactive duty officers, other than warrant officers and limited duty officers (LDOs), to apply for specific designators follow:

a. Staff Corps. An officer seeking a commission in the Chaplain Corps, Judge Advocate General Corps, Medical Service Corps, Dental Corps, Medical Corps, or Nurse Corps must request reappointment directly through COMNAVCRUITCOM. Officers applying for change of designator to Civil Engineer Corps (510X) should submit requests for reappointment to NAVPERSCOM (PERS-4911) via Naval Facilities Engineering Command (RP), 1322 Patterson Ave SE, Ste 1000, Washington DC 20374-5065. Officers applying for change of designator to Supply Corps should submit requests for reappointment directly to NAVPERSCOM (PERS-4911).

b. Surface Warfare Officer (1115). An officer must complete all requirements per OPNAVINST 1412.2H and be certified as qualified by the CO of the NRF ship or the parent ship of the augment unit to which the officer is permanently assigned. Send the certification letter directly to NAVPERSCOM (PERS-4911) for validation. NAVPERSCOM (PERS-4911) will effect the designator change, and ensure the certification becomes part of the officer's official service record.

c. Merchant Marine/Navy Reserve Designators (1625/1665/1675/1695). Drilling officers will forward requests via the chain of command, including Naval Reserve Forces Command (NAVRESFORCOM (N14)) and CNO (N42), to NAVPERSCOM (PERS-4911). IRR officers will submit requests through NAVRESFORCOM (N14) and CNO (N42) only. Requests will contain the following:

(1) Appropriate U.S. Coast Guard License or Federal Communication Commission License, as applicable.

(2) Proof of employment in the maritime industry.

Note: Designator changes to 16XX (Merchant Marine) normally will not be approved from warfare specialties above the grade of lieutenant commander.

d. Special Duty Officer (Intelligence) (1635).

Applications for 1635 designator must be forwarded to NAVPERSCOM (PERS-4911) via (1) unit CO, (2) Reserve Intelligence Area Commander (RIAC), and (3) CNO (N2R), National Maritime Intelligence Center (RM3A104), 4251 Suitland Road, Washington DC 20395-5720. To apply, an officer must meet the minimum eligibility requirements identified below. These requirements must be certified by the local Reserve Intelligence Officer in Charge (OIC). Amplifying guidance is contained in OPNAVINST 1200.3.

(1) Grade. An applicant must be a lieutenant commander with no more than 2 years in grade on the date the request is submitted, or below.

(2) NOBC. An applicant must hold the 9600 NOBC per OPNAVINST 1001.25.

(3) Education. An applicant must hold at least a 4-year baccalaureate degree from a regionally accredited institution. The degree may be in any field except theology/divinity or health science.

(a) The preferred fields of education are as follows:

1. Technical. Engineering, electronics and mathematics.

2. Scientific. Geography, hydrography, physics, cartography, and oceanography.

3. Foreign languages or specific foreign areas studies and expertise. Languages most desired are Russian, Chinese, Japanese, Arabic, and Farsi.

(b) Alternative fields include information science, computer science, operations research or systems analysis, political science, and history.

(4) Experience. The following experience is preferred:

(a) An operational active duty background. Specifically, warfare qualified officer or one with a heavy concentration in intelligence.

(b) Substantial experience in a technical or defense oriented field, or experience in a military or civilian intelligence organization.

(5) Security Clearance. An applicant must be eligible for access to SCI based upon a current and satisfactorily adjudicated SBI.

e. Engineering Duty Officer (1445). An officer must meet the requirements identified in MILPERSMAN 1210-200 and NAVSEAINST 1001.3K. Applications will be submitted per figure 9-2.

f. Special Duty Officer (Cryptology-1615 Designator). An officer will submit the request per MILPERSMAN 1212-010 and forward it to the appropriate NAVRESREDCOM for endorsement. The officer must be eligible for access to SCI based upon a current and satisfactorily adjudicated SBI.

g. Aerospace Engineering Duty Officer (151X)/Aerospace Maintenance Duty Officer (152X). Applications for either 151X or 152X designator should be forwarded to NAVPERSCOM (PERS-4911) via (1) Unit CO (2) Reserve Echelon 4/5 command (3) NAVRESFOR (N11) (4) Commander, Naval Air Systems Command (the Technical Manager for 15XX designators). Minimum eligibility requirements are described in MILPERSMAN 1212-010. At the time scheduled by current CNO policy, captains with a 151X or 152X designator will be notified by NAVPERSCOM (PERS-4911) and offered the opportunity to be designated 1505 and thereby be eligible for consideration for promotion to flag rank. Notification is automatic, and therefore requests from members are neither required nor desired.

3. Change of designator procedures for LDO and CWO within their respective communities are contained in MILPERSMAN 1212-020.

903. (NOBC). NOBCs are used to assist in describing billet requirements for officer assignment, and for analysis of manpower resources. They are assigned by NAVRESPERSCEN (N5)

based upon qualifying military or civilian experience and education as specified below.

1. NOBCs earned on active duty become a part of the IMAPMIS data file for reserve officers.

2. NRPC 1200/1 (Rev. 9-96), Naval Reserve Qualification Questionnaire (NRQQ) for Inactive Duty Personnel is reviewed to determine NOBCs earned through civilian experience.

3. Reserve officers on inactive duty may request a new NOBC per figure 9-3. If applying for an NOBC not related to a current billet requirement, include a copy of supporting documentation with the request.

904. (SSP) Codes. The Officer Subspecialty System integrated classification and control system establishes active duty criteria and procedures for identifying officer requirements for advanced education, functional training, and significant experience in various fields and disciplines and for identifying officers who acquire those qualifications. SSP codes earned on active duty become a part of the IMAPMIS data file for reserve officers. Because these codes are earned from active duty experiences they are not awarded while on inactive duty. SSP codes are currently used only for assigning inactive duty health care officers. They are contained in NAVPERS 15839I (Mar 03), Manual of Navy Officer Manpower and Personnel Classifications, volume I.

905. (AQD) Codes. AQD codes are used to assist in identifying qualifications or skills which may or may not be discernible from an officer's assigned designator or billet. They are also used for analysis of manpower resources and are assigned based upon qualifying military experience and education. Officers may request an AQD by submitting a letter with supporting documentation and endorsements as specified by NAVPERS 15839I, volume I to NAVPERSCOM (PERS-4911).

906. (COCI). The Dictionary of Occupational Titles skill code indicates the occupational skill possessed by Navy Reservists. Skill code input to IMAPMIS for officers (including Merchant Marine Officers) and IRR enlisted personnel are made by NAVRESPERSCEN (N3). The skill code input is made for SELRES and

CHAPTER 10

OFFICER ASSIGNMENT

1001. General. Officers shall be assigned to Navy Reserve units using the following guidelines.

1. Eligibility. The order issuing authority must verify an officer's eligibility for assignment prior to issuing IDT orders per the following guidelines:

a. Members must be in the Ready Reserve for assignment to a unit with pay (chapter 1, section 103).

b. Members must be in the USNR-R or USNR-S1 for non-pay assignment to a unit (chapter 1, section 103).

c. Members in USNR-S2 status are not eligible for unit assignment (chapter 1, section 103). They must request and be transferred back to an active status by NAVPERSCOM (PERS-4911) in order to participate.

d. USNR-RET members may participate on a voluntary basis only per section 1008.

e. Verification of a member's status may be obtained from NAVPERSCOM (PERS-4911) prior to forwarding accession request.

f. Officers who received "Category B" Reserve Transition Benefits (chapter 23, section 2304) are not eligible for reaccession unless approved by CHNAVPERS.

2. Affiliation Procedures. To place an officer under IDT orders the following must be accomplished:

a. Recruiters/Personnel Support Detachments (PERSUPDETS) will submit the following documents to NAVPERSCOM (PERS-4911) for status verification:

(1) A NAVPERS 1200/1 (Rev. 09/90), Ready Reserve Transfer Request Service Agreement, appropriately endorsed by the supporting NRA.

(2) Copy of the most recent DD 214, Certificate of Release or Discharge from Active Duty, if the officer has served on active duty.

(3) Copy of the most recent NAVPERS 1000/4 (Rev. 5-02) Officer Appointment Acceptance and Oath of Office. If not previously forwarded, the Navy Reserve recruiter will forward the original signed copy of the NAVCRUIT 1000/20 to Navy Recruiting Command (Code 13).

(4) Verification of a current SF 88 (Rev. 10-94)/DD 2808 (JAN 03), Report of Medical Examination, and SF 93 (Rev. 6-96)/DD 2807-1 (JUL 00), Report of Medical History and DD 2807-2 (AUG 02), Medical Prescreen of Report of Medical History. Individuals applying for affiliation from the IRR must have undergone a complete military physical examination within the past 24 months and have a negative HIV test within the past 12 months. Provide current physical date in the appropriate section of the NAVPERS 1200/1. Submission of the SF 88/93 or DD 2807-1/DD 2807-2 and DD 2808 or HIV test results to NAVPERSCOM is not required.

b. For members with prior military service (other than the most recent active duty reflected on their DD 214), recruiters/PERSUPDETS will submit the following documents to NAVPERSCOM (PERS-4911) in order to capture all military service for a correct Pay Entry Base Date (PEBD) determination.

(1) For those whose prior service was enlisted

(a) all enlistment contracts.

(b) all DD 214s.

(c) all discharge certificates.

(d) reserve retirement point captures.

(2) For those whose prior service was commissioned

(a) all NAVPERS 1000/4s.

(b) all DD 214s.

(c) reserve retirement point captures.

c. NAVPERSCOM (PERS-4911) will establish the PEBD, verify the officer's status, and accept the NAVPERS 1200/1 if the individual is qualified. Notification of disapproval for affiliation and the reason for disapproval will be sent to the officer with a copy to the officer recruiter.

d. Members being reinstated from the USNR-S2 status will not be issued orders for unit assignment until the officer and the officer recruiter receive a reinstatement letter from NAVPERSCOM (PERS-4911).

3. Ready Reserve Obligation. Once the NAVPERS 1200/1 is accepted, the member is under an indefinite Ready Reserve Service Agreement and will remain a Ready Reservist until separated or transferred to another category by request, regulation, or failure to meet minimum participation requirements. After notice of alert or mobilization, requests for transfer from the USNR-R will be subject to applicable stop-loss guidance.

4. BUPERS Control Group. Per chapter 1, section 106, reservists may be placed in a BUPERS Control Group. Members placed in Control Groups 8 or 9 shall not be removed from their current assignment or issued any AT, ADT, IDTT, ADSW, retirement, or discharge orders, without approval from NAVPERSCOM (PERS-4911).

1002. Assignment of Navy Reserve Officers. Officer accessions, initial assignment to the SELRES and VTU, and any follow on assignments are under the authority of NAVRESFOR. NAVRESPERSCEN is responsible for management of all other members of the IRR.

1. IDT Orders. NAVRESFOR is authorized to delegate IDT order issuing authority to the NAVRESREDCOM, NAS, NAVAIRESSEN, NAF or other Echelon 4 or 5 level activities. IDT orders for qualified personnel performing hazardous or special duty will state that performance of such duty involving their particular specialty is authorized per MILPERSMAN 7220-060, 7220-070, 7220-080, 7220-090, and Department of Defense Military Pay and Allowances Entitlement Manual (DODPM), part 8.

2. Billet Assignment. An officer's training, experience, NOBC, designator, and grade will be used as the basis for billet assignment. The overall guiding objective will be assignment of the junior best qualified. COMNAVRESFORCOM will issue policy for billet and command assignments for SELRES and members of the VTUs. CO, NAVRESPERSSEN will issue assignment policy for the IRR.

3. Security Clearance. An officer may be assigned to a billet requiring a higher-level security clearance than presently possessed under the following conditions:

a. The officer must complete and submit an appropriate request, together with all required documentation, for the higher-level security clearance.

b. The request must be reviewed and approved by the supporting NRA CO who may grant an interim clearance per SECNAVINST 5510.30A. Should the officer's security clearance eligibility or request be denied for any reason, the officer's assignment to the billet will be canceled immediately, and a debriefing will be conducted per SECNAVINST 5510.30A.

4. Initial Active Duty Training (IADT). SECNAVINST 1001.33C provides guidance for non-prior service personnel accessed into the reserve component. IADT is designed to prepare new military members with the basic military skills required to perform their military duties. All non-prior service personnel will be provided basic military training within 1 year of accession as follows:

a. For IADT requirements, refer to paragraph 1301.2 of this instruction.

b. Non-prior service personnel shall be placed on a non-deployable account until they have completed their IADT.

c. Non-prior service personnel shall be placed on a non-deployable account until they have completed the basic training outlined above.

1003. In-Training Assignments. An approved in-training assignment permits an officer to participate in the SELRES while obtaining qualifications for change of designator. Direct

commissioned officers must serve 3 years in their assigned designator before requesting an "in-training" assignment for another designator. Intent to change designator is a prerequisite for an in-training assignment to a specific billet, which would otherwise require a designator waiver. Applications will be submitted per figure 10-1 to NAVPERSCOM (PERS-4911) via the chain of command and Reserve program sponsor. Requests for in-training assignments will normally be for a period of 36 months or less. Specific requirements for officers desiring in-training assignment to designator 1445 follow:

1. Designator 1445. Officers must comply with NAVSEAINST 1001.3K.

2. Reserve Cryptologic Officer Qualification Program. Newly accessed reserve officers will be assigned a 1645 designator until completion of the training and qualification program described below. Upon completion they will be awarded the 1615 designator.

a. New officer accessions must complete the qualification program within 4 years of affiliation unless previously assigned the 1610/1615 designator. Designator 1645 affiliates are only required to complete those portions not previously satisfied while on active duty.

b. The training consists of the following five phases:

(1) Phase I. DCO Training is a 2-week course conducted at NAS Pensacola, FL.

(2) Phase II. Junior Officer Indoctrination Course consists of 2 days of training at Naval Reserve Security Group Command Headquarters in FT Worth, TX.

(3) Phase III. Cryptologic Reserve Officer Course is a 2-week course conducted at Naval Technical Training Center (NAVTECHTRACEN) Corry Station, Pensacola, FL.

(4) Phase IV. This technical training is comprised of over 200 hours of both formal instruction and Computer-Based Training available over the Internet.

(5) Phase V. Gaining command liaison officer assign specific training requirements, and these vary based on the mission of the command.

1004. Navy Active Duty Delay for Specialist (NADDS) Physician Program/Financial Assistance Program (FAP). NADDS and FAP physicians are not authorized SELRES assignments. They remain in an active status and may be assigned to the IRR either as a drilling VTU or non-drilling member. They are encouraged to participate non-pay and to perform AT so they will have more substantial fitness reports in their records when they are being considered for promotion. Otherwise, "Not Observed" fitness reports submitted by BUMED (Med-513) and Naval Reserve Qualification Questionnaire (NRQs) will be the primary sources of information for promotion consideration. Refer to SECNAVINST 1520.11 for the NADDS program and DODD 6000.12 of 29 April 1996 for FAP program.

1005. Health Care Students. Reserve Officer with 19XX designators who are students, interns, residents, or fellows in the health care profession are not allowed to be SELRES but rather are normally assigned to the IRR. Reservists with designators other than 19XX who are medical, dental, or nursing students may remain in the Ready Reserve; however, per DODD 1200.7 of 18 November 1999, upon mobilization, they either may be deferred or shall be mobilized as a student, intern, resident, or fellow status until qualified in the applicable medical specialty, as prescribed by SECNAV. Order-issuing authorities should be cognizant of the member's student status and be aware of their restricted mobilization. SELRES assignments should be limited to medical units where their skills can be used upon mobilization.

1006. Reservists in Religious Studies or Vocations. Reservists who are pursuing religious studies or working in religious vocations must notify NAVPERSCOM (PERS-491) of their educational and vocational intent. They will be assigned as follows:

1. Navy Reservists attending recognized theological or divinity schools, or their equivalent, in preparation for religious ministry are ineligible for assignment to USNR-R and will be transferred to USNR-S1 unless they are accepted into the Chaplain Candidate Program per SECNAVINST 1120.4A. By statute,

they may not be required to serve on active duty or participate in inactive duty training.

2. Chaplain Candidate Program Officers (CCPO), designator 1945, are assigned to IRR. They are encouraged to perform non-pay drills and may perform ADT with or without pay as authorized by the Chaplain Candidate Program Manager. They must apply for and accept, if offered, a superseding appointment in the Chaplain Corps within 1 year of meeting Navy and faith group eligibility requirements and comply with other provisions of SECNAVINST 1120.4A.

3. Navy Reservists who are civilian clergy must apply for appointment in the Chaplain Corps (4105) or request a waiver from NAVPERSCOM (PERS-4911) to remain in the Ready Reserve with another designator as described in MILPERSMAN 1001-070.

1007. Judge Advocate General (JAG) Corps Student Program. Reserve officers in the Unrestricted Line, JAG Corps Student program, designator 1955, will serve without pay or allowances while a student, except during periods of active duty. They must accept a superseding appointment in the JAG Corps (2505) when they meet the requirements identified in SECNAVINST 1120.5A.

1008. Participation of USNR-Retired Personnel via Permissive Orders. USNR-Retired personnel may participate on a voluntary, non-pay basis with Navy Reserve units with the following exceptions: NRF ships, Reserve Force Squadrons, ship and aviation augment units, and units that regularly embark for underway or flight operations. Basic guidance pertaining to retiree participation follows:

1. Order issuing authority will determine that the member's services will contribute to the mission of the unit and Navy.

2. Order issuing authority will prepare permissive letter-type orders (figure 4-1). NAVRES 1321/1 (Rev. 2-79), Officer Application/Orders for Inactive Duty Training, will not be issued. Orders will not exceed 1 year and may be canceled at any time. They may not be assigned to a billet.

3. Member's security clearance must be appropriate for the assignment.

4. IDTT and ADT orders are not authorized.
5. Retired members will not be reported via NSIPS or any personnel or administrative reports.
6. Fitness reports will not be submitted.
7. Retirement points cannot be earned.
8. Retired members who want to participate as Health Care Providers must be credentialed.

1009. Key Employees. Members identified as key employees, as defined in chapter 21, section 2103.1, must be transferred from the Ready Reserve per DODD 1200.7. NAVPERSCOM will notify and transfer a member to USNR-S1 status, as applicable, after the member's employer or agency reports that the member is a key employee. Such transfers will not be made subsequent to notice of alert or mobilization unless authorized by DOD. Once transferred, members will be allowed to return to the Ready Reserve when they are no longer considered to be key employees.

1010. Conflict of Interest. Individuals may not be assigned to a reserve billet in which there could be a financial or civilian employment conflict of interest situation as defined by DOD 5500.7-R of Aug 93. For example, civilian employees of the government may not be assigned to a mobilization billet in the office where they are employed as a civilian. Reserve activities will forward any potential conflict of interest situations that they cannot resolve per DOD 5500.7-R to NAVPERSCOM (PERS-4911).

1011. Performance Standards

1. All officers ordered to Navy Reserve units must meet prescribed military, professional, training, and participation standards. Failure to adhere to performance standards will constitute grounds for the order issuing authority to remove officers from pay status and transfer them to the IRR. Additionally, if warranted by severe circumstances, separation for cause proceedings may be required. In such cases, contact NAVPERSCOM (PERS-834) for further guidance. If appropriate, place the member in Records Review per COMNAVRESFORINST 1001.5D during processing.

2. Any time officers are being terminated from unit assignment due to performance, the reason for removing officers from their unit should be indicated on the detaching orders. COs may also document performance on the detaching fitness report per MILPERSMAN 1611-010.

1012. Officer Separations/Resignations

1. Policy and procedural guidance for processing officer resignations and separations for Navy Reserve officers on inactive duty (i.e., USNR-R, USNR-S1, USNR-S2) are governed by SECNAVINST 1920.6B and are directed by NAVPERSCOM (PERS-4911).

2. Policy guidance for voluntary officer resignations from members not serving on continuous active duty is as follows:

a. Once officers have legally accepted a commission or warrant as a Reserve officer and have executed the oath of office, they have acquired a legal status that continues until they are discharged through a specific, legally authorized process. Discharge of officers can be accomplished via the following methods:

(1) Officer is required by law to be discharged as a result of age, years of service, or physical disqualification.

(2) Officer recommended for separation by the Navy Reserve Officer Mobilization Disposition Board, which is one of SECNAV's means of separating officers per 10 U.S.C. 12683.

(3) Officer meets one of the other authorized provisions for separation per 10 U.S.C. 12683.

(4) Officer is a "probationary officer" and is separated per SECNAVINST 1920.6B.

(5) Officer is directed to be discharged for any reason by SECNAV per SECNAVINST 1920.6B.

(6) Officer requests resignation and the resignation is accepted by SECNAV or an organization delegated the authority to accept resignations on behalf of SECNAV.

b. Resignation is a request by officers to be divested of their commission or warrant. The resignation may be classified "Unqualified", "Qualified" or for the "Good of the Service." Upon acceptance by SECNAV or designated representative, and completion of all administrative procedures, the members are discharged. This represents a complete severance from military status.

c. Officers will normally be retained in a commissioned status in order to fulfill the statutory service obligation. Under DODI 1304.25 of 25 August 1997, each person who becomes a member of the Armed Forces on or after 1 June 1984 shall serve in the Armed Forces for a total of 8 years.

d. CHNAVPERS and COMNAVPERSCOM are delegated authority to approve officer resignations. This authority has been further delegated to NAVRESPERCEN for Navy Reserve officers on inactive duty.

3. Voluntary Resignations. All voluntary Navy Reserve officer resignation requests should be submitted through the appropriate chain of command at least 90 days prior to the effective date. Resignations are not effective until accepted by SECNAV, CHNAVPERS, COMNAVPERSCOM, or CO, NAVRESPERCEN.

a. Generally, officers serve at the pleasure of the President and no terminal dates are established for their commissions. Requests for resignation will normally be denied if

(1) the officer has not completed the statutory service obligation of 8 years.

(2) the officer has not completed all obligated service prescribed by the officer program through which accessed.

(3) the officer has not completed service obligation for advanced education or technical training requiring additional obligated service, including postgraduate education, service school or college, law school, medical residency, flight training, and equivalent programs.

(4) COMNAVPERSCOM has determined that a significant personnel shortage in the officer's competitive category, designator, occupational field, or military occupational specialty constitutes a compelling military necessity requiring the officer's retention.

(5) the officer has been placed in a BUPERS Control Group for special tracking (e.g., medical or legal reasons) and has not been approved for resignation by COMNAVPERSCOM.

(6) Stop-Loss has been declared during a PRC or mobilization.

b. An officer may request voluntary resignation for any valid reason via the format in figure 10-2. Some examples for requesting resignation include but are not limited to the following:

(1) Expiration of statutory service obligation.

(2) Expiration of obligated service.

(3) Change of career intention.

(4) Convenience of the government (e.g., dependency or hardship, pregnancy or childbirth, conscientious objector, to attend college).

(5) Interservice transfers.

(6) To become a minister.

(7) Lack of mobilization potential.

4. Interservice Transfers. Officers in the Navy Reserve who desire appointment in another service must submit a DD 368, to NAVPERSCOM (PERS-4911C) via the recruiting authority of the service concerned.

PARTICIPATION REQUIREMENTS

1101. General. This chapter identifies Navy Reserve Training and Retirement Categories (TRC) and sets forth requirements for members participating in the Navy Reserve.

1102. Training and Retirement Categories. Participation requirements for Navy Reserve members are determined by the TRCs to which they are assigned. A description of these categories (administered by DODI 1215.19 of 12 December 2000) are summarized below:

RESERVE COMPONENT CATEGORY	TRAINING/ RETIREMENT CATEGORY	IDT PERIODS REQUIRED PER FY	AT REQUIRED PER FY	REMARKS
READY RESERVE				
USNR-R (Selected Reserve)	A	48	14 DAYS (Note 1)	Personnel assigned to SELRES units.
USNR-R (Selected Reserve)	B	0-48	14 DAYS (Note 1)	IMAs.
USNR-R (Selected Reserve)	F	0	N/A	Personnel performing any period of IADT.
USNR-R (Selected Reserve)	P	0	N/A	Personnel awaiting 1 st period of IADT.

STANDBY RESERVE

USNR-S1 (Standby Reserve)	C	0	0	Key employees only (Note 4).
USNR-S1 (Standby Reserve)	D	(Note 4)	0	Other active status members (e.g., temporary hardship/dependency problems, etc.)
USNR-S2 (Standby Reserve)	L	0	0	Transferred to inactive status in lieu of separation with disability pay (may not earn retirement points).
USNR-S2 (Standby Reserve)	N	0	0	Other Inactive Status List Members.

RETIRED RESERVE

USNR-RET	1	0	0	Members transferred to the Retired Reserve who are receiving retired pay.
USNR-RET	2	0	0	Members of the Retired Reserve who are eligible for but not yet drawing retired pay.
USNR-RET	3	0	0	Reservists who are retired for a physical disability.

USNR-RET	4	0	0	Reservists who have completed more than 20 years of active duty.
USNR-RET	5	0	0	Reservists drawing retired pay or other special pay for unique reasons authorized by SECNAV.

NOTE 1. When individual AT is performed at activities, which operate on a normal weekday schedule, completion of 12 days (first working day of first week through last working day of the last week) is considered sufficient to satisfy the annual requirement.

NOTE 2. Non-prior service personnel who have not satisfied the training requirements prescribed by 10 U.S.C., 671 may be recalled or mobilized; however, they may not be deployed outside the United States.

NOTE 3. Members of the IRR are not required to perform AT; however, they may be authorized to perform up to 30 days ADT each year. Per 10 U.S.C., 12319(a), they must participate in 1 day of Muster Duty annually for screening, if ordered. Retirement points are not authorized for the IRR screening evolution.

NOTE 4. Members in USNR-S1 status can earn retirement points. Members in appropriate training and retirement categories who are participating in the VTU program must maintain IDT participation requirements outlined in chapter 12.

1103. Criteria for Satisfactory Participation. COs of each NRA are responsible for monitoring the participation of their members. Criteria for satisfactory participation in the drilling Navy Reserve follows:

1. Members will be designated as an unsatisfactory participant when nine or more IDT periods in a running 12-month period are declared unsatisfactory or are unexcused absences.

2. Members must perform a minimum of 12 to 14 days AT each fiscal year when AT is required (see chapter 13 and COMNAVRESFORCOM's annual fiscal program and policy guidance messages).

3. Members must report as directed for physical examinations and provide medical information as requested to determine physical qualifications for retention in the Navy Reserve.

4. Members must keep their NRA CO informed of

- a. current address and work and home telephone numbers.
- b. changes in physical status.
- c. dependency changes.
- d. current employment status.
- e. other factors that could affect mobilization potential.

5. Members must respond to all official correspondence.

6. Members must comply with involuntary recall to Active Duty.

1104. Acknowledgement of Procedures. All drilling Navy Reservists will acknowledge their understanding of Navy's policy concerning IDT period attendance, notification of absences, and procedures to be taken in the event of missed IDT periods by signing a NAVRES 1570/2. NAVRESFOR may modify satisfactory participation requirements for VTU members while ensuring that the member obtains a 50-point qualifying year for retirement purposes per chapter 20 of this instruction.

1105. Authorized Absences (AAs). AAs are assigned when there is not a requirement to make-up missed IDT periods and meaningful training is not available. Assignment of AAs reduces the total number of authorized IDT periods per fiscal year. Reduction in the number of required IDT periods does not change the requirements that an anniversary year must have 50 points to be qualifying. IDT periods adjudicated as AAs cannot be changed

to Rescheduled (RS) or Unsatisfactory (U) periods. Once AAs are authorized, there is no IDT requirement. AAs may be assigned as outlined in COMNAVRESFORINST 1001.5D.

1106. Declaring an IDT Period or AT Period Unsatisfactory

1. Declaring an IDT period unsatisfactory does not affect the individual's pay for the IDT period. A member may be awarded forfeiture of pay only as a result of UCMJ action per the Table of Maximum Punishment as prescribed by the Manual for Courts-Martial.

2. A determination as to whether an individual's performance on AT has been satisfactory will be made by the CO of the command to which ordered.

3. An IDT period or AT period may be declared unsatisfactory under any of the following circumstances:

a. Member fails to meet the minimum standards required to maintain the proficiency of the unit and the skill of the individual.

b. Disciplinary action has been taken under the UCMJ.

c. Member fails to perform a scheduled IDT period and does not notify the unit CO or NRA in order to reschedule or receive AAs. The IDT period is then declared unexcused and the member forfeits the right to earn IDT credit and pay for the IDT periods in question.

4. Should an IDT period be declared unsatisfactory, record the unsatisfactory IDT period on the NAVRES 1570/2.

5. Should an AT period be declared unsatisfactory, the members NRA will submit a NAVPERS 1070/613 entry documenting the unsatisfactory AT period.

1107. Actions to be Taken for Unsatisfactory Participation.
When members fail to meet the satisfactory participation requirements, they will no longer be eligible for receipt of Reserve Incentive Bonus, Reserve Montgomery GI Bill (RMGIB) entitlement, or recommendation for advancement or promotion.

Additionally, one of the following administrative actions will be taken:

1. Enlisted personnel, upon the recommendation of the unit CO, will be

a. placed on probation for 6 months (figure 11-1), or

b. processed for administrative separation per chapter 8 of this instruction.

2. Officers may have their drill assignment canceled and be transferred to the IRR. The supporting NRA will prepare orders transferring the officer to CO, NAVRESPERSCEN. A copy of these orders will be forwarded to NAVPERSCOM (PERS-4911). Unsatisfactory participation will be identified as the reason for transfer on the detaching orders and may be reflected on FITREPs. Further unit assignment is not authorized without NAVRESFOR (N1) approval. Additionally, officers with a mandatory obligation may be nominated for separation for cause per SECNAVINST 1920.6B (refer to chapter 10, section 1011 of this instruction for further guidance).

PROBATIONARY PERIOD FOR ENLISTED PERSONNEL

1. Enlisted personnel may be placed on 6 months probation for unsatisfactory participation if the NRA CO believes the circumstances that caused the reservist to be an unsatisfactory participant have been resolved.
2. If during the 6-month probationary period the member accrues one unexcused absence or fails to meet any other participation requirement, the member's drill assignment may be canceled.
3. Additional probationary periods will not be granted at the local level. Cases requiring additional probationary periods will be forwarded via the chain of command to NAVRESFOR (N12) for determination.
4. Members placed on probation will be counseled concerning the requirement for future participation and will sign the following NAVPERS 1070/613 statement:

 Date) : I have been placed in a 6-month probationary period by reason of unsatisfactory participation. I understand that during this 6-month period, I will be immediately removed from a drill assignment should I accrue one unexcused absence or fail to satisfactorily participate in any manner. I also understand that if enrolled in the Reserve Incentive Program or RMGIB, my unsatisfactory participation disqualifies me for future payments and may result in recoupment of payments I have received but have not earned. I also understand that I am not recommended for advancement. If I fail to complete IADT in the prescribed time, I may be processed for separation.

CHAPTER 12

INACTIVE DUTY TRAINING (IDT)

1201. Inactive Duty Training (IDT) Periods (Drills). An IDT period is an authorized period of IDT conducted to provide contributory support/to enhance the participating Navy Reservist's readiness for mobilization. IDT periods are performed either with or without pay. Types of IDT periods are as follows:

1. Regular IDT Period. Regular IDT periods are IDT periods performed per a published schedule established in advance by the unit CO to meet the training and administrative requirements of the unit. The TRC (see chapter 11) prescribe the number of regular IDT periods per fiscal year.

2. Rescheduled IDT Period. Rescheduled IDT periods are regular drills that are performed on an individual or group basis on a different date or at a different location from the published unit drill schedule. They are scheduled due to a conflict with AT or ADT, or to accomplish a specific training requirement or contributory support. Rescheduled IDT periods may be performed in advance of regularly scheduled unit IDT periods only if the member is expected to remain in the SELRES (Pay) through the end of the month for which the advance IDT periods were rescheduled.

3. Additional IDT Period. Additional drills, as defined by DODI 1215.19, are special training periods allocated to specific programs and units in addition to regular IDT periods. They are implemented by NAVRESFOR (N1) to obtain readiness training, which cannot be accomplished within the normal 48 IDT periods scheduled per fiscal year. Three categories of additional drill periods are as follows:

a. Additional Training Period (ATP). ATPs are authorized to accomplish additional required training as defined by a unit's mobilization mission.

b. Additional Flying and Flight Training Period (AFTP). AFTPs are authorized for conducting aircrew training and combat aircrew qualification training to attain and maintain aircrew flying proficiency and sustain mobilization readiness. AFTPs

will not be performed in addition to ATPs but rather in lieu of them.

c. Readiness Management Period (RMP). RMPs are authorized to support the day-to-day operation of the unit, accomplishing unit administration, training preparation, support activities, and maintenance functions. RMPs will not be performed on the same day another training period (IDT, ATP, or AFTP) is performed. An individual will perform no more than one RMP in a day.

1202. Incremental Accrual of IDT Periods. NAVRESFOR (N1) may designate certain programs in which scheduled training may be performed incrementally to accrue 4 hours for a paid IDT period or 3 hours for a non-pay IDT period.

1203. IDT Period Duration. The minimum duration of any paid IDT period is 4 hours. The minimum duration of a single non-pay drill by a member in a non-pay status (i.e., the VTU) is 3 hours. The minimum duration of a non-pay additional IDT period is 3 hours. If two non-pay IDT periods are performed in the same day, the minimum drill time is 4 hours each. The maximum duration of an IDT period is 24 hours. Enlisted personnel performing two pay drill periods on the same day are entitled to government-funded meals. Time allotted for meals cannot be credited towards the required length of IDT periods, but the meal period must be included as part of the drill period. For example, the morning IDT period commences at 0730 and expires at 1230. The afternoon IDT period commences at 1230 and expires at 1630. A 1-hour meal period was included during the morning IDT period. Hence, two 4-hour IDT periods were performed.

1204. IDT Period Credit. All members reporting for their IDT period at the scheduled time and place will be mustered for the purposes of drill accounting and establishing UCMJ authority. A member who is present for the prescribed IDT period will be authorized drill pay/retirement point credit if in a pay assignment or retirement point credit if in a non-pay assignment (VTU). If the CO to whom the member reports for drill determines the member's performance during the IDT period is unsatisfactory, the member's IDT periods may be declared unsatisfactory (see chapter 11).

1205. IDT Period Limitations. The following limitations are placed on drill participation:

1. No more than two IDT periods may be performed in 1 day.
2. During the fiscal year in which affiliated, new members are limited to performing a prorated number of regular IDT periods based on the number of months remaining in the fiscal year. Example: A member who affiliated in TRC A (48 drills per fiscal year or four drills per month) prior to the drill weekend in March (with 7 months remaining in the fiscal year) is allowed 28 regular IDT periods during that fiscal year. IDT period credit is not authorized for affiliation processing. Members affiliating with a unit which has already performed its regular IDT periods in a given month may attend previously scheduled indoctrination training if available during the remainder of that month, as determined by the supporting NRA CO. If no indoctrination training is scheduled, there are no IDT periods to be attended that month and the member is not allowed to drill.
3. Members who discontinue drilling prior to the end of the fiscal year are only eligible to be scheduled and paid for the same prorated number of IDT periods for the time they are affiliated, (i.e., four IDT periods each month the member is affiliated). A member is not authorized to perform IDT periods in advance of the normal drill schedule if the member is scheduled to be separated from the SELRES, (e.g., retired, discharged, status change, etc.) prior to the end of the month for which the IDT periods were rescheduled.

1206. End of Fiscal Year IDT Periods. The number of paid IDT periods each fiscal year is limited by a member's Training and Retirement Category. Rescheduled drills must be performed during the same fiscal year in which the original regular drills were scheduled.

1207. IDT Period Requirements. Members will be designated as an unsatisfactory participant when nine or more IDT periods in a running 12-month period are declared unsatisfactory or are unexcused absences. COMNAVRESFORCOM may modify satisfactory participation requirements for VTU members (see chapter 11).

1. Performance of regular or rescheduled drills (pay and non-pay) count toward satisfactory drill participation. Additional IDT periods may not be included in determining satisfactory participation.

2. IDT period attendance will be computed on a progressive year basis and not on an anniversary, fiscal, or calendar year basis. This attendance is computed by counting drill attendance, starting from and including the month of the last regular IDT period and counting back 12 months. Example: If the member's last IDT period was 16 March, only those IDT periods back through the previous April will be considered in determining satisfactory performance. An individual who is in a 48-drill category becomes an unsatisfactory performer upon the date of the accrual of 9 unexcused absences or a combination of unexcused absences and unsatisfactory IDT periods that total nine or more in 12 months or less. IDT periods missed after a successfully completed period of probation, additional AT or extended active duty, will not be combined with those missed prior to the probation, additional AT, or extended active duty in determining unsatisfactory participation.

1208. Failure to Perform Required IDT Periods. See chapter 11, section 1107 for procedures to be followed when a member fails to meet drill requirements.

CHAPTER 13

ACTIVE DUTY FOR TRAINING (ADT)

1301. Active Duty for Training (ADT). ADT is a limited period of ADT with an automatic reversion to inactive duty when the specified period of training is completed. ADT includes

1. Annual Training (AT). AT is the minimum period of ADT or participation that SELRES members must perform each year to satisfy training requirements.

2. Initial Active Duty for Training (IADT). IADT is training scheduled to meet basic military training and technical skill training for non-prior service (NPS) accessions, which must be completed prior to mobilization. IADT for non-prior service personnel should, to the maximum extent practicable, be commenced within 1 year of accession.

a. Enlisted NPS IADT shall be conducted per COMNAVSEVTRACOM/COMNAVRESFORCOMINST 3500.1.

b. Officer NPS IADT will be no less than 12 weeks or its equivalent, defined as a Direct Commission Officer course plus 72 calendar days of IADT for a minimum total of 84 calendar days. The 84 calendar days of training may be accomplished through AT, ADT, ADSW, or IDT (two drill periods equal 1 calendar day).

1302. AT Requirements. SELRES personnel must perform 12 to 14 days AT/ADT each fiscal year as scheduled by the unit CO and per COMNAVRESFORCOM's annual fiscal program and policy guidance message. Waivers of the AT requirement (section 1304) may be authorized under the direction of COMNAVRESFORCOM. Failure to perform AT or obtain a waiver will result in unsatisfactory participation for the fiscal year (see chapter 11, section 1106). AT that overlaps 2 fiscal years may be considered as satisfying the requirement for either fiscal year; however, retirement point credit will be applied only to the anniversary year in which it was earned.

1303. Exceptions. Exceptions to the AT requirements specified in section 1302 are as follows:

1. Performance of less than 14 days AT in a fiscal year will satisfy the annual requirement under the following circumstances:

a. If individual AT is performed at an activity that operates on a normal weekday schedule, completion of 12 days (first working day of first week through last working day of the second week) will satisfy the AT requirement.

b. If members, through no fault of their own, are released from AT prior to completing the minimum 12-14 day requirement, the AT requirement is satisfied. It is not beneficial to the Navy or the members to require performance of 1 or 2 days of AT simply to satisfy the day-for-day requirement.

2. The following SELRES are exempt from the AT requirement:

a. Reservists within 120 days of completing their MSO if they have served on active duty for 1 year or longer. 10 U.S.C., 10147(b) stipulates that no member who served on active duty for 1 year or longer will be required to perform AT if the first day of such duty is scheduled during the last 120 days of required membership in the Ready Reserve. Unit COs must ensure obligated members are scheduled for AT far enough in advance to preclude a conflict with this provision. The 120-day provision does not apply to members ordered to serve additional ADT as a result of unsatisfactory participation.

b. If waived by COMNAVRESFORCOM

c. As otherwise specified in COMNAVRESFOR instructions or guidance messages.

1304. AT Waivers. COMNAVRESFORCOM establishes policy for waiver approval. Basic guidance follows:

1. Approved waivers satisfy requirements for:

a. Satisfactory participation.

b. Advancement eligibility.

2. A waiver does not change the requirement to earn a minimum of 50 retirement points per anniversary year to achieve

BUPERSINST 1001.39E
26 Apr 05

a year of qualifying service creditable toward reserve retirement (with pay) at age 60. AT retirement points are not credited when AT is waived.

3. Approved waivers will be retained by the parent NRA.

1305. ADT for Members of the IRR (Including VTU). Members of the IRR (including USNR-R VTU members) may perform ADT with pay, funds permitting, or without pay if ADT is desired and authorized. USNR-S1 VTU members are limited to non-pay ADT orders only. VTU members must submit a request for ADT (pay or non-pay) to NAVRESFORCOM (N7) or NAVAIRESFOR (N7) via their chain of command. Non-drilling IRR personnel submit ADT requests directly to NAVRESPERSSEN (N52).

CHAPTER 14

PAY AND ALLOWANCES

1401. General. Navy Reservists are entitled to pay and allowances for IDT and AT/Active Duty for Training (ADT) per DOD 7000.14-R, Volume 7 of February 2002.

1402. Direct Deposit. The standard pay delivery method used by Navy is the Direct Deposit System (DDS). All Navy Reserve personnel in a pay status are required to participate in DDS.

1403. IDT (Drill). Chapter 58 of DOD 7000.14R contains detailed guidance on pay and allowances earned during IDT periods.

1. Basic Pay. One-thirtieth of a member's monthly basic pay prescribed for paygrade and years of service for each drill.

2. Incentive Pay. One-thirtieth of the monthly incentive pay in effect for each drill if the following are authorized:

a. Hazardous Duty Incentive Pay (HDIP per MILPERSMAN 7220).

b. Aviation Career Incentive Pay (ACIP) per BUPERSINST 7220.29A.

c. Career Enlisted Flying Incentive Pay (CEFIP) per BUPERSINST 1326.4D.

3. Special Pay. One-thirtieth of the monthly special pay for each drill if duty is performed under orders per chapter 58 of DOD 7000.14-R. Special pays for medical officers are detailed in paragraph 1407.

4. Limitations. Members cannot accrue pay for drills performed on a day in which they are also entitled to basic pay for active duty or ADT/AT.

5. Allotments. Members cannot establish allotments of IDT pay.

6. Designated Unit Pay. NAVRESFOR (N3) will identify designated units entitled to receive this compensation.

1404. AT/ADT With Pay

1. Basic Pay. For members ordered to AT/ADT for less than 30 days, one-thirtieth of a member's monthly basic pay prescribed for paygrade and years of service for each day actually served. For members ordered to AT/ADT for greater than 30 days, see chapter 57 of DOD 7000.14-R.

2. Special and Incentive Pay. As determined by orders per DOD 7000.14-R.

3. Allowances. Members are entitled to allowances as prescribed in the following:

a. Basic Allowance for Subsistence (BAS). Chapter 25 of DOD 7000.14-R.

b. Basic Allowance for Housing (BAH). Chapter 26 of DOD 7000.14-R.

c. Family Separation Allowance (FSA). Chapter 27 of DOD 7000.14-R.

d. Station Allowances Outside the United States. Chapter 28 of DOD 7000.14-R.

e. Clothing Monetary Allowance (CMA). Chapter 29 of DOD 7000.14-R.

4. Travel Pay. Travel pay or transportation in kind as determined by the Joint Federal Travel Regulations (JFTR).

5. Per Diem. Per diem allowance is a daily payment for lodging, meals, and related incidental expenses. Advance per diem may be paid to reservists performing a minimum of 5 continuous days of AT/ADT where government quarters or messing facilities are not available at the site. When there are disbursing facilities at the AT site, the per diem advance will be made after the reservist reports. If there is not a disbursing facility at the AT/ADT site, the disbursing officer servicing the activity where the reservist performs regular

drills will issue the advance before the member reports for AT/ADT.

1405. AT/ADT Without Pay. Members ordered to AT/ADT without pay are entitled to allowances per chapter 57 of DOD 7000.14-R. Travel pay or transportation in kind may be authorized by the JFTR.

1406. AT/ADT Without Pay or Allowances. No payment is authorized. Travel pay or transportation in kind may be authorized by the JFTR.

1407. Pay Entitlements Requiring Reserve Activity Management

1. Dual Compensation. A reservist may not receive pay or allowances for AT/ADT or IDT for the same period that the member is drawing a pension, retired or retainer pay, or disability from the U.S. Government by virtue of prior military service. Per MILPERSMAN 7220-380, the following guidelines must be complied with for members receiving government compensation:

a. Members must elect to waive either their AT/ADT or IDT compensation or their government compensation.

b. Reserve activities must discharge, for the convenience of the government, members with obligated service who are receiving disability pay and do not want to waive either compensation.

c. Reserve activities must ensure members submit an affidavit or waiver using the format provided in Defense Joint Military Pay System (DJMS) Personnel Training Guide (PTG).

2. Special Pay - Flight (ACIP). Entitlement to ACIP is determined per DOD 7000.14-R and BUPERSINST 7220.29A. Specific procedures and limitations applicable to inactive duty officers are set forth below.

a. When aeronautically designated inactive duty Navy Reserve officers are initially gained in Navy Reserve units, NAVPERSCOM (PERS-4911) is responsible for ensuring that Aviation Commissioning Date (ACD), Aviation Service Entry Date (ASED), Months of Flying (MOF), and gate status information are

initially entered in IMAPMIS. That action will allow automatic payment of ACIP to eligible officers.

b. When aeronautically designated officers arrive at the 12-year and 18-year aviation career gate, NAVPERSCOM (PERS-4911) examines their service record and notifies members by letter of their terminated or continued eligibility for ACIP. NAVPERSCOM (PERS-4911) enters information in IMAPMIS which results in

- (1) payment of ACIP.
- (2) conditional payment of ACIP.
- (3) termination of ACIP.

c. Flight surgeons and other medical department officers who hold aeronautical designations are not entitled to continuous ACIP. Such officers are entitled to monthly aviation incentive pay when assigned to operational flying billets and performing flying duties per OPNAVINST 3710.7T.

d. A Reserve component officer or enlisted member who meets the requirements of BUPERSINST 7220.29A or BUPERSINST 1326.4D for an aviation service career is entitled to ACIP while performing paid drills and active service (e.g., while performing IDT, ADT, ADSW and AT).

e. Local NRAs are responsible for the following actions:

- (1) Verifying ACIP per BUPERSINST 7220.29A, BUPERSINST 1326.4D and OPNAVINST 3710.7T.
- (2) Authorizing payment of ACIP through NSIPS on at least a monthly basis. For units with flex drillers ACIP payment can be submitted as individual drill periods are submitted for payment.
- (3) Labeling AT orders "Flight Pay Authorized."
- (4) Discontinuing payment of ACIP when officers

(a) fail to complete an annual flight physical within their birth month.

(b) are medically incapacitated and have been determined to be not physically qualified (NPQ). Disqualification for ACIP will occur 365 days after the date of the initial incapacitation, or on the date that NAVPERSCOM (PERS-4911) determines the incapacitation is permanent, whichever is earlier.

(c) Meet other disqualifying criteria outlined in BUPERSINST 7220.29A.

3. Special Pay - Career Enlisted Flight Incentive Pay (CEFIP). CEFIP is an incentive pay for career-enlisted flyers. It is designed as a tool to retain enlisted Naval Aircrewman and keep them in aircrew/critical aviation related assignments throughout their career. Entitlement to CEFIP is determined by 37 U.S.C., sections 301 and 302, and by BUPERSINST 1326.4D. Applicable requirements of the ACIP program as well as the below information apply.

a. Specific procedures for collection, maintenance, waivers and termination of personnel eligible for CEFIP will be implemented by COMNAVRESFORCOM and COMNAVAIRESFOR.

b. Career enlisted flyers are enlisted aircrew members in an enlisted aviation community rating (AD, AE, AF, AM, AME, AO, AT, AV, AW or PR) who hold NEC 78XX or 82XX, or are in training to the award of NEC 78XX or 82XX and primarily assigned throughout their career into flying billets.

c. Career enlisted flyers are entitled to continuous CEFIP if they

(1) are not permanently medically disqualified for aviation service and complete an annual flight physical.

(2) have completed less than 25 years of aviation service.

(3) have not missed required years-months of flying screening gates as listed in BUPERSINST 1326.4D.

(4) CEFIP will be paid based on years of aviation service. Navy Reservists will receive one-thirtieth the current monthly amount for years of aviation service for each drill performed.

4. Special Pay - Medical Officers on Active Duty for More than 30 Days Other than for Training. The below listed medical officers may be entitled to special pay per the listed chapter of DOD 7000.14-R.

- a. Medical officers per chapter 5.
- b. Dental officers per chapter 6.
- c. Pharmacy officers, optometrists and veterinarians per chapter 7.
- d. Nurse Corps officers per chapter 4.
- e. Non-Physician Health Care Providers per chapter 5.
- f. Psychologists per chapter 5.

5. Special Pay - Medical Officers on AT/ADT. The below listed medical officers may be entitled to special pay per the listed chapter of the DOD 7000.14-R.

- a. Medical officers per chapter 5.
- b. Dental officers per chapter 6.

5. Special Pay - Other. Certain other reservists (such as divers, submariners, SEALs, etc.) are also entitled to special pay when they meet certain qualifications specified by law and regulations. Deputy CNO (Manpower and Personnel (N-13)) should be contacted concerning specific entitlement questions.

6. Funeral Honors Detail Allowance. Per 10 U.S.C., 1491, a member of the Ready Reserve may be ordered to funeral honors active duty, with the consent of the member, in preparation for or to perform funeral honors for those members entitled to funeral honors. COMNAVRESFORINST 1001.5D contains specific guidance on the eligibility for this allowance and the procedures required for payment.

CHAPTER 15

FAMILY SERVICEMEMBERS' AND VETERANS' GROUP LIFE INSURANCE

1501. Servicemembers' Group Life Insurance (SGLI). SGLI is group term life insurance. There is no loan, cash, paid up or extended values. The coverage is provided, per law, under a group policy issued to Department of Veterans Affairs by a private insurer. SGLI coverage takes place without required member action. No individual policies are issued; instead, members complete SGLV 8286 (Rev. 09/02), Servicemembers' Group Life Insurance Election and Certificate, which serves as both a beneficiary election form and a certificate of coverage. This form and other insurance forms can be obtained online at <http://www.insurance.va.gov/sgliSite/forms/forms.htm>. Inquiries concerning SGLI should be directed to the members' service record holder. See MILPERSMAN 1741-020 (government life insurance) for additional information. Questions concerning conversion to private insurance (but not routine inquiries concerning an individual member's coverage) should be directed to

Office of Servicemembers' Group Life Insurance
213 Washington Street
Newark, NJ 07102-2999
Telephone: (800) 419-1473

1. Eligibility

a. Ready Reserve members (pay or non-pay) who are assigned to a unit in which they may be required to perform active duty or ADT, and will be scheduled to perform at least 12 drills annually, will receive the automatic level of coverage, 365 days a year, in the amount of \$250,000. This is the maximum SGLI coverage available. The automatic level of coverage is provided without required action by the member; however, entitlement to coverage is affected if a member becomes medically disabled/is transferred to a unit that is not scheduled to perform at least 12 drills per year (e.g., to an ASP component of the IRR at NAVRESPERSCEN).

b. Ready Reservists, not normally eligible for full-time SGLI coverage due to their TRC (i.e., not scheduled to annually perform at least 12 drills) are authorized to receive

the automatic level of coverage in the amount of \$250,000 during the period of their ADT and while traveling to and from such duty.

c. Members assigned to the Retired Reserve (or members who would be eligible for assignment to the Retired Reserve upon application) who have not received their first increment of retired pay and have not reached their 61st birthday but have completed qualifications for reserve retired pay under 10 U.S.C., chapter 1223, are eligible to receive Veterans Group Life Insurance (VGLI) coverage. These members, upon their transfer from an eligible unit will continue to receive SGLI coverage for the first 120 days following such a transfer from a drilling status. During this period members must either elect one of the three coverage options listed below (which would become effective on the 121st day with no physical examination requirement). If member does not elect an option within the 120 days the member will be uninsured on the 121st day and in need of a physical examination if VGLI insurance is desired at a later date. The three coverage options are as follows:

(1) Elect to convert to VGLI coverage by completing an SGLV 8714 (Rev. 03-99), Application for Veterans' Group Life Insurance and submitting it to the Office of Servicemembers' Group Life Insurance (OSGLI) (see address above) with at least the first month's required premium payment. If this option is selected, the member retains the ability to convert to commercial insurance in the future, if desired. If at the time of the member's change in status the amount of SGLI coverage previously in effect had been reduced to an amount less than the \$250,000 maximum, then this lesser amount would become the maximum amount of VGLI coverage available to that member through this conversion option. See section 1503 for more information concerning VGLI.

(2) Elect to convert to a participating commercial life insurance company policy by contacting the OSGLI. If this option is selected, the member forfeits the right to convert to VGLI in the future.

(3) Elect to convert a portion of coverage to VGLI and the remaining portion of coverage to a commercial life insurance policy.

2. Change in Member's Circumstances. A reservist's SGLI coverage is affected whenever certain circumstances change (e.g., when a member is placed in records review, moved from pay to non-pay, transferred to the Active Status Pool IRR, or retires). The NRA CO will notify a member in writing via NAVPERS 1070/613 (figure 15-1) that

a. SGLI coverage is affected, specifically SGLI coverage ceases on the 121st day after transfer, whenever a member is transferred from a unit that is scheduled to perform at least 12 drills per year to a unit that is not scheduled to perform at least 12 drills per year.

b. SGLI premium payment procedures are changed due to transfer from pay status, (e.g., assigned to Reserve Forces Squadron (RESFORON) or augment unit, to non-pay status in a unit scheduled to perform at least 12 drills per year, or, assigned to a VTU, etc.).

Some members will not be eligible for SGLI coverage due to a change in status (e.g. transfer to records review, transfer to the Active Status Pool IRR, transferred to the Standby Reserve Inactive or Retired Reserve); however, they are eligible to convert their SGLI to VGLI during the 120-day period after their change of status takes effect (see section 1502). To convert to VGLI during the 120-day period, member must submit an SGLV-8714 to OSGLI with at least the first month's premium payment. If their circumstances subsequently change and they reaffiliate with a unit scheduled to perform at least 12 drills per year, they will receive SGLI at the automatic level of coverage (\$250,000) with no action required.

3. Coverage Options. Ready Reservists may elect one of the following options for SGLI coverage:

a. Receive the automatic level of coverage in the amount of \$250,000 upon completion of the SGLV 8286 (requires no action by the member).

b. Receive coverage at a lesser amount in increments of \$10,000 - member must submit an SGLV-8286.

c. Decline coverage - member must submit SGLV-8286.

Note: Every time the maximum SGLI coverage is increased, all members will be covered at the new maximum amount without action by them, regardless of previous elections. Members desiring a lesser amount of coverage or declining coverage must submit a new SGLV-8286 every time coverage is changed.

4. Premiums. General guidance concerning SGLI premiums.

a. DFAS Cleveland is responsible for collecting SGLI premiums from drilling reservists (both pay and non-pay), as follows:

(1) SELRES - DFAS will make monthly deductions from the drill pay accounts of SELRES members.

(2) Non-Pay Drilling Reservists - DFAS will forward computerized billing statements for SGLI premiums to non-pay members.

(3) Delayed Entry Reservists - Coverage commences from the date of enlistment. DFAS will deduct the accrued premiums from IADT pay. IADT orders will indicate member's coverage election as the basis for accrued SGLI premium computation and payments.

b. The monthly premium is not prorated if coverage is provided for less than a full month.

c. Members who elect a lesser coverage, or decline coverage, remain liable for all premiums due prior to the date of election or declination, and will be billed accordingly.

d. Termination of SGLI for Members of the Ready Reserve who Fail to Pay Premiums. If a Ready Reservist who is required to make direct premium payments fails to make such payment within 60 days of the due date, SGLI will be terminated. Termination will be made by written notice to the reservist's official address and shall be effective 60 days after the date of the notice. Termination may be vacated if, before the effective date of determination, the reservist remits past-due payments and demonstrates that the failure to make payments was justifiable.

5. Beneficiary Designation. The SGLV 8286 is used to designate who will receive SGLI benefits in the event of the death of the servicemember. If a specific designation is not made, benefits will be paid to survivors per Federal law (which may result in proceeds going to some that were not intended). Therefore, beneficiaries must be designated in writing on the SGLV-8286 by name, address, percentage of shares, and option of payment. The term "by law" as an SGLI beneficiary designation is prohibited.

6. Payment of Claim. In case of death, the individual's insurance status will be determined from the member's personnel and finance records. NAVPERSCOM (PERS-621) is responsible for certifying whether a member was or was not covered, and if a beneficiary was designated. Once certification of coverage is determined, the claim will be sent to and paid by the OSGLI. If the member elected a lump sum payment, the beneficiary can receive the funds in either a lump sum or 36 monthly installments.

7. SGLV-8286. An SGLV 8286 must be completed every time a member elects a lesser coverage, declines coverage, or changes the designation of a beneficiary. This form is available at reserve activities and PERSUPPDETS. The form will be witnessed and distributed as follows:

a. For Beneficiary Change

Original - file behind page two in the member's service record
1st copy - give to the member
2nd copy - forward to NAVPERSCOM (PERS-313)

b. For Reducing or Declining Coverage

1502. Family SGLI. The Veteran's Service Benefits Act of 2001 extended life insurance coverage to spouses and children of

servicemembers insured under the SGLI program effective 1 November 2001.

1. Eligibility. All servicemembers insured under SGLI on 1 November 2001 automatically received FSGLI of \$10,000 per existing children at no cost and \$100,000 spousal coverage at an age based rate (rates available at www.insurance.va.gov). FSGLI coverage is determined based on data on file at DEERS. All servicemembers are advised to keep DEERS data current to ensure correct FSGLI premiums are deducted from their pay.

2. SGLV-8286A, Family Servicemembers' Group Life Insurance Election and Certificate. An FSGLV 8286A must be completed every time a member elects a lesser coverage (maximum spousal coverage is \$100,000 or equal to servicemember's coverage if \$100,000 or less is selected) declines coverage, or changes the designation of a beneficiary.

1503. VGLI. A program of VGLI is offered to members of the Ready Reserve, members who are separated from active duty, have qualified for regular or non-regular retirement, or are physically disabled.

1. Eligibility. Any members released from a duty status in which they were previously eligible to receive SGLI coverage are eligible for VGLI. These members include those who have been

a. discharged.

b. retired, including members assigned to the Retired Reserve (or members who would be eligible for assignment to the Retired Reserve upon application) who have not received their first increment of retired pay and have not reached their 61st birthday but have completed at least 20 years of qualifying service creditable for reserve retired pay under 10 U.S.C., 1223.

c. released from active duty (including ADSW).

d. released from ADT performed under a recall or orders which exceed 30 days.

e. disabled due to service connected injury or illness.

f. transferred from an active status.

2. General Information

a. VGLI becomes effective at the end of the 120 days of free SGLI coverage that follows discharge, retirement, or release from active duty or extended ADT; however, such VGLI coverage becomes effective only if payment of at least the first month's required premium is made prior to the end of the 120 day period and the SGLV 8714 is completed. All premiums must be paid directly to the OSGLI not to DFAS.

b. VGLI is a 5-year renewable term policy, which may also be converted at that time, without medical examination, to an individual policy of insurance with a participating commercial company. Applications for VGLI may be obtained from OSGLI.

c. The amount of available VGLI coverage is capped at the amount of SGLI coverage in effect at the time of the member's release from a duty status in which they were previously eligible to receive SGLI coverage. Thus if a member had elected to reduce the amount of coverage from the automatic level (\$250,000) to \$100,000 (and it remained at this level at the time of release), then the maximum amount of VGLI coverage available to this member would be \$100,000.

1504. Beneficiary Designations and Settlement Option Elections

1. Beneficiary designations and settlement option elections remain in effect until either of the following events occur:

a. SGLI or VGLI terminates.

b. New designation or elections are submitted on SGLV 8286 for SGLI or on SGLV 8714 for VGLI per pertinent regulations.

2. Exceptions to the foregoing policy are

a. beneficiary designations and settlement option elections terminate at the time a member enters another armed service.

b. for FSGLI/SGLI coverage which is immediately followed by VGLI coverage, beneficiary designations and settlement option elections made for SGLI continue for only 60 days after VGLI commences. During this 60-day period, beneficiary designations or settlement options must be submitted in writing and signed by the insured unless the insured is mentally incompetent. If the insured is mentally incompetent, designations and settlement options made for SGLI may continue beyond that 60-day period until the disability is removed, but not for more than 5 years after the effective date of the insured's VGLI. If the insured did not designate a beneficiary for VGLI coverage and death occurs more than 60 days after the VGLI coverage becomes effective, the death benefit will be paid under procedures established by law.

3. No person may carry a combined amount of SGLI and VGLI in excess of \$250,000 at any one time. Any person insured under VGLI who again becomes insured under FSGLI/SGLI may convert any or all of the VGLI to an individual commercial policy within 60 days after becoming so insured. If the person dies before converting the VGLI (within that 60-day period), the VGLI will be payable only if the member is insured for \$250,000 or less. The total payment will not exceed \$250,000.

**NAVPERS 1070/613 ENTRY REQUIRED WHEN FSGLI/SGLI COVERAGE IS
AFFECTED DUE TO CHANGE IN STATUS**

Reservists who have changes in circumstances (e.g. transfer to the Active Status Pool (IRR), or retirement with or without pay), that will effect their eligibility for SGLI coverage, or who are transferred from pay to non-pay drilling status effecting premium payment methods, will sign the following NAVPERS 1070/613 entry:

1. (Date) : I have been transferred to non-pay status effective this date. I am assigned to a unit that is not required to conduct a minimum of 12 drills per year. I understand that while I am assigned to this unit my entitlement to FSGLI/SGLI coverage will be affected. I understand that to maintain my eligibility for VGLI coverage I must make my selection within 120 days of this date. Failure to convert my FSGLI/SGLI to VGLI within this required time will result in loss of insurance coverage. I can obtain specific information concerning conversion to VGLI and other coverage options by contacting the Office of Servicemembers' Group Life Insurance, 213 Washington Street, Newark, NJ 07102-2999 at (800) 419-1473.

2. (Date) : I have been transferred to non-pay status effective this date. I am assigned to a unit that is required to conduct a minimum of 12 drills per year. I understand that my transfer to non-pay status will cause a transaction to be submitted via NSIPS placing me in a non-pay status in DJMS-RC. Approximately 2 months after this occurs, I will receive a quarterly premium notice from DFAS-CL. At that time I can choose to pay

SGLI LETTER FOR NAVY RESERVISTS ASSIGNED TO VTU

Dear Navy Reservist,

Please read this letter carefully for information concerning your Servicemembers Group Life Insurance (SGLI) and Family Servicemembers Group Life Insurance (FSGLI).

Reservists who are in a pay status have SGLI/FSGLI premiums deducted from their pay. Members in a nonpay status are sent quarterly SGLI premium notices.

In addition, upon transfer to a nonpay status, Reservists who have FSGLI coverage will be sent coupons to remit FSGLI premiums. These premiums may be sent monthly or annually.

Premiums for SGLI and FSGLI should be sent on separate checks. All premium payments (SGLI/FSGLI) should be mailed directly to: DFAS-CL, ATTN: Code ADBC, 1240 East 9th Street, Cleveland, OH 44199.

Be sure your social security number is on your check and on all correspondence. Payment should be made within 60 days. If payment is not received, a termination warning will be issued. Failure to make payment within 60 days will result in termination of SGLI/FSGLI coverage.

Guidance from the Assistant Secretary of Defense states that: "Member's SGLI coverage may subsequently be continued if, and only if, within 60 days of the date notified of pending SGLI termination, the member (1) makes payment in full for all premiums past due, and (2) justifies, to the satisfaction of the Secretary concerned, the failure to remit premiums in a timely manner. Absent acceptance of this justification by the Service Secretary concerned, the member's SGLI coverage is terminated with reinstatement only as approved by the Secretary of Department of Veterans Affairs. Each Service must establish procedures to review justifications of late payments, judging each case on its own merit. In general, a late payment may be justified only when circumstances beyond the member's control prevented timely payment. Lack of available funds, lack of awareness of the requirement to make timely payment, and not having kept the Service informed of a current mailing address are not acceptable reasons in and of themselves."

Figure 15-2

SGLI LETTER FOR NAVY RESERVISTS ASSIGNED TO VTU (CONT'D)

To ensure that you receive your premium notice in a timely manner, it is essential that your current mailing address be on file. Please ensure this information is accurately reflected in your Reserve Center's system. DFAS-CL will automatically be notified of address changes via transactions submitted through normal processing channels.

SGLI coverage is in effect for the coverage amount shown on the enclosed billing statement. If this is not the coverage level you would like, please contact your Reserve Center to process the appropriate transaction for the level of coverage you desire.

Questions regarding your SGLI billing statement or FSGLI coupons should be directed to DFAS-CL Customer Service Toll Free at 1-800-255-0974 or Commercial (216) 522-5138, Monday through Friday, 7:00 a.m. to 7:00 p.m. (EST).

CHAPTER 16

FAMILY MEMBER IDENTIFICATION CARDS AND DEFENSE ENROLLMENT ELIGIBILITY REPORTING SYSTEM (DEERS) ENROLLMENT PROGRAM

1601. General. DODI 1000.13 of 5 December 1997 provides eligibility criteria for uniformed services identification (ID) cards and instructions for preparation and issuance of cards via DEERS. This chapter contains information concerning DEERS enrollment for Reserve family members and family member ID cards.

1602. Guard and Reserve DEERS Enrollment Program. This program is used to enroll Ready Reserve and Standby Reserve members, Retired Reserve members under age 60, without pay, but who are entitled to retired pay at age 60 (formerly referred to as Gray area retirees), and their family members in DEERS. Sponsors and their family members are maintained in a pre-eligible status for future entitlement to benefits. If the sponsor is called for more than 30 days of active duty or ADT, DEERS will verify that the family members are eligible for full benefits for a period of up to 180 days. After 180 days the family member's relationship to the sponsor must be revalidated to retain eligibility. It is the responsibility of the military sponsor to ensure all eligible family members are enrolled in DEERS, that all information is accurate, and that any changes in relationship are promptly reported to the service record holder. Members and their family are enrolled when they apply for their ID cards (see section 1603). Members of the Standby Reserve do not currently participate in the Guard and Reserve DEERS Enrollment Program, unless previously enrolled while in another status.

1603. DD 1173-1 (Rev. 7-89), Department of Defense Guard and Reserve Family Member Identification Card

1. DD 1173-1 is used to identify individuals as family members of Ready Reserve personnel, Former Members, and unmarried/unremarried surviving spouses who are not on active duty in excess of 30 days, Standby Reserve personnel, and Retired Reserve (without pay and in receipt of a Notice of Eligibility (NOE)/Line of Duty (LOD)). With the DD 2529 (Rev. 9-99), U.S. Armed Forces Commissary Privilege Card, this form provides identification for access to commissary, exchange, and

morale, welfare, and recreation (MWR) facilities. If the sponsor is called to more than 30 days active duty, the form extends access to full benefits when accompanied by a copy of the sponsor's active duty orders and will activate the family member's pre-eligibility enrollment in DEERS.

2. Issuance of DD 1173-1 is mandatory for family members of Ready Reservists, Former Members, and Retired Reserve members (without pay and in receipt of an NOE/LOD) as part of the Guard and Reserve DEERS Enrollment Program. Family members of reservists in the Standby Reserve will be issued a DD 1173-1 at the sponsor's request.

1604. Eligibility for DD 1173-1. Family members eligible to be issued a DD 1173-1 include

1. spouse, child, stepchild, and ward of Ready Reserve members, Standby Reserve members, Former Members, and Retired Reserve, (without pay and in receipt of an NOE/LOD). Children normally must be between the ages of 10 and 21. (Refer to DODI 1000.13.

2. unremarried surviving spouse, child, stepchild, and ward of Retired Reserve members (without pay and in receipt of an NOE/LOD) whose sponsor dies prior to reaching age 60.

1605. DD 1173-1 Issuance Procedures. Drilling reservists must go to the activity holding their service record to complete the DD 1172 (Rev. 08-87), Application for Uniformed Services Identification Card/DEERS Enrollment, to apply for their family member's DD 1173-1. Non-drilling members of the IRR, Standby Reservists, Retired Reservists, and Former Members (without pay and in receipt of an NOE/LOD) may apply in person or by mail to obtain a verified application for a DD 1173-1 to Naval Reserve Personnel Center (N33), New Orleans, LA 70149-7800. Family members may take verified applications to any ID card issuing activity within 90 days of the date of verification to obtain the DD 1173-1. Specific information regarding application procedures and preparation of the ID card is contained in DODI 1000.13.

CHAPTER 17

MILITARY EXCHANGE, MORALE, WELFARE AND RECREATION, AND TRANSIENT HOUSING FACILITIES PRIVILEGES

1701. General. All members of the Ready Reserve, Standby Reserve, Retired Reserve (excluding Retired Reserve not eligible for retirement pay at age 60) and their family members are authorized to use Navy Exchange and revenue generating (i.e., Category C) MWR facilities and Temporary Lodging Facilities (TLF) on the same basis as members serving on active duty in the United States. Reserve component personnel who are in a non-duty status are authorized to occupy transient unaccompanied personnel housing (i.e., bachelor quarters) on a space available basis, if TLF are not available. For inactive duty members who reside or participate outside the U.S., use of MWR facilities is governed by Status of Forces Agreements (SOFAs) between the United States and the host country which may or may not authorize these privileges.

1702. Identification Requirements

1. Members. Members must present their Common Access Card or DD 2N(RES) (Rev. 5-79), Armed Forces Identification Card (Inactive).

2. Family Members. Must present a valid DD 1173-1.

CHAPTER 18

GENERAL RESERVE ENTITLEMENTS

1801. General. PER 10 U.S.C. 1063, SELRES and their family members as well as Retired Reservists/Former Members (entitled to or receiving retired pay) and their family members, are entitled to use commissary stores on the same basis as active duty members and their family members, are also entitled to unlimited commissary privileges. Standby Reservists (USNR-S1) and USNR-S2) and their family members are not entitled to commissary privileges. Retired Reservists who are not eligible for retired pay at or after age 60 are not entitled to commissary privileges.

1802. Access to Benefits. Members of the Navy Reserve and their dependents will use the Armed Forces Identification Card for access to commissary facilities. DD 1173, 1173-1 and 25290 will no longer be utilized for commissary access.

1803. Reserve Entitlements. Figures 18-1, 18-2, and 18-3 provide a summary of additional reserve entitlements.

AIR TRAVEL

1901. General. OPNAVINST 4630.25C identifies categories of passengers eligible for space-available transportation and conditions governing travel. The following information defines eligibility of Reserve members for space available transportation on DOD-owned or DOD-controlled aircraft.

1. Eligible passengers include

a. Active status Reserve members in uniform upon presentation of a Armed Forces Identification Card, DD 2N(RES), and a completed DD 1853 (Rev. 8-94), Authentication of Reserve Status for Travel Eligibility (figure 19-1).

b. members of the Retired Reserve without pay (reservists who have received NOE for Retired Pay at Age 60, but have not reached age 60), upon presentation of DD 2N(RES) and an NOE. Wearing of the uniform is not required.

c. retired members with pay who have been issued DD 2N. They may be accompanied by eligible family members who have been issued DD 1173 for travel between overseas areas and between the contiguous United States (CONUS) and overseas areas only. To obtain transportation, they will present their ID cards.

2. Personnel identified above are eligible for space available transportation on DOD-owned or DOD-controlled aircraft except as indicated below.

a. Within CONUS. Family members may not accompany their sponsors for travel within CONUS.

b. Between CONUS and Overseas Areas. Travel for active status members and members retired without pay who have received notification of retirement eligibility is limited to travel between CONUS, Alaska, Hawaii, Puerto Rico, the Virgin Islands, and, Guam.

c. Between Overseas Areas. Active status reservists and members retired without pay who have received their

CHAPTER 20

RETIREMENT

2001. Retired Reserve. The Navy's Retired Reserve consists of the following categories:

1. Reservists who are age 60 or older and drawing retired pay for non-Regular service under 10 U.S.C., chapter 1223.
2. Reservists who have not reached age 60, have received a NOE, and have not applied for retired pay benefits but have transferred to a Retired Reserve status after completing the required service for non-Regular retired pay benefits under of 10 U.S.C., chapter 1223.
3. Reservists who have retired under 10 U.S.C., sections 1201, 1202, 1204, or 1205 due to physical disability.
4. Reservists who have retired after completion of 20 or more years of active military service or 15 - 20 years for Temporary Early Retirement Authority (TERA) per 10 U.S.C., chapter 571.
5. Reservists who have been transferred to a Retired Reserve status in lieu of a discharge, transfer, or retention in the Standby Reserve (Inactive status) (USNR-S2) and are not eligible for non-Regular service retired pay benefits. These reservists in the past have been referred to as Honorary Retirees (see SECNAVINST 1820.2C and chapter 11, section 1102 of this manual).

2002. Reserve Retired List. The Reserve Retired List of the Navy is comprised of the following:

1. All Navy Reserve officers and enlisted personnel who receive retired pay on the basis of their active duty/reserve service.
2. All Navy Reserve officers and enlisted personnel transferred to a Retired Reserve status who are entitled to retired pay for non-Regular service but have not reached age 60.

3. Other retired Reservists who are drawing reserve retired pay based on reasons other than age, service requirements or physical disability (See MILPERSMAN 1800 for additional information concerning the Retired List.)

2003. Reserve Service Requirements to Qualify for Non-Regular Retirement

1. Unless otherwise provided by law, a reservist must have completed 20 years of qualifying service to be eligible for non-Regular service retired pay, at or after age 60. The last 6 years of such qualifying service must be in a reserve component for members who have earned 20 or more years of qualifying service on or before 24 April 2005. There is no requirement that the last 6 years be continuous service. For members who complete 20 years of qualifying service on or after 25 April 2005, the last 6 years of qualifying service in a reserve component is not a requirement to qualify for non-regular retired pay.

2. The 20-year requirement has been reduced to 15 years for certain selected reservists determined to be NPQ/unfit. To be eligible for this early retirement the member must

a. meet all other requirements of law for retirement (see 10 U.S.C., chapter 1223).

b. be member of a Selected Reserve component.

c. be determined NPQ by NAVPERSCOM (PERS-491) as recommended by BUMED.

d. be approved by NAVPERSCOM (PERS-49).

3. For members who have completed 20 or more years of qualifying service before 25 April 2005 only; any period of service as a member of a Regular component intervening between periods of reserve service after the 14-year mark does not count towards the final 6 year Reserve Component requirement. Service in a Regular component during a partial year shall be treated in the same manner as 1 full year of service in this respect. For example

a. to qualify for a Non-Regular service retirement (20 years) members must have satisfactorily served a minimum of

6 years, commencing at the beginning of their 15th year through the date of retirement, in a reserve component. The 6-year requirement does not have to be consecutive as indicated below:

Notes:

1. In the above example, member was serving in a regular component during years 14 and 15. As a result the member must complete an additional qualifying year of reserve service to meet the last 6-year requirement.

b. The 6-year requirement does not have to be consecutive as indicated below however, any Regular component time after year 14 does not count towards final 6-year Reserve component requirement:

Note:

1. In the above example, member was serving in a regular component during years 17,18 and 19. As a result the member must complete an additional 3 qualifying years of reserve service to meet the last 6-year requirement.

2004. Eligibility for Retirement Point Credit for Non-Regular Service Retirement

1. Members in the following categories are eligible for retirement point credit:

a. Members of a Regular (i.e., USN, USMC, USCG, USA, USAF, or Public Health Service) or Reserve (i.e., USNR, USMCR,

USCGR, USAR, USAFR, ANG, or Public Health Service) component on active duty service.

b. Members of a Reserve component, not on extended active duty, in an active status (i.e., SELRES, IRR, or Standby Reserve Active Status List (USNR-S1)).

c. Members of a Reserve component in a retired status (other than members who have retired from active service, members transferred to the Fleet Reserve, Fleet Marine Corps Reserve or members transferred to a Retired Reserve status who are not eligible for non-Regular service retired pay benefits under 10 U.S.C., chapter 1223) who are ordered to perform active duty or other appropriate duty under official active duty, ADT, or IDT orders issued and authorized by appropriate authority (CHNAVPERS, COMNAVRESFORCOM, or CO, NAVRESPERSCEN for USNR Retired members).

2. Members of a Reserve component in an inactive status who are carried on the Inactive Status List of the Reserve component (e.g., USNR-S2) may not be credited with service for retirement per 10 U.S.C., 12734(a).

2005. Criteria for Establishing the Service Requirement for a Satisfactory Year of Service for Non-Regular Service Retirement

1. The full year periods used for the crediting of qualifying years for non-regular retirement shall be based on "anniversary" years. These anniversary year periods are calculated from an anniversary date unique to each servicemember. Per DODI 1215.7 of 1 March 2001, effective 1 October 1995, the date used to determine the anniversary year is established by the date the member entered into active service or into active status in a Reserve component, whichever is earlier. Members with previously established anniversary dates will retain that date as the beginning of their anniversary year. There are two exceptions as follows:

a. In the case of officers with Reserve service as a cadet or midshipman at a service academy or in the Reserve Officers' Training Corps (ROTC) program, the date for the start of a member's initial anniversary year will be established as the date the member entered into active service or active status minus any service as a cadet or midshipman.

b. In the case of enlisted members of the Armed Forces (members who have service as cadets or midshipmen but who did not later receive or who do not hold a commission as officers), service as cadets or midshipmen at a service academy shall be included and counted as active duty service.

2. Adjustment to Anniversary Years

a. The start date (month and day) for each successive anniversary year will not be adjusted unless the member has a break in service. A break in service occurs only when a member transfers to the inactive status list, the temporary disability retired list, the Retired Reserve, or is discharged for a period greater than 24 hours. There is no break in service if a member transfers directly to another Regular or Reserve service.

b. Effective 1 October 1995, when a member with a break-in-service returns to an active Reserve status or to active service, the revised anniversary year start date shall be the date of return or reentry.

c. It is very important that individual reservists be aware of their anniversary year because retirement points earned in 1 anniversary year are, by law, not transferable to any other anniversary year. Years of qualifying service are calculated as of the end of each anniversary year.

d. In an anniversary year in which fewer than 50 points are credited, the earned points are added to the cumulative retirement point total, but that anniversary year is not a qualifying year.

3. Credit for Partial Years of Service

a. A member who has a break in service that occurs during an anniversary year shall be credited with a partial year of qualifying service for non-Regular retirement.

b. When, as a result of a break in service, a partial year occurs, the servicemember must meet the minimum retirement point requirements set forth in figures 20-6 and 20-7. A partial qualifying year is any period less than 12 full months in which the retirement points credited to a member, when

computed proportionally to 12 months, are equal to or greater than 50 points.

2006. Retirement Point Credit by Activity. Retirement points credited per 10 U.S.C., chapter 1223, are defined in the following paragraphs. A maximum of 90 inactive points per year can be credited to the anniversary year ending on or after that date. A maximum of two retirement points may be awarded in 1 calendar day for any activity or combination of activities and no more than one point for any day in which the member is in an active service on active duty including AT, ADT, or ADSW. A person in an active service may not receive retirement points for other activities concurrently; however, no deductions in the retirement points credited for membership in a Reserve component is required for active service other than service as a member of a Regular component (i.e., USN or USMC) during an anniversary year. A maximum of 365 points (366 points in a leap year) may be awarded in an anniversary year. A current list of authorized activities are listed in figure 20-1.

1. Active Service. One point for each day of active service. Active service is service on active duty including AT, ADT, IADT and ADSW.

2. Inactive Duty Service. Inactive duty service will be credited as follows:

a. One point for each attendance at a regularly scheduled or rescheduled IDT period (drill), ATP, AFTP, or Readiness Management Period (RMP). See chapter 12 for definitions of IDT.

b. A maximum of two retirement points may be credited for attendance at IDT (drill) periods in any 1-calendar day.

c. One point per 3 hours of authorized nonresident instruction (Navy correspondence courses) successfully completed. The number of retirement points authorized for Navy nonresident correspondence courses are listed for each course. Courses are also offered through E-Learning at www.navylearning.navy.mil. (Note: NAVPERSCOM (PERS-49) may restrict or limit correspondence course credit to meet force shaping requirements.) The nonresident instruction should be of

such military value that the instruction received would enhance the reservist's professional development and broaden either

(1) the Reservist's qualifications for duties to which the Reservist may be expected to be assigned upon mobilization.

(2) the qualifications of those whose work the Reservist may supervise.

d. One retirement point per day for Ready Reservists (USNR-R) attending an authorized military department-sponsored seminar, symposium, or similar assembly (hereafter referred to as "meeting"), scheduled either separately or in connection with a professional meeting provided

(1) the meeting is designated by NAVRESFOR (for SELRES, IMA and VTU personnel) or NAVRESPERSCEN (for IRR active status pool personnel) as being of such value that the instruction received would enhance the reservist's professional development and broaden either

(a) the reservist's qualifications for duties to which the reservist may be expected to be assigned upon mobilization.

(b) the qualifications of those whose work the reservist may supervise.

(2) The meeting is of at least 4 hours duration.

(3) Reservist's attendance has been approved previously and, in each instance, by either NAVRESFOR (for SELRES, IMA and VTU personnel) or NAVRESPERSCEN (for IRR active status pool personnel).

(4) Reservists either register with a designated monitor representing the Navy, or in the absence of such a monitor, is authorized to and does certify their own attendance.

(5) Reservists' participation is without compensation other than the pay to which the Reservist may be entitled as a member of the Navy Reserve.

e. IRR and active status USNR-S1 personnel authorized by NAVRESFOR to participate in civil defense activities per enclosure (3) of DODI 1215.19 will be credited with one retirement point per period of IDT of a duration determined by the Federal Emergency Management Agency (FEMA), but not less than 4 hours duration. A maximum of two retirement points for IDT may be credited per calendar day.

f. Reservists in an active status (USNR personnel on active duty, USNR-R and USNR-S1 personnel) are credited with membership retirement points at the rate of 15 per anniversary year, or proportional part thereof, for membership in the Navy Reserve component per DODI 1215.7.

g. Funeral Honors Details. One point for each day in which 2 hours of duty is performed per paragraph 2024 of this chapter.

2007. Recording and Maintaining Service Credit for Non-Regular Service Retirement. Retirement point credits for Navy Reservists are recorded and maintained in the Navy Enlisted and Officer Participation System (NEOPS), a subsystem of IMAPMIS.

1. An initial individual record of retirement point credits is established in NEOPS when

a. an enlisted reservist, not on extended active duty, affiliates with a Navy Reserve unit in either pay or non-pay status and the reservist's initial IDT participation data is recorded in NSIPS; however, to establish a complete NEOPS record of retirement point credits and the member's anniversary year date, prior active duty and inactive duty service data from another Reserve component, previous enlistment, or appointment, information must be reported by mailing a completed NRPC 1570/9 (Rev. 06-03), Naval Reserve Retirement Point Capture to NAVRESPERSSEN (N33). (See figure 20-2)

b. an enlisted reservist is released from an extended active duty service and the appropriate documents and personnel data are received and validated, NAVRESPERSSEN (N3) will determine the reservist's anniversary year date and qualifying service and initiate a NEOPS record of retirement point credits.

c. Complete NEOPS records for officers are normally established without the necessity of a completed NRPC 1570/9 based on military service data provided by NAVPERSCOM

(PERS-4911) upon the officer's release from active duty or appointment as a Navy Reserve officer.

2. Quarterly, NAVRESPERSCEN (N3) prepares and distributes a report listing enlisted personnel by NRA, that requires the submission of a completed NRPC 1570/9 to establish a complete NEOPS record of retirement point credits and an anniversary year date.

3. Retirement point credits for active service and extended active duty (over 179 days) are recorded in NEOPS electronically and by NAVRESPERSCEN (N3) upon receipt of documents certifying completion of active duty service (DD 214 (Rev. 2-00), Certificate of Release or Discharge from Active Duty, BUPERS ADSW/AD order with pay voucher (DFAS Leave and Earning Statement (LES)) or BUPERS/NAVRESFOR AT/ADT order with pay voucher (DFAS LES). The reservist's service record holder or supporting NRA is responsible for forwarding certified copies of active duty service documents to NAVRESPERSCEN (N332) for recording in NEOPS. To ensure timely recording of retirement points and inclusion in member's current anniversary year, forward active duty service documents to NAVRESPERSCEN (N3) within 45 days of completion of active duty service.

4. Retirement point credits for AT/ADT are recorded in NSIPS via the supporting NRA or service record holder. For AT/ADT completed more than 12 months prior, AT/ADT orders with pay vouchers must be submitted to NAVRESPERSCEN (N332) for recording in NEOPS. Retirement point credits for inactive duty service are recorded in NEOPS from the following sources:

- a. IDT data received from DFAS-CL for paid drills.
- b. NSIPS for non-paid drills or correspondence courses graded and recorded by the member's service record holder or NRA.
- c. NETPDTC for correspondence courses they grade and record on each individual reservist.

5. NRPC 1070/124 (Rev. 3-95), Annual Retirement Point Record/Annual Statement of Service History

a. NAVRESPERSCEN creates a NRPC 1070/124 on each reservist who is not on extended active duty. The online NRPC 1070/124 provides the following information:

(1) A detailed statement of active and inactive duty service dates and retirement point credits earned and recorded in NEOPS during the reservist's previous anniversary year.

(2) A statement of active and inactive service retirement point credits earned and recorded in NEOPS for the previous anniversary years provided the service was qualified as satisfactory service towards eligibility for non-Regular service retired pay at age 60.

b. NRPC 1070/124 is available online at www.bol.navy.mil. Paper copies are no longer annually provided.

c. COs or OICs of NRAs and PERSUPPDETs shall provide assistance to reservists in validating the retirement point credits recorded on their NRPC 1070/124. Discrepancies, older than 12 months, are to be annotated by the member's service record holder or supporting NRA on a copy of the reservist's NRPC 1070/124 and forwarded to NAVRESPERSCEN (N2) with a copy of supporting source documents (e.g., DD 214, Drill Muster Record, AT orders with pay voucher).

2008. NOE for Non-Regular Service Retired Pay at or after Age 60

1. Per 10 U.S.C., 12731, NAVRESPERSCEN (N3) will issue a NOE for non-Regular service retired pay at or after age 60 to each Navy Reservist, not on extended active duty, who has met all of the following conditions to qualify for non-Regular service retired pay at or after age 60:

a. Completed at least 20 years of qualifying service, computed under 10 U.S.C., 12732, or at least 15 years of qualifying service and was approved for early medical retirement.

b. Served the last 6 years of such qualifying service as a member of a Reserve component. See paragraph 2003.1 for the exception to the last 6 year rule.

c. If a member of a Reserve component before 16 August 1945, performed active duty service between 15 April 1917 and 12 November 1918, or between 8 September 1940 and 1 January 1947, or active duty service (other than for training) between 6 June 1950 and 28 July 1953, or between 14 August 1961 and 30 May 1963, or between 5 August 1964 and 27 March 1973.

2. The NOE for non-Regular service retired pay at or after age 60 will automatically be issued by NAVRESPERSSEN (N3) within 1 year after the member has met all the requirements for the non-Regular service retired pay at or after age 60. Under normal conditions, NAVRESPERSSEN (N3) issues the NOE for non-Regular service retired pay at or after age 60, approximately 3 months after the end of the anniversary year the member completes the conditions necessary to qualify for retired pay benefits.

3. Except as provided by 10 U.S.C., 12740, after a member has been granted retired pay for non-Regular service or received an NOE for non-Regular service retired pay at or after age 60, issued by either NAVPERSCOM (PERS-491) or NAVRESPERSSEN (N3), the member's eligibility may not be denied or revoked on the basis of any error, miscalculation, or misinformation in the administrative determination of years of service performed unless it resulted from fraud or misrepresentation of the member; however, the number of years of creditable service upon which retired pay is computed may be adjusted to correct any error, miscalculation, misinformation, or administrative determination. When such a correction is made, the member is entitled to retired pay based on the corrected amount of creditable service.

4. Information concerning the Reserve Component Survivor Benefit Plan (RCSBP), the elections available, the effects of such elections and an enrollment application shall be included with the NOE for non-Regular service retired pay at or after age 60 (see section 2020 for further information on the RCSBP).

5. The NOE for non-Regular service retired pay at or after age 60 will also include information concerning eligibility for full time SGLI coverage.

2009. Retirement Orders and Authorizations. Retirement orders and transfer authorizations to a Retired Reserve status, for

reserve personnel not on extended duty, are issued by NAVRESPERSSEN (N3). Retirement orders are normally issued 1 to 3 months in advance of the scheduled retirement date.

2010. Effective Date of Retirement

1. Effective date of retirement will be specified in the retirement orders issued by CHNAVPERS or NAVRESPERSSEN (N3).

2. The effective date of retirement for members of the Navy Reserve, under age 60, who are eligible for non-Regular service retired pay at or after age 60 and retired for other than physical reasons shall be the 1st day of the month.

3. The effective date of retirement for members of the Navy Reserve, age 60 or over, who are eligible for non-Regular service retired pay at or after age 60 and retired for reasons other than physical disability shall be the date the member is entitled to retired pay.

4. The effective date of retirement for members of the Navy Reserve who are retired due to physical disability will be the date SECNAV approves such retirement or on any subsequent date specified by SECNAV.

5. The effective date of retirement for members of the Navy Reserve subject to mandatory removal from an active status, who are not eligible for non-Regular service retired pay at or after age 60, but are approved for transfer to Retired Reserve Status in lieu of discharge or transfer or retention in USNR-S2 status, shall be the 1st day of the month.

2011. Retired Grade Determination (SECNAVINST 1820.2C)

1. Reserve enlisted personnel and officers are normally transferred to Retired Reserve status in the grade in which serving at the time of transfer. Exceptions are as listed below in paragraphs 2011.2 and 2011.3.

2. Enlisted Personnel

a. Enlisted personnel advanced to E-7, E-8, or E-9 who voluntarily request retirement must satisfactorily serve 24 months in the grade in which they wish to be retired or request

retirement in their previously held grade. Per SECNAVINST 1820.2C, time-in-rate requirements may be waived by COMNAVPERSCOM during times of force reductions. When waived, members may retire in the highest rate held and should check with their order issuing authority for the current waiver policy at the time of their retirement.

b. Reserve enlisted members who, through no fault of their own, are unable to complete the service-in-grade requirements may request a waiver to retire at a higher paygrade from NAVPERSCOM (PERS-491) via NAVRESPERSSEN (N32).

c. Reserve enlisted members subject to involuntary transfer from an active status (USNR-R) and (USNR-S1), approved for transfer to a Retired Reserve status, in lieu of discharge or transfer or retention in the Standby Reserve (Inactive Status) (USNR-S2), will be permitted to retire in the highest grade satisfactorily served.

d. Reserve enlisted members, upon assignment or transfer to Retired Reserve status, shall be retired in the highest grade in which they have served satisfactorily.

(1) In cases where satisfactory service is in question, the CO, NAVRESPERSSEN shall request a determination from NAVPERSCOM (PERS-491).

3. Officers

a. Per 10 U.S.C., 1370(d) and 12771, officers selected for promotion who have accepted promotion to the next higher grade must meet the satisfactory service-in-grade requirements listed below or request retirement in their previously held grade. Note that officers who have completed at least 6 months of satisfactory service and who are transferred from an active status solely due to the requirements of a nondiscretionary provision of law requiring such a transfer due to the officer's age, physical disability, or years of service may be transferred to the Retired Reserve at that grade.

<u>Grade</u>	<u>Service-in-grade requirements for Discretionary Retirement</u>
01 through 04	6 months
05 through 08	3 years

(Note: O5 and O6 service in grade requirement may be reduced from 3 years to 2 years as provided in 10 U.S.C., 1370(d) and SECNAVINST 1820.2C). NAVPERSCOM (PERS-491) is approval authority for O5 and O6 service in grade waivers. For O7 and O8, retirements in current grade require Under Secretary of Defense for Personnel and Readiness approval.

b. Reserve warrant officers will be retired in the grade held on the day before the effective date of their retirement or in any higher warrant grade in which they served satisfactorily on active duty, as determined by SECNAV, for a period of more than 30 days.

4. The service-in-grade requirements listed above must be served in an active status (USNR-R or USNR-S1). Frocking does not constitute acceptance of advancement or promotion. Any misconduct, moral or professional dereliction, which results in a court-martial or separation for cause shall also be taken into consideration in determining if the member's service in grade was satisfactory.

2012. Retirement Due to Age and Transfer of Navy Reserve Officers to Retired Reserve Status

1. Per 10 U.S.C., 14509, all Navy Reserve officers in an active status (USNR-R or USNR-S1) or on the inactive status list (USNR-S2) in a grade below rear admiral (lower half) who have not been recommended for promotion to the grade of rear admiral (lower half), will be transferred to the Retired Reserve or discharged when they reach 60 years of age, unless retention has been specifically authorized by SECNAV per 10 U.S.C., 14703. Therefore, all officers approaching their 60th birthday must actively pursue one of the following options:

a. Request transfer to the Retired Reserve effective no later than the first day of the month following their 60th birthday.

b. Be granted an age extension per 10 U.S.C., 14703. The annual SECNAV Navy Reserve Retention and Continuation Plan, authorizes certain professional members extension past age 60. NAVPERSCOM (PERS-491) will notify eligible members in advance and provide appropriate requests to be completed and returned.

c. Request discharge. (This last option is required by law and must occur if the officer is not retirement eligible.

2. Failure to request one of these options will result in the officer being retired, if eligible or discharged.

2013. Voluntary Retirement and Transfer to Retired Reserve Status for Members Not Eligible for Non-Regular Service Retired Pay at or after Age 60

1. Historically, reservists who were not eligible for non-Regular service retired pay at or after age 60 but who were subject to mandatory removal from Ready Reserve or Standby Reserve status could apply, and be transferred to Retired Reserve status in lieu of discharge, provided the characterization of service would qualify member for an honorable discharge and the member met the requirements of either "a" or "b" listed below.

a. Met at least one of the following requirements:

(1) Completed at least 10 years of active commissioned service.

(2) Attained the age of 37 on the date of retirement and has either

(a) completed at least 8 years of service with a minimum of 50 retirement point credits earned per year after 1 July 1949.

(b) completed at least 8 years of service in a Reserve component, including at least 6 months of honorable service on active duty in time of war or national emergency.

(c) consistently supported the Armed Forces in an outstanding manner as determined by SECNAV.

b. Found NPQ for active duty service, not as a result of their own misconduct.

2. Reservists not eligible for non-Regular service retired pay at or after age 60, but allowed to transfer in an Honorary Retired Reserve status, are not entitled to any military retired

pay benefits, nor are they authorized to retain a U.S. Armed Forces identification card.

3. Changes to DODD 1215.6 of 14 March 1997 and DODI 1200.15 suspended the Honorary Retiree program after 18 September 1997. While members previously transferred to the Retired Reserve, but not eligible for retired pay, will not be discharged, additional transfers will be limited to those authorized by NAVPERSCOM to meet specific legal or special skills requirements within the parameters outlined in SECNAVINST 1820.2C.

2014. Voluntary Retirement and Transfer to Retired Reserve Status for Members Eligible for Non-Regular Service Retired Pay at or after Age 60

1. Any reservist who is eligible for non-Regular service retired pay at or after age 60 may be retired and transferred to the Retired Reserve status upon application, or as otherwise directed by NAVPERSCOM (PERS-4911 or PERS-4913), provided:

a. member was issued a NOE or has completed all the requirements necessary to qualify for a NOE for non-Regular service retired pay at or after age 60 (see section 2007).

b. member is not entitled, under any other provision of law, to retired pay from an armed force or retainer pay as a member of the Fleet Reserve or Fleet Marine Corps Reserve.

2. Reservists, under age 60, who are eligible for non-Regular service retired pay at or after age 60 and were approved for retirement and transfer to Retired Reserve status are entitled to unlimited military exchange and commissary privileges (see chapter 18). Such reservists, often referred to as "Gray Area Retirees," must apply later, shortly before they reach age 60, for retired pay benefits for non-Regular service.

3. Reservists who are age 60 or older and are eligible for non-Regular service retired pay at or after age 60 must also submit an DD 108 (4-87), Application for Retired Pay Benefits.

2015. Submission of Application for Retirement and Transfer to Retired Reserve Status

1. Applications for voluntary retirement and transfer to a Retired Reserve status should be sent in time to reach NAVRESPERSCEN (N32) between 6 and 12 months in advance of the requested retirement or transfer date. Applications should be submitted in the format shown in figure 20-5. Per 5 U.S.C., 8301, the requested day of retirement must be the first day of the month in which retirement is desired. Members assigned to a SELRES unit or VTU must forward their application via their unit CO and the CO/OIC of their unit's supporting NRA for endorsement, and where applicable, provide a copy to the appropriate PERSUPPDET.

2. Obligated service through the requested date of retirement or transfer to Retired Reserve Status is mandatory for enlisted personnel.

3. To expedite the processing of a retirement application, a copy of the member's NOE for non-Regular service retired pay at or after age 60, issued by either NAVPERSCOM (PERS-491) or NAVRESPERSCEN (N3), should be attached to the application.

4. The unit CO and CO/OIC of the unit's supporting NRA shall verify that the member meets the eligibility requirements for retirement and transfer to a Retired Reserve status in their endorsement.

5. In the case of enlisted IRR members assigned to NAVRESPERSCOM who are eligible for retired pay at age 60, NAVRESPERSCOM may process them for retirement in lieu of honorable discharge, without the member's request, at the expiration of the member's obligated service.

6. Procedures for transferring members to the Retired Reserve (without pay).

a. Order issuing activities will cancel member's existing orders to a drilling unit effective not later than the day immediately preceding the requested retirement day. If a member's orders have not been received prior to the requested retirement date, cancel the orders as specified above and make the appropriate NSIPS entry to reflect the member's status change. (Members may not be retained in a drilling unit, pay or non-pay, or earn retirement points beyond the day immediately preceding the requested date.)

b. Service record holders should retain the enlisted field service record until retirement orders are received. A NAVPERS 1070/613 entry should be made per exhibit 6 in MILPERSMAN 1070-320.

c. The supporting NRA will deliver retirement orders to the member and ensure a retirement ceremony is provided per section 2021.

2016. Authorization of Retired Pay for Non-Regular Service

1. Individuals are responsible for making application to receive retired pay. It is not an automatic process.

2. Eligibility. In order to receive Retired Pay for non-Regular service, a reservist must

a. be at least 60 years of age.

b. complete requirements for issuance of a NOE as outlined in section 2008.

c. submit an application package to NAVRESPERSCEN (N32).

3. Application Procedures

a. NAVRESPERSCEN (N32) sends the application package to eligible personnel approximately 10 months prior to their 60th birthday. If an individual does not receive the application package 8 months prior to turning age 60, the member should contact NAVRESPERSCEN (N32) at 1-866-250-4778 and request an application package.

b. Member must complete the application and send it to NAVRESPERSCEN (N32) within 30 days of receipt to allow sufficient time for processing. Depending on the applicant's status, the application may need to be sent via other commands.

4. The effective date of retired pay is the date of initial eligibility (attainment of age 60 or completion of the specific service requirement, whichever occurs later) or a subsequent date elected by the applicant. Unless specifically retained in

an active status beyond the date of initial eligibility by SECNAV under 10 U.S.C., 12308, the service performed after the date of initial eligibility cannot be credited for any purpose in the computing of retired pay.

5. The formula for computing retired pay granted under 10 U.S.C., 12731 and 1401 is

$$\frac{P}{360} \quad \times \quad .025 \quad \times \quad B \quad = \text{\$/mo.}$$

P denotes total number of retirement points and B denotes applicable basic pay of the grade in which retired. Years of service for pay purposes are computed from Pay Entry Base Date (PEBD) to date of initial eligibility for retired pay (date of discharge if a Former Member).

6. High-3 Year Averaging. Per 10 U.S.C., 1407, members who initially entered military service after 7 September 1980 have their retired pay computed on the basis of a "high-3 year" average formula. These members receive the same entitlement for each year of service creditable for retirement but the basic pay amount used in the formula above (paragraph 2016.4) is an average of the amount of basic pay the member would have received during the last 3 years prior to becoming eligible to receive retirement pay had they been on active duty.

7. Per SECNAVINST 1820.2C, a member will normally be retired in the highest rank or rate in which the member served satisfactorily as determined by SECNAV (see section 2011).

2017. Obligations

1. Recall. Retired Reservists are liable for involuntary recall to active duty in time of war or national emergency declared by Congress, or when otherwise authorized by law (see figure 22-1). Members may also be recalled to active duty in a retired status, subject to their consent, at the discretion of SECNAV.

2. Mailing Address. Retired Reservists must keep NAVRESPERSCEN (N332) 1-866-250-4778 advised of their current mailing address and advise of any temporary or permanent changes of residence. The change of address may also be submitted at

www.nrpcweb.nola.navy.mil. Those receiving pay must also notify changes of address to DFAS Cleveland, OH (www.dfas.mil).

3. Travel and Residence Overseas. Retired Reservists not on active duty who desire to travel or reside outside the U.S. for a period in excess of 30 days should notify their departure, expected duration of travel or residence, countries to be visited, and forwarding address to NAVRESPERSCEN (N31). Permission to leave the United States is not required. Retired Navy Reservists who plan to travel or reside in any country not within the jurisdiction of an area commander should, upon arrival in and departure from each country, except for brief tours, notify their presence to the nearest U.S. Naval Attaché as a matter of courtesy by personal visit or by letter. In the absence of a Naval Attaché in the country, notify the U.S. Military or Air Attaché or the civilian representative of the American Embassy or Consulate.

4. Employment Restrictions. Reservists not on active duty may accept employment in any civil branch of the public service of the U.S., or may be employed in civilian professions or occupations including the practice of such professions or occupations before or in connection with any department of the Federal Government of the United States; however, civil employment and compensation with any foreign government or any concern controlled in whole or in part by a group of governments including the United States is subject to the approval of SECNAV and the Secretary of State. Members and former members of the Navy Reserve in receipt of retired pay are exempt from the dual compensation aspect of the Dual Employment Act of 1964 (NAVSO P-1778 (Rev. APR 2000), Reference Guide to Post Government Employment Activities of Department of the Navy Personnel). Social Security and Civil Service retirement pay benefits may be received concurrently with retirement pay. Neither pension nor disability compensation benefits from Department of Veterans Affairs (DVA) may be received concurrently with retired pay, except in cases of injuries due to hostile fire. Retired pay may be waived in part or in whole to receive pension or disability compensation from the DVA.

2018. Privileges for Members of the Retired Reserve Without Pay but Eligible for Non-Regular Service Retired Pay at or after Age 60

1. Identification Card. Retired Reservists (without pay) are entitled to a DD 2N (RES). DD 2N (RES) may be obtained by submitting a DD 1172 together with a copy of retirement orders, to NAVRESPERScen (N332).

2. Wearing of the Uniform. Per U.S. Navy Regulations, retired personnel, not on active duty, will be entitled to wear the prescribed uniform of the grade or rate in which retired when the wearing of the uniform is considered to be appropriate. In general, the uniform may be worn for ceremonies or at official functions when the dignity of the occasion and good taste indicates the propriety of the uniform. Specifically, the uniform may be worn at memorial services, military weddings, funerals, and balls, patriotic parades on national holidays or other military parades or ceremonies when active or reserve U.S. military units taking part, and at meetings or functions of veterans' associations formed for military purposes. Retired personnel, not on active duty, residing or visiting in a foreign country may not wear the uniform except when attending, by formal invitation, ceremonies or social functions at which the uniform is required by invitation, regulations or customs of the country. Authority to wear the uniform upon the above occasions includes periods while traveling to and from the ceremony, provided such travel in uniform can be completed on the day of the ceremony.

3. Use of Military Title. Retired personnel may use their military titles subject to certain restrictions and the exercise of good judgment. Considerable discretion should be shown by members in permitting the use of their name and military title to endorse any commercial enterprise which might in any way be perceived as indicating that the Navy Department approves the enterprise, and especially to avoid an endorsement or contract which will bring discredit upon the Navy. All reserve members retired for service, age, or physical disability are designated "USNR-Retired".

4. Correspondence Courses. Retired personnel are eligible to apply for naval correspondence courses; however, retirement points will not be earned. Retired officers with requisite qualifications may enroll in the graduate level correspondence course "National Security Management" offered by the National Defense University.

5. Additional Benefits

- a. Voluntary Serviceman's Group Life Insurance (see chapter 15).
- b. Use of Exchange and MWR facilities (see chapter 17).
- c. Use of commissary (see chapter 18).
- d. Space available transportation (see chapter 19).
- e. Survivor benefits if elected (see section 2021)

2019. Privileges for Members on the Navy Reserve Retired List Receiving Retired Pay

1. When in receipt of retired pay, reservists on the Navy Reserve Retired List are eligible for the benefits listed in section 2018, as well as the following health care benefits:

a. Retired members receiving retired pay and former members of the Navy Reserve (who prior to discharge met the service requirements for retirement pay under 10 U.S.C., 12731, and are receiving retired pay from the Navy), family members and survivors of retired and former members, are eligible for health care under 10 U.S.C., chapter 55. Family members and survivors include spouses, unremarried widows or widowers, and unmarried children under age 21 (and those under 23 if enrolled full-time in college, and those incapable of self-support because of a mental or physical incapacity which existed prior to their 21st birthday). Parents and parents-in-law who are dependent on a retired or former member for over one-half of their support and reside in the member's household, as well as surviving parents and parents-in-law, who met such requirements at the time of the member's death, are eligible to receive health care at uniformed services medical facilities only. Retired members and spouses cease to be eligible for civilian health care under the military plan upon attaining age 65 and becoming eligible under the Social Security Hospital Insurance Plan. Individuals who cannot qualify for the Social Security Hospital Insurance Plan will continue to be eligible for civilian health care under the military plan by providing a Notice of Disallowance from the Social Security Administration to certify that they are not entitled to Medicare, Part A.

(b) The Uniform Service Health Benefits Program provides the following:

(1) Inpatient or outpatient care (including dental care for members and Former Members) in any uniformed services facility subject to the availability of space, facilities, and the capabilities of the professional staff.

(2) Inpatient and outpatient care from civilian medical sources.

(3) Health care to retired members (but not family members) at facilities of the DVA on a space available basis.

2020. Privileges for Former Members of the Navy Reserve. Members of the Navy Reserve who are eligible for non-regular retired pay at or after age 60 under 10 U.S.C., 12731, who have been discharged from the Navy Reserve, are referred to as former members. These members are eligible for commissary, exchange, and MWR benefits under 10 U.S.C., chapter 54. Specifically, former members are entitled to the following:

1. DD 2765 (04-98), Department of Defense Uniformed Services Identification and Privilege Card. This card grants unlimited exchange, MWR, and commissary privileges. This card also grants medical care in Uniformed Service facilities on a space available basis, and medical care in civilian facilities if the former member is not entitled to Medicare, Part A.

2. DD 1173 (10-93), Uniformed Services Identification Card. This card grants to family members of former members unlimited exchange, MWR, and commissary privileges. This card also grants medical care in Uniformed Service facilities on a space available basis, and medical care in civilian facilities for family members of former member who are not entitled to Medicare, Part A.

2021. Reserve Component Survivor Benefit Plan and Survivor Benefit Plan (RCSBP and SBP)

1. The RCSBP was established by 10 U.S.C., chapter 73 to provide an annuity to eligible beneficiaries of reservists who are qualified for retired pay at age 60. A RCSBP information

booklet containing an option election certificate is forwarded via certified mail as part of the member's NOE package. Members will have 90 days from the date of receipt of the package to participate in RCSBP by mailing the election certificate. It must be post marked within the 90-day time frame in order to be considered a valid election. The exception to this rule is if the member is not married at the time of receipt of the NOE package, then an election can be made within 1 year of acquiring a spouse/child.

2. Members participating in basic RCSBP at the maximum level for a spouse or former spouse may purchase additional coverage, referred to as the Supplemental Survivor Benefit Plan (SSBP), that can increase their survivor's post age 62 benefits to one of four different levels: 40, 45, 50, or 55 percent of retired pay. Participation in SSBP is totally voluntary and requires an affirmative election by the member. To increase the survivor's post age 62 annuity from 35 percent to 40, 45, 50, or 55 percent, a member must purchase one, two, three, or four units of SSBP coverage.

3. RCSBP coverage is automatic at the maximum level for members who

a. do not make an RCSBP election within the 90 day timeframe.

b. who elect Option A without providing spousal concurrence.

c. elect coverage at a lesser amount without providing spousal concurrence.

The Retired Serviceman's Family Protection Plan (RSFPP) was superseded by the SBP. Any election made under RSFPP is void if the member qualified for retired pay on or after 21 September 1972.

4. Persons eligible to make an election under the SBP, who desire other than the automatic coverage or who have eligible minor children, should complete and mail a DD 2656 to NAVRESPERSCEN (N32) prior to the date of initial eligibility for retired pay. This date is normally the member's 60th birthday; however, where eligibility for retired pay is attained after age

60, care should be taken to ensure the election is made in advance of the eligibility date.

5. Any requests for clarification or additional information about SBP at age 60 may be referred to NAVRESPERSCEN (N32) or NAVPERSCOM (PERS-622). Requests for additional RCSBP information may also be referred to NAVRESPERSCEN (N32). After the member starts receiving retired pay, all questions about RCSBP and SBP should be directed to Defense Finance and Accounting Service (DFAS), 1240 East Ninth Street, Cleveland, OH 44199-2055, 1-800-321-1080.

2022. Additional Information

1. Upon retirement, the last digit of an Reserve officer's designator is changed to a 9.

2. Longevity for pay purposes continues to accrue while in a Retired Reserve status but stops when the member is eligible to receive pay, normally age 60.

3. COs will provide a retirement ceremony for all members upon transfer to the Retired Reserve. Ceremonies will be conducted unless specifically requested otherwise by the individual concerned. The ceremony should be designed to express the Navy's appreciation for the many years of faithful and honorable service members devoted to their country. Additional guidance may be obtained from MILPERSMAN 1800-010.

2023. Presentation of United States Flag. Upon the transfer from an active status or discharge on or after 10 October 1999, when a Reserve member has completed the years of service required for eligibility for retired pay, SECNAV shall present a United States flag to the member. A member is not eligible for a flag if the member has previously been presented a flag under any provision of law providing for the presentation of a United States flag incident to release from active service for retirement. The supporting NRA is responsible for procurement of the flag to SELRES and VTU members. NAVRESPERCEN (N3) is responsible for procurement and delivery to all other qualified members.

2024. Funeral Honors Details. Per 10 U.S.C., 1491, a member of the Ready Reserve may be ordered to funeral honors duty, with

the consent of the member, in preparation for or to perform funeral honors functions at the funeral of a veteran. COMNAVRESFORCOM will implement procedures for writing orders, payment of the allowance, and for reimbursement of travel and transportation. Reserve members who perform funeral honor details are eligible for the following:

1. One retirement point, per day, for all funeral honors duty performed for at least 2 hours in 1 day, unless the duty is performed while in a status for which credit is provided (e.g., IDT, AT, etc). For example, if a reservist is assigned funeral honors duty during a period of IDT, the reservist will receive the retirement points for the IDT, but not for the funeral honors duty (figure 20-1). Retirement points for Funeral Honors duty are not included as part of, or restricted by, the 90 inactive point limit.

2. For eligibility to receive a \$50, or 1 day IDT allowance, travel and transportation see chapter 14, paragraph. 1406.5.

3. Be aware that the Funeral Honors Duty program per 10 U.S.C., 1491 is being considered for cancellation.

**PROCEDURES TO ENROLL ENLISTED MEMBERS IN THE NAVY ENLISTED/OFFICER
PARTICIPATION SYSTEM (NEOPS)**

The service record holder will prepare NRPC 1570/9 to enroll enlisted members in NEOPS. A copy of the NRPC 1570/9 can be downloaded by accessing the NAVRESPERSSEN website at www.nrpcweb.navy.mil then clicking on "FORMS FOR DOWNLOAD".

1. Procedures to Prepare NRPC 1570/9 (must be typed or legibly printed, see figure 20-3).

a. Heading - It is essential that all information contained within the heading portion of the form be complete and accurate:

(1) RUIC - Reserve Unit Identification Code - 5-digit code assigned to the particular reserve unit.

(2) Reserve Unit Title - Use long title.

(3) UIC - Unit Identification code - five-digit code assigned to the Navy Reserve activity (NRC, NAS, NRF ship, etc.) where the individual reserve unit is assigned.

(4) Record Holding Activity Name - Use long title of service record holding activity.

(5) Name (LAST) - Enter the first 15 letters of the reservist's last name. Do not enter Jr., II, etc. Do not include spaces (e.g., VAN HORN should appear as VANHORN). If the member's last name is less than four letters, enter as many letters of the first name that it takes to make five positions in this block (e.g., TU WONG would appear as TU WO).

(6) Initial - Enter the first name initial only.

(7) SSN - Enter only nine digits. Do not use spaces or hyphens. Verify SSN with individual's enlistment contract.

**PROCEDURES TO ENROLL ENLISTED MEMBERS IN THE NAVY ENLISTED/OFFICER
PARTICIPATION SYSTEM (NEOPS) (CONT'D)**

b. Period Covered (Column 1)

(1) Dates should be listed with the year, month, and day using the last two digits of the year, the two-digit number for the month, and the two-digit number for the day (YYMMDD).

(2) Start line one with the date of initial entry of the member into uniformed service. Review the enlistment contract and any available documentation of prior service for initial entry date. Continue each line by anniversary year. Note that information on prior service is to be recorded as follows:

(a) Regular Component - All periods of active duty service (USN, USMC, USAF, USA, USCG) are to be entered as a single line entry.

(b) Reserve Component - For all components of reserve service (USNR, USMCR, USAFR, USAR, USCGR, National Guard (active/inactive)), enter individually on lines by the member's anniversary year.

(c) Unresolved Periods - If a line cannot be completed because information is not available, enter 999 in Column (8).

(d) Broken Service Periods - If, during an interview, the reservist claims no service in any branch for a particular time, broken service is confirmed. Enter the appropriate periods of time in the "From - To" Column and 888 in Column (8) of the applicable line.

(3) Last Line Entry - Enter the beginning date of the anniversary year in the "From" block and all other columns on this line are to be left blank. The points for this anniversary year will be calculated and credited through NSIPS.

c. Data columns (columns 2 through 8) - AT/ADT orders, NAVCOMPT 2120 (Rev. 4-88), Active Duty for Training Orders and

Transfer the point credits in each category of service (drills, AT and ADT, active duty, correspondence courses, etc.) from any available documents (e.g., AT and ADT orders, NAVCOMPT 2120s, NAVPERS 1070/604s, NAVPERS 1070/613s, DD 214s, etc.) onto the NRPC 1570/9. The objective is to provide as complete and accurate a retirement point capture as possible.

(1) Total Drills (Column 2) - This column indicates total drills performed within the specified anniversary year or period of service.

(2) AT and ADT (Column 3) - This column reflects any AT and ADT completed during the period based upon AT and ADT orders (NAVCOMPT 2120). If AT and ADT documentation is not available, enter 00.

(3) Active Duty (Column 4) - This column reflects active duty points. Credit for active duty time is day for day and must be computed accurately considering leap years and lost time. Day of enlistment and discharge are to be included in the active duty total. Any lost time should appear on the DD 214 and must be subtracted from the total period of active duty when computing retirement points.

(4) Correspondence Course (Column 5) - This column reflects points for correspondence courses successfully completed during the period.

(5) Gratuitous Points (Column 6) - This column reflects membership points earned during the period.

(6) Branch Code (Column 7) - This column reflects branch of service. Enter the appropriate code for branch of the Armed Forces listed below:

<u>Branch of the Armed Forces</u>	<u>Branch</u>
None for broken service	0

Take care to ensure that no more than 75 points are credited for inactive participation (drills, correspondence courses and membership points) for an anniversary year. Advise the member about the 75-point maximum for inactive participation during the reviewing and certifying interview.

2. Navy Reserve Enlisted Retirement Points Source Documents. Members must submit documentation to verify all military service with the NRPC 1570/9. The following participation and retirement credit documents contain information which contribute to the enlisted retirement point capture. Not all documents are in each reservist's record, but any may be helpful in accumulating the data necessary to complete the NRPC 1570/9. In an effort to provide a comprehensive list of source documents for all members, including those with World War II service or earlier, this list contains several forms which have been superceded and are therefore not currently available (thus they are omitted from appendix C, Forms Availability). If documentation of service cannot be found in the service record, the members should provide documents from their personal records to substantiate

3. Additional Information to Prepare Form

a. For members with lost time or unauthorized absence, any NAVPERS 1070/606, NAVPERS 1070/607, NAVPERS 1070/613, will be obtained and submitted with the NRPC 1570/9.

b. Members with prior Navy Reserve service who were previously in NEOPS, who reenlist after broken service, require only update documentation. Prepare an NRPC 1570/9 as prescribed in paragraph 1, and indicate "PRIOR NEOPS" on the form. Obtain a copy of the member's current enlistment contract, any pertinent military service update documentation, and most recent NRPC 1070/124 or Historical Summary Sheet, if available, and submit with the NRPC 1570/9.

c. Ensure that all personnel involved in the transfer of retirement points review this chapter in order to understand retirement point procedures.

4. Reviewing and Certifying NRPC 1570/9

a. Members will review and sign the completed NRPC 1570/9. The signature indicates they have seen the information. If members do not agree with the awarded points, they should forward a statement with the completed form.

b. CO of the submitting activity will certify and sign the document. "By direction" signatures are acceptable by individuals authorized to sign pay documents.

5. Distribution. Send part 1 of each NRPC 1570/9, along with supporting documentation, to NAVRESPERSSEN (N332). Part 2 will be filed in member's service record.

CHAPTER 21

NAVY RESERVE SCREENING

2101. Screening Requirements. 10 U.S.C., 10149 requires continuous screening of units and members of the Ready Reserve to ensure their immediate availability for active duty and to minimize attrition during recall and mobilization.

2102. Navy Policy. All members of the Ready Reserve who are not on active duty will be screened at least annually per DODD 1200.7. The purpose of the screening is to ensure that Ready Reservists

1. meet Navy wartime standards of mental, moral, professional, and physical fitness.
2. possess military qualifications required of their various grades, ratings, and specialties.
3. are immediately available for recall or mobilization.

2103. Annual Screening Procedures. Ongoing procedures to screen members of the Ready Reserve include the following:

1. Key Employee Screening. At mobilization, Ready Reservists will only be exempted or deferred from mobilization due to civilian employment as specifically directed by DOD. Accordingly, all Ready Reservists will be screened at least annually to ensure their availability for mobilization. DODD 1200.7 provides guidelines for determining if certain Ready Reservists employed by Federal or non-Federal employers are to be designated as "key employees." Those so designated will be removed from the Ready Reserve either by being transferred to the Standby Reserve or the Retired Reserve or discharged, as appropriate. Question 9 of NAVPERS 1001/3 (Rev. 05-03), Ready Reserve Screening Questionnaire, is designed to allow Federal and non-Federal employees to inform the Navy Reserve if they have been so designated by their employer per the general guidelines listed below. Ready Reservists who are identified as key Federal or non-Federal employees will notify NAVPERSCOM (PERS-491) for removal from the Ready Reserve per DOD guidelines.

a. Non-Federal employees who work in the fields of public health and safety as well as defense support industries may be considered key employees if they possess unique skills which cannot be filled in a reasonable time after mobilization. Examples include a physician who is the only health care provider for a remote community which is not served by other health care agencies, or a lead engineer who provides essential technical expertise relating to the development or maintenance of certain national security assets.

b. Federal employees whose functions are essential to the continuity of the Federal government may be considered key employees if they occupy positions that cannot be vacated during a national emergency or mobilization without seriously impairing the capability of their agency to function effectively. Federal Agency Heads are responsible for reporting key employees per DODD 1200.7. Examples include members of Congress, certain Federal law enforcement officials, and civilian appointees such as Cabinet officials and military department leaders.

2. Members with More than 20 Years of Qualifying Service. Annually, COMNAVPERSCOM identifies members of the Ready Reserve who have 20 or more years of qualifying service, but who have earned fewer than 50 retirement points in their most recent anniversary year. Those members (known as 50 point failees) are notified and transferred from USNR-R to USNR-S2 by NAVPERSCOM (PERS-491) per DODI 1200.15.

3. IRR and USNR-S1 Members with Less than 27 Points. Annually, COMNAVPERSCOM and CO, NAVRESPERSSEN identify officers with less than 20 years of qualifying service, who have earned fewer than 27 retirement points, including the 15 membership points, in their most recent anniversary year. Those officers (known as 27-point failees) may be transferred from an active status (USNR-R and USNR-S1) to the Standby Reserve Inactive (USNR-S2) by NAVPERSCOM (PERS-491), after notification, if they have completed their MSO per SECNAVINST 1920.6B.

4. Muster of the IRR. NAVRESPERSSEN may administer an annual muster and screening of targeted members of the IRR. At that time, they obtain current information on the member's readiness for mobilization. Members may be screened either by mail or in person. Members failing to respond to muster and

screening directives are subject to appropriate administrative actions, including separation.

2104. Annual Screening Questionnaires. The following questionnaires will be used to screen members of the Ready Reserve and Standby Reserve Active. Members are required to complete these forms and return them to NAVRESPERSCEN (N5) with current information used to update the IMAPMIS file. Questionnaires also become part of the officer's official record. The following chart identifies which forms are to be completed based on the current status of the member:

	NRPC 1200/1	NAVPERS 1001/3	NRPC 3060/2A
SELRES (Officers)	X	X	
SELRES (Enlisted)		X	
IRR (VTU)	X	X	
IRR (NRPC)			X
S1 (VTU)	X		
S1 (NRPC)			X

1. NRPC 1200/1, Naval Reserve Qualification Questionnaire (NRQQ). CO, NAVRESPERCEN is responsible for distribution of the NRQQ (Figure 21-1) to all SELRES officers and those officers of the IRR and USNR-S1 participating in VTUs. The NRQQ is used to collect information for the IMAPMIS files and the Reserve Components Common Personnel Data System (RCCPDS) as required by DODI 7730.54 of 15 March 1999. Topics covered on the NRQQ include education, civilian employment, foreign language proficiency, etc. After pertinent data is extracted, the NRQQ is then forwarded to NAVPERSCOM (PERS-312) for inclusion in the officer's official record. NRPC 1200/1 can be found at www.nrpcweb.nola.navy.mil

2. NRPC 3060/2, Screening Questionnaire. CO, NAVRESPERSCEN will distribute screening questionnaires to members of the IRR as well as to members of the Standby Reserve Active (USNR-S1) assigned to NAVRESPERSCEN (not participating in a VTU). This questionnaire allows CO, NAVRESPERSCEN to collect information regarding the member's current physical condition and to complete mobilization readiness screening requirements at the same time. The form includes questions regarding education, civilian employment, foreign language proficiency, and physical condition. In addition, the reverse of NRPC 3060/2A (Rev. 08-03), Naval Reserve Screening Questionnaire, is an

automated answer sheet used to reply to an attached list of questions concerning mobilization availability. Completed NRPC 3060/2 will be forwarded by NAVRESPERSCEN (N5) to NAVPERSCOM (PERS-312D) for inclusion in the member's official record.

3. NAVPERS 1001/3, Ready Reserve Screening Questionnaire (RRSQ). All SELRES and members of the VTU (except USNR-S1) will complete NAVPERS 1001/3 (Figure 21-2) upon initial affiliation and each fiscal year.

a. Members will sign NAVPERS 1001/3 certifying that they are ready for immediate mobilization and that they will expeditiously notify their CO or NAVRESPERSCEN (N5), as appropriate, should circumstances arise that would prevent their availability. If there is no change from the information provided on the previous year's NAVPERS 1001/3 then signature verification is authorized instead of completing a new questionnaire annually. This method requires only the member's signature with an appropriate statement (e.g., "I certify there has been no change since my last NAVPERS 1001/3, of: _____") on the back of the current form until a new form with appropriate signature blocks is distributed.

b. Unit COs are responsible for ensuring NAVPERS 1001/3 are reviewed and members are interviewed after they complete the questionnaire. The supporting NRA CO is responsible for reviewing and signing unit COs' NAVPERS 1001/3. If a unit CO determines that a member has a situation which is not locally resolvable and would preclude the member from being immediately available for mobilization, that CO will submit a letter to the supporting NRA CO for review. If the activity CO determines the situation cannot be resolved within the guidance provided on NAVPERS 1001/3, the NRA will forward a letter to NAVPERSCOM (PERS-491) via the Echelon 4 command requesting appropriate action and make an annotation on the retained questionnaire.

c. Unit COs will submit completed NAVPERS 1001/3 to the supporting NRA. NRA COs will ensure the completed NAVPERS 1001/3 are retained in a manner accessible during mobilization.

2105. Individual Mobilization Readiness Prescreening. All members of the Ready Reserve understand they are subject to mobilization with little advance notice. The ease and accuracy with which they can be gained to active duty during mobilization

is directly related to the documentation the individual presents during processing at the PERSUPPDET. Figure 22-5 identifies the documents reservists need to take with them when they report for activation and mobilization. As part of the check-in process for active duty periods (AT, ADT, ADSW)/during mobilization exercises, the NRA will review figure 22-5 with unit members and remind them of their responsibility to have all required documents ready for an immediate recall. SELRES should be encouraged to review the booklet entitled "Mission Readiness" (or a similar document) with their immediate family members and maintain copies of the required documents in a personal readiness folder. This folder should be reviewed at least annually during IDT periods/active duty periods.

2106. Screening Checklist for Mobilization, PSRC, ADSW, and Recall to Active Duty. Order writing authorities and supporting NRAs will ensure that members being considered for mobilization, etc., meet all requirements for activation. Navy Reservists are periodically screened for potential for mobilization, etc. However, circumstances may change between screenings, which may necessitate delay or termination of processing. The following checklist is provided to assist activities in processing members:

1. Regular Retirement Sanctuary. Does the member have 18 years of active service or will the member attain 18 years of active service while on orders? If so, sanctuary may be declared requiring order writing authority to extend the orders until member completes 20 years of active service.

2. Is the member assigned a BUPERS control group code? If so, refer to NAVPERSCOM (PERS-4911 (officer)) or NAVPERSCOM (PERS-4913 (enlisted)) for approval authority.

3. Has the member ever been convicted of a domestic violence offense or does the member have any pending civil or criminal legal matters, which might impact active duty? If yes, notify order writing authority for approval.

4. Are all professional qualifications current? If not, notify order writing authority for approval.

5. Is the member within physical readiness standards? If not, notify order writing authority for approval.

BUPERSINST 1001.39E
26 Apr 05

6. Are there known theater commander requirements that the member can't meet? If yes, notify order writing authority for approval.

7. Does member meet basic military requirements for overseas assignment? If not, notify order writing authority for approval.

8. Does EOS of enlisted member's contract exceed the recall period by at least 30 days? If not, reenlist or extend member.

9. Are there any other issues that might delay or preclude the member from mobilization, etc.? If yes, notify order writing authority for approval.

**NOTES FOR COMPLETION OF
READY RESERVE SCREENING QUESTIONNAIRE**

The unit CO will accomplish the following:

1. Investigate. If it is determined that the member's mobilization is restricted, submit a letter to your supporting NRA CO providing details. See section 2103.1 for a discussion of key employees. If the supporting NRA determines the situation cannot be resolved, it must forward the letter to NAVPERSCOM (PERS-491) via the Echelon 4 command requesting to change the member's status, or process the member for separation, as appropriate.
2. Comply with OPNAVINST 1740.4B. Ensure member has current NAVPERS 1740/6 (Rev. 04-96), Family Care Plan Certificate, in service record; copy in unit files. If the member is married to a prior service spouse, ensure that the spouse is not still under contract with the military. If the spouse is still subject to recall (e.g., as a member of the IRR with an unfulfilled MSO), ensure the member fills out the required NAVPERS 1740/6.
3. Comply with OPNAVINST 6110.1G.
4. Provide information to your reserve activity for determination of member's status per appropriate medical directives and BUPERSINST 1001.39E.
5. Interview the individual to ascertain if the member is actually attending a recognized theological or divinity school and is preparing to become an ordained minister, cleric, or equivalent. If both conditions are met, submit a letter to NAVPERSCOM (PERS-491) via Echelon 4 and 5 commands providing details. This may result in the member's removal from the unit and a transfer to the Standby Reserve-Active (USNR-S1) after evaluation by NAVPERSCOM. If, however, the member is merely pursuing religious studies for educational purposes and does not intend to become a minister for a particular faith group, then comment accordingly and forward NAVPERS 1001/3 to the parent NRA.

**NOTES FOR COMPLETION OF
READY RESERVE SCREENING QUESTIONNAIRE (Cont'd)**

6. Provide details to order issuing authority. Per DODD 1200.7, these members may remain Ready Reservists but are restricted during mobilization to student, intern, resident, or fellow assignments. Order issuing authorities: reassign, if appropriate, to a medical unit or billet or VTU until member completes studies; request BUMED (Med-75) assign NOBC 0104 to interns or 0106 to residents.

7. The member may not be assigned to active duty on land outside the United States or its territories and possessions until this training is complete. Consult with the supporting NRA to ensure the member is assigned to an appropriate mobilization billet and to determine when training can be provided.

8. Effective 30 September 1996, the Gun Control Act of 1968 was amended (via the Lautenberg Amendment) to make it a felony for any person convicted of a misdemeanor crime of domestic violence to ship, transport, possess, or receive firearms or ammunition. The amendment also makes it a felony for any person to transfer a firearm or ammunition to any person known to have such a conviction. There is no exemption for military or law enforcement personnel. A domestic violence conviction could severely impact an individual's mobilization potential.

CHAPTER 22

MOBILIZATION

2201. Introduction. OPNAVINST 3060.7A, articulates policy, responsibilities, and implementation procedures for recall/mobilization of the Navy Reserve. It implements general DON policy governing the activation, mobilization, and demobilization of the Ready Reserve found in SECNAVINST 3060.2. While this chapter will summarize basic elements of Navy Reserve mobilization, refer to the above listed instructions for more detailed presentations. The Navy Reserve is the reserve component of the Navy, authorized and established per 10 U.S.C., 10101 and 10102. To preclude possible confusion in referring to the various categories of "Navy Reservists," naval personnel are classified as either active duty personnel or inactive duty personnel. Active duty includes members (regular or reserve) on extended active duty at the time of mobilization and, for mobilization purposes, inactive duty personnel who may be performing ADSW for a period greater than 180 days. Reserve members performing AT on M-day are not classified as active duty. Inactive duty personnel are members of the Ready Reserve, the Standby Reserve, or Retired Reserve (including Fleet Reserve) not on active duty. Categories of inactive duty personnel and their availability for mobilization are described in this chapter.

2202. Activation and Employment of the Navy Reserve. The Navy Reserve is the primary source of units and personnel to expand the Navy beyond its active force capability. The degree of expansion required will depend on the nature of the crisis or emergency, the authority invoked to respond to it, and could range from selective mobilization of a few individuals to total mobilization

2203. Mobilization Assets. The Navy's mobilization assets consist of the Ready Reserve (comprised of the SELRES and IRR, both drilling (VTU) and non-drilling), Standby Reserve (S-1 and S-2), Fleet Reserve, USN and USNR retired personnel, and new accessions from volunteer and Selective Service draft categories.

1. SELRES. The Navy's SELRES is the principal source of trained units and personnel to augment the active forces in time of war or national emergency. It is comprised of personnel drilling with pay in structured units, or in specific

mobilization billets. COMNAVRESFORCOM, at the direction of CNO, is responsible for managing the SELRES and is involved in the activation process during mobilization or recall scenarios. Insofar as practical, SELRES personnel ordered to active duty in time of war or national emergency will mobilize with their assigned units. When, units remain intact following mobilization, the administration of a mobilized commissioned unit will be the same as the administration of an active duty unit. Augment units, on the other hand, will be generally activated, mobilized, deployed, re-deployed, and demobilized individuals. Non-prior Service (NPS) personnel may be mobilized, but they may not be deployed out of CONUS until they complete IADT.

2. Pre-trained Individual Manpower (PIM). The IRR, Standby Reserve, Fleet Reserve, and Retired Reserve (USN and USNR) are collectively referred to as PIM. CO, NAVRESPERSCOM, at the direction of COMNAVPERSCOM, is tasked with managing the PIM database and implementing PIM activation procedures.

a. IRR. The IRR consists of pre-trained personnel who either drill in the VTU or do not drill. Most IRR personnel who do not drill have served recently on active duty or in the SELRES. To assure that IRR personnel are committed effectively to mobilization billets in which their active duty training is used, Defense Planning and Programming Category (DPPC) can be used to make certain pre-assignments to billets in strategic, tactical, mobility, auxiliary activity, and support activity billets. Upon mobilization, the remaining IRR personnel can be assigned to active duty shortfalls as requested by NAVPERSCOM (PERS-49).

b. Standby Reserve. Members of the Standby Reserve can be mobilized as authorized by law if there are not enough qualified SELRES or IRR members to meet requirements. NAVRESPERSCOM (N5) will match Standby Reserve personnel to unfilled mobilization requirements as required. Definitions of the two categories of Standby Reserve follow:

(1) USNR-S1 (Active Status List). Individuals in this category possess desired mobilization skills. They are in an active status and eligible to participate in a Navy Reserve program without pay for retirement point credit. Members are available for recall to active duty only as provided in 10

U.S.C., 12301 and 12306 in time of war or national emergency declared by Congress, or when otherwise authorized by law.

(2) USNR-S2 (Inactive Status List). Reservists who are classified USNR-S2 are in an inactive status. Members are available for recall to active duty only as provided in 10 U.S.C., 12301 and 12306 in time of war or national emergency declared by Congress, or when otherwise authorized by law.

c. Retired Personnel. Retired USN and USNR personnel are subject to mobilization under 10 U.S.C., 688 and 12301(a). Mobilized retirees will be used primarily to backfill contiguous United States (CONUS) installations, permitting reassignment of active duty personnel to fleet and operational billets. Retired personnel should require minimal training and indoctrination after being recalled. NAVRESPERScen (N5) has cognizance over activation of all retired personnel and NAVRESPERScen (N5) is tasked with management of the retiree database that contains pertinent information on Fleet Reservists and USN and USNR retired personnel. Per SECNAVINST 1300.14B, all naval retired personnel are grouped into 3 categories.

(1) Category I - Retired less than 5 years, under age 60, and eligible for recall.

(2) Category II - Retired more than 5 years, under age 60, and eligible for recall.

(3) Category III - Retirees either over age 60 or disabled.

d. Fleet Reserve. Active duty enlisted members of the regular Navy or Navy Reserve are eligible after 20 years of active service for transfer to the Fleet Reserve per 10 U.S.C., 6330. They are individuals who may be used without further training to fill billets requiring experienced personnel upon mobilization. Upon completion of 30 years total service, members of the Fleet Reserve are transferred to the Retired List of the regular Navy or to the Retired Reserve, as appropriate. 10 U.S.C., 6485 provides that members of the Fleet Reserve may be ordered to active duty without their consent in the time of war or national emergency as declared by the President or by Congress.

BUPERSINST 1001.39E

2204. Veteran Volunteers. Veterans (personnel discharged from the Naval Service and technically not included as inactive duty resources) are an asset considered in personnel mobilization planning. Veteran volunteers will be processed for active duty by the COMNAVCRUITCOM under the same processing procedures that apply to non-prior service volunteers. Figure 22-1 below shows the various categories of mobilization assets and how they may be mobilized.

Figure 22-1

2205. Command Responsibilities for Personnel Mobilization. Many Navy commands are assigned responsibilities for the mobilization processing of the Navy Reserve. A listing of these commands and their general responsibilities for implementing a mobilization directive may be found in OPNAVINST 3060.7A. More detailed information is contained in Manpower Mobilization Support Plans (MMSPs).

2206. Types of Mobilization. Navy Reservists may be involuntarily ordered to active duty under the following contingencies:

1. Selective Mobilization (Internal and Domestic). Expansion of the active Armed Forces resulting from action by Congress/the President to mobilize reserve component units, IRR, and the resources needed for their support to meet the requirements of a domestic emergency that is not the result of an enemy attack.

2. Presidential Reserve Call-Up (PRC). 10 U.S.C., 12304 permits the expansion of the active forces for any operational mission by Presidential recall of up to 200,000 SELRES from all services. This may include up to 30,000 IRR within the 200,000. This recall may be for periods of up to 270 days for each SELRES called. Such a "call-up" is not technically a mobilization and does not require a declaration of emergency.

3. Partial Mobilization. Expansion of the active Armed Forces resulting from action by Congress (up to full mobilization) or by the President (not more than 1,000,000 and for up to 24 months) to mobilize Ready Reserve component units, IRR, and the resources needed for their support to meet the requirements of a war or other national emergency involving an external threat to the national security.

4. Full Mobilization. Expansion of the active Armed Forces per 10 U.S.C., 12301 (a) resulting from action by Congress and the President to mobilize all reserve component units in the existing approved force structure, all individual Reservists (including all Ready and Standby Reservists), Fleet Reservists, retired military personnel, and the resources needed for their support to meet the requirements of a war or other national emergency involving an external threat to the national security.

Time of recall is for the duration of war or emergency plus 6 months.

5. Total Mobilization. Expansion of the active Armed Forces resulting from action by Congress and the President to organize/generate additional units or personnel, beyond the existing force structure, and the resources needed for their support to meet the total requirements of a war or other national emergency involving an external threat to the national security. Figure 22-2 below provides a representation of the various types of mobilization. Figure 22-3 below provides a basic timeline for the mobilization process.

Figure 22-2

MOBILIZATION PROCESSING TIMELINE

Figure 22-3

2207. Authority for Recall or Mobilization. The Ready Reserve is subject to recall or mobilization per several sections of 10 U.S.C. A summary of authorities and provisions for activation of these and other categories of the Navy Reserve are outlined in figure 22-4.

2208. Unit Integrity. For mobilization purposes, a unit is any group or detachment of one or more individuals organized, equipped, and trained to serve, upon activation or mobilization, on active duty as an operational unit.

1. 10 U.S.C., 12301(c) provides that, in so far as practicable, members of units organized and trained to serve as units who are ordered to active duty will be so ordered with their units. If circumstances warrant deviation from this policy, appropriate fleet or force commanders will make the decision as to where to use SELRES to best meet the contingency. The members of a commissioned Navy Reserve unit (i.e., squadron, CB battalion, NRF ship) ordered to active duty as a unit will not be immediately reassigned. Such units should remain intact, insofar as practicable, although elements may be detached from the main body as operational requirements dictate. The administration of a mobilized unit will be comparable to the

administration of a unit of the active forces concerning the transfer of members. In implementing this policy, consideration will be given to the length of time the unit has been mobilized.

2. The selection of units to be mobilized should depend upon: reason for mobilization; domestic and international situations existing at the time a decision is made to involuntarily recall reservists; existing scenario or contingency and the Operational Plan (OPLAN) requirements; Navy operational requirements identified for fill from the Reserve Component; and if IRR are to be mobilized. Additional factors to consider in planning or executing a partial mobilization follows:

a. Units in the highest state of training, material, medical, dental and personnel readiness should be selected first. Consideration will be given to phased mobilization of Navy Reserve units, where multiple unit capability exists, and to provide for rotation under recall or mobilization limited authorizations.

b. Only units necessary to meet the stated mobilization objectives may be mobilized.

2209. Activation and Recall or Mobilization

1. Members of the SELRES will report to their NRA for activation processing within 72 hours of notification unless a different reporting time is specified in the CNO recall or mobilization guidance. All members of the SELRES, by virtue of their affiliation and indoctrination training, are considered informed of their reporting responsibilities and "notified" upon entry into the Ready Reserve. A delay in reporting period may be authorized in special situations per OPNAVINST 3060.7A. After activation processing at their NRA, members will report to their designated NMPS for mobilization processing if they have been recalled for a period of 30 days or more. This mobilization processing includes gaining them to active duty personnel systems, establishing a Master Military Pay Account (MMPA), performing health and dental checks, providing legal support, providing personal equipment and uniforms, and providing transportation coordination. A more detailed discussion of these mobilization implementation procedures may be found in OPNAVINST 3060.7A.

2. Members of the IRR in VTUs will report to their NRA for activation processing per reporting instructions specified in their recall notification. IRR members in the Delayed Entry Training Pool (Non-prior service personnel) will report to their NRA for activation processing on the reporting date of their IADT, unless those orders need to be modified to meet training schedules to satisfy the requirements of the ordered mobilization. All other IRR members will be recalled to a designated NMPS site for mobilization processing.

2210. Alert and Notification. To determine mobilization readiness, a recall or mobilization alert will mandate an automatic screening for Ready Reserve members, and update of appropriate Mobilization Availability Status (MAS) codes in the Reserve Standard Training and Reporting System (RSTARS) for SELRES members regardless of whether or not it is time for the annual screening defined in chapter 21. Insofar as practicable, Navy Reservists involved in a mobilization will be notified through current recall procedures prior to the public release of such information; however, in view of rapid communication through the news media, this may be impossible to achieve.

2211. Transfers. After the date of an alert or notice of reserve mobilization, ready reservists may be restricted from transfer or discharge via applicable stop loss guidance.

2212. Automatic Delay. Only non-prior servicemembers in technical training programs who have a reporting date for initial active duty training will be granted an automatic delay upon mobilization.

2213. Screening, Exemptions, and Delays. The screening system for the Ready Reserve, per DODD 1200.7, is the primary means for ensuring personnel are given fair treatment and proper consideration in matters relating to their mobilization responsibilities. Chapter 21 provides requirements for screening Ready Reserve members annually. The screening process will be used to identify and remove individuals who are not mobilization ready from the Ready Reserve prior to the President or Congress declaring a war or a state of national emergency. There may still be valid reasons for granting individual delay in reporting during mobilization and requests for delays will be considered. Specific guidance concerning exemption criteria will be published with the implementing mobilization directive. Refer to OPNAVINST

3060.7A for information and procedures regarding delays in mobilization.

2214. Peacetime Preparations for Rapid SELRES Mobilization. SELRES are expected to be the most ready element of the reserve component for recall and mobilization. More training on recall and mobilization preparedness is necessary due to increasing administrative requirements mandated by changing laws and regulations, and based on lessons learned from integration of reserve members into active personnel and pay systems at recall. In preparing for recall and mobilization, SELRES should prepare and maintain a personal at-home file containing documents identified in the checklist shown in figure 22-5. This file should be reviewed annually, and be updated when changes occur. Having these documents readily available upon recall and mobilization will facilitate processing and minimize pay problems and delays in obtaining privileges and benefits for dependents.

2215. Basic Training Requirements. Basic training requirements for various categories of Reserve personnel are as specified in 10 U.S.C., 671(a), DODD 1215.6, DODI 1215.19, and SECNAVINST 1001.33C.

2216. Fair Treatment. Annual screening of the Ready Reserve (chapter 21) satisfies "fair treatment" requirements specified in 10 U.S.C., 12302(b). If additional consideration is to be given to the "fair treatment" criteria, appropriate guidelines will be specified in the implementation directive.

2217. Demobilization. CNO will issue demobilization guidance for demobilization processing, including demobilization schedules, in coordination with Navy Component Commanders, whenever possible. The schedules will contain necessary time-phased demobilization actions for SELRES and PIM personnel. The NMPS is responsible for demobilization processing of SELRES and PIM members. This includes health and dental examinations, pay and personnel processing, return of accountable personnel equipment items, return of authorized household goods storage at the NMPS (if any), and arrangement of transportation to NRA or home, as appropriate. NRAs are responsible for deactivation processing of SELRES and VTU-IRR personnel. This includes: gain to reserve personnel systems, as needed; receipt and review of health, dental and personnel records; assignment to unit or individual billet; orientation and reintegration into SELRES

ACTIVATION/MOBILIZATION CHECKLIST

DOCUMENTS YOU MUST BRING FOR ACTIVATION/MOBILIZATION

The following documents are required (as applicable for you and your family members).

A. PAY/DIRECT DEPOSIT/ALLOTMENT

- ☐ 1. Voided Personal check or deposit slip (displaying bank address/telephone, bank routing/account numbers).
- ☐ 2. Bank account information (bank address/telephone, bank routing/account numbers) for each desired allotment.
- ☐ 3. Copy of current mortgage(s) (with principal/interest/tax/insurance breakdown) and documentation of 1 month's average utilities, OR copy of house or apartment rental agreement and documentation of 1 month's average utilities.
- ☐ 4. Copy(s) of current child support agreement(s).
- ☐ 5. If Medical Corps (MC), Dental Corps (DC), Medical Service Corps (MSC) (Clinical), Nurse Corps (NC) certified copies or proof of the following:
 - ☐ (a) current license/certificate
 - ☐ (b) current BCLS, ACLS, PALS, etc.
 - ☐ (c) current demographic information if MC
 - ☐ (d) internship
 - ☐ (e) residency
 - ☐ (f) board certification in specialty or board certification qualifications.

B. SERVICE RECORD/PSD

- ☐ 1. Certification of discharge/separation (DD-214) for all former periods of active duty.
- ☐ 2. Your birth certificate or passport (for OUTCONUS deployers).
- ☐ 3. Birth, adoption or guardianship certificates for dependents.
- ☐ 4. Social Security numbers for self and family members.
- ☐ 5. Certified copy of marriage certificate for present marriage.
- ☐ 6. Certified copies of documentation terminating any previous marriage (divorce/annulment/spouse's death certificate).
- ☐ 7. Certification of full-time enrollment for self and college-age family members from school registrar.
- ☐ 8. Signed statement from licensed physician for family members, parent/children over 21 years of age who are incapacitated.
- ☐ 9. Current NAVPERS 1740/6, Family Care Plan.

C. SECURITY CLEARANCE

- ☐ 1. Certified copy of naturalization papers.
- ☐ 2. Names/addresses of personal/professional references (minimum of three each required).

- ☐ 3. Names/addresses/dates of employment for past 10 years (or since graduation from high school/college).
- ☐ 4. Names/addresses/dates of high school and college.
- ☐ 5. Addresses and dates of all previous residences.
- ☐ 6. Names/dates/places of birth for your parents and your spouse's parents.

D. LEGAL

- ☐ 1. Location of current valid will.
- ☐ 2. Copy of current power(s) of attorney (business arrangements/tax filing: child care/family member's medical emergency care/household goods and POV storage).
- ☐ 3. Documentation to support potential legal issues, such as loss of college tuition assistance, loss of security deposit on lease, loss of employee medical benefits etc.

E. MEDICAL

- ☐ 1. Copy of most recent eyeglass prescription and extra set of eyeglasses. (Note: Contact lenses may not be authorized depending upon Duty assignment.)
- ☐ 2. Extra hearing aid/batteries.
- ☐ 3. Documentation of significant medical/dental conditions not documented in military medical/dental records.
- ☐ 4. Copy of prescription(s) issued by physician/dentist or other documentation of approved medication(s). Minimum 90 days supply of medications.
- ☐ 5. Documentation to support enrollment of exceptional family member in available Navy/DOD programs.
- ☐ 6. Documentation of enrollment in TRICARE SELRES Dental Program (TSRDP).

F. PERSONAL

- ☐ 1. Driver's license (to support issuance of government license).
- ☐ 2. For those authorized POV travel, vehicle registration and insurance documentation.
- ☐ 3. Documentation to support any claim for delay/exemption.

***NOTE:** If requirements listed above for service record/PSD and security clearance are already reflected in your service record, you do not need to bring additional documents. Any doubts, bring documents!

CHAPTER 23

NAVY RESERVE REEMPLOYMENT RIGHTS

2301. General. On 13 October 1994, Congress enacted the Uniformed Services Employment and Reemployment Rights Act (USERRA), a complete rewrite of the Veterans' Reemployment Rights (VRR) law, first enacted in 1940. USERRA is now codified as 38 U.S.C., sections 4301-4333. USERRA applies to persons who apply for reemployment with their pre-service employers on or after 12 December 1994 (60 days after enactment).

1. USERRA preserves the VRR rights of persons who applied for reemployment prior to that date.

2. Under USERRA, 38 U.S.C., 4303(13), service in the uniformed services means the performance of duty on a voluntary or involuntary basis in a uniformed service under competent authority and includes active duty, ADT, IADT, IDT, etc., and a period for which a person is absent from a position of employment for the purpose of an examination to determine the fitness of the person to perform any such duty.

2302. Applicability. Like the VRR law, USERRA applies to voluntary as well as involuntary military duty, in peacetime as well as wartime. USERRA applies to the Federal government as a civilian employer (including non-appropriated fund (NAF) activities), to State and local governments, and to private employers, regardless of size.

2303. Eligibility Criteria. To have the right to reemployment following a period of service, including a short period such as IDT, members must meet the following eligibility criteria:

1. Hold a civilian job.
2. Give prior notice to the employer that they will be leaving that job for service in the uniformed services.
3. Must not exceed the 5-year cumulative limit on the duration of service.
4. Be released from service under honorable conditions.

5. Report back to work in a timely manner or submit a timely application for reemployment.

2304. Position of Employment. Per 38 U.S.C., 4312, even if the member's job is considered temporary, the individual can have reemployment rights unless the employer can establish to the satisfaction of a court that the member's employment is for a brief, non-recurrent period and there is no reasonable expectation that such employment will continue indefinitely or for a significant period.

2305. Notice to Employer

1. Under USERRA, prior notice to the civilian employer is required, regardless of the category of service to be performed. The notice can be verbal or written, and it can be provided either by the person who is to perform service in the uniformed services or by an appropriate officer of the uniformed service in which the service is to be performed. Figure 23-1 is a sample of a letter that a Navy Reserve unit CO could send to the employer of a unit member, notifying such employer of a unit's IDT schedule, ADT, or recall to active duty.

2. USERRA does not specify how much advance notice is required, but it is strongly recommended that members give the employer as much advance notice as possible. If the members have little notice from the Navy, the lateness of the notice to the employer will not be held against them, but if the members have advance notice from the Navy and intentionally withheld that notice from the employer until the last moment, and if the lateness of the notice causes severe disruption of the employer's operations, a court could hold that the member does not have reemployment rights.

3. Advance notice to the employer is not required if it is precluded by military necessity under 38 U.S.C., 4312(b). The determination of military necessity is to be made by military authorities and is not subject to judicial review. It is conceivable that, in the most unusual circumstances, it could be necessary to classify not only an activated unit's destination and mission but also the fact of activation. Such a determination of military necessity should not be made lightly.

4. Notice to the employer is also not required in cases where it is deemed to be impossible or unreasonable per 38 U.S.C., 4312(b). For example, if a member was notified at 2200 to report to a military airfield for activation and deployment at 0600 the next morning, and if the member's employer is not open at night and the member does not have the employer's home telephone number, it could be determined that advance notice was impossible or unreasonable. It is envisioned that this will be a rare exception to the notice requirement because the member can give such notice in any number of ways (e.g., in person, by mail, by telephone or telegraph, etc.).

2306. Limit on Duration of Service. Under USERRA, a reservist can serve in the uniformed services for up to 5 years and have reemployment rights. This limit is cumulative, but only so long as the member is employed by or seeking reemployment with the same civilian employer. When the member starts a new job with a new employer, a fresh 5-year entitlement applies.

1. Much of the service that a member may perform is exempted from the 5-year limit.

a. If the member is involuntarily recalled to active duty from a Navy Reserve status, or if the member's active duty period is involuntarily extended, that period of involuntary service does not count toward the 5-year limit, even when a later period of voluntary service is added. (38 U.S.C., 4312(c)).

b. Periodic Navy Reserve duty (e.g., IDT and ADT) does not count toward the 5-year limit.

c. A longer period of Navy Reserve training can be excluded from the 5-year limit if SECNAV determines and certifies in writing that such training is necessary for professional development or for skill training or retraining per 38 U.S.C., 4312(c)(3).

2. Voluntary active duty performed can be excluded from the 5-year limit if SECNAV determines that the duty is in support of a critical mission or requirement of Navy or if SECNAV determines that the duty is in support of a mission for which other reservists have been involuntarily recalled. (38 U.S.C., 4312(c)(4)(C) and 4312(c)(4)(D)). Note that if the member is in

any danger of exceeding the 5-year limit with the current employer, the member should seek legal advice before agreeing to voluntary duty which may cause the member to exceed the limit and lose reemployment rights.

2307. Character of Service. Per 38 U.S.C., 4304, if a member is courts-martialed and is awarded one of the following punitive actions, the member will lose reemployment rights:

1. Bad Conduct Discharge (BCD).
2. Dishonorable Discharge (DD).
3. Other-than-Honorable Discharge (OTH).
4. Dismissal.
5. Dropped from the rolls of the Navy because of a lengthy period of unauthorized absence or a civilian conviction.

2308. Timely Return to Work. Under USERRA, the deadline for a member to report for work or apply for reemployment depends upon the duration of the period of service, not the category.

1. If the period of service was for less than 31 days, including IDT and most periods of annual ADT, members must report for work not later than the beginning of the first regularly scheduled workday following the completion of the members' IDT or ADT allowing for an 8-hour grace period upon completion of travel from the location where IDT or ADT was performed to the member's residence. This grace period is allotted for rest between travel and the members resuming their normal civilian work schedule.

- a. For example, if the member's weekend of IDT ends at 1700 on Sunday, and takes 4 hours for the member to drive home, and the member's normal workday is shift work which commences at 0200 the following Monday, the member need not report for work until the regularly scheduled shift on Tuesday. If reporting for work at the first regularly scheduled working period that next day, as described above, is impossible or unreasonable because of factors beyond the member's control,

the member must report for work as soon as possible thereafter. For example, an automobile accident on the return trip could extend the deadline for the member to report for work.

2. Following a period of service of 31-180 days, the member must submit an application for reemployment within 14 days following the completion of that service per 38 U.S.C., 4312(e) (1) (C).

3. Following a period of service of 181 days or more, the member must submit an application for reemployment within 90 days per 38 U.S.C., 4312(e) (1) (D).

4. Any of these deadlines can be extended by up to 2 years if the member is hospitalized or convalescing for a service-connected injury or illness per 38 U.S.C., 4312(e) (2) (A).

5. Following a period of service of 31 days or more, and upon request by the member's employer, the member is required to provide such documentation as is readily available to establish that the application for reemployment is timely, that the member has not exceeded the 5-year limit, and that the member is not disqualified for reemployment by virtue of having received a punitive or OTH discharge (see section 2307 of this chapter). Such documentation could include a DD 214, an endorsed copy of the member's orders, or a letter from the member's CO or the PERSUPPDET.

a. If the documentation does not yet exist or is not readily available, the employer is required to reemploy the member promptly while awaiting documentation.

b. If the documentation establishes that the member is not entitled to reemployment, the employer is permitted to discharge the member and to terminate any benefits that have been provided per 38 U.S.C., 4312(f) (3).

2309. Entitlements Upon Return. If the member meets the eligibility criteria described above, the following basic entitlements apply:

1. Prompt reinstatement.

2. Accrued seniority, as if the member had been continuously employed.
3. A position of exact or equivalent status.
4. Reinstatement of health insurance coverage.
5. Training or retraining.
6. Special protection against discharge, except for cause.

2310. Prompt Reinstatement

1. After a period of up to 30 days of service, including most Navy Reserve training, the member must report for work at the start of the first regularly scheduled working period on the first day after the completion of the service and the time reasonably required for safe transportation. When members report for work as required, they are entitled to immediate reinstatement.

2. After a longer period of service, the member is required to submit an application for reemployment. The employer is required to act upon the application and reemploy the member promptly, generally within a few days or at the start of the next pay period. It would be unlawful for the employer to make the member wait for a vacancy, because the member's right to reemployment is not contingent upon there being a vacancy.

2311. Accrued Seniority. In its first case applying the 1940 VRR law, the Supreme Court enunciated the "escalator principle" when it held

"The returning veteran does not step back on the seniority escalator at the point he stepped off. He steps back on at the precise point he would have occupied had he kept his position continuously during his military service."

1. 38 U.S.C., 4316(a) expressly ratifies the escalator principle, and 38 U.S.C., 4318 applies this principle to all sorts of pension plans, including defined contribution plans as well as defined benefit plans.

a. If the member meets the eligibility criteria, and if the member's employer has a system of seniority, then the member must be treated as if continuously employed for all seniority purposes.

b. If the member would have been continuously employed and would have received a pay raise or promotion based upon seniority, then the member is entitled to that pay raise or promotion upon reemployment.

c. The escalator principle applies to informal seniority systems, based upon custom or practice, as well as formal systems set forth in collective bargaining agreements.

2. 38 U.S.C., 4318 requires that each member be treated as continuously employed for purposes of civilian pension.

a. If the member would normally contribute to a pension plan while employed, then the member must make up those contributions after reemployment.

b. 38 U.S.C., 4318(b)(2) gives each member an extended period to make up back contributions, without interest. That period extends for three times the most recent period of service or 5 years, whichever is less.

2312. Status. Following a period of less than 91 days of service in the uniformed services, the member is entitled to the exact position of employment, including seniority credit for the member's period of service per 38 U.S.C., 4313(a)(1)(A).

1. If the period of service is for 91 days or more, the employer has the option to reemploy the member in another position of like seniority, status, and pay.

2. For example, if the member was the nurse manager of a medical facility prior to the period of service, reinstating the member as the assistant nurse manager is not satisfactory, even if the pay is the same, because that is not the same status.

2313. Reinstatement of Health Insurance Coverage. If members meet USERRA's eligibility criteria, then they are entitled to immediate reinstatement of health insurance coverage, for the members and their family. There must be no waiting period and

no exclusion of "pre-existing conditions," other than those conditions which the DVA has determined to be service-connected (38 U.S.C., 4317(b)).

2314. Training and Other Accommodations

1. If members are gone from their civilian job for months or years, they may find many changes on their return. Even if equipment and methods have not changed, the member's civilian job skills may have been dulled by a long period without use. If members must be qualified in order to be re-employed, 38 U.S.C., 4313(a)(2)(B) requires the employer to make "reasonable efforts" to qualify members. Such efforts could include training or retraining.

2. If, upon return for employment, the member is suffering from a service-connected disability, the employer is required to make "reasonable efforts" to accommodate that disability per 38 U.S.C., 4313(a)(3). For example, an employer could be required to lower an assembly line to enable the member to perform work despite having lost legs to an enemy land mine. If the disability cannot be accommodated through reasonable employer efforts, the employer must reemploy the member in some other position of like seniority, status, and pay or the closest approximation thereof, consistent with the circumstances of the member's case (38 U.S.C., 4313(a)(3)(B)).

2315. Special Protection Against Discharge

1. If the period of service was for 181 days or more, the member cannot be discharged, except for cause, within 1 year after proper reinstatement per 38 U.S.C., 4316(c)(1).

2. If the period of service was for 31-180 days, the member cannot be discharged, except for cause, within 180 days after the member's proper reinstatement per 38 U.S.C., 4316(c)(2). If the member is discharged during this period of special protection, the employer must bear a heavy burden of proof to establish that the member was discharged for cause.

2316. Entitlements During Service

1. If the employer provides holiday pay, Christmas bonuses, or other non-seniority benefits to employees who have been

furloughed (laid off) or employees on some form of non-military leave of absence (such as jury leave), the employer must provide members the same benefits while they are away from work for service in the uniformed services per 38 U.S.C., 4316(b)(1)(A).

2. If the employer has more than one form of non-military leave, the comparison should be with the employer's most generous form of leave. The comparison must be for comparable periods of time. The member cannot compare a 5-day jury leave with a 5-year military leave.

3. A new provision in USERRA gives members the right to elect continued health insurance coverage, for the members and their family, through the members' civilian job, while they are away from that job for service in the uniformed services per 38 U.S.C., 4317(a). This is not automatic. The members must inform the employer that this election is being made. The employer will not necessarily inform the member regarding this provision.

4. If the period of service is for less than 31 days, including most Navy Reserve training, the employer is permitted to charge the member only the employee share, if any, of the cost of that insurance coverage per 38 U.S.C., 4317(a)(1)(B).

5. If the period of service is for 31 days or more, the employer is permitted to charge the members up to 102 percent of the entire premium, including the part normally paid by the employer. If members elect this coverage for a period of service of more than 30 days, they have the right to that continued coverage, while the members pay the premium, during their period of service plus the period (generally up to 90 days) when they can apply for reemployment, or for 18 months after the members' absence from the civilian job began, whichever is the shorter period (38 U.S.C., 4317(a)(1)(A)).

6. Members are advised to elect this continued coverage during periods of less than 31 days of service in the uniformed services, including most Navy Reserve training. Under 10 U.S.C., 1076(a)(2)(A), members are entitled to use the military health care system, including CHAMPUS/TRICARE, for their spouses and family members only if the members are on a period of continuous service of 31 days or more. Electing this

continued coverage for such short military tours will ensure that there is no gap in their family health insurance coverage.

2317. Prohibition on Discrimination. 38 U.S.C., 4311(a) provides as follows:

"A person who is a member of, applies to be a member of, performs, has performed, applies to perform, or has an obligation to perform service in the uniformed services shall not be denied initial employment, reemployment, retention in employment, promotion, or any benefit of employment by an employer on the basis of that member-ship, application for membership, performance of service, application for service, or obligation."

This is a very broad provision, both as to the categories of persons protected and as to the scope of the protection provided. 38 U.S.C., 4311(b) provides that if one of the protected factors, such as membership in a uniformed service, was a motivating factor (not necessarily the only reason) in an employer's decision not to hire the member or to take some adverse action against the member, that decision is unlawful unless the employer can prove (not just say) that the same decision would have been made for lawful reasons in the absence of that protected factor.

2318. Assistance and Enforcement. Questions concerning securing USERRA rights should be directed to the National Committee for Employer Support of the Guard and Reserve (NCESGR) at 1-800-336-4590. NCESGR will put the member in contact with one of its volunteer ombudsmen or with Veterans' Employment and Training Service (VETS), United States Department of Labor. USERRA gives each member the right to free assistance of VETS and free legal representation by Department of Justice or Office of Special Counsel, even if the member is claiming reemployment rights with respect to the Federal government as the civilian employer.

2319. Practical Suggestions. The following suggestions are offered for Navy Reservists and their COs with respect to maintaining employer support of the Navy Reserve:

1. Provide ample notice to employers.

2. Spread around extra duty.
3. Avoid misuse of employer equipment, supplies, and time.
4. Recognize cooperative employers.

2320. Provide Ample Notice. Many reservists magnify their employer-support problems by waiting until the last moment to notify their employers of expected absences from work for Navy Reserve training or service. It is strongly recommended that members give their employers as much advance notice as possible to enable the employers to make the necessary arrangements to cover the members' work in their absence.

1. Reserve unit COs can assist in this regard by establishing a drill schedule, reducing it to writing, and informing the employer of each unit member of that schedule. Figure 23-1 is a sample notification letter. It is equally important that unit commanders do not deviate from the schedule unless it is essential to do so. If the commander changes the schedule, either that commander or the unit members, or both, must notify the employers of the change.

2. USERRA does not require written notice, but it would be prudent to give the notice in writing, and to keep a copy, in case a question arises as to whether such notice had been given.

2321. Spread Around Extra Duty. The right to be away from work for Navy Reserve training or service is not limited to 1 weekend of IDT per month and 2 weeks of active duty for training per year. COs are advised to spread around extra duty among many unit members, instead of assigning all such duty to a perennial volunteer. Spreading around such duty limits the burden on any one employer-employee relationship, and it also represents a more prudent use of limited training funds.

2322. Avoid Abuse of Employer Equipment, Supplies, and Time. USERRA gives each reservist the right to time off from work to perform Navy Reserve training or service. The law does not give members the right to do reserve unit activities while "on the clock" at their civilian job, e.g., it certainly does not give members the right to use the employer's word processor and photocopier to produce a unit's Plan of the Month. In addition, Navy Reserve unit COs are urged to avoid routinely calling

BUPERSINST 1001.39E
26 Apr 05

Reservists at work for recall exercises and similar reasons. Conduct such exercises during non-working hours, if possible, and call unit members at home for Navy Reserve business.

2323. Recognize Cooperative Employers. Many employers go far beyond what USERRA requires in supporting reservists. For example, many employers make up the difference in pay when an employee is away from work for Reserve training. Especially cooperative employers should receive recognition through NCESGR. Call 1-800-336-4590 for details.

SAMPLE TRAINING NOTIFICATION TO EMPLOYER

Re: Your employee _____

Dear _____:

Since 1973, the Armed Forces of the United States have obtained personnel entirely through voluntary enlistment. Since the fall of the Berlin Wall and the demise of the Soviet Union, the size of the active duty military force has been reduced by more than 25 percent, from 2.1 million to under 1.5 million. However, this is still a dangerous world, and situations around the world may from time to time require our President to dispatch American military personnel.

Our country has found it cost-effective to rely increasingly upon part-time servicemembers in the National Guard and Reserve, instead of full-time active duty personnel, for many missions that may be needed in emergency situations but may not be needed to the same degree on a day-to-day basis during peacetime. National Guard and Reserve personnel are available to be recalled to active duty on short notice when they are needed. The cost to the Government, and to you as a taxpayer, for this availability is a small fraction of the cost of keeping someone on active duty full-time. Today, Reservists and National Guard members comprise about half of the total pool of available military personnel.

Under the Total Force Policy, it is necessary to recruit and retain National Guard and Reserve personnel, and it is also necessary to have them engage in periodic and special training to maintain and enhance their military skills and readiness. Some of today's weapon systems are very complex, and we as a nation simply cannot afford to rely upon teaching these systems to personnel after an emergency arises.

On October 13, 1994, the Uniformed Services Employment and Reemployment Rights Act (USERRA) was enacted which codified sections 4301-4333 of Title 38, U.S.C., is a complete rewrite of the 54-year-old law that protected the civilian job rights of veterans and Reserve Component members.

Figure 23-1

SAMPLE TRAINING NOTIFICATION TO EMPLOYER (Cont'd)

Section 4312(a) (1) of USERRA requires a person leaving a civilian job for military training or service, or an appropriate officer of the service, to notify the civilian employer in advance unless giving advance notice is precluded by military necessity or otherwise impossible or unreasonable. The employee named above is a member of the unit I command and will be participating in military training or service as stated below. I have urged this employee to alert the appropriate supervisor to upcoming military-related absences, but we believe that this letter is sufficient to comply with USERRA's notice requirement.

(check all that apply)

- ☐ The subject employee is a member of my unit and will be expected to engage in inactive duty training (IDT) in accordance with the attached schedule. If there are any changes in this schedule, either I or the employee will notify you as far in advance as possible.
- ☐ The subject employee will begin a short tour of military training or service on _____, and will have the right to time off from this job to participate in this training or service. This includes reasonable travel and rest time, if necessary. This period of training or service is scheduled to end on _____, and you can expect this employee to return to work on or about _____, unless the return is delayed by factors beyond our control.
- ☐ The subject employee will begin a longer tour of military service or training on _____. This person may have reemployment rights upon completion of this service.

Figure 23-1 (Cont'd)

SAMPLE TRAINING NOTIFICATION TO EMPLOYER (Cont'd)

If you want reassurance that this employee has, in fact, engaged in military training or service as scheduled, please call me at _____. USERRA provides the employee the right to time off for military training whether or not employers find it convenient. It also notes the employee's right to time off for military training or service is in addition to whatever right the employee otherwise has to vacation or time off. I want to work with you to minimize the problems caused by military service, but please recognize that my first responsibility is to ensure that my unit is ready to serve if called upon. I cannot reschedule my entire unit's training to accommodate the desires of the employer of one unit member. If members miss training, they may be unprepared to perform their mission for our country.

If you have questions about the need for employer support of Reservists and National Guard members, or about the laws that protect the civilian job rights of these members, please call the National Committee for Employer Support for the Guard and Reserve at 1-800-336-4590.

Sincerely,

Commanding Officer
