

FY-27 RESERVE LDO/CWO PRIMARY DISCRETE REQUIREMENTS

Objective is to select applicants that are technically, operationally and administratively proven while demonstrating **Sustained Superior Performance** (i.e. Consistent Hard/Soft evaluation breakouts; above RSCA etc.) in increased levels of technical management within their specialty.

If the applicants' quality supports the total number of quotas, select to the requested numbers. However, if the quality level does not support the total number, it is important that only those who are "**Best and Fully Qualified**" are selected. In all cases, related civilian experience must be considered.

If a candidate **does not meet all** the criteria for being fully qualified, they are considered to have met some of the discrete requirements.

If a fully qualified candidate does not meet all the criteria to be among the best qualified, they are considered to have **met most** of the discrete requirements.

If a candidate meets all the criteria for being among the best qualified, they are considered to have **met all** the discrete requirements

Submarine Engineering/Repair (6235)

The 623X designator is open to both Surface and Submarine ratings with maintenance and repair backgrounds to include former Nuclear-qualified engineering Sailors.

Core Expectations:

Preferred candidates demonstrate technical expertise in the field of submarine hull, mechanical, and electrical maintenance.

Favorable consideration should be given to candidates who have previously served on submarines, within repair departments on-board Submarine Tenders (Expeditionary Maintenance reserve units) or Shipyards (Surgemain reserve units) (civilian shipyard experience is equally acceptable) and possess extensive knowledge and experience in Intermediate-level repairs and Quality Assurance (QA) and Maintenance & Material Management (3M).

Technical leadership in non-standard units such as Unmanned Undersea Vehicle Squadrons (UUVRON), Maritime Expeditionary Security Squadron (MSRON), or Board of Inspection and Survey (INSURV) should also be given consideration.

All applicants should be well rounded and have a mixture of the following qualifications/NECs, and supervisory level watch qualifications:

FY-27 RESERVE LDO/CWO PRIMARY DISCRETE REQUIREMENTS

Qualification Tiers:

1. Fully Qualified Candidates

To be considered **fully qualified**, applicants should meet the following **minimum requirements**:

- **Leadership and Maintenance Experience:**
 - Documented strong leadership and maintenance experience in submarine/undersea repair.
 - Experience in managing or executing organizational and intermediate level submarine/undersea repairs. Within repair departments on-board Submarine Tenders or Shipyards/IMAs.

Proficiency in Maintenance Planning and Administrative functions:

- Documented experience in organizational or intermediate level maintenance planning and execution.
- Documented experience in maintenance planning and execution in intermediate-level repairs, SUBSAFE/DSS/SOC QA Programs, and 3M

Desired Qualifications/ NECs:

- Nuclear NECs (if applicable, not a discriminating factor)
- N13O-N16O, N23O-N26O or legacy NECs 3353-3356, 3383-3886
- Supervisory NECs N13S-N16S, N23S-N26S or legacy NECs 3363-3366, 3393-3396

2. Best Qualified Candidates

Candidates who exceed the minimum requirements and are considered **highly competitive** should have a mixture of the following supervisory **and technical qualifications**.

- **Leadership and Maintenance Experience:**
 - Served on Active duty as shipboard Division Leading Petty Officer or Leading Chief Petty Officer or ashore equivalent.
 - Experience in SUBSAFE or DSS-SOC corrective maintenance at the intermediate level.
 - Proven ability to plan, coordinate and execute submarine maintenance availabilities.
 - Demonstrated strong performance in designator relevant shore billets, such as instructor Duty, Performance Monitoring Team (PMT), or Intermediate Maintenance Activities (IMA).
- **Pinnacle Watch Station Qualifications** (two or more):
 - **Submarine:** PILOT, CO-PILOT, Diving Officer of the Watch (DOOW), Chief of the Watch (COW), Duty Chief Petty Officer (DCPO) and Command Duty Officer (CDO). Qualifications such as PILOT, DOOW, EOOW, WES and Mission Watch Supervisor are equivalent qualifications and should be given equal weight.

FY-27 RESERVE LDO/CWO PRIMARY DISCRETE REQUIREMENTS

- **Surface:** CDO, EOOW, CVN-COW, Propulsion Plant Watch Supervisor (PPWS), and Propulsion Plant Watch Officer (PPWO).
- **Expeditionary:** SSOIC, CDO, RDO, Repair Duty Chief (RDC), QAS, SEAL Delivery Vehicle Supervisor, or Dry Combat Submersible Maintenance Supervisor.
- **Shore:** CDO, RDO, RDC, URC Rescue Officer, MTS, or AQAO.

Special Consideration: Candidates who meet Fully and Best Qualified requirements and are currently serving in leadership roles in Expeditionary Maintenance units such as: Unit Leading Petty Officer (LPO), Unit Leading Chief Petty Officer (LCPO), and Unit Senior Enlisted Leader (SEL) with demonstrated superior performance supporting INDOPACOM Submarine Maintenance Operations for at least 18 months.

Post-Commissioning Assignments:

Newly commissioned officers can expect to be assigned, but not limited to, key operational roles such as:

- Submarine Tender Maintenance Officer
- Undersea Unmanned Vehicle (UUV) Maintenance Officer
- TYCOM Staff Material Officer
- INSURV Maintenance Officer

FY-27 RESERVE LDO/CWO PRIMARY DISCRETE REQUIREMENTS

Submarine Ordnance (6265)

Applicants must from a submarine rating with conventional weapons handling, operations, and maintenance background. This includes candidates who served in Submarine ratings while on Active Duty but may have cross-rated while transitioning to the Navy Reserve.

Core Expectations: Preferred candidates demonstrate technical expertise in the field of submarine conventional weapons handling, Qualification/Certification (QUAL/CERT) programs.

Favorable consideration should be given to candidates who have previously served on submarines, and within repair departments on-board Submarine Tenders (Expeditionary Maintenance reserve units) and Mobile Mine Assembly Units (MOMAU).

Qualification Tiers:

1. Fully Qualified Candidates

To be considered **fully qualified**, applicants should meet the following **minimum requirements**:

- **Leadership and Maintenance Experience:**
 - Conventional weapons and associated support subsystems
 - Planning, training, leading, and supervising weapons shipping and handling evolutions
 - Managing and directing subordinates in the operation, maintenance, repair, handling, and safety of missile and torpedo ordnance and related delivery systems.
- **Desired Qualifications:**
 - **Submarine:** The preferred source rate is Torpedoman (TM) but is open to any weapons rate that has demonstrated expertise and leadership experience with torpedo and TLAM handling. Former Submarine TM's, MT's, and FT's forced to convert to other ratings should be considered.
 - **Surface:** Open to any weapons rate that has demonstrated expertise and leadership experience with torpedo and TLAM handling.

2. Best Qualified Candidates

Candidates who exceed the minimum requirements and are considered **highly competitive** should have:

- **Leadership and Maintenance Experience:**
 - Experience with Conventional Ordnance Certification Program Management (CWHs/QASO experience preferred) and Ordnance Management Systems experience (Ordnance Information System-Retail [OIS-R] and/or Retail Ordnance Logistics Management [ROLM])
 - Managing and directing subordinates in the operation, maintenance, repair, handling, and safety of missile and torpedo ordnance and related delivery systems

FY-27 RESERVE LDO/CWO PRIMARY DISCRETE REQUIREMENTS

- Weapons handling and Intermediate Maintenance Activity (IMA) weapons repair assignments
- **Desired Qualifications:**
 - **Submarine:** Conventional Weapons Handling Supervisor (CWHS)
 - **Surface:** Quality Assurance/Safety Officer (QA/SO), leadership roles within Navy Reserve Expeditionary Maintenance units
 - **Shore:** Weapons handling and Intermediate Maintenance Activity (IMA) weapons repair assignments
- **Special Consideration:** Candidates who meet Fully and Best Qualified requirements and are currently serving as Unit Leading Petty Officer, Unit Leading Chief Petty Officer and Unit Senior Enlisted Leader of Expeditionary Maintenance units with documented Sustained Superior Performance (SSP) providing INDOPACOM weapons handling support to forward deployed Submarine Tenders.

Post-Commissioning Assignments:

Newly commissioned officers can expect to be assigned, but not limited to, key operational roles such as:

- Department Head of Expeditionary Maintenance unit with weapons handling mission in support of forward deployed Submarine Tender.
- Executive Officer of Expeditionary Maintenance unit with weapons handling mission in support of forward deployed Submarine Tender.
- Leadership role in Mobile Mine Assembly Unit (MOMAU) overseeing mine assembly, weapons handling, and QUAL/CERT requirements for SUBFOR missions.

FY-27 RESERVE LDO/CWO PRIMARY DISCRETE REQUIREMENTS

Submarine Electronics (6285)

Applicants must have a background in the field of non-nuclear electronics. They must possess experience in the installation, operation, and maintenance of electronics systems installed in units of the surface or submarine force.

Core Expectations:

Preferred candidates demonstrate technical expertise in the field of surface or submarine electronics maintenance and repair.

Favorable consideration should be given to candidates who have previously served on submarines, within repair departments on-board Submarine Tenders (Expeditionary Maintenance reserve units) or Shipyards (Surgemain reserve units) (civilian shipyard experience is equally acceptable) and possess extensive knowledge and experience in Intermediate-level repairs and Quality Assurance (QA) and Maintenance & Material Management (3M).

Qualification Tiers:

1. Fully Qualified Candidates

To be considered **fully qualified**, applicants shall meet **at least one** of the following **minimum requirements**:

- **Leadership and Maintenance Experience:**
 - Candidates with demonstrated active-duty Submarine electronics maintenance and leadership experience in the ET, FT, or Submarine IT ratings (ITN or ITR)
 - Candidates with demonstrated active-duty surface electronics maintenance and leadership experience in ET, FC, FCA.

2. Best Qualified Candidates

Candidates who exceed the minimum requirements and are considered **highly competitive** should have:

- **Leadership and Maintenance Experience:**
 - Served on active duty as Division Leading Petty Officer or Leading Chief Petty Officer
 - Served in Reserves as Unit Leading Petty Officer, Unit Leading Chief Petty Officer, or Unit Senior Enlisted Leader
 - Proven ability to plan, coordinate and execute submarine maintenance availabilities.
 - Demonstrated strong performance in designator relevant shore billets, such as electronics maintenance instructor Duty, Micro-Miniature Repair (2M), Module Screening and Repair Activity (MSRA), or electronics repair at Intermediate Maintenance Activities (IMA).

FY-27 RESERVE LDO/CWO PRIMARY DISCRETE REQUIREMENTS

- **Desired Qualifications:**
 - 3M-304 Division Officer or above
 - QA-305 Workcenter Supervisor or above
- **Breadth of Experience:**
 - Candidates who have served at least 18 months as a Expeditionary Maintenance unit Leading Petty Officer, unit Leading Chief Petty Officer, or Unit Senior Enlisted Leader supporting electronics maintenance onboard Submarine Tenders in the INDOPACOM AOR.

Post-Commissioning Assignments:

Newly commissioned officers can expect to be assigned, but not limited to, key operational roles such as:

- Submarine Tender Expeditionary Maintenance Officer
- Executive Officer of an Expeditionary Maintenance Unit
- Commanding Officer of an Expeditionary Maintenance Unit
- Undersea Unmanned Vehicle (UUV) Maintenance Officer
- Numbered Fleet SATCOM Planning Officer
- Numbered Fleet Battle Watch Captain

FY-27 RESERVE LDO/CWO PRIMARY DISCRETE REQUIREMENTS

Submarine Communications (6295)

Preferred candidate demonstrates a strong background in radio frequency (RF) communications, Key Management Infrastructure (KMI), and Internet Protocol (IP) as it relates to managing submarine networks.

Core Expectations:

Preferred candidates demonstrate technical expertise in the field of submarine communications maintenance, operations, and repair.

Favorable consideration should be given to candidates who have previously served on submarines, within repair departments on-board Submarine Tenders (Expeditionary Maintenance reserve units), Broadcast Control Authority (BCA) operations, Type Commander (TYCOM) N6, and possess extensive knowledge and experience in Intermediate-level repairs and Quality Assurance (QA) and Maintenance & Material Management (3M).

Qualification Tiers:

1. Fully Qualified Candidates

To be considered **fully qualified**, applicants should meet the following **minimum** requirements:

- **Leadership and Maintenance Experience:**
 - Sustained Superior Performance (SSP) in Submarine Communications Maintenance & Material Management (3M) 303 Work Center Supervisor (WCS).
- **Desired Qualifications:**
 - ITR: Radio Supervisor (SSBN), Radioman of the Watch (RMOW) (SSN/SSGN)
 - ITN: Cyber Technician, LAN Technician of the Watch

2. Best Qualified Candidates

Candidates who exceed the minimum requirements and are considered **highly competitive** should have:

- **Leadership and Maintenance Experience:**
 - Served on active duty as Division Leading Petty Officer or Leading Chief Petty Officer
 - Served in Reserves as Unit Leading Petty Officer, Unit Leading Chief Petty Officer, or Unit Senior Enlisted Leader
 - Proven ability to plan, coordinate and execute submarine maintenance availabilities.
- **Pinnacle Watch Station Qualifications** (one or more):
 - **Submarine:**
 - Chief of the Watch (COW)

FY-27 RESERVE LDO/CWO PRIMARY DISCRETE REQUIREMENTS

- Duty Chief
- Dive Officer of the Watch (DOOW)
- Pilot, Co-Pilot
- Qualified KMI Operating Account Manager
- **Shore:**
 - Broadcast Control Authority (BCA) Chief of the Watch (COW)
 - Broadcast Control Authority (BCA) Communications Watch Officer (CWO)
 - Broadcast Supervisor
 - Experience with Take Charge and Move Out (TACAMO)
 - Qualified Master Training Specialist (MTS)
- **Breadth of Experience:**
 - Qualified Cyber Inspector
 - Qualified Groom Team Leader
 - Strategic Command (STRATCOM) Experience
 - Submarine Operating Authority (SUBOPAUTH) Experience
 - Candidates with documented superior performance in a variety of undersea maintenance repair (Submarine Tenders, IMA/IMF, NSW, URC, and Special Projects).

Special Consideration: Candidates who meet fully and best qualified requirements and are currently serving as Unit Leading Petty Officer, Unit Leading Chief Petty Officer and Unit Senior Enlisted Leader of Expeditionary Maintenance, or Submarine Group (SUBGRU) units with documented Sustained Superior Performance (SSP).

Post-Commissioning Assignments:

Newly commissioned officers can expect to be assigned, but not limited to, key operational roles such as:

- Communications Officer at COMSUBLANT or COMSUBPAC Submarine Operating Authority (SUBOPAUTH) in billets that support Broadcast Control Authority (BCA)
- Future roles in COMSUBGRU and Expeditionary Maintenance units

FY-27 RESERVE LDO/CWO PRIMARY DISCRETE REQUIREMENTS

Aviation Maintenance (6335)

Applicants must have acquired and demonstrated the appropriate aircraft maintenance experience and knowledge through qualifications and previous assignments. Applicants with civilian FAA (Federal Aviation Administration) A&P (Airframe and Power Plant) mechanics certificates, work as production technicians or engineers for major aerospace manufacturing companies should be given strong consideration for these designators.

Qualification Tiers:

1. Fully Qualified Candidates

To be considered **fully qualified**, applicants should meet the following **minimum requirements**:

- **Leadership and Maintenance Experience:**
 - Operationally and administratively proven while performing in positions of increased leadership and responsibility than that of their peers.
 - Demonstrated strong adaptability and a level of experience and maturity that indicates a positive potential for success as an officer.
 - Demonstrated a thorough working knowledge and comprehension of aviation maintenance programs, processes, practices and procedures within their platform/community and aircraft maintenance rating.
- **Desired Qualifications:**
 - Aircraft Ordnance manager qualifications to include quality assurance/safety observer (QASO) and collateral duty inspector (CDI).
 - Warfare Qualification primary

2. Best Qualified Candidates

Candidates who exceed the minimum requirements and are considered **highly competitive** should have:

- **Leadership and Maintenance Experience:**
 - Recent maintenance experience in operational squadrons.
 - Demonstrated a commitment to maximizing qualification opportunities within their current and prior billets. Multiple Type/Model/Series, work center, and out-of-rate maintenance qualifications are valued.
- **Multiple Pinnacle Watch Station Qualifications** (four or more):
 - Maintenance Control Supervisor/LPO/LCPO
 - Authorized to release aircraft Safe for Flight
 - FRC/AIMD Main Production Control
 - Flight Deck Coordinator (FDC)

FY-27 RESERVE LDO/CWO PRIMARY DISCRETE REQUIREMENTS

- Line Division LPO/LCPO
- Division Leading Petty Officer (LPO)/Leading CPO (LCPO)
- Quality Assurance Representative
- Work Center Supervisor
- Phase Coordinator/F-18 Aircraft Crew Lead
- Detachment LPO/LCPO
- Collateral Duty Quality Assurance Representative (CDQAR)
- Warfare Qualification primary and secondary
- Master Training Specialist (MTS) - earned 8MTS NEC and qualified within 24 months from date of assignment to an instructor billet.
- Lean/Six Sigma Green Belt Certification - (Only available at Intermediate/Depot Level Maintenance activities (AIMD/FRC))
- **Breadth of Experience:**
 - Applicants will have evaluations that quantify how their qualifications contributed to the mission. Specific qualification use examples over time are highly valued.
 - Applicants who achieved SFF qualification for a period exceeding 120 days from the application package date are considered fully qualified with the following exceptions: Technical Directive Program Managers qualified SFF, and ratings other than AD, AE, AM, AO, and AT (DEMOT) are required to have documented usage.
 - A specific minimum frequency for LDO fully qualified applicants is not required except for non-DEMOT rates.

Special Consideration: Aviation firefighting skills; possessing the 786B Shore Base Airport & Aircraft Firefighter NEC are desired to fill specialty billets.

Post-Commissioning Assignments:

Newly commissioned officers can expect to be assigned, but not limited to, key operational roles within Type/Model/Series aviation platforms such as:

- Type/Model/Series aviation platforms
- Fleet Readiness Centers (FRCs) and various staffs.
- Control Officer (MCO)
- Quality Assurance Officer (QAO)
- Maintenance/Material Control Officer (MMCO)
- Assistant Maintenance Officer (AMO)

FY-27 RESERVE LDO/CWO PRIMARY DISCRETE REQUIREMENTS

Administration (6415)

Applicants should be operationally and administratively proven while performing in positions of increased leadership and responsibility. Applicants will have demonstrated strong adaptability and a level of experience and maturity that indicates a positive potential for success as an officer. New accession officers will be world-wide assignable as they will be assigned according to the needs of the Navy.

The core work of the 6415 community aligns to the source ratings of Personnel Specialist (PS), Yeoman (YN). Applicants from “non-source” ratings, to include Navy Counselor (NC) and Legalman (LN) must have clearly demonstrated, via written documentation (i.e. evaluations, awards, correspondence courses, professional military education etc.), sustained superior performance, plus meet the same criteria required for the PS and YN applicants outlined above.

Core Expectations:

Every billet assigned will require the applicant to rapidly function as an Administrative Officer or Pay and Personnel Officer or Division Officer. Applicants must have compiled a diverse career track, and upon commissioning, and be world-wide assignable.

Reserve Admin LDOs are expected to be able to mobilize immediately upon commissioning to support Force initiatives both CONUS and OCONUS. LDO candidates selected **must currently possess** the technical proficiencies and leadership abilities to manage an ADMIN/PERS department for both Active and Reserve Sailors at a large/operational command. Differences between Active and Reserve Component criteria: Career Milestones/Reserve Directives/Policies/Procedures/Pay and Personnel are different from Active Component. **Experience in Reserve Component only will not be sufficient to be successful in this designator.** Special consideration for candidates who have performed at least one period of extended active duty (Mobilization, Recall, ADOS).

Qualification Tiers:

1. Fully Qualified Candidates

To be considered **fully qualified**, applicants should meet the following **minimum requirements**:

- **Leadership Experience:**
 - Successfully demonstrated their ability to Lead (Sailors and processes) during at least one active-duty assignment (CONUS or OCONUS) in an operational leadership role such as LPO/LCPO in an Administration, Manpower, Pay & Personnel setting.
 - Documented Leadership/Command involvement accomplishments in several of the following: Sailor 360, Sailor of the Year, First Class Petty Officer Association President/Vice President, MWR involvement, Warfare Program Coordinators, Active Mentorship, Department/Division personnel accomplishments, to include Career Development Boards (CBDs) and Get Real, Get

FY-27 RESERVE LDO/CWO PRIMARY DISCRETE REQUIREMENTS

Better initiatives. These positions demonstrate Leadership traits that are indicative of the candidates' potential as a Limited Duty Officer.

- **Proficiency in Administrative functions:**
 - Documented sustained superior performance in each assignment while demonstrating keen knowledge, managerial skills, technical expertise, and proficiency in several of the following areas, but not limited to: Evaluations (EVALs) and Fitness Reports (FITREPs), awards, directives, correspondence, security clearance management, legal procedures, Educational Services Officer (ESO) duties, advancement/education services procedures, and records management to include Electronic Service Record (ESR) and Official Military Personnel File (OMPF) processes and procedures.
- **Proficiency in Pay and Personnel functions:**
 - Documented sustained superior performance in each assignment while demonstrating keen knowledge, managerial skills, technical expertise, and proficiency in several of the following areas, but not limited to: Navy Standard Integrated Personnel System (NSIPS), Billet Management, Enhanced Drill Management (EDM), Salesforce, Master Military Pay Account (MMPA), Personnel Distribution/Manpower (planning and requirements) to include Reserve Unit Assignment Document (RUAD) management. Travel processes Navy Reserve Order Writing System (NROWS), Defense Travel System (DTS), Department of Defense Financial Management Regulation (DoD FMR), Defense Joint military Pay System Reserve Component (DJMAS-RC)/Active Component (DJMAS-AC), and Joint Travel Regulations (JTR).

2. Best Qualified Candidates

The best and fully qualified applicants **will have** documented sustained superior performance in each assignment while demonstrating keen knowledge, managerial skills, technical expertise, and proficiency in the following:

- **Administrative functions** (correspondence, awards, performance evaluations, directives management, task management, and protocol), including leadership of administrative offices at sea or ashore (ship's secretary, administrative Leading Chief Petty Officer/Leading Petty Officer).
- **Pay and personnel functions and systems**, at sea with commands holding their own ADSN, ashore at a PSD/RSC/TSC, and/or as a Command Pay and Personnel Administrator (791F (formerly A16A) NEC).
- Proficiency in **permanent change of station/temporary duty processing procedures** to include travel claim review/processing.
- Demonstrated knowledge of the **Navy Enlisted Advancement System (NEAS)**, including participation in preparations, administration, and execution of NWAE testing cycles.
- Experience with **organization-level planning**, policies and programs.

FY-27 RESERVE LDO/CWO PRIMARY DISCRETE REQUIREMENTS

The best and fully qualified applicants **may** also have documented sustained superior performance in each assignment while demonstrating keen knowledge, managerial skills, technical expertise, and proficiency in the following:

- **Personnel distribution/Manpower** (planning and requirements), including knowledge and use of the MyNavy Assignment system, trends, and predictive analytics.
- Knowledge of **legal procedures** such as non-judicial punishment, command investigations, and administrative separation processes.
- Technical knowledge of **Command Security Manager** functions, including the Defense Information Security System and personnel and physical security administration and management.
- **Breadth of Experience:**
 - Applicants with history of diverse administrative/personnel assignments in various operational and major staff organizations **are highly desired**. Attention should be given to those applicants that have successfully completed both CONUS and OCONUS assignments. Past and current evaluations should highlight leadership experience and success in managing complex administrative and personnel matters.

Post-Commissioning Assignments:

Newly commissioned officers can expect to be assigned, but not limited to, key operational roles such as:

- Admin Officer - Department Head
- Personnel Officer - Division Officer
- N1 Division Officer
- Action Officer
- Operations and Planning
- Assigned as Staff Officers, Flag Secretaries and installation/region Admin/Legal/Personnel Officers.

FY-27 RESERVE LDO/CWO PRIMARY DISCRETE REQUIREMENTS

Security (6495)

Applicants **must** demonstrate the following:

- A strong, documented foundation and experience in Antiterrorism, Physical Security and Law Enforcement programs.
- The ability to plan, organize, train, implement and manage security measures critical to protecting military units, assets, mission- critical platforms and systems, and military and civilian personnel.
- Readiness for worldwide assignments; understanding that immediately upon commission and when “needs of the Navy” dictates, applicants may apply to and may be assigned to, various Navy Reserve billets including but not limited to NCIS, MSC, Expeditionary (e.g., MESG, etc.), staffs, and installation billets.
- Understanding that upon commissioning and learning their trade-craft, Navy Reserve Security Officers **MUST** attend Navy Security Force Officer (NSFO) training and **MUST** obtain PA1 AQD within two years.

Applicants must possess strong documented experience in one or all the following: Force Protection, Antiterrorism, Physical Security, and Law Enforcement

Core Expectations:

Applicants must have demonstrated the ability to plan, organize, and implement required security measures in defense of a vessel, installation, or High-Value Assets.

Note: Some typical Master-at-Arms skill sets, such as Military Working Dog Handler and Harbor Security Boat Coxswain, are not common among Reserve Component personnel.

Civilian Law Enforcement Experience:

Significant weight should be assigned to a candidate’s supervisory experience in civilian law enforcement leadership roles. Candidates holding present or past Sworn Supervisory Peace Officer positions such as Team Leader, Field Lead, Field Supervisor, Watch Sergeant, Watch Commander, Tactical Commander, Detective Sergeant/Lieutenant, etc. with demonstrated administrative and leadership responsibilities should be considered when noting the absence of sea duty or enlisted warfare qualification that are the norm for Active Component candidates.

Leadership in civilian law enforcement in itself is not sufficient and must be combined with a strong military force protection and/or security background.

FY-27 RESERVE LDO/CWO PRIMARY DISCRETE REQUIREMENTS

Qualification Tiers:

1. Fully Qualified Candidates

To be considered **fully qualified**, applicants should have stood (documented in block 29 and/or narrative of evaluations) and have documented sustained superior performance in multiple of the following:

- LCPO/LPO
- Area Supervisor
- Patrol Supervisor
- Watch Commander/Supervisor
- Mission Commander
- Antiterrorism/Physical Security Specialist

2. Best Qualified Candidates

Candidates who exceed the requirements to be fully qualified will be among the best qualified if they meet the following requirements:

- **Leadership and Tactical Proficiency:**

Qualified and stood (documented in block 29 and/or narratives of evaluations) with documented sustained superior performance in multiple of the following specialties, reflecting diverse shore and afloat assignments within a variety of NSF mission areas:

- LCPO/LPO tours (specifically in Force Protection and Security Operations in advanced or forward deployed environments and Navy installations are desired)
- NSF Operations Ashore/Afloat
- Law Enforcement and Investigations
- Nuclear Weapons Security Operations (NWSS-NEC P10A)
- Harbor Patrol Unit
- Military Working Dog (NEC P06A)
- Protective Services (NEC P12A)
- Expeditionary
- Chief Master-at-Arms/Independent Duty Afloat (CMAA-NEC P01A)
- Must be an assignment on an afloat platform (e.g., DDG, CG, ESB, LSD, LHA, LHD, NSW, etc.).
- Physical Security and Antiterrorism Program Management
- Master Training Specialist (MTS)
- Training and Assessments Programs
- Proven record of successfully leading large teams of NSF (> 25), managing security department missions in multiple diverse environments (e.g., Fleet, CNIC, SWF, Expeditionary and VQ/TACAMO, etc.).

- **Highly Desired Professional Qualifications:**

- NSF Senior and/or Master Specialist qualification

FY-27 RESERVE LDO/CWO PRIMARY DISCRETE REQUIREMENTS

- **Highly Desired Personal Attributes:**
 - Chief of Naval Operations attributes of Integrity, Accountability, Initiative and Toughness; resiliency while serving in complex and arduous assignments.
 - Innovative thinking while operating in resource-challenged environments.
- **Desired professional Education:**
 - Some undergraduate education

Breadth of Experience:

Due to the large variety of missions within the Navy Security Forces (NSF), favorable consideration should be given to documented superior performance across multiple specialties and platforms (Strategic Systems Programs, Strategic Weapons Facilities, Harbor Patrol Units, Personnel Security Details, Installation, Investigations, Expeditionary Security, Corrections, etc.) within diverse duty locations.

Post-Commissioning Assignments:

Newly commissioned officers can expect to be assigned, but not limited to, key operational roles such as:

- Force Protection Officer Afloat
- Force Protection Officer Ashore
- Security Officer Ashore
- Law Enforcement Specialist
- Protection Services
- ATFP
- Division Officer
- Department Head
- Officer in Charge

FY-27 RESERVE LDO/CWO PRIMARY DISCRETE REQUIREMENTS

Civil Engineer (6535)

Applicants must possess a strong knowledge base of Naval Construction Force (NCF) and Navy Expeditionary operations, have demonstrated the ability to successfully lead while holding key leadership roles as an E-6 or higher in NCF/Expeditionary units, and have attained a Seabee Combat Warfare (SCW) qualification.

Core Expectations:

Applicants should be well-rounded in their careers, demonstrating strong potential to become a successful officer and leader in the wardroom, having demonstrated superior leadership and technical expertise in one or more of the following: Construction Management, Engineering Maintenance, Equipment Repair, Equipment Management, or Training. All applicants, upon commissioning, must be worldwide assignable to NCF, SOF support, and NECC expeditionary billets. Due to the unique nature of Seabee employment opportunities, applicants may spend several tours away from NCF commands and should not be looked at negatively. These include: NAVFAC, SPECWAR, ACB, and may include others not listed.

Qualification Tiers:

1. Fully Qualified Candidates

To be considered **fully qualified**, applicants should meet the following minimum requirements:

- **Technical Experience:**
 - Superior leadership and technical expertise in one or more of the following: Construction Management, Engineering Maintenance, Equipment Repair, Equipment Management, or Training.
- **Leadership Experience (two or more):**
 - Leading Petty Officer
 - Leading Chief Petty Officer
 - Squad Leader
 - Assistant Platoon Commander
 - Assistant Officer-in-Charge
 - Maintenance / Project Supervisor
 - Command / Detachment Safety or QC
 - Schoolhouse Director
- **Desired Qualifications:**
 - Seabee Combat Warfare (SCW) qualification.

2. Best Qualified Candidates

Candidates who exceed the minimum requirements and are considered **highly competitive** should have:

FY-27 RESERVE LDO/CWO PRIMARY DISCRETE REQUIREMENTS

- **Technical Experience:**
 - Sustained superior performance in Expeditionary leadership assignments (i.e. NSW, NCB, PHIBCB, NCR, GRP, STEU)
 - Extensive and relevant Expeditionary Naval Construction Force experience and/or assignments
 - Technical specialty areas of Construction and/or Project Management
 - Combined/Joint experience in reserve assignments and/or deployments
- **Leadership Experience (two or more):**
 - LPO
 - AOIC
 - LCPO
 - Maintenance / Project Supervisor
 - Squad Leader
 - Command / Det Safety or QC
 - Assistant Platoon CDR

There is a critical shortage of LDOs with underwater construction experience. Therefore, any applicant possessing the Underwater Construction Technician Advanced NEC B16A or Master Underwater Construction Diver NEC B18A should be given special consideration.

Desired professional Education:

Some undergraduate education and Civil Engineer certifications

Post-Commissioning Assignments:

Newly commissioned officers can expect to be assigned, but not limited to, key operational roles within NCB and ACB primarily, such as:

- Det OIC
- Company Commander
- Assistant Training Officer

FY-27 RESERVE LDO/CWO PRIMARY DISCRETE REQUIREMENTS

Surface Deck (7118)

Officer technical specialists in the field of seamanship and navigation with practical naval experience in these areas. They plan, supervise, and direct activities of deck and navigation personnel in the performance of operational and maintenance functions. They plan, develop, and administer deck supervising seamanship and navigation exercises and drills. They assign and coordinate activities of personnel under their command. They serve as; but are not limited only to serving as, ship's boatswain, first lieutenant, operations officer, navigator, and at various training activities or in various operational and staff billets.

Core Expectations:

Reserve Candidates generally have no specific shipboard requirement, however prior AC shipboard experience is valuable. Credit should be granted to those sailors who spent time with “arduous reserve duty” units such as NSW Units and NECC Units (ACU, BMU, ACB, NCHB, MSRON, CORIVRON, EOD and MUDSU). Strong leadership with documented sustained superior performance at the LCPO/DLCPO level commiserate to pay-grade and opportunity. Additionally, credit and consideration should be given to those with Merchant Marine Deck experience and any associated licenses.

Differences between Active and Reserve Component criteria: Active 711X criteria must meet several qualifications whereas. Reserve 711X are being optimized for their leadership abilities and technical expertise during compressed training cycles; deploying in the role as a Leading Chief Petty Officer, Senior Enlisted Leader, or a Division Officer.; or from arduous Reserve Duty with expeditionary and NSW commands.

Sustained superior performance with favorable consideration to applicants who:

- Have mobilized and deployed, in the Reserves, in an Expeditionary Unit or to Fleet Support roles underway on USS and USNS ships.
- Have provided operational support on long-term ADT / ADOS for operational units [e.g. MSRON's High Value Unit (HVV) detachments, NCHB, BMU, etc.].
- Have qualified in ESWS, EXW, SCWS, Craftmaster, and Tactical Craft Coxswain / Small Craft Petty Officer in Charge.
 - a. SWCC, EOD, 1st Class Diver, 2nd Class Diver, and SCUBA qualifications demonstrate small boat expertise.
 - b. MESF / CORIVRON Tactical Craft Coxswains and Patrol Leaders, with Weapons Release Authority, show SIGNIFICANT tactical, operational and small craft expertise and leadership.
 - c. Designated as Command Assistant Navigator or Command Navigator shows SIGNIFICANT navigational expertise and leadership capability.
- Completing at least one GWOT / GFM / IA forward mobilization / deployment or MSRON High Value Unit CONUS force protection ADOS / ADSW while serving in the Reserves shows SIGNIFICANT reserve training and mobilization management

FY-27 RESERVE LDO/CWO PRIMARY DISCRETE REQUIREMENTS

experience, especially when paired with leadership position.

- Having earned Navy Instructor (NEC 805A), Master Training Specialist (8MTS), Recruit Division Commander (8RDC), and Afloat Training Specialist show SIGNIFICANT leadership and instructional ability.

Qualification Tiers:

1. Fully Qualified Candidates

To be considered **FULLY QUALIFIED**, applicants should meet the following minimum requirements:

- **Leadership and Maintenance Experience:**
 - 3M Qualified (NAVEDTRA 43241 series):
 - 303 – Work Center Supervisor (E7)
 - 304 – LCPO / Division Officer (E8+)
 - Tactical Craft / Small Craft Operations (NAVEDTRA 43911 series):
 - 303 – Navigator/Radio Telecommunications Operator (E7)
 - 304 – Craft Coxswain (E8+)
 - Antiterrorism Training / Force Protection (NAVEDTRA 43387-2 series):
 - 305 – Chief of the Guard (E7)
 - 306 – Antiterrorism Training Team Member (E7)
 - Other platform Training Team Members equivalent (Ship Force, DC, etc).
 - Beach Master Unit (NAVEDTRA 43248 series):
 - 311 – Salvage Petty Officer (E7)
 - 312 – Salvage Officer (E8+)
 - Maritime Prepositioning Force Utility Boat (MPFUB) (NAVEDTRA 43315-1 series):
 - 303 – MPFUB Coxswain (E7)
- **Proficiency in Maintenance Planning and Administrative functions:**
 - Have working knowledge of writing, executing, or implementing maintenance, standards, and safety orders:
 - Temporary Standing Orders (TSO)
 - Deviation from Standards (DFS)
 - Feedback Reports (FBR)
- **Desired Qualifications:**
 - **Surface:**
 - Operational Level of War (OLW) experienced (E7)
 - Maritime Staff Operator Course (MSOC) w/ 831A NEC (E8+)
 - **Expeditionary:**
 - MSRON Navigator/Radio Telecommunications Operator (E7)
 - MSRON Tactical Craft Coxswain (E8+)
 - **Shore:**
 - NR CNIC Fire Academy graduate w/ 786B NEC (E7)

FY-27 RESERVE LDO/CWO PRIMARY DISCRETE REQUIREMENTS

2. Best Qualified Candidates

Candidates who exceed the minimum requirements and are considered **HIGHLY COMPETITIVE** should have:

- **Leadership and Maintenance Experience:**
 - 3M Qualified:
 - 305 – Departmental 3MA (E7)
 - 306 – Department Head (E8+)
 - Tactical Craft / Small Craft Operations (NAVEDTRA 43911 series):
 - 303 – Craft Navigator/Radio Telecommunications Officer (E7)
 - 304 – Craft Coxswain (E8+)
 - Antiterrorism Training / Force Protection (NAVEDTRA 43387-2 series):
 - 304 – Antiterrorism Training Supervisor (E7)
 - 307 – Antiterrorism Officer (E8+)
 - Antiterrorism Training / Force Protection (NAVEDTRA 43385-9 series):
 - 301 – Antiterrorism Tactical Watch Officer (ATTWO) (E7)
 - Beach Master Unit (NAVEDTRA 43248 series):
 - 313 – Senior Ramp Marshal (E7)
 - 314 – Beach Party Team (BPT) Commander (E8+)
 - Maritime Prepositioning Force Utility Boat (MPFUB) (NAVEDTRA 43315-1 series):
 - 304 – MPFUB Boat Officer (E8+)
- **Multiple Pinnacle Watch Station Qualifications** (two or more):
 - **Surface:**
 - Maritime Staff Operator Course (MSOC) w/ 831A NEC (E7)
 - Minor Fleet Exercise experienced (E7)
 - Major Fleet Exercise experienced (E8+)
 - **Expeditionary:**
 - MSRON Tactical Craft Coxswain (E7)
 - MSRON Craft Patrol Leader / Mission Commander (E8+)
 - **Shore:**
 - Operational orders to OCONUS fire station (E7)
- **Breadth of Experience:**
 - Candidates with a strong background in operations involving small boats, expeditionary, OLV exercises, surface, amphibious, and CNIC fire/emergency services. Reserve mobilizations, ADOS/ADSW, and long-term orders show SIGNIFICANT institutional and designator specific desired experience.

Post-Commissioning Assignments:

Newly commissioned officers can expect to be assigned, but not limited to, key operational roles such as Training Officer, Operations Officer, Ship's Bosun, Ship's 1st Lieutenant, Boat Officer, Air Boatswain, Department Head, Officer-in-Charge, and NRAU CO.

FY-27 RESERVE LDO/CWO PRIMARY DISCRETE REQUIREMENTS

Community specific timelines expectations are:

- 1) Graduate LDO/CWO Mustang University and Reserve Intermediate Leadership Course (RILC) within the first year commissioned.
- 2) Graduate Boatswain Mate Division Officer course and earn Bosun Basic qualification, per RC Deck Training Continuum, by end of the second year commissioned.
- 3) Earn the 2N1 AQD (Navy Reserve Augment Unit – CO/OIC screening) by end of the third year commissioned.
- 4) Take command of an NR CNIC Fire/Emergency Services Detachment as the CO/OIC before CWO4 (approximately year six to eight of commission).

FY-27 RESERVE LDO/CWO PRIMARY DISCRETE REQUIREMENTS

Surface Operations (7128)

Applicants from Operations Specialist (OS), Sonar Technician (STG), Quartermaster (QM), and Cryptologic Technician (CTT) ratings must demonstrate the following:

- Strong leadership with a history of sustained superior performance.
- A deep understanding/knowledge in shipboard operations, with proven proficiency in many facets of Combat Information Center (CIC) operations, including training and mission execution.
- In-depth knowledge of surface, air, undersea, and amphibious mission areas to include application of relevant Tactics, Techniques and Procedures (TTPs).
- Readiness for worldwide assignments and ability to serve as the operational expert
- On afloat platforms and staff, shore assignments.

Qualification Tiers:

1. Fully Qualified Candidates

To be considered **fully qualified**, applicants should meet the following **minimum requirements**:

- **Leadership and Tactical Experience:**
 - Documented strong leadership, and operational expertise in surface ship operations and CIC functions.
 - Experience managing or executing operations in multiple warfare areas (air surface, undersea, amphibious, and electronic).
 - Documented performance in Tactical Data Links (TDL), and Global Command and Control System – Maritime or Joint (GCCS-M/J) operations
- **Proficiency in Operational Planning and Administrative functions:**
 - Documented experience supporting operational planning and execution.
 - Documented experience and proficiency with various operational tools (i.e. DRRS-N, MFOM, WEBSKED, PB4T, OPREPs, DIMs, OPTASKs, OPGENs, and JUPITER).

2. Best Qualified Candidates

Candidates who exceed the minimum requirements and are considered **highly competitive** should have:

- **Leadership and Maintenance Experience:**
 - Combat Systems Training Team (CSTT) – Served as Coordinator or Key Team Member.
 - Additional involvement with Integrated Training Team (ITT) or Seamanship Training Team (STT) demonstrates cross-functional leadership involvement.
 - Experience as a key leader in ship's scheduling, operations planning, and training execution.
 - Proven ability to execute multi-domain operations at the task force or fleet level.

FY-27 RESERVE LDO/CWO PRIMARY DISCRETE REQUIREMENTS

Demonstrated strong performance in designator relevant shore billets, such as Instructor Duty, Afloat Training Groups, Tactical Training Group, SMWDC or SCSTC.

- **Multiple Pinnacle Watch Station Qualifications (two or more):**
 - Combat Information Center Watch Officer (CICWO)
 - Air Warfare Coordinator, Air Defense Weapons Coordinator (AWC or ADWC)
 - Surface Warfare Coordinator (SUWC)
 - Undersea Warfare Coordinator (USWC or ASWC)
 - Ballistic Missile Defense Officer (BMDO)
 - Tactical Air Control (only one):
 - Air Intercept Controller or Air Intercept Control Supervisor (AIC/AICS) (W16A/W17A)
 - AIC Weapons and Tactics Instructor (WTI) (W27A)
 - Anti-Surface/Submarine Tactical Air Controller (ASTAC) (W18A)
 - ASTAC WTI (W20A)
 - Anti-Submarine Warfare Evaluator (ASWE)
 - Tactical Action Officer (TAO)
 - Special consideration will be given to candidates who have qualified as Tactical Action Officers (TAOs), as it showcases their expertise in combat systems management, tactical/technical decision-making under pressure, and operational leadership.
- **Advanced Tactical Expertise (two or more)**
 - Documented performance across multiple warfare domains
 - Integrated Air and Missile Defense (IAMD)
 - Air and Missile Defense (AMD)
 - Ballistic Missile Defense (BMD)
 - Surface Warfare (SUW or ASUW)
 - Undersea Warfare (USW or ASW)
 - Amphibious Warfare (Ship to Shore Operations)
 - CIC Boat Control Team Member
 - Naval Surface Fire Support (NSFS)
 - NSFS Team Member
 - Multi-Tactical Data Link Network (MTN) (Operations and Planning)
 - Interface Control Officer (ICO)
 - Tactical Air Control
- **Superior Undersea Surveillance Operations (for STG applicants) (one or more):**
 - ASW Specialist (V44B)
 - Journeyman Level Acoustic Analyst (709B)
 - USW Supervisor (V47B)
 - AN/SQQ-89A(V)15/(V)15 EC204 USW Combat Systems Journeyman (V56B)

FY-27 RESERVE LDO/CWO PRIMARY DISCRETE REQUIREMENTS

- **Breadth of Experience:**

- Operational experience with NECC, or various platforms such as ACU, BMU, ACB, MSRON, CORIVRON and shipboard augment units with operational scheduling and/or mission planning experience.
- Merchant Marine operations experience and any associated licenses (a discriminator)

Post-Commissioning Assignments:

Newly commissioned officers can expect to be assigned, but not limited to, key operational roles such as:

- Navy Gunfire Liaison
- Fire Officer
- Theater Warning Officer
- Navy Construction Officer
- Division Officer
- Department Head

The majority of Reserve billets are for Naval Gunfire Liaison Officers (NGLO) within Program-9 assigned to USMCR units. Completion of the 5-week NGLO course is required within the first year of assignment. The USMC expects NGLO's to be experts in fire support and work in Fire Support Coordination Centers, advising, planning and executing fire support tasks. Opportunities exist to qualify as; Joint Terminal Air Controller (JTAC), Class 1 UAS Operator, Naval Parachutist and Fleet Marine Force Warfare Officer. RC Candidates must be in exceptional physical condition in order to work / deploy alongside their USMC counterparts under arduous field conditions.

Additional Reserve billets are offered for Joint Interface Control Officers (JICO), assigned to units supporting an Active Component with this specific requirement. The JICO certification pipeline-is divided into 3 courses, which must be taken in consecutive order. Completion of the pipeline is highly recommended within the first 2 years of assignment as a JICO. JICOs (Active or Reserve) are expected to be experts in Multi TDL Network (MTN) planning and implementation and are responsible for the management and execution of the fused Common Tactical Picture (CTP) to the Commanders within a theater of operations. Opportunities for JICO assignments are typically in a Joint Interface Control Cell (JICC) within a Fleet Command Center, Tactical Operational Center, and deployable Joint C2 units. RC candidates are not required to have link experience, however, is recommended due to the advanced-level courses.

Senior 712X ranks may be assigned to Fleet MOCs or Maritime Fires and Effects Cells (MFECs) assuming they have acquired the requisite skills (NOBCs/AQDs) for the assignment. Following the established career progression path for 712X will prepare those officers for higher echelon assignments.

FY-27 RESERVE LDO/CWO PRIMARY DISCRETE REQUIREMENTS

Surface Engineer (7138)

The primary mission is to support surface engineering maintenance; it is critical that high performing personnel with a well-rounded background in maintenance, repair, and quality assurance. Applicants from common source ratings of Gas Turbine System Technician (GSE/GSM), Engineman (EN), Machinist's Mate (MM), Electrician's Mate (EM), Damage Controlman (DC), Hull Technician (HT), and Machinery Repairman (MR) should demonstrate the following:

- Proven leadership and sustained superior performance in challenging afloat and ashore engineering environments.
- Deep technical expertise and operational proficiency in shipboard engineering, maintenance, and repair in the designated propulsion platforms (gas turbine, diesel, steam, and hybrid).
- Readiness to serve as the Principal Assistant to the Chief Engineer on CRUDES, AMPHIB, CVN, LCS and MCM platforms.
- Demonstrated ability to lead and manage complex maintenance and material readiness programs across shipboard departments and shore-based repair activities.

Officer technical specialists who supervise and instruct personnel with duties involving the operation and maintenance of main propulsion (gas turbine, diesel, steam, and hybrid) and auxiliary machinery systems, engineering and repair department equipment, and refrigeration systems; handling, stowing, and regulating expenditure of fuel oil and boiler feed water; installation, adjustment, testing maintenance, modification, and repair of shipboard electrical systems pertaining to power distribution, propulsion, steering, lighting, degaussing, interior communications, gyrocompass, and associated equipment and instrument repair, adjustment, and calibration.

Core Expectations:

RC Candidates with extensive shipboard engineering watch station/evolution experience is highly valued.

Qualification Tiers:

1. Fully Qualified Candidates

To be considered **fully qualified**, applicants should meet the following minimum requirements:

- **Leadership and Technical Experience:**
 - Demonstrated superior leadership and technical expertise in surface or submarine engineering roles, at repair installations ashore, I or D-Level maintenance units, such as SurgeMain, Shipyards, Lighterage Repair, or Expeditionary Maintenance Detachments, or in facilities and/or maintenance departments of other hardware units, such as ACU1, ACB, and NECC, or an operational staff.

FY-27 RESERVE LDO/CWO PRIMARY DISCRETE REQUIREMENTS

- Demonstrated technical civilian experience and/or intermediate/senior leadership roles in heavy industrial maintenance or repair environments such as power generation, utilities, oil refineries, manufacturing, or merchant marine engineering plants is also highly valued.
- **Career and Programmatic Impact:**
 - Documented performance leading engineering division/departments and critical/non- critical programs.
 - Broad familiarity with propulsion, auxiliary, electrical, and damage control systems across variety of surface ship platforms.

2. Best Qualified Candidates

Candidates who exceed baseline requirements and are considered **highly competitive** should have demonstrated exceptional engineering leadership, technical competence, and impact through the following:

- **Leadership and Technical Experience:**
 - Extensive shipboard engineering watch station/evolution experience (e.g. EOOW, EDPO, Oil King, IEM, RCO)
 - Senior unit leadership roles, such as: LCPO or Unit SEL, MET LCPO/LEAD, BMF and CESE LCPO
- **Multiple Pinnacle Watch Station Qualifications** (two or more):
 - Favorable consideration should also be given to those who have qualified and earned NECs for Diesel, Gas Turbine or Steam Plant Inspectors;
 - Advanced Skills Management (ASM) qualification.
 - Qualified Proficient Technician (QPT) qualification.
 - Nuclear Propulsion NECs (e.g., 3353-3356, 3383-3386, N13O-N16O, N23O-N26O) and Supervisory Nuclear Propulsion NECs (e.g., 3363-3366, N13S-N16S, 3393-3396, N23S-N26S)
 - NAMTS qualifications; and other engineering-focused NECs.

Post-Commissioning Assignments:

Newly commissioned officers can expect to be assigned, but not limited to, key operational roles such as:

- Ship Engineer, Ship Repair, Safety Engineer, Ship Repair Officer
- Engineering Technician
- Inspection Technical
- Logistics
- Division Officer, Department Head

FY-27 RESERVE LDO/CWO PRIMARY DISCRETE REQUIREMENTS

Special Warfare (7158)

Special Warfare Chief Warrant Officers are experienced leaders and recognized tactical and technical experts. They fill a wide variety of roles across Naval Special Warfare (NSW) in the undersea, intelligence and training enterprises. All have achieved and maintain high levels of tactical and technical competency within a broad portfolio of Special Operations activities. SEAL CWO Applicants will be considered for one of two Core Competency Areas (CCA): CORE SKILLS and UNDERSEA. To apply, applicants must possess a Navy Enlisted Classification Code (NEC) that aligns with the CCA. Specifically, CORE SKILLS applicants must hold the O26A (Special Warfare Operator) or O23A (SEAL Delivery Vehicle Operator) NEC. UNDERSEA applicants must hold O23A (SEAL Delivery Vehicle Operator) NEC. All applicants must request a primary CCA and those holding qualifying NECs in more than one field may request a secondary CCA. Applicants will be selected for the CCA they are most qualified to serve.

Special Warfare Chief Warrant Officers from both the CORE SKILLS and UNDERSEA CCAs serve in specially screened and selected positions, filling critical roles for United States Special Operations Command and the Navy. These Officers plan, direct and manage high-risk training events and multi-echelon exercises, assess and advise on combat readiness, and direct personnel in the execution of full spectrum special operations in every environment and every theater. They typically serve as:

- Detachment Officers-in-charge (OICs) and Assistant Officers-in-charge (AOICs)
- Division Officers
- Assistant Department Heads
- Department Heads
- Requirements, Resourcing and Acquisition Officers
- Special Program Managers

Additionally, Special Warfare Chief Warrant Officers in the UNDERSEA CCA are proven experts in undersea operations. These Officers plan, direct and lead both training and operations in the undersea domain. They may also serve as:

- SEAL Delivery Vehicle (SDV) Pilots
- Dry Combat Submersible (DCS) Pilots

When serving in an assignment that affords the opportunity, the Best and Fully Qualified (BFQ) and Fully Qualified (FQ) applicants will have demonstrated exceptional performance while holding positions and / or possessing qualifications in the following:

FY-27 RESERVE LDO/CWO PRIMARY DISCRETE REQUIREMENTS

Special Warfare Combat Crewman (7178)

Differences between Active and Reserve Component criteria: Active 717X criteria must meet specific qualification requirements noted below. The difference between Reserve 717X criteria is designated in writing as a SWCC Crewman and a Patrol Officer (SWCC Master) E-7 SWCC, but reserve E-7 SWCC are not held to having to deploy in the role as Leading Chief Petty Officer Team Chief of a Special Boat Detachment. With favorable consideration to reserve E-7 SWCC who have augmented deployed Special Boat Detachments or operational elements.

Special Warfare Combatant Crewman Chief (SWCC) Warrant Officers are tactical and technical experts in the field of Naval Special Warfare operations as well as established leaders. These Officers lead Special Boat Team (SBT) Troops and direct personnel in the execution of combatant craft operations in every theater. They may serve as, but are not limited to:

1. SBT Boat Troop Chief Warrant Officers
2. Operations Officer
3. Training Officers
4. Requirements Officers

Specific Qualification Requirements:

1. Designated in writing as a SWCC Crewman and a Patrol Officer (SWCC Master) E-7 SWCC who successfully served and deployed (deploy--Active component only) as the Leading Chief Petty Officer in one of the following SBT boat detachments:

- a. NSW 11 Meter RIB
- b. Combatant Craft Assault
- c. Combatant Craft Medium
- d. Combatant Craft Heavy
- e. Special Operations Craft Riverine
- f. Naval Special Warfare Development Group Team Element LCPO
- g. Non-Standard Maritime

2. The objective is to select the best qualified applicants and proven leaders with sustained superior performance, who possess skill-set subject matter expertise such as:

- a. Patrol Officer (SWCC Master)
- b. HRST Master
- c. Jump Master
- d. Master Training Specialist
- e. Dynamic Waterborne Range Safety

FY-27 RESERVE LDO/CWO PRIMARY DISCRETE REQUIREMENTS

Surface Electronics Technician (7188)

Applicants who are selected for LDO or CWO in Surface Electronics derive from multiple surface and subsurface electronics / weapons source ratings. Of note, CTs with significant electronic warfare equipment (e.g., SLQ-32, etc.) maintenance / repair experience may also be considered for selection.

They **must have** demonstrated superior technical leadership and management within Combat Systems, Operations, or Weapons Departments both afloat and ashore. The following technical skill areas are valued:

- Ship, shore and expeditionary equipment/systems operability, interoperability, systems of systems hosted and connected capabilities, supporting program management, and preventive and corrective maintenance fundamentals, standards, and procedures
- Administration of Maintenance and Material Management (3M) Program
- AEGIS and Non-AEGIS Surface Missile/Gun Fire Control systems, such as Ship's Self Defense Systems (SSDS)
- Interior Communications, Exterior Communications, and Space Support Systems
- SONAR, Tactical data, Automated Data Processing, and Computing Systems
- Navigation, RADAR, IFF, and Air Traffic Control Systems
- Arms, Ammunition, and Explosives (AA&E) Logistics, Security, and Maintenance
- Ammunition Qualification/Certification Board Member
- Ballistic Missile Defense (BMD)
- Electronic Warfare Systems Technician
- Micro and Miniature (2M) and Fiber Optics Repair Programs
- Magazine Sprinkling and Deluge Systems
- General Purpose Electrical/Electronic Test Equipment and/or Calibration Management
- Combat Systems Operational Sequencing System (CSOSS)
- Combat Systems Watch Team Development
- Tactical and Technical Scenario Development
- Combat System Doctrine Development
- Personnel, Manpower and Training (PMT)
- Mining, Mine Counter Operations, and Environmental Sensing Systems
- Operation and Maintenance of Small Arms and Crew Served Weapons
- Technical Manual Publications and Advanced Technical Information Support (ATIS)
- RADHAZ, EMC, EMSO Management;
- Naval Special Warfare and Expeditionary Communications
- Navy Munitions Command Operations and Maintenance
- Ground Electronics Maintenance
- Tactical Communications
- Ordnance Information Systems

FY-27 RESERVE LDO/CWO PRIMARY DISCRETE REQUIREMENTS

Applicants **should be** well-rounded, possessing subject matter expertise in multiple valued technical skill areas. Favorable consideration should also be given to those applicants who have qualified two or more of the following:

- Combat Systems Officer of the Watch (CSOOW)
- Combat Systems Coordinator (CSC)
- Air Warfare Coordinator (AWC) or equivalent qualification
- Surface Warfare Coordinator (SUWC)
- Anti-Submarine Warfare Coordinator (ASWC)
- Electronic Warfare or equivalent qualification
- Combat Information Center Watch Officer (CICWO)
- Combat Systems Repair Officer (CSRO)
- LCS Combat Systems Manager (CSM)
- LCS Readiness Control Officer (RCO)
- Combat Systems Training Team (CSTT) Coordinator or key Team Member / Leader
- AA&E Quality Assurance Safety Officer (QASO)
- Master Training Specialist / Afloat Training Specialist
- Antiterrorism Tactical Watch Officer (ATTWO)
- Gun Liaison Officer (GLO)

Post-Commissioning Assignments:

Newly commissioned officers can expect to be assigned, but not limited to, key operational roles in ordnance handling units, mine assembly units (MAU) and staff level ordnance logistics units.

FY-27 RESERVE LDO/CWO PRIMARY DISCRETE REQUIREMENTS

Cryptologic Warfare (7818)

Only applicants from the Cryptologic Technician (CTI, CTR and CTT) ratings are eligible for the 7818 designator.

Core Expectations:

Applicants will have experience in at least one of the following core competencies: Linguistic Analysis, Cryptologic Systems Maintenance and Equipment, Information Operations, Cyber and Electronic Warfare, Cryptologic Communications, Analysis and Reporting.

Candidates must be able to obtain and maintain a TS/SCI clearance.

Qualification Tiers:

1. Fully Qualified Candidates

To be considered **fully qualified**, applicants must be from Cryptologic and Cyber sources as listed above, and should meet the following **minimum requirements**:

- **Leadership and Technical Experience:**
 - Documented certifications and operations assignments in their rating.
 - Superior signals collection and processing knowledge, or superior analysis and reporting knowledge
 - Demonstrated technical competency and leadership in Cryptology or Electronic Warfare
 - Bachelor of Science or higher degrees (highly desired, not required)
- **Language Aptitude** (one of the following):
 - High aptitude (Defense Language Proficiency Test (DLPT) scores of 2/2 or) in a critical language (Arabic, Chinese, Korean, Persian-Farsi, Russian)
 - DLPT 3/3 in other languages.
- **Desired Qualifications:**
 - Enlisted Information Warfare Specialist (EIWS) qualification

2. Best Qualified Candidates

Candidates who exceed the minimum requirements and are considered **highly competitive** should have:

- **Leadership and Technical Experience:**

Excelled within the core competencies while serving in Navy, Joint, and National operational assignments.

FY-27 RESERVE LDO/CWO PRIMARY DISCRETE REQUIREMENTS

- **Breadth of Experience:**

The strongest candidates will have technical expertise in the following assignments is not required, but is advantageous:

- US Tenth Fleet
- Major Region Navy Information Operations Command (CWG6, NIOC GA, NIOC TX, NIOC PAC [formerly HI], NIOC CO)
- Navy Cyber Defense Operations Command NCDOC
- Cyber Protection Team
- GSA/IA billets or mobilization/ADSW
- PCS afloat
- OCONUS duty
- Cryptologic Direct Support (Air, Surface, Subs)
- Naval Special Warfare

Post-Commissioning Assignments:

Newly commissioned officers are expected to complete NGLO or JICO schools within 2 years of commissioning and can expect to be assigned, but not limited to, key operational roles such as:

- Division Officer
- Department Head
- Assistant Operations Officer
- Operations Lead

FY-27 RESERVE LDO/CWO PRIMARY DISCRETE REQUIREMENTS

Information Systems Control (7828)

Primary consideration should be given to candidates from **Information Systems Technician (IT)**, **Electronic Technician (ET)** and **Cyber Warfare Technician (CWT)** ratings with superior, technical competency and leadership, but will consider additional ratings based on civilian occupational experience and education.

Core Expectations:

Consideration should be given to candidates with demonstrated technical Systems competency and leadership in the Radio Frequency (RF)/Tech billets at sea or shore communications commands, Frequency/Spectrum Management (NEC 2301) expertise, Special Warfare, Subsurface Communications (NECs 14AA, 14CM, 14EM, 14BH), Enterprise and afloat Networks, Information Assurance, and GSA/IA billets. The strongest candidates will have sustained superior performance in technical oriented diverse platforms and communities with emphasis of at sea communications and shore communication commands skills (NEC 2379). Candidates with the Tactical Mobile Communications (NEC 9613), Information Assurance (NEC 2779, IAT II and Certifications) and Networks (NECs 2791, 2780, 2781) are desirable.

Applicants must be able to obtain and maintain a TS/SCI clearance.

Qualification Tiers:

1. Fully Qualified Candidates

To be considered **fully qualified**, applicants should meet the following **minimum requirements**:

- **Leadership and Technical Experience:**
 - Technical experience in RF Management, Operations and Troubleshooting
 - Technical experience in Network Operations, Administration and Maintenance
 - Technical experience in Communications Security (COMSEC)
 - Technical experience in Information System Security Management
 - Documented unit leadership roles

2. Best Qualified Candidates

Candidates who exceed the minimum requirements and are considered **highly competitive** should have:

- **Leadership and Technical Experience:**
 - Technical proficiency in RF Management, Operations and Troubleshooting
 - Technical proficiency in Network Operations, Administration and Maintenance
 - Technical proficiency in Communications Security (COMSEC)
 - Technical proficiency in Information System Security Management

FY-27 RESERVE LDO/CWO PRIMARY DISCRETE REQUIREMENTS

- Documented Leadership as a Senior Enlisted Leader or Department/Division LCPO or LPO
- Training or Qualification in non-rate collateral duties (Ex, RCI (CCC), CFL, DAPA, SAPR)

- **Breadth of Experience:**

Candidates with specialized and documented skills in Cloud Computing, Information Security, RF Communications and Information Systems can be considered. Regardless of the candidates' source rating candidates with documented information security experience and/or advanced, civilian industry Information Technology certifications in System Administration (Microsoft Systems Engineering), Cybersecurity (Comp TIA Security +, CISSP), Networking (Comp TIA Network +, CCNA, CCNP), Telecommunications (CCNA Collaboration), Wireless Communications, Virtualization (VMware). Candidates with EIWS are desirable.

Post-Commissioning Assignments:

Newly commissioned officers can expect to be assigned, but not limited to, key operational roles such as:

- Shipboard Communications Officer (COMMO)
- Communication Watch Officer (CWO)
- Joint Fleet Telecommunications Operations Center Watch Officer (JFTOC)
- Information Systems Watch Officer (ISO)
- Battle Watch Captain (BWC)
- Combat Systems Officer of the Watch (CSOOW)

FY-27 RESERVE LDO/CWO PRIMARY DISCRETE REQUIREMENTS

Intelligence (7838)

In order to apply, applicants must possess and be designated in writing one of the following five Navy Enlisted Classifications (NEC's) listed below:

- K10A (Naval Imagery Interpreter),
- K12A (Expeditionary Warfare Intelligence Specialist)
- K13A (CI/HUMINT Specialist),
- K23A (Strike Warfare Intelligence Analyst),
- K24A/K36A (Operational Intelligence Analyst).

Core Expectations:

Applicants must also have earned the Enlisted Information Warfare Specialist (EIWS) qualification to be considered eligible. Applicants who have not been assigned to a command with an established EIWS program will be exempt from this requirement. Subject matter expertise, documented leadership with sustained superior performance. Applicants' explicit technical experience will be weighted greater than non-technical, managerial/leadership roles.

Qualification Tiers:

1. Fully Qualified Candidates

To be considered **fully qualified**, applicants should meet the following minimum requirements:

- **Leadership and Technical Experience:**
 - Documented leadership in a unit role.
 - Documented strong technical knowledge and operational expertise in your intelligence discipline.

2. Best Qualified Candidates

Candidates who exceed the minimum requirements and are considered **highly competitive** should have:

- **Leadership and Technical Experience:**
 - Leadership as a Senior Enlisted Leader, or Department / Division LPO or LCPO
 - Advanced Training or Qualifications in any Intelligence discipline. (Ex. Joint Targeting School (JTS) Courses, GEOINT Certs, CI/HUMINT Cert, Etc.)
 - Advanced Training or Qualifications in non-rate disciplines. (Ex. CCC, Master Training Specialist, Etc.)
 - NIWAWS WTI (Intel OPS)

FY-27 RESERVE LDO/CWO PRIMARY DISCRETE REQUIREMENTS

- Additional weight shall be given to those who have completed or actively serving in operational tour as a WTI.
- **Sustained Superior Performance** is an equally important requirement for 783X applicants and is evaluated by reviews of applicants' CHIEFEVALs and evals, with hard and/or soft breakouts against their peers, strong recommendations for commissioning programs, and impacts across a variety of missions and commands.

Applicants should know about and understand Reporting Senior's Cumulative Average (RSCA), and more importantly, the best qualified applicants will have a history (hence 'sustained') of performing at or above that mark. Applicants should always strive for excellence and work diligently to be above their CO's RSCA.

Post-Commissioning Assignments:

Newly commissioned officers can expect to be assigned, but not limited to, key operational roles such as:

- (Basic, Operational, or MIOC) Intelligence Officer
- (Basic, Senior, or Joint) Targeting Officer
- Intelligence Duties with a Numbered Fleet, COCOM, ONI, DIA

Applicants are highly encouraged to include designation letters, qualifications, certifications, etc., cited in these Discrete Requirements, as Enclosures with their package.
