NARR/ REF A IS BUPERSINST 1430.16G CH-1, ADVANCEMENT MANUAL FOR
ENLISTED PERSONNEL OF THE U.S. NAVY AND U.S. NAVY RESERVE. REF
B IS

NAVADMIN 255/24, BILLET BASED ADVANCEMENTS 2025. REF C IS
NAVADMIN

112/25, BILLET BASED ADVANCEMENT 2025 UPDATE.

RMKS/1. This NAVADMIN provides advance change notice to the
advancement manual for enlisted personnel, reference (a). This
change and references (b) and (c) will be incorporated into the
revised advancement manual on or about December 2025.

2. Billet Based Advancement (BBA) is expanding to include
advancements for eligible E6 candidates for all active duty
ratings

during the March 2026 Rating Knowledge Exam (RKE) cycle with the
exception of the following ratings: Submarine, Nuclear,

Musicians

(MU), Special Warfare Operators (SO), Special Warfare Boat
Operators

(SB), Training and Administration of the Reserve (TAR) and
Selected

Reserves (SELRES). Sailors in these communities will continue
to be

advanced via the legacy processes.

The March 2026 RKE will be utilized to support BBA eligibility.

Sailors who pass the RKE may begin applying for advancement
opportunities in the August 2026 MyNavy Assignment (MNA) cycle.

3. Command Advance to Position (CA2P) Eligibility. Effective immediately, the minimum time on station requirement for CA2P eligibility has been removed. Commands may only recommend assigned

Sailors for CA2P via a Member Realignment Request (MRR) in MNA to

fill billets that are projected to be vacant within six months or

less. Requests will be initiated using 'CA2P' as the MNA request

reason for the transaction.

a. Immediate Superior in Command (ISIC), Type Commanders (TYCOMS), or Budget Submitting Offices (BSOs) may also submit Intra-

Unit CA2P requests to reassign eligible Sailors to another command

with a billet available in the next higher paygrade. These moves

must be between activities with the same type of duty (sea or shore)

and within the same geographic area.

b. All CA2P requests will be adjudicated by PERS-

4. Sailors

approved for CA2P sea duty, will be required to obligate service for

a minimum of 36 months and will be extended 36 months onboard from

the date of advancement.

c. Sailors approved for CA2P shore duty, will be required to

obligate service for a minimum of 36 months from the date of advancement, while maintaining their original shore tour length.

CA2P requests may not be submitted for Sailors within 12 months of

their PRD.

4. Senior Enlisted Marketplace (SEM) changes. Advancement Request

Alignment (ARA). ARA is only available to board screened Sailors.

a. The MRR window for submitting ARAs will open four times a

year, starting the day after Detailer Selections and closing the day after TYCOM Requisition Review in the months of January, April, July, and October. This timeframe ensures that ARAs are submitted in alignment with the Sailors selected for assignments through the MNA and TYCOM Requisition Review process, allowing for efficient tracking and review. Requests will be submitted in MNA via a crossdeck or comptour personnel manning action and use 'ARA' as the reason.

b. All Sailors approved for ARA will be issued orders; however, if the ARA approved billet has a required Distribution Navy Enlisted Classification Code associated with the billet sequence code, only UICs designated as 'sea duty' will have training included in the orders.

c. Commands may request ARA via a MRR in MNA to fill billets that are projected to be vacant within six months or less.

d. SEM Eligibility Timeline. Effective FY-27 screening boards, eligibility will be expanded from 24 months to 30 months. Sailors have up to 30 months to be selected for a job in the next higher paygrade.

5. For questions regarding BBA, please contact MyNavy HR at srenlistedmarket.fct@navy.mil or bba.fct@navy.mil.
