COMNAVRESFOR INSTRUCTION 5239.4B

From: Commander, Navy Reserve Force

Subj: CYBERSECURITY TRAINING, CERTIFICATION, AND WORKFORCE
MANAGEMENT

Ref: (a) DoDDirective 8570.01 of 15 August 2004
(b) DoD 8570.01-M, Information Assurance Workforce Improvement Program,
12 January 2013
(c) SECNAV M-5239.2, Department of the Navy Information Assurance Workforce
Management Manual
(d) SECNAVINST 5239.20
(e) COMNAV CYBERFORINST 5239.1
(f) DoD Manual 8140.03 Cyberspace Workforce Qualification and Management
Program

Encl: (1) Cybersecurity Workforce Determination Guide

1. Purpose. To promulgate Cybersecurity (CS) training plan, certification guidelines and Cybersecurity Workforce (CSWF) management for personnel assigned to such positions per references (a) through (e). To establish policy and assign responsibilities for Department of Defense (DoD) CS training, certification and workforce management. This instruction is a complete revision and should be reviewed in its entirety.

2. Cancellation. COMNAVRESFORINST 5239.4A

3. Background. In today's network-centric environment, CS is a paramount concern. To mitigate risks associated with network operations, personnel with specific levels of Information Technology (IT) responsibility within the Commander, Navy Reserve Force (COMNAVRESFOR) structure must be adequately trained to execute their functions. Navy leadership has established training levels based on an individual's role at the enclave, network or computing level. Additionally, they provide guidance and detail procedures for the training, certification and management of the DoD workforce conducting CS functions in assigned duty positions.

4. Scope. All CSWF personnel identified within this instruction are required to meet the minimum levels of training and certification for the required system they operate or administer, regardless of occupational specialty or whether the duty is performed as primary or an additional/embedded duty. Positions will be aligned to a CS category Basic/Intermediate/Advanced, documented in the appropriate database(s) and tracked until transfer or separation from the command. Enclosure (1) is provided as a guide to determine which category and level personnel will generally be billeted based on assigned department and division.

a. Designated CSWF personnel in the Navy Reserve Force may include officers, U.S. Government civilian employees, U.S. Contractors and enlisted Sailors, normally Information Systems Technicians. The functions performed by CSWF personnel may be accomplished by any rate.

(1) All Enlisted Sailors in the Information Systems Technology (IT) rating are designated as CSWF personnel. There are no exceptions for NECs or duties assigned. This applies to Training Active Reservist (TAR) and Selected Reservist (SELRES). Non-Information Systems Technology rated enlisted Sailors performing COMNAVRESFOR Information Technology (N6) functions primary or collateral are not subject to mandatory CSWF compliance.

(2) The following officer designators are designated as CSWF personnel: 1207 TAR Officers with P or Q coded IT subspecialty (6209) and currently filling an N6 billet, 182X and 181X Selected Reserve Officers. Officers not listed above may be part of the CSWF, depending on their role and assigned billet. Officers assigned to N6 at Echelons II, III and IV are included in the CSWF.

(3) U.S. Government civilian employees possessing the 2210, 0335, 0332, 1550 and 1560 series designator are designated as CSWF personnel. Existing job Personnel Descriptions (PD) shall include a condition of employment statement reflecting the appropriate certification for a position. Job PDs to new employees shall contain the condition of employment requirement to obtain and maintain the appropriate CSWF compliance as outlined in references (a) and (f).

(4) U.S. Contractors are required to maintain CSWF category and level commensurate to the level of access for the system they support and/or manage as defined within this instruction. Job offers to new contractors shall contain the condition of employment requirement to obtain and maintain the appropriate CSWF compliance for the position.

b. Personnel performing CSWF assigned duties and responsibilities are included in this policy:

(1) Work closely with data owners, information system owners and users to ensure secure use and operation of information systems and networks.

(2) Ensure rigorous application of CS policies, principles and practices in the delivery of all IT services.

(3) Maintain system audit functions and periodically review audit information for detection of system abuses.

(4) Identify CS requirements as part of the IT acquisition development process.

(5) Assess and implement identified corrections (e.g., system patches and fixes) associated with technical vulnerabilities as part of the CS Vulnerability Management Program.

(6) Maintain configuration control of hardware, systems and application software.

(7) Identify and properly react to security anomalies or integrity loopholes, such as system weaknesses or vulnerabilities.

(8) Install and administer user identification on authentication mechanisms.

(9) Managers and supervisors of CSWF personnel.

c. CSWF categories and levels do not necessarily correlate to civilian grades, military ranks or any specific occupational classification standard.

d. Due to various command sizes and compositions, Echelon V Navy Reserve Centers may not have a CSWF member assigned. CS functions will be performed by a collateral duty command Information Systems Security Officer (ISSO), who will report directly to the Echelon IV Regional Information Systems Security Manager ISSM. ISSOs must be designated in writing but are not considered part of the CSWF. Therefore, ISSOs are not required to earn commercial certifications, but are encouraged to attend training to better perform their collateral duty CS tasks.

e. For additional information on the functions of the various CSWF proficiency levels, refer to chapters 3 and 4 per reference (b).

(1) Enclosure (1) contains the minimum expected CSWF assignments at Commander, Navy Reserve Forces Command (COMNAVRESFORCOM) Echelons II through V. Commanders at Echelons IV and V are required to work with their command ISSO/ISSM and Training Officer in assigning command CSWF members and tracking required certifications.

5. Action. CSWF training and certification must be maintained at a level corresponding to the system(s) administered. All personnel must complete the requirements associated with their level of responsibility.

a. COMNAVRESFORCOM Proficiency Levels:

(1) The DoD Cyberspace Workforce Qualification and Management Program details qualification requirements for each DCWF work role up to three levels of proficiency. The proficiency levels: Describe the levels of a capability required to successfully perform work. This issuance does not require any connection between proficiency level and the rank or grade of the individual.

b. Performance Expectations:

(1) **Basic**. The role requires an individual to:

(a) Have familiarity with basic concepts and processes and the ability to apply these with frequent, specific guidance.

(b) Be able to perform successfully in routine, structured situations.

(2) **Intermediate.** The role requires an individual to:

(a) Have extensive knowledge of basic concepts and processes and experience applying these with only periodic high-level guidance.

(b) Be able to perform successfully in non-routine and sometimes complicated situations.

(3) **Advanced.** The role requires an individual to:

(a) Have an in-depth understanding of advanced concepts and processes and experience applying these with little to no guidance.

(b) Be able to provide guidance to others.

(c) Be able to perform successfully in complex, unstructured situations.

(4) A position may require the performance of multiple work roles at different levels of proficiency. In such cases, individuals must be qualified at the levels dictated by the requirements of the position.

6. Responsibility:

a. DoD civilian employees and Service members:

(1) May temporarily perform cyberspace workforce position duties while obtaining qualification requirements under the direct observation/supervision of an appropriately qualified individual, unless the qualification requirement is waived by an OSD or DoD Component Head or a delegated authority due to severe operational or personnel constraints. If such observation is not feasible, and the qualification requirement is not waived due to severe operational or personnel constraints, then the individual must be reassigned to other duties consistent with applicable law.

(2) Are considered qualified after achieving both the foundational and resident qualification requirements outlined in reference (f), section 3.

(3) The foundational qualification requirements within nine months of assignment to a cyberspace work role per reference (f), section 3.

(4) The resident qualification requirements within 12 months of assignment to a cyberspace work role per reference (f), section 3.

(5) Based on the Department of the Navy's (DoN) policy, COMNAVRESFORCOM will fund a maximum of three attempts to successfully pass a certification exam. CSWF members may apply for exam vouchers online at: <https://www.cool.osd.mil/usn>. Additionally, COMNAVRESFORCOM will fund CSWF required courses on a case by case basis; all efforts should be made to fund boot camps and courses at the command level.

b. COMNAVRESFOR Chief Information Officer (CIO) will ensure the Navy Reserve Force maintains a trained and qualified CSWF per references (a) through (d).

c. Echelon IV ISSM/COMNAVRESFORCOM (N6) DH/Officers will:

(1) Track CSWF requirements within their region.

(2) Request and maintain Total Workforce Management Services (TWMS) access as TAM/Security Coordinator role, with access to all subordinate Unit Identification Codes.

d. Military and Civil Service CSWF Personnel will:

(1) Coordinate with the Training Officer to review and update records with certification status. If lacking specific certifications for a position, develop an Individual Development Plan (IDP) and schedule required boot camps or courses to attain certification within a six month window.

(2) Provide certification exam grade report to Training Officer to ensure CSWF database in TWMS is updated.

e. The REDCOM ISSM(s) will be designated as their respective region CSWF POC. The ISSM will:

(1) Obtain and maintain an appropriate level of compliance, per reference (a) and (f).

(2) Ensure all CSWF personnel are designated in writing upon receipt of notification from Training Officer, that an individual passed the appropriate commercial certification examination.

(3) Conduct random Quality Assurance audit of the CSWF program to ensure compliance with established policy.

(4) Ensure all CS personnel with privileged access complete a Privileged Access Agreement.

(5) Maintain current repository of all DoN CIO, Chief of Naval Operations (CNO) (N6), Commander, Naval Network Warfare Command (NAVNETWARCOM) and Commander, Navy Cyber Forces (COMNAVCYBERFOR) official messages, policy and instructions relating to CSWF management.

(6) Ensure proper oversight structure is in place which permits management of the CS training program to include Training Officer, supervisors of personnel with privileged access, Computer Network Defense, Certification, and Accreditation and all IA professionals.

(7) Ensure compliance with this instruction and all higher DoN instructions relevant to CSWF.

f. Echelon V Command ISSOs will:

(1) Report to higher Echelon ISSM on all CS related incidents.

(2) Be familiar with all DoN CIO, CNO N6, NAVNETWARCOM and COMNAVVCYBERFOR official messages, policy, and instructions relating to CS. Create a culture of compliance to governing documents within the organization.

(a) As applicable, manage local CS related processes and procedures.

g. Training Officer(s) will:

(1) Coordinate with Command Manpower representative to ensure CSWF personnel are identified as performing CS responsibilities as primary or as an additional or embedded duty and ensure all required information is properly reflected in the CSWF database(s) per references (a) through (e).

(2) Coordinate and schedule required professional training (CompTIA A+, Network+, Security+, GSLC, CISSP, and CASP, etc.).

(3) Report DoD component training (including awareness) and certification programs to administrative Immediate Superior In Charge, as required.

(4) Report status of command CSWF to chain of command.

h. Command Manpower representative will:

(1) Track CS personnel training and certification against position requirements.

(2) Ensure all CS positions with CS functions are identified by category and level in the site Activity Manpower Document.

(3) Coordinate with the Training Officer as required to ensure command CSWF program personnel are in alignment with activity manning requirements.

i. The Administrative Officer will ensure all civilian CSWF position descriptions are updated, to include certification to be held as a condition of employment.

j. The Human Resources Officer will ensure PDs contain proper condition of employment statement requiring the appropriate certification for position.

k. The Contracting Officer will ensure contracts contain proper conditions of employment statement requiring the appropriate certification for position.

l. COMNAVRESFORCOM Financial Management/Program Manager (N68) Division Director will liaise with COMNAVRESFORCOM Training (N7) and Finance and Accounting (N8) to fund CSWF training courses.

Funding is limited to those billets and positions which require training and certifications per enclosure (1). The Training Officer will outline funding requirements with each fiscal year and keep COMNAVRESFORCOM N68 informed of financial status with contracted training courses.

m. Department Heads and Division Directors will:

(1) Ensure personnel in technical category positions maintain certifications, as required by the certifying provider, to retain privileged system access.

(2) Ensure personnel who are not appropriately certified within 12 months of assignment to a position or who fail to maintain their certification status are not permitted privileged access.

(3) Assign appropriately trained and certified personnel to CS positions.

(4) Ensure all incumbents and new hires are trained, certified and/or recertified as part of the CSWF.

n. Subordinate Echelon IV and V commands will follow all guidelines for compliance with CSWF requirements promulgated in references (a) through (f). Echelon IV command CSWF programs are subject to inspection by higher authority.

7. Records Management. Records created as a result of this instruction, regardless of media and format, must be managed per Secretary of the Navy Manual 5210.1 of September 2019.

8. Review and Effective Date. Per OPNAVINST 5215.17A, COMNAVRESFORCOM N6 will review this instruction annually around the anniversary of its issuance date to ensure applicability, currency, and consistency with Federal, Department of Defense, Secretary of the Navy, and Navy policy and statutory authority using OPNAV 5215/40 Review of Instruction. This instruction will be in effect for 10 years, unless revised or cancelled in the interim, and will be reissued by the 10-year anniversary date if it is still required, unless it meets one of the exceptions in OPNAVINST 5215.17A, paragraph 9. Otherwise, if the instruction is no longer required, it will be processed for cancellation as soon as the need for cancellation is known following the guidance in OPNAV Manual 5215.1 of May 2016.

M. J. STEFFEN
Deputy Commander

Releasability and distribution:

This instruction is cleared for public release and is available electronically only via COMNAVRESFOR Web site at <https://www.navyreserve.navy.mil/Resources/Official-RESFOR-Guidance/Instructions/>

CYBERSECURITY WORKFORCE DETERMINATION GUIDE

Echelon II/III Billets

1. N6 Information Technology
 - a. Chief Information Officer – Advanced
 - b. Force Information Assurance Manager (IAM) – Advanced
 - c. N6 Deputy Chief of Staff/Chief Technology Officer – Advanced
 - d. Assistant N6 Deputy Chief of Staff – Advanced
 - e. Deputy Chief Information Officer for Cybersecurity and Infrastructure – Intermediate
 - f. N63 Operations Division Director – Intermediate
 - g. N64 Information Assurance Officer – Intermediate
 - h. Division Directors/Asst. Division Directors – Intermediate
 - i. Information Systems Technician's (Commensurate with position requirements)
 - j. N64 Cybersecurity Division Personnel - (Commensurate with position requirements)
 - k. Personnel with privileged network access, per reference (a) and enclosures (2) or (3)
2. N1 Manpower and Personnel
 - a. Not required
3. N2 Intelligence/Information Warfare
 - a. Not required
4. N3 Operations
 - a. Information Systems Technicians (Commensurate with position requirements)
5. N4 Logistics
 - a. Not required
6. N5 Plans and Policy
 - a. Not required

7. N7 Training
 - a. Not required
8. N8 Finance and Accounting
 - a. Not required

Echelon IV Billets

1. N6 Information Technology
 - a. Department Head assigned to the N6 ADP PLANS/ACOS Billet – Intermediate
 - b. Information Systems Technicians (Commensurate with position requirements)
 - c. Personnel with privileged network access, per reference (e), page 5, paragraph 3e.

Echelon V/VI Billets:

1. N6 Department Head – Intermediate
2. Information Systems Technicians (Commensurate with position requirements)
3. Personnel with privileged network access, per reference (e), page 5, paragraph 3e.
