COMMISSIONING PROGRAM//

REF/A/DOC/OPNAV/14DEC09//

REF/B/DOC/BUMED/11JUN15//

NARR/REF A IS OPNAVINST 1420.1B, ENLISTED TO OFFICER COMMISSIONING PROGRAMS
APPLICATION ADMINISTRATIVE MANUAL.

REF B IS THE MANMED, NAVMED P-117, CHAPTER 15, PHYSICAL EXAMINATIONS AND
STANDARDS FOR ENLISTMENT, COMMISSION, AND SPECIAL DUTY.//

RMKS/1. This NAVADMIN announces selections for the Fiscal Year (FY)
2026 Seaman to Admiral-21 (STA-21) program. STA-21 is the premier
commissioning source providing the highest levels of education and leadership
training for our Sailors. These highly motivated men and women will be among
the leaders of our Navy well into the 21st Century. The selection board
received 393 highly competitive selection packages from well-qualified
Sailors and 79 outstanding Sailors were selected, making the selection this
year a challenging task. Those who applied should be very proud of their
accomplishments and continue their outstanding performance to ensure
professional growth and to increase their chance of selection in a future
board. Congratulations to all of the selectees!

4. Selections are conditional upon the selectee remaining fully eligible in all respects, meeting physical qualifications for commissioning as determined by the Bureau of Medicine and Surgery (BUMED), and assignment by Naval Service Training Command (NSTC) to an approved Naval Reserve Officers' Training Corps (NROTC) affiliated university based upon an official degree plan and acceptance letter from the university. Upon completion of an NSTC approved baccalaureate degree program, selectees will receive appointments as Ensigns, USN.

5. Commanding Officers should take the following actions:

- a. Notify selectees and alternates of their selection and ensure they receive a copy of this message.
- b. Notify NSTC N92 Selection and Placement (N92/STA-21) via e-mail at GRLK_STA21@us.navy.mil no later than 30 December 2025 of any selectee or alternate who does not desire to participate in the program.
- c. Immediately report to NSTC (N92/STA-21) all conditions or circumstances that may disqualify a selectee or alternate from participating in the STA-21 program via e-mail at GRLK_STA21@us.navy.mil.

6. Selectees and alternates should take the following actions:

- a. Complete a physical examination for a training program leading to a commission in the unrestricted line, nurse corps, or civil engineering corps,

as applicable, in accordance with references (a) and (b) at a military treatment facility. Note that many commissioning standards exceed the enlisted standards required to remain on Active Duty.

b. Ensure copies of completed physicals, Report of Medical History (DD2807-1), and Report of Medical Examination (DD2808), including Human Immunodeficiency Virus results from a test taken after 1 January 2025, are submitted no later than 1 December 2025 to:

Commander
Naval Service Training Command
Attn: N92/STA-21
320A Dewey Avenue BLDG 3
ROOM 106

Great Lakes, IL 60088-2845

or via DOD-safe (<https://safe.apps.mil/>). Aviation option selectees/alternates must have flight physicals uploaded directly into Aeromedical Electronic Resource Office by a flight surgeon, and submitted to Naval Aerospace Medical Institute. The selectees and alternates must be certified as qualified or have a waiver recommended by Naval Medicine Operation Training Center. All required physical forms can be downloaded from the STA-21 homepage at <https://www.netc.navy.mil/Commands/Naval-Service-TrainingCommand/STA-21/>.

. Commands should not forward physical forms directly to BUMED.

c. Send acceptance letters from no more than three NROTC host or NROTC cross-town affiliated universities to the NSTC address listed above or via DOD-safe. Application to more than one university is advisable. Selectees will begin the STA-21 program with attendance at the Naval Science Institute (NSI) in one of two classes starting no later than 9 February 2026 or 30 March 2026 for a 6-week period.

d. Send an official degree plan from an NROTC host or NROTC cross-town affiliated university where they have been accepted. Degree plans must cover the time actually attending college. Degree plans of selectees should begin with the summer term 2026. All STA-21 selectees will be required to attend the NSI enroute to their assigned university.

7. Alternates: Each alternate must complete the same actions outlined in paragraph 6 of this message. If a primary selectee declines participation in the program, is determined to be not physically qualified, or otherwise becomes ineligible for continuation in the program prior to executing orders, a qualified alternate will be selected. This notification often comes at the last minute, therefore, alternates who desire participation in the STA-21 program need to be complete with the actions listed above when notified.

8. The deadline for required degree plans and college admission documentation is 1 December 2025. It is in the best interest of each selectee and alternate to submit verification of eligibility criteria as soon as possible to expedite university assignment and release of permanent change of station orders. Selectees will not be ordered to NSI enroute to their assigned NROTC university until all conditions outlined in paragraph 6 have been met.

9. The preferred method of delivery of all documents is through DOD-safe utilizing email GRLK_STA21@us.navy.mil (ensure an email with the encrypted passphrase is also sent to GRLK_STA21@us.navy.mil). Documents can also be mailed to the address above.

10. Points of contact are:

- a. GRLK_STA21@us.navy.mil.
- b. LT Nicholas Minnich, nicholas.l.minnich2.mil@us.navy.mil.
- c. Ms. Twana Williams, twana.l.williams.civ@us.navy.mil.
- d. Mr. Jim Branch, james.r.branch8.civ@us.navy.mil.
- e. Mr. David Burmeister, david.a.burmeister.civ@us.navy.mil.

11. This NAVADMIN will remain in effect until superseded or canceled, whichever occurs first.
